Medical: Notify line supervisor whether medevac or non-emergency medical transport. Line supervisor will notify ICP. Dispatch will be notified of all medicals. All **Yellow** and **Red** Medicals will be transmitted over Command. Primary life-flight will be out of Central Airstrip. Secondary plan is to activate EMS out of Steese F.D. by calling 911. Patient will be transported via ground to Steese Highway milepost 80, where care will be transferred to Steese F.D.

Safety: The human finds freedom from mosquitoes when they crawl into their tent. The mosquito that follows the human into the tent loses its freedom and strives to get it back. If freedom is important to a mosquito, how much more important is it for the human? Be safe to enjoy good health so you can enjoy your freedom.

Notes: Call in orders to logistics by 1300 for next day delivery. Send in all CTRs and shift tickets through line supervisors.

IAP // Ptarmigan CPLX

(IT IS NOW JULY)

Date07/01/25

Objectives

1. Provide for firefighter and public safety.
2. Protect all structures and allotments from Central to Circle and Circle Hotsprings.
3. Keep Fire 243 (Turtle) E of Birch Creek, S of Steese Hwy, and W of the Yukon.
4. Secure Fire 265 (Alligator) with hotspotting and direct line construction.
5. Secure N and S flanks of Fire 256 (Birch) with hotspotting and direct line construction.
5. Suppress Fire 214 (Deadwood) 100%.
6. Develop rehab plan for Fire 214 (Deadwood).
