P5 R507 (0510)

WEDNESDAY

Fire Information

OPERATIONAL PERIOD

8/28/2024 0700
 to
8/28/2024 1900

IAP

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Boise Fire</p>	2. Operational Period: Date From: 8/28/2024 Date To: 8/28/2024 Time From: 0700 Time To: 1900																				
3. Objective(s): <p>Strategic Direction:</p> <ul style="list-style-type: none"> - The Boise fire is managed with a full suppression strategy. Firefighting resources will follow risk-based decision making and implement tactics that offer the highest probability of success to achieve the strategy of suppressing the fire and restoring suppression related damages while protecting local values. Values at risk include the safety of the public and firefighters; the communities and outlying areas near Orleans and Forks of Salmon; water, transportation, natural and cultural resources. <p>Control Objectives:</p> <ul style="list-style-type: none"> - Keep fire south of 10N13/25 Rd (Orleans Lookout Road / Antenna Ridge) continuing to Orleans Mountain Ridge to Nordhiemer. - Keep fire west of the Salmon River. - Keep fire north of the North Folk Red Cap Creek in the Trinity Alps Wilderness. - Keep fire east of the Klamath River. <p>Management Objectives</p> <ul style="list-style-type: none"> - Prior to engagement, ensure sound risk management principles are in place to provide for firefighter and public safety. - Implement fire suppression activities in coordination with Incident Resource Advisors. - Minimize impacts to communities, cultural resources, natural resources including old growth forest, critical power, communication and other infrastructure, private property inholdings, Tribal Lands, threatened, endangered species and watersheds.

Fire Weather Forecast

WEDNESDAY AUG 28, 2024

FORECAST NO: 15
SHIFT DATE: Wednesday/Aug 28, 2024
FORECAST ISSUED: 2230, Aug 27, 2024

NAME OF FIRE: Boise
UNIT: SRF
Incident Meteorologist: Mike Kistner

Mike Kistner

DISCUSSION: High pressure remains over the region today and through the remainder of the week and into the weekend. Warm and dry conditions are expected with east-northeast winds this morning becoming light westerly winds along exposed ridges this afternoon. However, winds will be mostly terrain driven with downslope/downvalley in the morning and becoming upslope/upvalley in the afternoon, with light and variable winds in sheltered drainages and under the forest canopy. A moderate inversion is expected each night this week and it will continue mixing out around noon, but due to the lack of smoke and moisture, there are no visibility restrictions expected that would affect air ops.

WEDNESDAY:

- **WEATHER:** Sunny
- **WIND (20 FT):** Ridges and exposed drainages: east-northeast 8-10 in the morning, becoming westerly at 8-10 mph after 1100. Otherwise, terrain driven downslope / downvalley in the morning and upslope / up-valley during the afternoon. Light and variable winds in sheltered drainages (Granite Creek) and under the shelter of the forest canopy.
- **MAX TEMPERATURES:** 85-90 lower slopes and drainages, 78-83 mid-slope.
- **MIN RH:** 25% in exposed areas and 35-40% under the canopy.
- **MAX RH:** 30 - 35% above the inversion (>3000 feet) and 70-80% below
- **INVERSION:** Moderate mid-slope...mixing out around 1100.
- **Days since wetting rain:** 5

THURSDAY:

- **WEATHER:** Sunny
- **WIND (20 FT):** Ridges and exposed drainages: westerly at 8-10 mph after 1200. Otherwise, terrain driven downslope / downvalley in the morning and upslope / up-valley during the afternoon. Light and variable winds in sheltered drainages (Granite Creek) and under the shelter of the forest canopy.
- **MAX TEMPERATURES:** 86-92 lower slopes and drainages, 79-85 mid-slope.
- **MIN RH:** 23% in exposed areas and 35-40% under the canopy.
- **MAX RH:** 45-50% above the inversion (>3000 feet) and 75-85% below
- **INVERSION:** Moderate mid-slope...mixing out around 1100.
- **Days since wetting rain:** 6

Extended outlook: Friday through Sunday: High pressure will remain overhead on Friday and Saturday with warm and dry conditions continuing. Winds will be mostly orographic with downslope/downvalley at night and in the morning, becoming upslope/upvalley late morning through the afternoon. Ridges and exposed west to east aligned drainages will have west winds at 8 - 10 mph with occasional gusts up to 15 mph. Inversion will set up overnight each night and break around noon, however the impacts will be minimal to aviation due to the lack of smoke and fog. A lot of uncertainty in the forecast to end the weekend. There is potential for increased moisture on Sunday, with a slight chance for light rain or drizzle, however a wetting rain is unlikely.

If you have observations, please email to michael.kistner@noaa.gov or text to (240) 205-4030

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 15	TYPE OF FIRE: Wildfire
FIRE NAME: Boise Fire	OPERATIONAL PERIOD: August 28, 2024
DATE ISSUED: August 27, 2024	TIME ISSUED: 1900 hours.
UNIT: CA-SRF-000729	SIGNED: Dan Felix FBAN 

INPUTS

**** Refer to the Fire Weather Forecast for details ****

WEATHER SUMMARY

- Sunny.
- Max temps: 85-90° lower slopes and drainages, 78-83° mid-slope.
- Min RH: 25% in exposed areas and 35-40% under the canopy.
- Winds-slope/valley: East-northeast 8-10 in the morning, becoming westerly at 8-10 mph after 1100. Otherwise, terrain driven downslope / downvalley in the morning and upslope / up-valley.

FIRE BEHAVIOR

GENERAL:

Fire behavior: Conditions will not support spread until fuels have a chance to dry out. Stay tuned.

Fuels: Live fuel moistures, 1000 hr. and other dead fuels were at or near critical levels before the rain. Currently those indices are well below average, but will recover. Fuels include timber with litter and understory, brush, and some areas of standing snags and blow down.

Topography: The fire is burning in steep, rugged terrain. The fire is burning at elevations between 1600-5500' and slopes between 40-over 100%. All aspects represented in the fire area.

SPECIFIC FIRE BEHAVIOR:

As drying continues you may start to see more smoke from the snags, stump holes, and heavy fuels that will continue to hold heat. Surface fuels will not support spread yet, but will continue to dry out in the coming days. We will continue to monitor conditions and utilize modeling to determine the rate of recovery. Any field observations of changing conditions are appreciated.

DIV A/E/Y: Control lines are secure. No spread or significant activity is expected.

DIV L: The areas of concern here in the coming days are the slop over and the green island near the line. Fuel conditions, and the fact that they are accessible mitigate this concern but it is something to keep in mind.

DIV R: The inaccessible area in Granite Creek will need close monitoring as the fuels continue to dry. However, it is located in a wet drainage with oodles of green riparian vegetation that will take longer to dry out. Sheltering from general winds and decent RH recovery are on our side so these concerns are not immediate.

DIV T&U: The unburned area northeast of 10N23 has some heat signatures showing from NIROPS flights that may become a concern, but the fuels in this pocket will not support spread until indices recover. Roll out of heavy fuels will remain a concern but is not expected to cause any significant spread at this time.

AIR OPERATIONS

No limitations are anticipated.

SAFETY

The fire continues to sleep, and will likely not awaken for a while, but the potential remains. Remain focused on the task at hand to keep the upper hand while it is down. In the long run that will keep everyone safer.

BOISE FIRE SAFETY MESSAGE

Communications

Period: 8/28/24

Shift: 0700-1900

Escape Routes

Safety Zones

FOCUS YOUR ATTENTION ON

- **Driving safely:** Getting to and from the work assignment may be one of the more hazardous activities on this incident.
- **Identifying Hazards:** Size up the work area to identify all potential and existing hazards associated with the environment and assignment.
- **Mitigate Hazards:** Remove hazards or avoid them. Utilize hazard control measures to reduce risk.
- **Use of PPE:** Please ensure the appropriate PPE is in use to protect from the hazards found in your work area. This is a must for all of us.

Planning for Medical Emergencies

Ask and be able to answer these 4 questions

1. What are we going to do if someone gets hurt?
2. How will we get them out of here?
3. How long will it take to get them to a hospital?
4. Do you know how to use the 8 line in the 206 medical incident report?

FINANCE MESSAGE

2024.boise.finance@firenet.gov

CTRs, shift tickets and supporting documents can be e-mailed to the address above. Hard copy CTRs and shift tickets will be collected daily at the other camps and brought to the ICP for posting. Please submit documents either electronically (preferred) or hard copy. Do not submit duplicates.

Virtual Demob is available. Please make sure you to include your e-mail address on at least your final CTR or Shift Ticket. For contractors your travel time will be calculated based on the terms of your agreement.

Approving Officials for CTRs & shift tickets please write legibly and print your name under your signature.

Contract equipment please note your request number on the top right of the shift ticket and note any down time in the remarks block. Make sure to record mileage for transports even if it's zero. If you have been here for 14 days or more and would like an interim payment please send an e-mail to the address above.

Contract crews – Crew Boss time starts at briefing. Contract crew member times start ½ hour later. Meal breaks need to be shown and time stops at arrival back at ICP, base or spike camp.

Fire Replacement - For replacement of non-cache items the requesting resource will take a completed OF-213 and OF-289 to Finance for review. Requests for replacement of government-issued non-standard items brought from the home unit must be accompanied by a current copy of a signed JHA or RA (IIBM Chapter 30 Page 30-5). Based on the documentation provided a determination for replacement will be made by the Finance Section Chief, IC, or INBA. Damaged items will be surrendered to the Supply Unit. Replacement for normal wear and tear is through home unit project funds. Please do not wait until demob to begin this process.

Local Government Resources – Please check in at the OES Support Unit.

The following resources need to please check in with Finance:

REQUEST NUMBER	RESOURCE NAME	ISSUE or QUESTION
E-125	Outback Firefighting	Need missing ST for 8/20-8/24
E-204	Paul Yokoyama	Meed Mileage on 8/24/24

Communications

Phone List: If a phone list is needed go to the available clerical unit and ask to see it.

PUBLIC INFORMATION

Photos: We *need* pictures or videos of the fire, vegetation, terrain, crews, equipment, apparatus, etc. These photos may be used on social media, Inciweb and the IAP cover. See the PIOs, text: (707) 572-4860 or email: 2024.boisefire@firenet.gov.

*If the public approaches you with questions, please have them contact the information phone:
(707) 572-4860 (8am-8pm)

Lost & Found:

Lost and Found is with the PIOs.

Training Message

Trainees: The (On-Site) Incident Training Specialist can do much to help make your assignment as productive as possible. Currently, the TNSP is at the ETNA ICP. Register your assignment with the TNSP to take advantage of the available services.

Access the Incident Training forms by going here

<https://linktr.ee/dani.mcmillon>

When you are nearing the Demob process please reach out to the email and/or number below. Avoid creating a delay when it's time for you to Demob and contact me early to help walk you through the process

Danielle McMillon, TNSP 213.760.1559 or email danielle.mcmillon@fire.lacounty.gov

Human Resource Message

The Forest Service strives for a harassment-free work environment where people treat one another with respect.

Managers, supervisors, and all employees, as well as our contractors and cooperators have the primary responsibility for creating and sustaining this **harassment-free environment**. All employees and contractor personnel must take personal responsibility for maintaining conduct that is **professional and supportive of this environment**.

WHAT HARASSMENT IS: Harassment is coercive or repeated, unsolicited and unwelcome verbal comments, gestures or physical contacts and includes retaliation for confronting or reporting harassment. Examples of harassment include, but are not limited to, the following:

Physical conduct: Unwelcome touching, standing too close, inappropriate or threatening staring or glaring, obscene, threatening, or offensive gestures.

Verbal or written conduct: Inappropriate references to body parts, derogatory or demeaning comments, jokes, or personal questions; sexual innuendoes; offensive remarks about race, gender, religion, age, ethnicity, sexual orientation, political beliefs, marital status, or disability; obscene letters or telephone calls; catcalls; whistles; sexually suggestive sounds; loud, aggressive, inappropriate comments or other verbal abuse.

Visual, Graphic or Pictorial Displays: Display of nude pictures, scantily clad, or offensively clad people; display of intimidating or offensive religious, political, or other symbols; display of offensive, threatening, demeaning, or derogatory drawings, cartoons, or other graphics; offensive T-shirts, coffee mugs, bumper stickers in locations covered above or other articles.

Individuals who believe they are being harassed or retaliated against should exercise any one or more of the following options as soon as possible:

- Tell the harasser to stop the offensive conduct; and/or
- Tell a manager or supervisor about the conduct; and/or
- Contact your Contracting Officer or any other individual you trust who would take action.
- **You may also report directly to the Harassment Reporting Hotline: 844-815-8943**

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE POINT OF CONTACT BY NAME AND POSITION AND ANNOUNCE **"MEDICAL EMERGENCY"** TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)

"This will be the Division W Medical, POC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (Priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o - 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> YELLOW / PRIORITY 2 Serious injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o - 3^o burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> GREEN / PRIORITY 3 Minor injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Point of Contact		<i>Name of on-scene POC of Incident within an Incident (Ex: TFLD Jones)</i>
Crew Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: Age: Weight: Chief Complaint:

(IRPG PAGE 106)

Skin Signs: (color/moisture/temp) Level of Consciousness: BP: HR: Respirations:

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards) Patient's ETA to Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method?
Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training
Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***
