

Tanana Area Fires AK-TAD-000898 Spicer Creek Operations Map July 28, 2015 1:24000

Spicer Fire Management Action Points (MAP's) 7-25-2015

These Management Action Points are established in conjunction with the Tanana Village Structure Protection Plan established June 23, 2015, and modified 7/12/2015 and 7/25/15.

When fire behavior becomes extreme and threatens structures in the Village of Tanana, along Site Rd and the Mission Ridge Rd, consider and evaluate tactical actions needed to prevent property loss and provide public safety.

Line Operations will contact Planning Operations and IC immediately when MAP's have been reached and any actions will come down through the chain of command. IC or designated representative will notify Village Public Safety Officer of specific management action points that have been reached so VPSO can advise Tanana residents of our actions for their appropriate action. IC/ OPS2 will advise PIO2 & LOFR of actions, so public service announcements can be released.

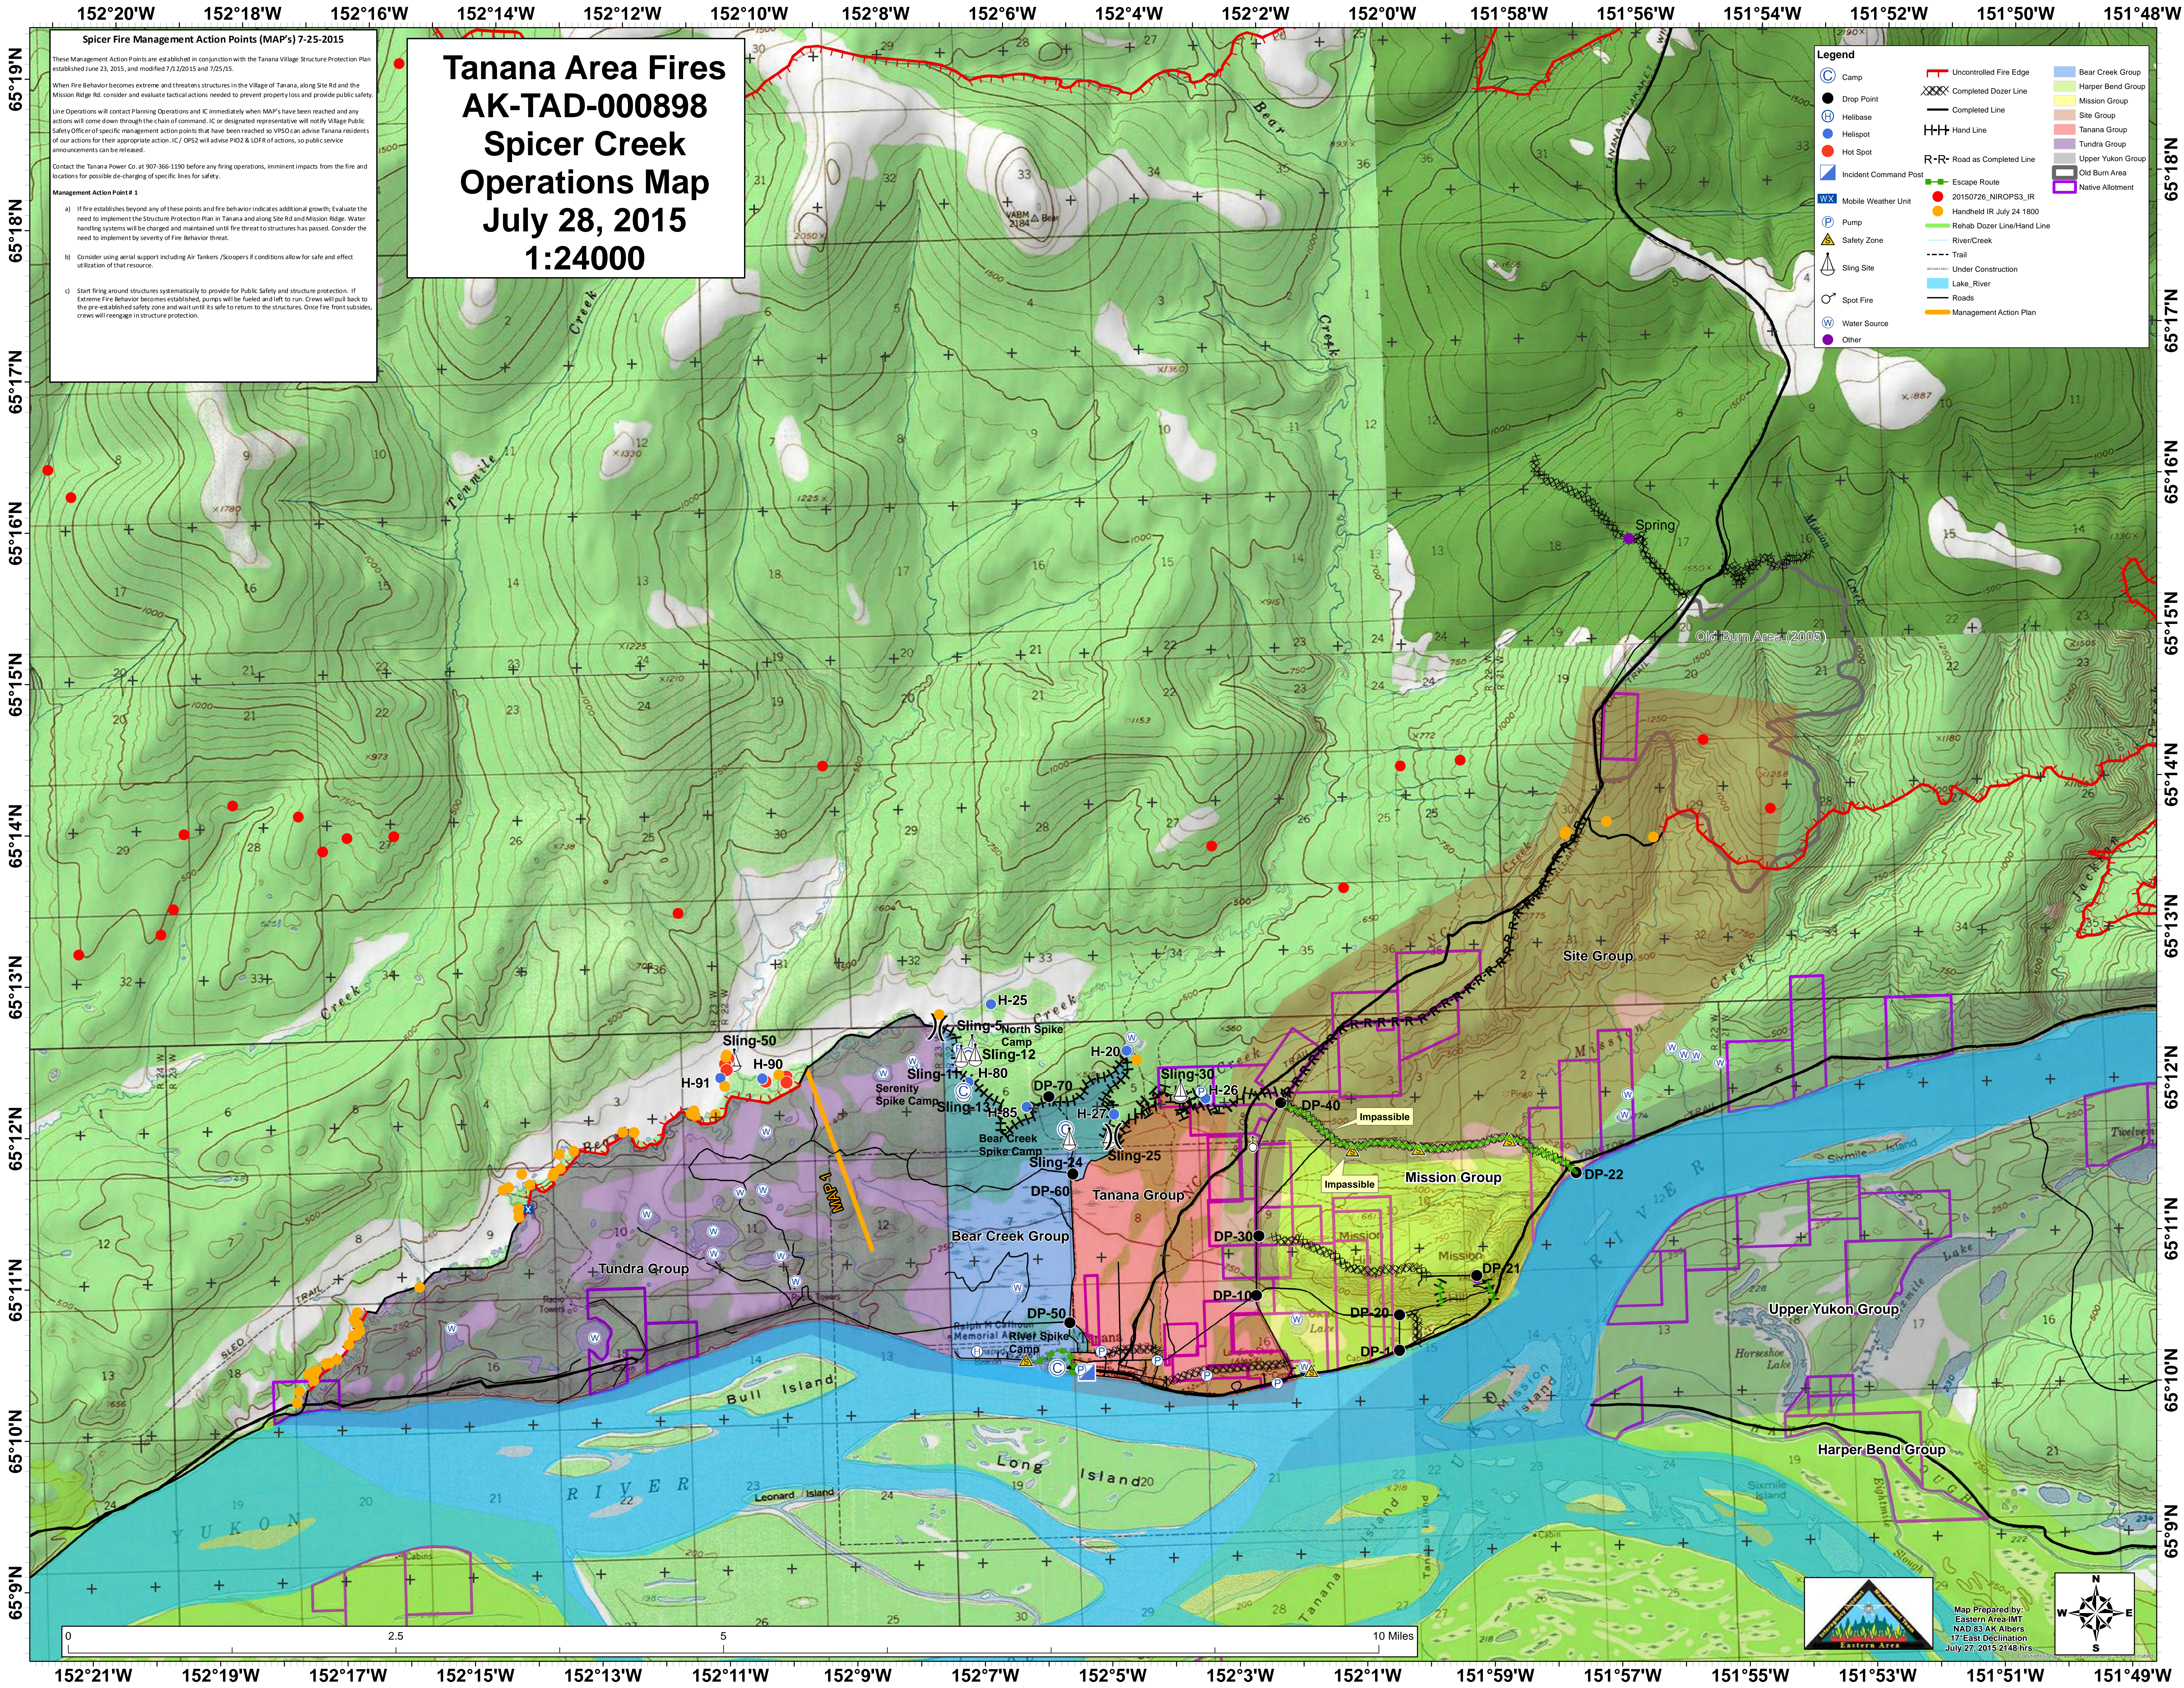

Contact the Tanana Power Co. at 907-366-1190 before any fire operations, imminent impacts from the fire and locations for possible de-charging of specific lines for safety.

Management Action Point # 1

- If fire establishes beyond any of these points and fire behavior indicates additional growth; Evaluate the need to implement the Structure Protection Plan in Tanana and along Site Rd and Mission Ridge. Water handling systems will be charged and maintained until fire threat to structures has passed. Consider the need to implement by severity of Fire Behavior threat.
- Consider using aerial support including Air Tankers /Scoopers if conditions allow for safe and effect utilization of that resource.
- Start firing around structures systematically to provide for Public Safety and structure protection. If Extreme Fire Behavior becomes established, pumps will be fueled and left to run. Crews will pull back to the pre-established safety zone and wait until it's safe to return to the structures. Once fire front subsides, crews will reengage in structure protection.

Legend

Uncontrolled Fire Edge	Bear Creek Group
Camp	Harper Bend Group
Drop Point	Mission Group
Helibase	Site Group
Helispot	Tanana Group
Hot Spot	Tundra Group
Incident Command Post	Upper Yukon Group
Mobile Weather Unit	Old Burn Area
Pump	Native Allotment
Safety Zone	Escape Route
Sling Site	20150726_NIROPS3_IR
Spot Fire	Handheld IR July 24 1800
Water Source	Rehab Dozer Line/Hand Line
Other	River/Creek
Completed Dozer Line	Trail
Completed Line	Under Construction
Hand Line	Lake, River
Road as Completed Line	Roads
Road as Under Construction	Management Action Plan
