

ALBUQUERQUE INTERAGENCY DISPATCH EMERGENCY MEDICAL AND MEDEVAC PLANS

Introduction

The purpose of the NM-ABC Emergency Medical Field Response Plan is to establish protocols and procedures for use during an emergency medical field evacuation. Develop a standard format for Emergency and Medical Response Plans for use in the dispatch center and field units throughout the Albuquerque Zone. A standard and consistent format for critical information, roles and responsibilities, and important local information facilitates agency resource interoperability from Unit to Unit and allows for greater dispatch efficiency and understanding during emergency situations.

The plan includes the following:

- Dispatch Office Procedures
- Medivac, Hospitals
- Phone Lists

Procedures

Medical incidents requiring an emergency medical field evacuation within the Albuquerque Zone will be coordinated through NM-ABC. Field going personnel should utilize the **Medical Plan (ICS 206 WF) as found in the current IRPG pg. 118 & 119** for reporting a medical emergency to dispatch. Additional assistance from NM-ABC will be communicated or documented on the Medical Plan ICS 206.

- Field going personnel **must** make the initial request for medical assistance through NM-ABC via the appropriate radio system for the area. If the radio is not available, the use of human repeaters, cell phones, or satellite phones may be necessary.
- If field going personnel are unable to contact NM-ABC or the Agency Administrative Office or Unit, 911 should be contacted and the FS/State/BLM/USFW/NPS Duty Officer notified.

If an employee requests assistance for either a member of the public or an Agency employee NM-ABC will contact the appropriate 911 center for the county where the incident is occurring. The Sheriff of each county has responsibility for Search and Rescue operations within the county.

Once NM-ABC has made initial contact with the appropriate 911 center and emergency personnel are en route NM-ABC will relinquish the temporary lead role at time of such notification, unless otherwise agreed upon.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha, Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide Incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2nd - 3rd burns more than 4 palm sizes, heat stroke, disoriented.</i>				
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2nd - 3rd burns not more than 1-3 palm sizes.</i>				
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>		
Patient Location			<i>Descriptive Location & Lat. / Long. (WGS84)</i>		
Incident Name			<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>		
Patient Care			<i>Name of Care Provider (Ex: EMT Smith)</i>		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Patient Assessment: See IRPG page 106					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
8. ADDITIONAL INFORMATION: Updates/Changes, etc.					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.					

NM-ABC Office Procedures

1. Dispatcher will begin an **incident in WildCAD** and document all transmissions. **Clear the radio frequency for emergency traffic only. DO NOT TRANSMIT NAMES OVER THE RADIO** Ensure you know who the on-scene IC is. Document all actions and information into WildCAD. (Dispatcher MUST check the NO WILDWEB box in the locations tab of the incident)

2. Ensure you understand the **nature of the injury**:

URGENT – RED Life threatening injury or illness - victim may not survive if the most rapid type of extraction is not obtained. Most likely air transportation and may require extraction.

PRIORITY – YELLOW Serious injury or illness - victim's condition will deteriorate and may move into life threatening if not transported rapidly. This may require evacuation.

ROUTINE – GREEN – Transport can be provided by either ground support or medical personnel. Injury does not require rapid transport.

NOT URGENT – BLACK – non-emergency, victim is deceased or with injuries likely to result in death.

3. **Coordinator or lead will call 911** and provide on scene information (ICS 206) if on-scene IC has requested dispatch to coordinate a medical response.
4. Prompt on-scene IC to check the immediate area of the incident to see if there is and EMT or First Responder available. (if there has not been one identified by the ICS-206.
5. **Notify Center Manager** or Acting immediately.
6. NM-ABC will be **communications liaison between medical responders and the incident** if utilizing NM-ABC radio network.
7. Center manager or acting will notify Line officer.
8. NM-ABC will coordinate additional resources requested through Dispatch.
9. NM-ABC will **document any changes in the on-scene commander or medical personnel** as they occur.
10. **Make notifications** as defined in specific plans

SERIOUS INJURY

1. Date and time	Use MIR (First Page)	
2. Clear radio for emergency traffic if called in via radio. If over the phone get a call back numbers	“All stations clear the radio for emergency traffic”	
3. Location of incident (i.e. Lat/ Long, legal, address, mile marker)		
4. Contact name		
5. Are all people accounted for?	NO 	YES Go to step 6
	Get last known location Try to make contact	
6. Type and number of injuries. What are the circumstances behind the incident? (i.e. traffic accident, shooting)		
7. Notify floor supervisor	Floor supervisor will coordinate and make notifications in step 8 thru 12	
8. Are there any other resource needs? (i.e. medical, aircraft)	YES 	NO Go to step 9
	To order resource for medical call 911	
9. Is law enforcement needed?	YES 	NO Go to step 10
10. Notify center manager		
11. Make notifications off the serious injury phone list.		
12. Ask your supervisor if an investigation team is needed.	YES 	NO Continue to reevaluate
	Order Team	

FATALITY

1. Date and time		
3. Location of incident (i.e. Lat/Long, legal, address, mile marker)		
4. Name of contact		
5. Clear radio for emergency traffic	“All stations clear the radio for emergency traffic”	
6. Are all people accounted for?	NO 	YES Go to step 7
	Get last known location Try to make contact	
7. Are there any other injuries?	YES 	NO Go to step 8
	What are the injuries? Order appropriate medical response i.e. ground ambulance, helicopter	
8. Are there any other resources needs? (i.e. medical, aircraft)	YES 	NO Go to step 9
	Order resource	
9. What are the circumstances behind the incident? (i.e. traffic accident, shooting)		
10. Notify floor supervisor	Floor supervisor will coordinate and make notification in steps 11 thru 15	
11. Notify the coroner via 911		
12. Notify agency law enforcement		
13. Notify center manager		
14. Make notifications off the fatality phone list.		
15. Ask your supervisor if an investigation team is needed.	YES 	NO Continue to reevaluate
	Order Team	

PERSON SEARCH AND RESCUE CHECK LIST

1. Date and time			
2. Name of missing person(s)			
3. General geographical location of incident			
4. Name of contact on incident			
5. Last known location of person(s)	Get name and contact information of person that has this info.		
6. Last known contact time with person(s)	Get name and contact information of person that has this info.		
7. Notify floor supervisor	Have floor supervisor coordinate steps 9 thru 14		
8. Try to contact person via radio, cell phone, sat. phone			
9. Are aircraft needed?	<table border="1"> <tr> <td>YES </td> <td>NO Go to step 10</td> </tr> </table>	YES 	NO Go to step 10
YES 	NO Go to step 10		
	Order thru Dispatch		
10. If so directed, order Search and Rescue thru 911	Most Search and Rescue Teams supervised by the County Sheriff.		
11. Notify center manager			
12. Make notifications off the person search and rescue phone list.			
13. When found are person(s) OK?	<table border="1"> <tr> <td>NO </td> <td>YES Go to step 14</td> </tr> </table>	NO 	YES Go to step 14
NO 	YES Go to step 14		
	Order appropriate medical care. If appropriate go to SERIOUS INJURY or FATALITY check list		
14. Make appropriate notifications (i.e. search and rescue phone list, 911)			

PULL BACK TO SAFETY ZONE, ENTRAPMENT, OR DEPLOYMENT

1. Date and time	
2. Incident name	

3. Clear radio for emergency traffic.	“All stations clear the radio for emergency traffic”	
4. Location of safety zone, entrapment, or deployment site (Lat/Long)		
5. Contact name		
6. Notify floor supervisor	Have floor supervisor coordinate step 9 thru 13	
7. Have shelters been deployed?	YES ↓	NO Go to step 8
	How many deployed? General location of deployment site. (i.e. right flank, left flank, ridge top) Is everyone together?	
8. Are all people accounted for?	NO ↓	YES Go to step 9
	Get last known location and Try to make contact.	
9. Are there any injuries?	YES ↓	NO Go to step 10
	What are the injuries? Order appropriate medical response. (i.e. ground ambulance, helicopter) Order medical thru Dispatch, Dispatch will contact 911.	
10. Are there any other resources needed? (i.e. medical, aircraft)	YES ↓	NO Go to step 11
	Order resource	
11. Notify center manager		
12. Make notifications off the serious injury phone list if needed.		
13. Ask your supervisor if an investigation team is needed.	YES ↓	NO Continue to reevaluate
	Order team	

Hazardous

1. Date and time	
2. Name of contact	
3. Location of incident (Lat/Long)	

4. Has everyone evacuated the area?	NO 	YES Go to step 5
	Evacuate everyone from vicinity of lab (up hill, up wind)	
5. Notify floor supervisor.	Have floor supervisor coordinate notifications and ordering	
6. Was anyone exposed?	YES 	NO Go to step 7
	Do they need medical care? If yes, order appropriate medical response (i.e. ground ambulance, helicopter)	
7. Are all people accounted for?	NO 	YES Go to step 8
	Get last known location Try to make contact	
8. Are there any other people in the area?	YES 	NO Go to step 9
	Leave the area	
9. Is the area secure?	NO	YES Go to step 10
	Secure area do not let anyone in, observe from a distance	
10. Contact law enforcement (Agency and local sheriff via 911)		
11. Are there any other resources needed? (i.e. medical, aircraft)	YES  Order Resource	NO Go to step 12
12. Notify center manager		

COVID-19

1. Date and time	
2. Incident / Unit where possible exposer took place.	
3. Contact Name	
4. Number of possible people exposed	
5. Determine the closest COVID-19 test site. (See Pages Below)	
6. Determine course of action (Testing, Transportation, Quarantine)	
6b. Determine Logistical Support Needed	
7. Notify Floor Supervisor	Floor supervisor will coordinate and make notifications in step 8, 9
8. Notify unit line officer	
9. Notify all out of zone dispatch centers of their resources possible exposer.	Update Resource Orders with new information from https://coronavirus.jhu.edu/us-map

COVID-19 Test Sites within ABQ Zone

<p><u>Sandoval Public Health Office</u> 1500 Idalia Building B Bernalillo, NM 87004 505-867-2291 x1707</p>	<p>Call For Appointment, Drive Thru Monday 8:00 AM - 5:00 PM Tuesday 8:00 AM - 5:00 PM Wednesday 8:00 AM - 5:00 PM Thursday 8:00 AM - 5:00 PM Friday 8:00 AM - 5:00 PM Contact Info: 505-867-2291 extension 1707 Further Info: Please call to schedule appointment.</p>

REQUEST INFORMATION - HELICOPTER AMBULANCE

A. Injury Information:

1. Total personnel involved in mishap _____
2. Time of mishap _____
3. Type or extent of injuries (vitals, other medical personnel on scene, weight of patient):

B. Mishap Site Information:

1. Unit/Agency: _____
2. Contact telephone number _____
3. Radio frequency to contact unit/agency: VHF – AM _____ VHF- FM _____
4. Location of mishap:
 - a. Township _____ Range _____ Section _____ 1/4
Section _____
 - b. Latitude _____
Longitude _____
 - c. _____ Nautical miles at _____ Degrees from _____ VOR
 - d. Prominent landmark: Distance _____ Direction _____
5. Site Contact: _____
Radio frequency at mishap site:
Primary: VHF- AM _____, VHF- FM _____
Secondary: VHF- AM _____, VHF- FM _____
6. Other known aircraft in the area (call signs): _____
Air-to-Air Frequency:
Primary: VHF- AM _____, VHF- FM _____
Secondary: VHF- AM _____, VHF- FM _____
7. Special information, flight hazards, MOAs, MTRs, etc: _____

8. Landing site(s) and conditions (is it completed or when will it be completed):

9. Proximity of landing site to mishap site: _____
10. Nearest available AV Gas/Jet A fuel: _____
11. Conditions at the mishap site:
Wind direction _____ Wind velocity _____
Ceiling and visibility _____ Obstructions to
visibility _____
Temperature _____ Degrees (F or C) _____ Elevation _____
_____ Sunrise _____ Sunset _____ Description of
Terrain _____

Note: EMS helicopters do not usually carry extrication equipment nor are the EMS personnel always trained in these procedures: Ensure that if is capability is needed, it is immediately ordered from a locally known source (the local sheriff is a logical contact point).
