SAFETY MESSAGE

Planning for Medical Emergencies

- Prior to each operational period be able to answer these 3 questions:
 - 1. What are you going to do if someone gets hurt?**
 - Where is your closest medical personnel and extraction method?
 - 2. How will we get them out of here?**
 - Can you get the injured to a road or helispot, what will it take to do that?
 - 3. How long will it take to get them to a hospital?**
 - Where is the closest hospital, air or ground transport, what conditions can change or affect the transportation timeline?
- Ensure you know which dispatch center you will working with for any medical incident.
- Use the Medical Incident Report (pg 118 IRPG) when reporting any medical incidents.

MAJOR HAZARDS

Reliance on Aviation Assets Long Drive Times Remote Camps	Long Transport Times Traffic on Dalton Highway Communication	Lightning/ New Fire Starts Wildlife Limited Resources
--	---	--

Be sure all elements of your safety plan are in place prior to engagement

Leaders Intent

All leaders have the responsibility to provide complete briefings and ensure that their subordinates have a clear understanding of their intent for the assignment:

Task = What is to be done

Purpose = Why it is to be done

End State = How it should look when done

Planning for Safety

Have multiple plans and make them known

P – Primary Plan (Offense)

Focused on firefighter safety and mission objectives

A – Alternate Plan (Offense)

A fall back plan that closely supports the primary

C- Contingency Plan (Defense)

Entirely focused on firefighter safety

E – Emergency Plan (Defense)

Entirely focused on individual firefighter survival
