## Objectives

1. Ensure the safety of fire personnel and public entities for the duration of the incident to protect our most highly valued resources.
2. Provide for protection of values at risk while allowing fire to play its natural role in the ecosystem. Base all decisions on sound risk management and analytics to make informed operational decisions.
3. Provide timely communication to cooperators, agencies and public entities.
4. Utilize the Dalton highway to keep fire to the west to reduce fire size and duration.
