Fire Weather Forecast

FORECAST NO: 5

PREDICTION FOR: Wednesday-Thursday

DATE: July 24th, 2024

FORECAST ISSUED: 2000 July 23rd, 2024

FIRE: Hill Fire

UNIT: CA-SRF

IMET: James White (240-778-5316)

SIGNED: James White

<u>WEATHER DISCUSSION</u>: * Valleys = 2500 ft (Mosquito Creek), Ridgetop = 5500 ft (Grouse Mountain) *

A passing upper-level shortwave will help ease heat today and slightly increase RH. That said, it will also enhance mixing. Expect smoke to lift more than previous days with inconsistent smoke transport out of the area. Winds will battle from southeast in the morning to west in the afternoon, with infrequent and inconsistent gusts up to 20 mph. Winds will be heavily terrain influenced. A slight chance of thunderstorms will continue through the early afternoon with any storms most likely to be dry, isolated, and fast moving.

WEDNESDAY:

WEATHER:

Mostly clear. Slight chance of thunderstorms through early afternoon (15%).

MAX TEMP: Valleys:

88-94°F (4-8°F ↓)

Valleys:

22-27% (2-4% 个)

Ridgetops:

78-83°F (6-10°F ↓)

Ridgetops:

29-34% (3-6% 个)

CHC WTG RAIN: 0%

CHC THUNDER: 15%

INSTABILITY: Medium

WINDS: (20 feet) Valleys: Morning southeast 4-8, afternoon north 2-4 mph. Ridgetops: Morning south 3-6, afternoon west 8-12 mph.

MIXING HEIGHT: Rising to 2,500 ft by 1100.

Valleys:

TRANSPORT WIND: West 10-14 mph.

THURSDAY NIGHT:

WEATHER:

Clear. Smoke settling in valleys. Enhanced drainage flow.

MIN TEMP:

62-66° (2-4°F ↑)

3AM RH:

3PM RH:

Valleys:

55-65% (2-4% 个)

Ridgetops:

70-74° (3-6°F 个)

Ridgetops:

20-30% (Little Change)

CHC WTG RAIN: 0%

CHC THUNDER: 0%

INSTABILITY: Medium

WINDS:

Valleys: Downslope 3-6 mph, strongest just after sunset.

(20 FEET)

Ridgetops: North 3-6 mph.

MIXING HEIGHT: Dropping to 400 ft by 2200.

TRANSPORT WIND: North 2-4 mph.

THURSDAY:

WEATHER:

Mostly clear.

MAX TEMP: Valleys:

82-88°F (4-8°F \(\J \)

3PM RH:

Valleys:

28-34% (4-8% 1)

Ridgetops:

72-78°F (4-6°F ↓)

Ridgetops:

33-38% (3-6% 个)

CHC WTG RAIN: 0%

CHC THUNDER: 0%

INSTABILITY: Low

WINDS:

Valleys: Upslope 1-3, afternoon north 3-6 mph.

(20 feet)

Ridgetops: Upslope 2-4, afternoon northwest 6-10 mph.

MIXING HEIGHT: Rising to 1,600 ft by 1200.

TRANSPORT WIND: West 6-10 mph.

EXTENDED OUTLOOK: There is high model agreement that hot, dry, and unstable conditions will not last for long. More climatologically normal conditions will build in by Thursday with highs in the 80s and minimum RH above 30 percent. A lifted marine layer will most likely bring slightly better RH recoveries this weekend with slightly drier conditions next week. Generally stable conditions will inhibit strong smoke mixing or transport. No periods of strong wind are anticipated through early next week.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 7 TYPE OF FIRE: Wildfire

FIRE NAME: Hill OPERATIONAL PERIOD: 24 Hour

DATE ISSUED: 07/23/2024 TIME ISSUED: 19:00

UNIT: Six Rivers National Forest SIGNED: _____Kevin Osborne 530-782-2712

INPUTS

WEATHER SUMMARY:	** See attached Weather Forecast for details/discussion	on**

	07/24/2024 Day	07/24/2024 Night
Sky Weather	Mostly clear. 15% chance of t-storms through early afternoon	Clear. Smoke settling in valleys. Enhanced drainage flow.
Temp	Valleys: 88-94°F Ridgetops: 78-83°F	Valleys: 62-66°F Ridgetops: 70-74°F
RH %	3PM Valleys: 22-27% Ridgetops: 29-34%	3AM Valleys: 55-65% Ridgetops: 20-30%
20 ft. Winds	Valleys: AM SE 4-8, PM N 2-4 mph. Ridgetops: AM S 3-6, PM W 8-12 mph.	Valleys: Downslope 3-6 mph, strongest just after sunset. Ridgetops: North 3-6 mph
Stability	Increasing instability, mixing height rising to 2,500 ft AGL by 11:00.	Inversion developing overnight, mixing height lowering to 400 ft. AGL by 22:00.

FIRE BEHAVIOR OUTPUTS

GENERAL

Today brings another day of hot and dry weather with increasing instability and battling winds; conditions associated with elevated fire behavior. The battling winds and instability will increase spotting distances to ¾ to 1 mile, while POI remains at or above 80% in exposed areas. Thus, spotting remains the main concern for established containment lines. Increased instability also leads to a faster breaking of the inversion, resulting in peak fire behavior starting earlier and lasting longer than previous days. The chance for thunderstorms also brings the risk of strong, erratic outflow winds that could push fire in any direction.

Fire behavior on the interior and on spot fires out of alignment with slope or wind will have flame lengths near 4 ft, making direct action possible but challenging. If spot fires or interior runs develop in alignment with wind or slope, flame lengths may reach 7 ft. or more for surface fires, and well above 15 ft. in torching and canopy fuels.

Consider reviewing a pocket card for local knowledge on fire environment triggers and thresholds:

BI Pocket Card Threshold: 29 BI 97th Percentile: 39.57 BI Forecast Value: **37.43**

NOTE -wind IS a part of BI

Six Rivers Pocket Card

ERC Pocket Card Threshold: 39 ERC 97th Percentile: 51.97 ERC Forecast Value: **50.3**

NOTE -wind IS NOT part of ERC

SPECIFIC

Div A (South): Warmer temperatures and lower RH values will continue to influence fuels with an increase in fire behavior. Fuels that are in alignment with slope and wind will see greatest rates of spread and flame lengths. Jackpots of heavy dead and down fuels will pose a spotting threat as heat remains.

Div C (West): Heavy dead and down fuels will retain heat and continue to smolder with heavy mop up potential. Reburn potential exists in areas where the ground fuels have been consumed and the canopy has been cured.

Div D (North): Fire will continue to creep and smolder. In drainages where fuels are in alignment with slope and wind, short runs are possible. Rollout potential exists on the steeper slopes.

Div L (East): Any spot fires east of Route 6 will be in a 2008 fire footprint. Expect heavy brush and dead & down fuels to increase resistance to control, leading to reduced visibility and slow line production. Winds will be battling with inconsistent direction, contributing to the potential for additional spotting. Expect continued consumption of the heavy fuels interior to recent burn operations.

Div Z (Southeast): Spotting remains the main threat to control lines Any locations with fire in alignment still has the potential for increased rates of spread and highest flame lengths with isolated and group tree torching possible.

AIR OPERATIONS

Firefighting operations in Div L near spots would benefit from air support given fuel type and weather, but smoke trapped by the inversion and battling winds will make such support difficult.

SAFETY

Winds will be shifting 180 degrees throughout the day and operations are in parallel drainages that flow opposite directions, leading to battling wind directions. Watch out for abrupt changes in wind leading to spotting and rapid changes in direction of fire spread and character of the fire behavior.

<u>Hill Incident – Safety Message</u>

INCIDENT #CA-SRF-000586

DATE: 07/24-25/2024 TIME: 0700-0700 24 Hour Shift

LIGHTNING AWARENESS

Whenever possible, operations should cease, and individuals should make every effort to **seek shelter indoors or in vehicles** when lightning is near. If you absolutely cannot get to safety, you can slightly lessen the threat of being struck with the following tips:

- · Find a low spot that is not subject to flooding
- · Avoid tall trees, wires, utility lines, and other tall objects
- If in an area of thick trees, move to an area with shorter trees
- If only isolated trees are nearby, keep your distance twice the tree height from tree
- If in open country, crouch low with feet together and minimize contact with the ground-squat
- Do not group together
- Do not handle metal hand tools or flammable materials
- Do not stay on ridge tops or wide-open areas or near ledges

Activity should not resume until at least 30 mins after the storm activity has passed.

"SEE SOMETHING......SAY SOMETHING!"

If you see a hazard or a dangerous situation developing, tell your supervisor and those around you.

LEADERSHIP IS ALL ABOUT CHARACTER

Fire leaders set the example by exhibiting strong character. Character is based on values. It is the combination of actions and words that others appraise to determine if the leader can be trusted to do the right thing.

- Know our values, review them frequently, and look for areas of improvement.
- Admit when we are wrong.
- Take time to reflect on our actions.
- Find role models and ask them to be a mentor.
- Study leaders and leadership, learn from their successes and mistakes.

RECOGNIZE THE SIGNS OF FATIGUE

The effects of fatigue can directly hinder our abilities to:

- Perform various tasks, maintain a positive and supportive attitude
- Maintain situational awareness and a high degree of alertness
- React appropriately in a timely manner and in fashion
- Retain a sharp memory and recollection of information

Prepared by: M. Huneke, SOF1

Hill Fire Safety Officers

INCIDENT RISK ANALYSIS

BR/DV	HAZARDOUS ACTIONS – CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES
ALL	STEEP TERRAIN & ROLLING DEBRIS	 Maintain 8'-10' spacing when working & walking. Do not work above any personnel. Evaluate the necessity of sending personnel into areas with limited access
ALL	WEATHER/ LIGHTNING	 Maintain continuous Situational Awareness based on the fire environment, observed fire behavior, hazards, and incident objectives. Take weather throughout the shift to get timely and accurate information. Is what we predicted what you are observing? Request spot weather forecasts if you notice a notable change in the weat Communicate any changes in weather with your crew and adjacent resour Monitor for lightning and take safety precautions if lightning is in the area. Make every effort to seek shelter indoors or in vehicles when lightning is near
ALL	HAZARD / DANGER TREE\$	 Follow Hazard Tree Safety Guidelines (IRPG p.20.) Limit the number of personnel around snags and their exposure time. Fallers must be qualified for the trees being felled. Be alert around hazard trees during wind events, even green trees. The hazard zone extends a minimum of 2½ tree lengths. Avoid parking vehicles or taking breaks under or near hazard trees.
ALL	FIRE BEHAVIOR	 Are you seeing what we have predicted? Conduct thorough assessments before starting work. Ensure LCES is in place. Plan & communicate your exit strategy with your crew and adjacent resource. Provide additional briefing for new resources and maintain communications.
ALL	COMMUNICATIONS	 Think about what you are going to say before you speak. Ensure your radio has the current clone and you are on the correct channe Listen for other radio traffic before you speak. Scan assigned frequencies and listen to what adjacent resources are doing
ALL	TRAFFIC HAZARDS AND DRIVING	 Take extra precautions when entering or exiting the roadways. Maintain high visibility in the operational area and use warning lights when working on roads or traveling in smoke. Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on the uphill side. Use spotters when backing or turning around. Keep your speed down in all areas. Drive at or below posted speed limits. Use warning lights when working on roads or traveling in smoke. Use chock blocks and turn wheels into hills. Be alert for wildlife. Dusk to Dawn poses the greatest potential for accident
ALL	NIGHT OPERATIONS	 Have a purpose for where you drive and what you do. Use caution when parking or staging in steep areas. Use available time for briefings on roads, terrain, and potential rolling material, especially if the resources are new to the area. Use glow sticks to mark hazards and ensure personnel have headlamps.
ALL	MOP-UP & PATROL	 Balance the risk of exposure to hazards against the mop-up objective Evaluate areas for hazard trees and locate stump holes for avoidance. Monitor fatigue; shorten shifts to increase rest where appropriate. Review and follow "Look Up, Look Down, Look Around" procedures. Evaluate mop-up distances against what is safe and necessary.
ALL	STRATEGIC/TACTICAL FIRING	 Follow the chain of command when undertaking burning operations. Ensure that the aerial/ground ignition plans have been well briefed, including LCES and drought-related fire behavior considerations. Wear and use appropriate PPE. Initiate burning after ensuring the plan is authorized and understood by all
ALL	AIR OPERATIONS	 Follow "Aviation Watch-Out Situations" (IRPG p.62). Do not plan on air resources for tactical support or medical transportation. Refer to IRPG p.74 for directing bucket drops. Ensure positive communication with air resources.
ALL	HEAVY EQUIPMENT OPERATIONS	 Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50' – 100' exclusion area around equipment. Use road guards as needed to control traffic. Assess areas of operation for hazards and obstructions.

6. Work Assignments:

Utilize appropriate tactical firing operations to strengthen control lines.

Patrol perimeter to identify and mitigate the potential for escape outside of established control lines.

7. Special Instructions:

Identify equipment locations and caches on field maps.

Access DP60/70 via 6N06 road off of Friday Ridge to avoid congestion.

Back haul trash daily to avoid wildlife interaction.

Coordinate with READ prior to heavy equipment operations.

Only use metered fire hydrant on HWY 96 and staging for water filling.

Demobilization MESSAGE For July 24, 2024

If you need **AIR TRAVEL** back to your home unit,
Please stop by the DMOB Office located at the
WILLOW CREEK Base Camp.

<u>Seventy-Two (72) Hours</u> prior to your
DMOB DATE.

This will ensure that the Travel Agent has plenty Of time to secure you a flight.

If you are listed on the DMOB LIST stop by the DMOB to begin the process.

Make sure you turn in your CRT's or Shift Tickets
To the Finance Section Daily.

Thank you,
Tom Reaves, DMOB
1 (919) 903-2066

Federal Finance Message

Please submit your time to

2024.hill.finance@firenet.gov

If you need assistance with electronic submission, please reach out to our Finance personnel at briefing- we're here to assist those in need

- FOR CTR SUBMISSION, PLEASE PUT CTR and RO# IN SUBJECT LINE OF EMAIL.
- FOR SHIFT TICKETS, PLEASE PUT ST AND RO# IN SUBJECT LINE OF EMAIL.
- IF TURNING IN FINAL CTR OR SHIFT TICKET, PLEASE ALSO PUT FINAL IN SUBJECT LINE.
- PLEASE MAKE EVERY EFFORT TO TURN IN ALL CTR's AND SHIFT TICKETS DAILY.
- PLEASE INCLUDE YOUR RESOURCE ORDER # ON ALL DOCUMENTATION SUBMITTED, INCLUDING RECEIPTS.
- AUTO RESPONSE IS SET UP TO LET YOU KNOW THAT DOCUMENTS WERE RECEIVED.
- FOR DEMOB: Finance will email the Draft OF-288 or OF-286 to employee for their review and approval. If everything is correct, Finance will reply with FINAL OF-288/OF-286.
- ALL RESOURCES WILL NEED TO SIGN IN PERSON OR ELECTRONICALLY.

FINANCE CHECK IN:

 PLEASE ENSURE THE BELOW DOCUMENTS ARE EMAILED TO FINANCE WITH RESOURCE ORDER NUMBER NOTED:

BE SAFE OUT THERE!!

FINANCE SECTION MESSAGE

FINANCE SECTION is located at Redwood Acres Fairgrounds in Eureka on trailer row.

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- CAL FIRE PERSONNEL: make sure you have started your eFC-33s and update after each shift. Please make sure Epay schedules are up to date.
- **HIRED EQUIPMENT SUPPLIERS:** Check in with the Time Unit and drop off your agreements.
- Shift Tickets: Line supervisors complete for Hired Equipment and submit hard copy to TIME OR complete an e-Shift Ticket online at https://shifttickets.fire.ca.gov AND provide a hard copy to TIME at the end of every shift. Shift Ticket example on the next page of IAP.

COMP / CLAIMS

• Report all comp claims to FINANCE. Cesar Nerey 619-792-6557

AO-341 Hotel Rosters

• Please sign the roster for **every** night.

NO OFF-SITE FEEDING HAS BEEN APPROVED FOR THE HILL INCIDENT.

Bill Stirton, FSC1
Michele Patton, Deputy FSC1

Human Resource Message

RESPECT. It's important to respect others and it reasonable to have the expectation to be respected in return. Respect is a critical factor in a team environment to ensure all members of the team are working collaboratively.

Your HRSP representatives are here to serve the needs of our workforce.

Please feel free to call/text or come by the HRSP yurt.

HRSP Representatives: Diane Taliaferro 505-377-1494 and Pam Spearow(T) 505-228-9442

Union Representatives:

Primary: Denice Edgar, NFFE Local 1865 Steward, denice.edgar@usda.gov, 530-598-4170 Secondary: Justin Brown, NFFE-FSCR5 Council VP, justin.i.brown@usda.gov, 530-250-5551

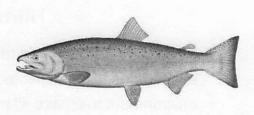

ESS Contact:

Lindsey O'Malley, 619-672-9225

Hill Fire: Resource Advisor Message

Fish Screens: Coho Salmon Critical Habitat

The Trinity River and tributaries are considered critical habitat for Threatened Coho salmon, an anadromous fish (fish born in freshwater who spend most of their lives in saltwater and return to freshwater to spawn). Please ensure that any Mark 3 and Engine/Tender suction hoses have a fish screen attached when drafting. Fish screens are designed to minimize stress, injury or

even death during the drawing and application process. Talk to a READ if you need a screen.

Port Orford Cedar Root Disease

Some local drainages are infected with POC Root disease, which is a root rotting disease that spreads via water and mud. Infested waters near the fire perimeter include: the main stem of Willow Creek and small creeks to the north up to Hoopa, south side of Willow Creek (includes area in **Boise Creek Campground**) in East Fork of Willow Creek (includes area in **East Fork Campground**) and in most of the tributaries. **DO NOT DRAFT from East Fork Campground OR Boise Creek Campground**.

<u>IMPORTANT</u>: Yellow/White Candy-Striped flagging is being used for cultural/natural resource protection. Flagging indicates equipment exclusion areas.

Invasive Plant Species

The area in and around the Hill Fire is home to many sensitive species. Infestations of highly invasive plant species, like yellow star thistle, are one of the largest threats to sensitive species populations here. Spread via vehicles and foot traffic as well as re-activation via fire is of high concern. To help protect these sensitive places, do not park in <u>and</u> try to avoid areas flagged areas.

Cultural Resources:

There is a potential that undocumented cultural resources will be encountered while fighting fire. It is important when a potential cultural resource is encountered it is not disturbed in any manner. Work with your division to notify a resource advisor for recommendations on how to proceed.

If you would like to share any photos or videos, please send them to <u>2024.Hill@firenet.gov</u> or airdrop your digital images to a Public Information Officer.

Please provide who took the picture so we can give photo credit to the photographer ©

Remember for your personal social media platforms, pause before you post. Does your photo have the following;

- > fireline personnel not wearing full PPE
- > identifiable structures (ie. addresses)
- > burning / burned structures
- > inmate crews
- > faces of children
- > accident or investigation scenes
- > sensitive natural or cultural resources (or QR codes to maps that identify them)
- > whiteboards / flipcharts with passwords or internal contacts listed
- > license plates

If you are contacted by any public who needs assistance, please have them call 530-414-9056 which is supported 8am to 7pm.

TRAINING SPECIALIST MESSAGE

EUREKA BASECAMP

TRAINEES:

Beat the Rush!!

In order to receive documented credit for your training assignment, you MUST close out with the Training Specialist before you Demob. When as much work (as possible) has been completed in your PTB for this incident, conduct the "close-out" process w/ the TNSP to save you time at DMOB

Bring the following to the "Exit Interview"

- A completed and signed ICS 225 or 226 Performance Evaluation
 - A Evaluator's Recommendation Letter

Forms are available at the Training Desk

Hester Chan 626.375-6355 (t) Claudia Soiza 949.632.7813 Training Specialists

Willow Creek Basecamp

The Training Specialist is working remotely. Training Specialist Contact Information:

- Emil Picchi
- Call/Text: 650.520.5102 (Available 0600 and 2200)
- Email: TNSPEP@gmail.com

How to register as a Trainee:

- 1. Use the QR code to the right.
 If you're unable to register using the QR code please call.
- 2. Once registered, you will receive text and email updates.

How to close-out your training assignment:

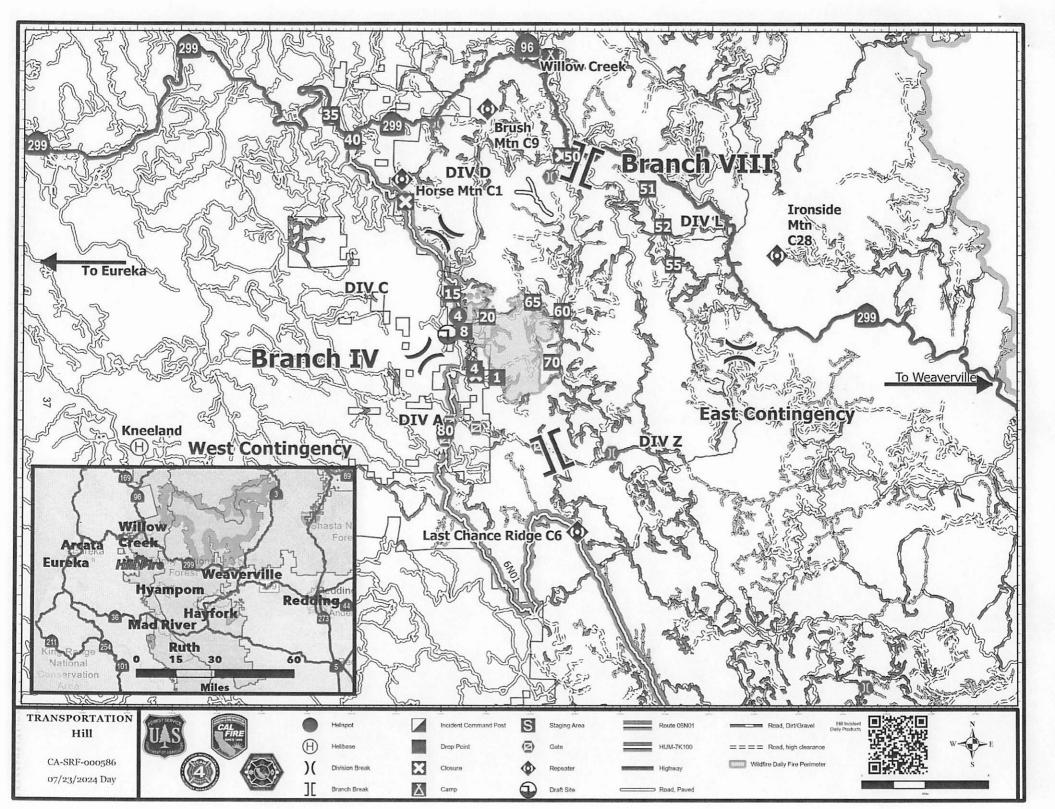

- 1. **Trainer:** Complete the Evaluation Record in the back of the Position Task Book.
- 2. **Trainer:** Complete an individual performance rating (ICS 225) and go over the performance rating with your Trainee.
- 3. **Trainee:** Text or email a photo of your individual performance rating (ICS 225) to the Training Specialist.
- 4. **Trainee:** Complete the exit questions using the QR code on right.
- 5. **Trainee:** Once 1-4 are completed, the Trainee and the Training Specialist will have a brief conversation to discuss the Task Book and assignment.
- 6. Done: except for safe travels home!
