### Objectives:

- Firefighter and public safety are the highest priority. Manage the risk to firefighters and the public by utilizing risk-based decisions where the probability of achieving objectives is high.
- Provide point protection for all values potentially affected by the fire.
- Minimize impacts from fire or smoke to traffic flow along the Alaska Highway.
- Keep agency Administrators apprised of current situation and cost estimates.
- Maintain positive working relationships with the community, state and federal agencies, private industry, elected officials, and other stakeholders.
- Provide timely communications and accurate information to all affected and interested parties.
- Backhaul all excess supplies and equipment.
