

INCIDENT ACTION PLAN

HILL INCIDENT

CA-SRF-000586

P5 R3Q5

Wednesday

OPERATIONAL PERIOD

7/31/2024 0700

to

7/31/2024 1900

INTENTIONALLY LEFT BLANK

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">HILL</p>	2. Operational Period:	Date From: 7/31/2024	Date To: 7/31/2024
		Time From: 0700	Time To: 1900

3. Objective(s):

Management Objectives

- Provide for emergency personnel and public safety.
- Protect values at risk including property, infrastructure, and natural resources.
- Coordinate all public information to provide timely and continuous information to agency partners, cooperators, stakeholders and the public.
- Foster and maintain relationships with partner agencies, elected officials, organizations, tribal partners, neighboring land owners and community groups and members.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.
- Implement the approved suppression repair plan in accordance with the agencies specific guidelines.

Control Objectives

- Keep the fire within it's existing footprint.

Command Emphasis

- Continued attention to detail.

General Situational Awareness:

- No detail is too small.

5. Site Safety Plan Required? Yes No

Approved Site Safety Plan(s) Located at:

Fire Weather Forecast

FORECAST NO: 12
PREDICTION FOR: Wednesday-Thursday
DATE: July 31st, 2024
FORECAST ISSUED: 2000 July 30th, 2024

FIRE: Hill Fire
UNIT: CA-SRF
IMET: James White (707-296-1635)
SIGNED: *James White*

WEATHER DISCUSSION: * Valleys = 2500 ft (Mosquito Creek), Ridgetop = 5500 ft (Grouse Mountain) *
 Marine influence will rapidly push back out of the area and the influence of high pressure reasserts itself. Conditions will rapidly warm and dry today with RHs already expected to start the day much drier than before. Winds will remain gentle and terrain influenced with increasing northwest influence in the afternoon. The inversion will continue to strengthen overnight bringing increasingly dry conditions. Warming and drying will peak Thursday with highs in the mid-90s. Southeast wind will strengthen in the morning and battle the afternoon northwest sea breeze.

WEDNESDAY:

WEATHER:	Mostly clear.		
MAX TEMP:	Valleys:	87-91°F (4-8°F ↑)	3PM RH:
	Ridgetops:	81-85°F (3-6°F ↑)	Valleys:
			26-32% (4-8% ↓)
CHC WTG RAIN:	0%	CHC THUNDER:	0%
			Ridgetops:
			32-40% (10-15% ↓)
			INSTABILITY: Low

WINDS: Valleys: Upslope 1-3, afternoon north 3-6 mph.
(20 feet) Ridgetops: Southeast 2-4, afternoon northwest 6-10 mph.

MIXING HEIGHT: Rising to 2,200 ft by 1500. **TRANSPORT WIND:** Northwest 6-10 mph.

WEDNESDAY NIGHT:

WEATHER:	Clear.		
MIN TEMP:	Valleys:	61-65° (1-3°F ↑)	3AM RH:
	Ridgetops:	65-70° (3-6°F ↑)	Valleys:
			50-60% (3-6% ↓)
CHC WTG RAIN:	0%	CHC THUNDER:	0%
			Ridgetops:
			35-45% (4-8% ↓)
			INSTABILITY: Low

WINDS: Valleys: Downslope 2-4 mph, strongest just after sunset.
(20 FEET) Ridgetops: Southeast 2-4 mph.

MIXING HEIGHT: Dropping to 200 ft by 2200. **TRANSPORT WIND:** Southeast 2-4 mph.

THURSDAY:

WEATHER:	Mostly clear. Battling winds from southeast to northwest.		
MAX TEMP:	Valleys:	90-94°F (2-4°F ↑)	3PM RH:
	Ridgetops:	83-87°F (1-3°F ↑)	Valleys:
			22-28% (4-8% ↓)
CHC WTG RAIN:	0%	CHC THUNDER:	0%
			Ridgetops:
			28-34% (3-6% ↓)
			INSTABILITY: Medium

WINDS: Valleys: Upslope 2-4, afternoon north 2-4 mph.
(20 feet) Ridgetops: Southeast 4-6, afternoon north 8-12 mph.

MIXING HEIGHT: Rising to 2,600 ft by 1400. **TRANSPORT WIND:** Northwest 10-15 mph.

EXTENDED OUTLOOK: Essentially all model ensemble members suggest a prolonged period of heat and dry late in the week, though no members predict record breaking temperatures, at least not this week. Nearly all ensemble members though suggest further intensifying heat through the first week of August with about 30% showing near record breaking heat next week. Model ensemble members have rapidly come into agreement for a high risk of dry thunderstorms Friday through Sunday with a peak early Saturday morning and afternoon.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 14	TYPE OF FIRE: Wildfire
FIRE NAME: Hill CA-SRF-00586	OPERATIONAL PERIOD: 07/31/2024 Day
DATE ISSUED: 07/30/2024	TIME ISSUED: 19:00
UNIT: Six Rivers National Forest	SIGNED: _____ Kevin Osborne 530-782-2712

INPUTS

WEATHER SUMMARY: **See attached Weather Forecast for details/discussion**

	07/31/2024 Day	07/31/2024 Night
Sky Weather	Mostly clear.	Clear.
Temp	Valleys: 87-91°F Ridgetops: 81-85°F	Valleys: 61-65°F Ridgetops: 65-70°F
RH %	3PM Valleys: 26-32% Ridgetops: 32-40%	3AM Valleys: 50-60% Ridgetops: 35-45%
20 ft. Winds	Valleys: Upslope 1-3, afternoon N 3-6 mph. Ridgetops: Southeast 2-4, afternoon NW 6-10 mph.	Valleys: Downslope 2-4 mph, strongest just after sunset Ridgetops: Southeast 2-4 mph.
Stability	Strong inversion with limited smoke, mixing height lifting to 2200 ft. AGL by 15:00	Inversion developing after sunset, mixing height lowering to 200 ft. AGL by 22:00

FIRE BEHAVIOR OUTPUTS

GENERAL

Fire is at control features around the entire perimeter and burn down and mop-up have mitigated much of the heat near control lines. The result of these conditions is very low potential for any notable fire behavior and an expectation that fire will remain within containment lines. The main threat for any spread outside of containment lines is spotting from interior torching, though this potential has diminished and will continue to decrease.

The return of a warming and drying trend brings an upward trend in fire behavior potential outside of the fire perimeter. The inversion may still be present, but it no longer contains significant smoke, so its impact on fire behavior is minimal. If a spot fire were to establish outside of the current perimeter, fire out of wind or slope alignment will exhibit backing fire behavior with flame lengths near 4 ft. If aligned with wind or slope, expect flame lengths near 7 ft. Spotting distance is a maximum of 1/3 of a mile and POI near 70%. Tomorrow will continue the daily upward trend in fire behavior potential.

Consider reviewing a pocket card for local knowledge on fire environment triggers and thresholds:

BI Pocket Card Threshold: 29 BI 97 th Percentile: 39.57 BI Forecast Value: 33.67 NOTE - wind <i>IS</i> a part of BI	Six Rivers Pocket Card 	ERC Pocket Card Threshold: 39 ERC 97 th Percentile: 51.97 ERC Forecast Value: 46.53 NOTE - wind <i>IS NOT</i> part of ERC
---	---	---

SPECIFIC

Div A (South), Div C (West) and D (North): Expect isolated smoke production from snags and stump holes interior. No movement beyond control features anticipated.

Div L (East) and Div Z (Southeast): Fire is at control lines across both divisions and crews are working on mop-up and securing the lines. Heavy dead and down fuels will retain heat and continue to smolder. Re-burn potential exists in areas where the ground fuels have been consumed and the canopy has been cured. No movement beyond control features anticipated.

AIR OPERATIONS

Limited smoke production will provide clear skies for any required air operations.

SAFETY

Suppression repair operations do have fire behavior concerns! There is a lot of chipping work remaining and chips present a source of fuel if chips are sent into the black and land on residual heat. Once ignited, chips retain long duration heat, and can be difficult and time consuming to mop-up.

Maintain attention to detail! Be aware of where your chips are going and keep them in the green!

Hill Incident – Safety Message

INCIDENT #CA-SRF-000586

DATE: 07/31/2024

TIME: 0700-1900 Hrs.

OPERATIONAL TEMPO

Maintaining operational tempo is not solely about speeding up to match the pace of the environment. It is also about knowing when operations should slow down and why. We are most vulnerable to accidents and errors when operational tempo changes, especially when it changes quickly. Maintaining good situation awareness despite change in operational tempo represents a considerable challenge. The key to managing operational tempo successfully is monitoring the changing environment and capabilities of the team, and then applying good judgment to determine whether to push forward or pull back while making necessary adjustments.

Working with Heavy Equipment

- Don't approach until you have eye contact with the operator and all implements have been lowered.
- Avoid working downhill from equipment.
- Communicate all hazards to the operator.
- Equipment operators can have a difficult time see you ground personnel; take responsibility for your safety and all of those around you.
- Use road guards when appropriate.

Driving

- When driving, keep the speed at or below the posted speed limit and turn your headlights on. Is the posted speed limit a safe speed under current conditions and traffic?
- Use caution on unimproved roads as some have soft shoulders. Some roads are also only one lane with pullouts.
- Road surfaces are variable with washboard conditions and thick dust that can compromise turning and braking.
- Watch for and anticipate stock and wildlife especially at dusk and dawn.
- Always fasten your seatbelt before the vehicle is set into motion. Use backlers.
- Don't tailgate, especially in dusty conditions.

Hazard Tree Indicators

- Tree burning for any period of time.
- High risk tree species (rotten and shallow roots).
- Numerous downed trees in the area.
- Dead, broken, or burning tops and limbs overhead.
- Accumulation of needles, bark, or limbs.
- Leaning or hung-up trees.

Eliminate the hazards with qualified sawyers and modify suppression tactics or fireline location to avoid high risk areas. Always provide timely feedback to others regarding any hazard trees.

Prepared by:
Micheal Huneke (SOF1)
Lucas Lambert (SOF2-T)

INCIDENT RISK ANALYSIS

ICS 215A

BR/DV	HAZARDOUS ACTIONS – CONDITIONS	MITIGATIONS – WARNINGS – REMEDIES
ALL	TRAFFIC HAZARDS AND DRIVING	<ul style="list-style-type: none"> • Take extra precautions when entering or exiting the roadways. • Maintain high visibility in the operational area. • Many roads are narrow and mid-slope, with soft shoulders. Allow heavy vehicles to pass on the uphill side. Use spotters when backing or turning around. • Keep your speed down in all areas. Drive at or below posted speed limits. • Use chock blocks and turn wheels into hills. • Be alert for wildlife. Dusk to Dawn poses the greatest potential for accidents. • Follow all incident travel plans and routes. • Expect road blocks and stopped traffic around construction zones on Highway 299.
ALL	STEEP TERRAIN & ROLLING DEBRIS	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Do not work above any personnel. • Evaluate the necessity of sending personnel into areas with limited access.
ALL	HAZARD / DANGER TREES	<ul style="list-style-type: none"> • Follow Hazard Tree Safety Guidelines (IRPG p.20.) • Limit the number of personnel around snags and their exposure time. • Fallers must be qualified for the trees being felled. • Be alert around hazard trees during wind events, even green trees. • The hazard zone extends a minimum of 2½ tree lengths. • Avoid parking vehicles or taking breaks under or near hazard trees.
ALL	FATIGUE & COMPLACENCY	<ul style="list-style-type: none"> • Be alert, monitor all resources for signs of fatigue, and take breaks as necessary. • Maintain a 2:1 Work to rest ratio. • Repeated assignments in the same area can lead to complacency, making personnel vulnerable to accidents. • Take steps to maintain situational awareness for the duration of the incident. • Take tactical pauses as practical and feasible.
ALL	SUPPRESSION REPAIR	<ul style="list-style-type: none"> • Ensure communications are established with operators. • Use hand signals if other communications are unavailable. • Maintain a 50' – 100' exclusion area around equipment. • Use road guards as needed to control traffic. • Assess areas of operation for hazards and obstructions. • Use proper PPE when operating chippers. • Ensure fire suppression equipment is available near masticator operations.
ALL	REPOPULATION	<ul style="list-style-type: none"> • Use caution when driving and expect additional traffic in the fire area. • Monitor for logging trucks on Titlow Hill Rd. • Refer to traffic hazards and driving mitigations
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> • Think about what you are going to say before you speak. • Ensure your radio has the current clone and you are on the correct channels. • Listen for other radio traffic before you speak. • Scan assigned frequencies and listen to what adjacent resources are doing.
ALL	MOP-UP & PATROL	<ul style="list-style-type: none"> • Balance the risk of exposure to hazards against the mop-up objective. • Evaluate areas for hazard trees and locate stump holes for avoidance. • Monitor fatigue; shorten shifts to increase rest where appropriate. • Review and follow "Look Up, Look Down, Look Around" procedures. • Evaluate mop-up distances against what is safe and necessary.
ALL	EXTERNAL DISTRACTIONS/ STRESS	<ul style="list-style-type: none"> • Resources operating on the fire may be impacted in their personal lives by current events external to the fire. • Communicate with home/ family members, allow resources to communicate as needed • Avoid misinformation, remain focused on your assignment. • Seek help when a higher level of care is necessary.
ALL	BACKHAUL	<ul style="list-style-type: none"> • Be aware of loose footing in steep terrain. • Always wear appropriate PPE. • Wash tools, PPE and other equipment with soap and water to prevent exposure to poison oak. • Use proper lifting techniques when hauling heavy items.
ALL	WILDLIFE	<ul style="list-style-type: none"> • High concentration of wildlife in the area. • Backhaul garbage from drop points. Do not keep food inside your tent. • If encountering a bear, make noise, and travel in a group. DO NOT RUN!
ALL	UNFAMILIAR WORK AREAS	<ul style="list-style-type: none"> • Be familiar with local hazards. • Conduct thorough assessments before starting work. • Ensure LCES is in place. • Familiarize yourself with adjoining resources.

6. Work Assignments:
 Keep the fire within its current footprint. Patrol and mop-up to a distance where safe to do so.
 Identify and mitigate hazard trees.
 Back haul excess supplies and equipment.

7. Special Instructions:
 Identify equipment locations and caches on field maps.
 Access DP60/70 via 6N06 road off of Friday Ridge to avoid congestion with Branch IV resources, utilize traffic plan.
 Back haul trash daily to avoid wildlife interaction.
 Coordinate with READ prior to heavy equipment operations.
 Only use metered fire hydrant on HWY 96 and staging for water filling.
 Division Supervisors D. Pearsall / L. Aspelin will be shadowing.

Demobilization Message - July 31st, 2024

WILLOW CREEK BASE CAMP

ALL FEDERAL RESOURCES

If you require **AIR TRAVEL** back to your home unit, please stop by the DMOB office located at WILLOW CREEK Base Camp **Seventy-Two (72)** Hours prior to your DMOB DATE.

This will ensure the Travel Agent has plenty of time to secure you a flight.

If you are listed on the DMOB LIST stop by the DMOB to begin the process at your assigned date and time.

Ensure to turn in your CRT's or Shift Tickets to the Finance Section Daily!

Contractors & Vipers only need to take their yellow inspection form with Hours & Miles to ground support, you do not need to take the equipment.

Respectfully,

Ryan Da Rosa - DMOB(T)

(919) 903-2066

EUREKA BASE CAMP

- **Please DO NOT report to Demob before your scheduled time.**
- The Demob Unit will provide you with an ICS-221 check-out form which may require the following signatures:
 - ✓ SUPPLY UNIT
 - ✓ COMMUNICATIONS UNIT
 - ✓ GROUND SUPPORT/VEHICLE INSPECTION***
 - ✓ DOCUMENTATION UNIT
 - ✓ TIME UNIT
 - ✓ TRAINING UNIT
 - ✓ ACCOMMODATION

*****Vehicle Inspection:**

- You must have the ICS-221 Demob form with you at vehicle inspection.
- A Vehicle Inspection time will be provided when you initially arrive to the Demobilization Unit.
- **DO NOT REPORT FOR VEHICLE INSPECTION PRIOR TO YOUR APPOINTMENT.**

Federal Finance Message

Please submit your time to

2024.hill.finance@firenet.gov

If you need assistance with electronic submission, please reach out to our Finance personnel at briefing- we're here to assist those in need

- FOR CTR SUBMISSION, PLEASE PUT CTR and RO# IN SUBJECT LINE OF EMAIL.
- FOR SHIFT TICKETS, PLEASE PUT ST AND RO# IN SUBJECT LINE OF EMAIL.
- IF TURNING IN FINAL CTR OR SHIFT TICKET, PLEASE ALSO PUT FINAL IN SUBJECT LINE.
- PLEASE MAKE EVERY EFFORT TO TURN IN ALL CTR's AND SHIFT TICKETS DAILY.
- PLEASE INCLUDE YOUR RESOURCE ORDER # ON ALL DOCUMENTATION SUBMITTED, INCLUDING RECEIPTS.
- AUTO RESPONSE IS SET UP TO LET YOU KNOW THAT DOCUMENTS WERE RECEIVED.
- FOR DEMOB: Finance will email the Draft OF-288 or OF-286 to the employee for their review and approval. If everything is correct, Finance will reply with FINAL OF-288/OF-286.

FINANCE CHECK IN:

- PLEASE ENSURE THE BELOW DOCUMENTS ARE EMAILED TO FINANCE WITH RESOURCE ORDER NUMBER NOTED:

HILL FIRE INCIDENT Human Resource Message

PROBLEM PREVENTION

- 💡 PRACTICE GOOD COMMUNICATION AND ENHANCE RELATIONSHIPS
- 💡 VIEW DIFFERENCES AS OPPORTUNITIES TO BUILD POWERFUL TEAMS
- 💡 BE INQUISITIVE RATHER THAN REACTIVE-ASK QUESTIONS
- 💡 BE WILLING TO CLARIFY MISPERCEPTIONS AND STEREOTYPES
- 💡 THINK **WE** RATHER THAN **I** VERSES **YOU**
- 💡 SEPARATE THE INDIVIDUAL FROM THE ISSUE AT HAND
- 💡 FIND COMMON GROUND AND MUTUAL SOLUTIONS
- 💡 AVOID PUSHING PEOPLES BUTTONS AND STRONG EMOTIONAL RESPONSES
- 💡 BE SENSITIVE AND SUPPORTIVE DURING TIMES OF STRESS

ACCEPTING PEOPLE'S DIFFERENCES, BACKGROUNDS AND CULTURES BUILDS STRONGER TEAMS AND POSTIVE RELATIONSHIPS WHERE EVERYONE FEELS VALUED AND RESPECTED.

Have a Great Day! Diane Taliaferro, HRSP

Union Representative(s): **PRIMARY: Denice Edgar**

Title: NFFE Local 1865 Steward

E-mail: denice.edgar@usda.gov

Hill Fire: Resource Advisor Message

Fish Screens: Coho Salmon Critical Habitat

The Trinity River and tributaries are considered critical habitat for Threatened Coho salmon, an anadromous fish (fish born in freshwater who spend most of their lives in saltwater and return to freshwater to spawn). Please ensure that any Mark 3 and Engine/Tender suction hoses have a fish screen attached when drafting. Fish screens are designed to minimize stress, injury or even death during the drawing and application process. Talk to a READ if you need a screen.

Port Orford Cedar Root Disease

Some local drainages are infected with POC Root disease, which is a root rotting disease that spreads via water and mud. Infested waters near the fire perimeter include: the main stem of Willow Creek and small creeks to the north up to Hoopa, south side of Willow Creek (includes area in **Boise Creek Campground**) in East Fork of Willow Creek (includes area in **East Fork Campground**) and in most of the tributaries. **DO NOT DRAFT from East Fork Campground OR Boise Creek Campground.**

IMPORTANT: Yellow/White Candy-Striped flagging is being used for cultural/natural resource protection. Flagging indicates equipment exclusion areas.

- **Invasive Plant Species**

The area in and around the Hill Fire is home to many sensitive species. Infestations of highly invasive plant species, like yellow star thistle, are one of the largest threats to sensitive species populations here. Spread via vehicles and foot traffic as well as re-activation via fire is of high concern. To help protect these sensitive places, do not park in and try to avoid areas flagged areas.

- **Cultural Resources:**

There is a potential that undocumented cultural resources will be encountered while fighting fire. It is important when a potential cultural resource is encountered it is not disturbed in any manner. Work with your division to notify a resource advisor for recommendations on how to proceed.

FIRE INFORMATION

If you would like to share any photos or videos, please send them to 2024.Hill@firenet.gov or airdrop your digital images to a Public Information Officer.

Please provide who took the picture so we can give photo credit to the photographer 😊

Remember for your personal social media platforms, pause before you post. Does your photo have the following;

- **fireline personnel not wearing full PPE**
- **identifiable structures (ie. addresses)**
- **burning / burned structures**
- **inmate crews**
- **faces of children**
- **accident or investigation scenes**
- **sensitive natural or cultural resources (or QR codes to maps that identify them)**
- **whiteboards / flipcharts with passwords or internal contacts listed**
- **license plates**

If you are contacted by any public who needs assistance, please have them call 530-414-9056 which is supported 8am to 7pm.

TRAINING MESSAGE

ESCAPEE_(N)

Someone who checks-in to the incident as a Trainee but leaves the incident before checking out with the Training Specialist.

Check-In

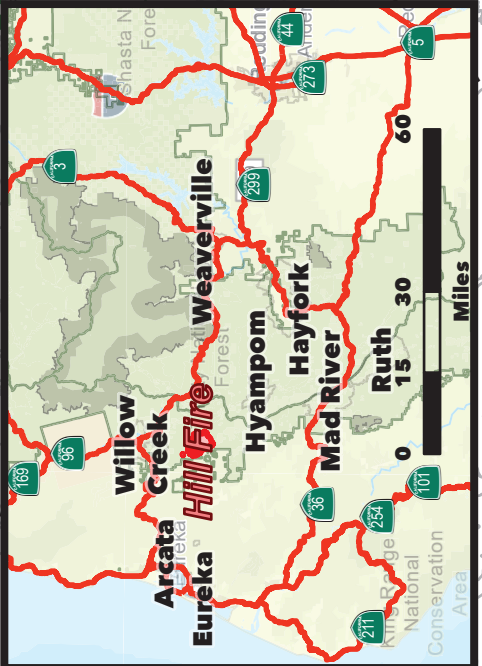

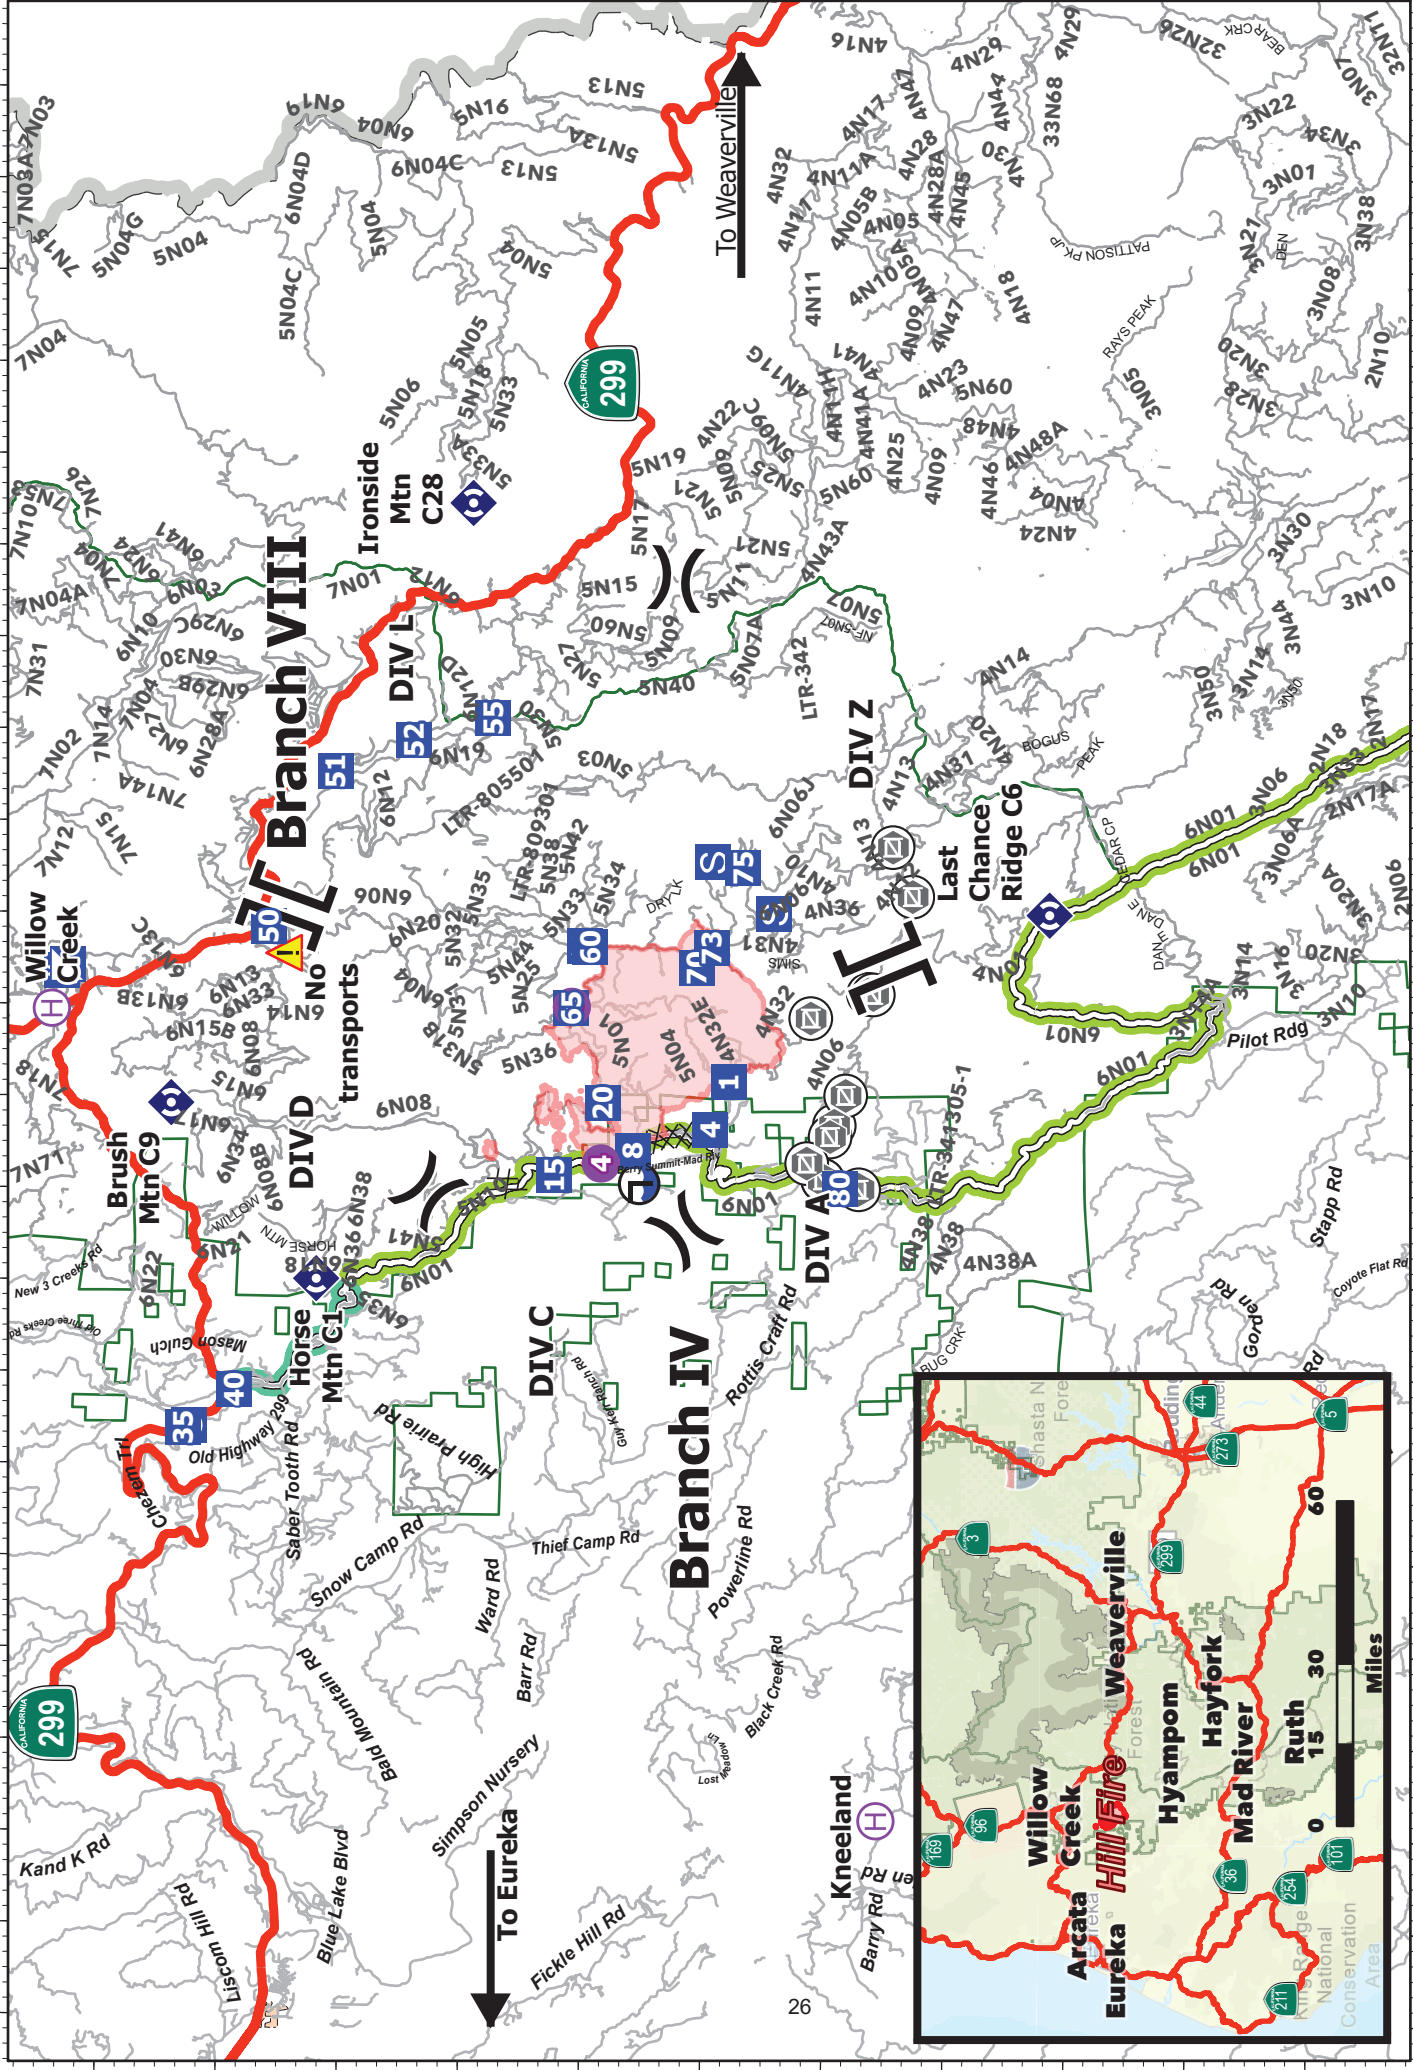

Exit Interview

Your assignment has finished and you want to get home. Spend the extra 5 minutes and capture the hard work that was performed. **PLEASE** check out with the Training Specialist. Phone, text, email, or in-person.

DON'T BE AN ESCAPEE

MEDICAL PLAN (ICS 206 WF) CIIMT 4

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>		
Patient Location			<i>Descriptive Location & Lat. / Long. (WGS84)</i>		
Incident Name			<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>		
Patient Care			<i>Name of Care Provider (Ex: EMT Smith)</i>		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Patient Assessment: See IRPG PAGE 106					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication :</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead. .					
8. ADDITIONAL INFORMATION: Updates/Changes, etc. .					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively. .
