9. Medical Emergency Procedures

All major medical incidents will be reported through Montrose Interagency Dispatch Center repeater channels. Declare "MEDICAL EMERGENCY, PLEASE CLEAR THE AIR". Provide dispatch with type of injury, # of personnel injured, and basic vital signs, **Utilize the Medical Incident Report for size up** (DO NOT USE THE PERSON'S NAME). Utilize crew EMT's and first aid to stabilize and comfort the patient(s). Dispatch will then contact the Unit DO, who will notify the agency Representative.

IMPORTANT NOTE: All ground ambulance services, and helicopter air ambulances are dispatched through County Communication Centers. MTC will contact the appropriate County Dispatch to request/coordinate emergency medical services.

- ❖ **VMED28** (RX 155.3400 TX 155.3400 tone 156.7) has been established as the standard Air to Ground Frequency for Air Ambulance/Air MedEvac on wildland fire incidents in the state of Colorado.
- ❖ **VFIRE21** (RX 154.2800 TX 154.2800 tone 156.7) may be an option if Aircraft or ground personnel don't have VMED28 programmed and will need to be coordinated.

Agency aircraft such as helitack crews or smokejumper aircraft may have EMT's onboard and can be utilized for a rapid initial response if available. Mobilize these resources through normal dispatch channels.

Helispots should be a minimum of 100' x 100', and dispatch should be advised of obvious aerial hazards (e.g. power lines). Agency helicopters CAN land at most hospitals with helipads. Please advise dispatch if the patient will be transported by agency helicopter, so arrival can be coordinated with the hospital.

Wildland Firefighter Burn Injury Protocols (Red Book Ch.7 Pg.113): All significant burns should be treated as a medical emergency and after on-site medical response, the patient should be transferred to a higher level of care. In most cases, this will be the nearest emergency department (e.g., hospital emergency room) receive an initial evaluation. After initial medical stabilization, and evaluation are completed, the agency administrator or designee having jurisdiction for the incident and/or firefighter representative (e.g., crew boss, medical unit leader, compensations for injury specialist, etc.) should discuss and coordinate with the attending physician to ensure that the injured firefighter understands the plan of care. **For additional details and guidance, see Red Book Ch. 7 pg.112 cont.**

For "NON-EMERGENCIES" and minor injuries, contact Montrose Dispatch for logistical support. Transportation will be coordinated by dispatch to the appropriate clinic or medical facility.
