## INCIDENT Weather Forecast

**FORECAST NO:** 4

**PREDICTION FOR:** Monday

**SHIFT DATE:** 07/04/22

**FORECAST ISSUED:** 07/03/22 at 1900 AKDT

**NAME OF FIRE:** Bean Complex

**UNIT:** Alaska Fire Service – Tanana Zone

**SIGNED:** Shawn Palmquist - Incident Meteorologist

**\*\*\*Red Flag Warning in effect until Midnight Tonight\*\*\***

### WEATHER DISCUSSION:

Another heads up day, as moisture moving in from the south brings continued chances for thunderstorms. Temperatures will be a few degrees cooler, with humidity values slightly higher than yesterday. The chance for a wetting rain remains relatively low, and thunderstorms will be capable of gusty and erratic winds. A Red Flag Warning for abundant lightning on dry fuels is in effect through midnight tonight. A few showers or thunderstorms could linger overnight, with lows mainly in the 50s, good RH recoveries and light winds prevailing. Tuesday will be a couple degrees cooler, humidity a little higher, with the potential for a few showers or thunderstorms.

### Today:

**WEATHER:** Partly cloudy in the morning with increasing clouds in the afternoon. Isolated showers and thunderstorms are possible in the morning and early afternoon, with scattered showers and thunderstorms after 1600 AKDT. Gusty and erratic winds are possible with the thunderstorms.

**TEMPERATURES:** Highs 73 to 79. Down 1 to 3 degrees.

**HUMIDITY:** Minimum 36 to 43 %. Up 3 to 5 %.

#### **20 FT WINDS:**

**RIDGETOP** - Light and variable in the morning becoming southwesterly 4 to 8 mph in the afternoon.

**SLOPE/VALLEY** - Light and variable in the morning becoming southwest 3 to 7 mph in the afternoon. Gusty and erratic winds possible near thunderstorms.

**FWI** (From Manley Hot Springs): 30 (Very high)

**CHANCE OF WETTING RAIN (> .10):** 15%

**LAL:** 4

**STABILITY/INVERSION:** Weak to Moderate inversion breaking around 0900-1000 AKDT.

### OUTLOOK FOR TONIGHT:

Mostly cloudy. Scattered showers and thunderstorms in the evening with isolated showers and thunderstorms possible overnight. Low temperatures 50 to 58 degrees. RH recoveries 75 to 90 %, highest along the valley bottoms. Southwesterly 3 to 7 mph in the evening becoming light and variable overnight. Inversion begins to form 2200-2300 AKDT.

### OUTLOOK FOR TUESDAY:

Mostly cloudy with isolated showers and thunderstorms. High temperatures 71 to 77 degrees. RH minimums 38 to 45 %. Southwest to west winds 3 to 8 mph.

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 6	<b>TYPE OF FIRE:</b> Wildland
<b>FIRE NAME:</b> Bean Complex	<b>OPERATIONAL PERIODS:</b> July 4, 2022 ★
<b>DATE ISSUED:</b> July 3, 2022	<b>TIME ISSUED:</b> 2000
<b>UNITS:</b> Alaska Fire Service – Tanana Zone	<b>FBAN:</b> Brett Smith

**WEATHER SUMMARY:** See Weather Forecast in IAP

\*\*\*Slight cooling, possible thunderstorm development again today\*\*\*

### FUELS:

**GENERAL:** Primary timber fuel types are black and/or white spruce, mixedwood, and hardwoods. Fuels in recently burned areas (3 to 20 years) are likely to consist of grasses, brush, and spruce reprod. Fuels are extremely dry with local fire danger indices at or near seasonal miximums. All fuels are available to burn at varying intensity and rates of spread, including dense hardwood stands that have previously been considered as barriers. A fuels and fire behavior advisory for *exceptional landscape flammability* has been issued.

### GENERAL/Potential:

**TODAY:** Throughout the fire area, the potential for active to periodic extreme fire behavior continues to exist. Surface smoke has been dense enough to shade surface fuels, maintain elevated relative humidity, and moderate observed fire behavior. That trend is expected to continue most of today, however, resources should remain vigilant as smoke density and thunderstorm development are highly variable and any changes can quickly escalate local fire behavior. As duff continues to dry, fires are burning deeper into duff layers, watch for ash pits to possibly form.

Local Fire Danger indices are at *daily and seasonal maximums* and are trending level (little change).

<u>Max Spotting Distance</u> 0.1 to 0.25 mile <u>Probability of Ignition</u> 50-70%	<u>Fuel Type/Model</u>	<u>Maximum Rate of Spread</u>	<u>Maximum Flame Length</u>
 <b>Torching will be common, periodic crown runs probable</b>	Boreal Spruce	Head 0.2 to 0.4 mi/hr Flank 10-15 ft/min	Head 15-20 ft Flank 10-15 ft
	Mixedwood (Mixed Hardwoods/Conifers)	Head 15-20 ft/min Flank 5-10 ft/min	Head 10-15 ft Flank 6-10 ft
	Standing Grass (Recent burned areas)	Head 15-25 ft/min Flank 5-10 ft/min	Head 5-10 ft Flank 2-5 ft

### SPECIFIC:

**310:** Fuels are mixed along rivers and observed fire behavior will likely be mostly backing with frequent torching. Spruce will torch easily and any torching near the Tolovana River is likely to loft embers increasing spotting potential near potential containment features. Fuels are burning intensely and deeply, even in live fuels.

**315:** Expect continued primary spread direction to the south and east through available fuels. Backing and flanking are likely around areas of heat with frequent single tree and group torching. Periodic crown runs are possible in the afternoon and evening, especially if smoke lessens or thunderstorms develop over the area.

**312:** Available fuels will likely encourage continued spread around and to the south of Bitzshitini Mountains and south along the Cosna River. Fuel type and continuity are more variable east and west of the fire resulting in varying spread rates and directions.

**343:** Fire is currently located entirely within 2018 burned area containing widely varying fuel type and condition. Active fire behavior in all directions is probable with moderate spread potential.

**327:** No new heat noted. Minimal fire behavior with interior smoldering.

### AIR OPERATIONS:

Smoke is likely to impact aviation travel over the fire area again today. Watch for gusty outflow winds from thunderstorms.

### SAFETY:

Watch out situation 15: Wind increases and/or changes direction – can be a common occurrence near thunderstorms. Review safety and contingency plans for weather related hazards and monitor the fire environment for sudden changes.

Hayes +11 (SAT Phone # 8816-2248-7596)

#### #312

McCall +3 (SAT Phone # 8816-224-90885)

Fischer +3 (SAT Phone # 8816-514-05630)

### Division Group Supervisor SAT Phones

Gubser SAT Phone # 8816-514-02344

Neil SAT Phone # 8816-514-02467

Foss SAT Phone # 8816-514-02334

Merritt SAT Phone # 8816-514-00503

Spanarella SAT Phone # 8816-514-02162

### Instructions for placing calls to SAT Phones:

You have the option to give the caller the 2-stage dialing access number. When calls are placed to the satellite phone via the access number, you as the subscriber, are billed \$1.60/incoming minute. The caller is charged a regular long distance call to Arizona. The 2-stage access number is **1-480-768-2500**. The caller will be prompted to enter your 12-digit satellite phone number, then the call will be placed to your Iridium satellite phone.

## **SAFETY MESSAGE-** Bean Complex - July 3 and 4, 2022 - Day shift

### **Bear Safety for Firefighters and Bears** - summarized from the Handy Dandy Guide pgs. 26-28.

#### **Rule #1 – A fed bear is a dead bear. If a bear physically obtains food from humans, it will be back.**

Bears are highly food driven. They will sample- and potentially consume- anything that smells like it may be food, such as: Motor oil, bar oil, batteries, sealed MREs, and any actual food or garbage that has been in contact with food.

**Sanitation-**Keeping a clean camp is the best mitigation for keeping bears away. Do not eat food or keep food or wrappers in your tent. Soaps, shampoo, toothpaste, deodorant and other odorous items may attract bears. Back haul trash early and often.

**Avoidance** – If walking alone, make noise, and scan a noisy/ busy channel on your radio to broadcast voice sounds. Place camps in areas that are visible and away from game trails. Avoid streams that have large numbers of salmon running. Many crews will choose to leave a camp boss in place while the crew goes out to the line. This provides area oversight, assures cleanliness, and is a good bear deterrent. This practice is endorsed by IMTNW-7.

**Encounters / response--** Never run from a bear! Notify all personnel working out of your camp, and Manley Safety officer. Try hazing, but it typically has short-lived results: Yelling, starting a chainsaw, lighting a fusee. Firearm hazing (warning shots) is **not** permitted. Portable electrified fences are being tested this season by AFS and may be an option. Firearms – You may order a shotgun kit if qualified. If not, order a qualified shooter. Any action resulting in the death of a bear must have a written report submitted to ADFG within 15 days. Notify Manley safety or ICP safety immediately.

### **Boat Safety-** summarized from the Handy Dandy Guide pgs. 31-32

Alaska has one of the highest boating fatality rates in the nation. **Do not underestimate Alaska's cold swift rivers!**

All motorized boats must be registered and have a documented inspection, as per the Handy Dandy. All personnel **must wear** Coast Guard approved PFD's, remain seated, remove packs, sheath tools. Never overload a boat. Follow manufacturer's capacity tag. Secure all cargo so it will not shift. Paddle, or other alternate propulsion, first aid kit, fire ext. and a radio are required. Sound producing device required, whistle or air horn. (+ throwable life ring for boats over 16 feet).

Discuss mission, time of pick up, crew name, overhead names, drop point, boat operator's name ; and communicate this to the Boat Group Supervisor or Bean Communications as per established procedures at Manley. Give a safety briefing to all passengers. Manifest passengers- Can use helicopter manifest style.

Bean Complex Safety Officers: Kris Croddy (Manley) and Matt Broyles (ICP).

# Finance Message 7/2/22

Finance Phone Number: 530-375-7205

➤ Once CTR's and Shift Tickets have been signed, email them as a **PDF** attachment to: **[2022.Bean.Finance@firenet.gov](mailto:2022.Bean.Finance@firenet.gov)**

- The subject line should include your Resource Order(RO)# and last name or company name.
- When saving your CTR or Shift Ticket, please use the following naming convention: CTR\_RO#\_YYMMDD or ST\_RO#\_YYMMDD

**Example: CTR\_C3\_220628**

- For multiple days on one CTR or Shift Ticket, please use this format: CTR\_RO#\_YYMMDD\_DD

**Example: ST\_E12\_220629\_30**

**If you are unable to email documents due to connectivity issues, hard copies will be accepted. There will be a runner from Pipeline ICP to Manley FOB daily and documents may be transported that way. As a last resort, CTR/Shift Tickets can be turned in at the end of the assignment.**

**All CTR/Shift Ticket header information should match the incident on the RO. However, the team is required to track costs for each individual fire, so please indicate which incident you worked for each shift in the remarks section.**

## MEDICAL EVACUATION AND AIRCRAFT MISHAP INFORMATION

### Medical Incident Requiring Extraction from Fireline and Reporting Procedures

In the event of a medical incident requiring extraction from the fireline the procedure will be:

1. On- scene Incident Commander (IC) will notify Bean Communications and provide the information on the **8 Line** form (last page of the IAP, or IRPG pgs 118-119) preferably in the order listed. On-scene IC will request resources needed for the extraction.
2. Bean Communications will notify Command and General Staff (C&G) present in Manley via cell phone text list.
3. Field Operations (in coordination with Manley medical personnel and Manley air operations) will direct/assign/coordinate incident resources to perform the patient retrieval and either:
  - A. Deliver the patient(s) to Manley Airstrip for transfer to fixed wing lifeflight.
  - B. Deliver the patient(s) to Manley Airstrip for transfer to Fairbanks by ground transport.
  - C. Fly patient(s) directly, by rotor, from the line to Fairbanks Memorial Hospital.

**Response time to Manley after notifying Upper Yukon Tanana Dispatch Center - 75-95 minutes.**

Safety Officer in Manley will call Upper Yukon -Tanana Dispatch Center ( 1 800 237- 3652, and ask for the floor coordinator) and notify them that:

1. An accident/injury/illness has occurred.
2. An extraction is under way to get patient(s) to Manley Airstrip.
3. A lifeflight fixed wing is/ is not requested to respond to Manley airstrip.

Safety Officer in Manley will notify IC, or Deputy IC, or IC(t) at earliest opportunity without delaying care or transport of the patient(s). After hours/off shift notify Ted Hass @ 541-646-1318.

### Aircraft Mishap Response and Reporting Procedures

Personnel observing mishap will report it to supervisor and /or Bean communications immediately, attempt to access the scene, and give size up and victim status report when on scene.

**On-scene personnel:** Once report and size up are delivered, priority for **on-scene personnel**, in priority order, is:

1. As possible, limit the number of personnel exposed to the mishap scene to only those necessary to accomplish tasks listed below.
2. Keep responders and uninjured survivors from becoming injured.
3. Locate, extricate if necessary, and treat injured survivors.
4. Do not move bodies of deceased individuals unless necessary to rescue or treat survivors See IRPG pg. 115 for fatality procedures).
5. Report situation and 8 Line information (last page of IAP or pages 118-119 in IRPG) on all victims- living and deceased- to Bean Communications.

## MEDICAL EVACUATION AND AIRCRAFT MISHAP INFORMATION

6. Attempt to control any natural fuels fire started by mishap.
7. Secure mishap scene for investigation purposes.
8. Identify and gather witnesses. Have them individually write statements about what they saw and heard regarding the mishap.
9. Continue to work towards meeting incident objectives -if possible- with resources uninvolved with the mishap or response to it.

**Bean Communications:** Once initial report and initial size up has been received Bean communications will, in order:

1. Attempt to Notify C and G at Manley.
2. Place call to UYT dispatch ( 1 800 237- 3652, and ask for the floor coordinator) and relay that a mishap has occurred, and info. from initial size up. UYT dispatch, not Bean comm. will call national mishap hotline.

**Team Safety Officer at Manley:** Once initial report and initial size up has been received:

1. Notify IC, or Deputy IC, or IC (t) or ICP Safety 541-591-6151.
2. Work with field operations and air operations at Manley to coordinate rescue/response.

### Approximate patient transport times from Bean Complex incidents

**Medical Incident Report**

In the event of a medical emergency Contact the Communications Unit and utilize the Medical Incident Report (found on page 118 in the IRPG or the last page of the IAP) to provide information to communications.

At ICP use 911 for medical emergencies.

# MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

**Use the following items to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2<sup>o</sup> - 3<sup>o</sup> burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2<sup>o</sup> - 3<sup>o</sup> burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT:** Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY: Considerations:** If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

**8. ADDITIONAL INFORMATION:** Updates/Changes, etc.

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
