| Group D | 13.4       | Burn Complete                                                                              | 34° 25.703' N | 112° 21.633' W |
| Group E | 53.6       | Burn Complete                                                                              | 34° 25.64' N  | 112° 21.479' W |
| Group F | 8          | Burn Complete                                                                              | 34° 25.684' N | 112° 21.369' W |
| Group G | 28.2       | 3 Machine Piles, mostly clean, hand piles in vacinity                                      | 34° 25.733' N | 112° 21.152' W |
| Group H | 37.6       | 4 Machine Piles, mostly clean, possible pile to pile ignition, hand piles in the vacinity  | 34° 25.777' N | 112° 21.064' W |
| Group I | 28.2       | 3 Machine Piles, mostly clean, possible pile to pile ignition, hand piles in the vacinity  | 34° 25.923' N | 112° 20.787' W |
| Group J | 37.6       | 4 Machine Piles - 3 mostly clean, 1 Dirty, possible pile to pile ignition                  | 34° 25.383' N | 112° 21.776' W |
| Group K | 28.2       | 3 Machine piles - 2 dirty, 1 semi dirty                                                    | 34° 25.194' N | 112° 21.62' W  |
| Group L | 65.8       | 7 slash piles. Mostly in clean                                                             | 34° 25.228' N | 112° 21.443' W |
| Group M | 9.4        | 1 slash pile. mostly clean                                                                 | 34° 25.306' N | 112° 21.305' W |
| Group N | 37.6       | 4 Machine Piles - 2 dirty, 2 mostly clean                                                  | 34° 25.373' N | 112° 21.252' W |
| Group O | 18.8       | 2 Machine Piles - both dirty, hand piles in the vacinity                                   | 34° 25.573' N | 112° 21.214' W |
| Group P | 47         | 5 Machine - mostly clean, hand piles in vacinity                                           | 34° 25.43' N  | 112° 21.019' W |
| Group Q | 28.2       | 3 Machine Piles - mostly clean, hand piles in vacinity                                     | 34° 25.483' N | 112° 20.745' W |
| Group R | 112.8      | 12 Machine Piles - mostly clean, 6 will have pile to pile ignition, hand piles in vacinity | 34° 25.242' N | 112° 20.59' W  |
| Group S | 9.4        | 1 small landing pile, mostly clean, some handpiles near                                    | 34° 24.083' N | 112° 22.147' W |
| Group T | 9.4        | 1 pile, mostly clean, few piles near by                                                    | 34° 23.887' N | 112° 21.936' W |
| Group U | 9.4        | 1 large pile, mostly clean, few piles near by                                              | 34° 23.811' N | 112° 21.867' W |
| Group V | 9.4        | 1 large pile, mostly clean, no hand piles near                                             | 34° 23.764' N | 112° 21.899' W |
| Group W | 9.4        | 1 medium landing,mostly clean, some hand piles near                                        | 34° 23.703' N | 112° 21.85' W  |
| Group X | 9.4        | 3 Machine Piles, mostly clean, possible pile to pile ignition, hand piles in the vacinity  | 34° 25.812' N | 112° 20.966' W |
