HILL INCIDENT

CA-SRF-000586

P5 R3Q5

OPERATIONAL PERIOD

8/9/2024 0700

to

8/11/2024 1900

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: HILL	2. Operational Period: Date From: 8/9/2024 Time From: 0700	Date To: 8/11/2024 Time To: 1900
----------------------------------	---	-------------------------------------

3. Objective(s):

- Management Objectives
- Provide for emergency personnel and public safety.
 - Protect values at risk including property, infrastructure, and natural resources.
 - Coordinate all public information to provide timely and continuous information to agency partners, cooperators, stakeholders and the public.
 - Foster and maintain relationships with partner agencies, elected officials, organizations, tribal partners, neighboring land owners and community groups and members.
 - Protect economic, natural, cultural and heritage resources.
 - Maintain fiscal accountability and keep costs commensurate with values at risk.
 - Implement the approved suppression repair plan in accordance with the agencies specific guidelines.

- Control Objectives
- Keep the fire within it's existing footprint.

- Command Emphasis
- Stay focused.
 - Stay engaged.

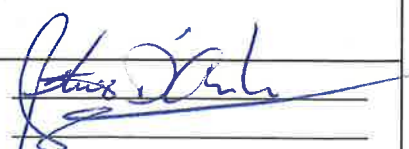

- General Situational Awareness:
- Watch for snags.
 - There is no room for complacency.

5. Site Safety Plan Required? Yes No

Hill Incident Weather

Spot Forecast for Hill...USDA-Forest Service

National Weather Service Eureka CA

1208 PM PDT Thu Aug 8 2024

DISCUSSION...

Gradual cooling trend and increase humidity expected this weekend and into early next week with a deepening marine layer. Moderate RH's recoveries in the upper 30% and 40% are forecast on Friday morning, with some poor humidity over the higher terrain. Northwest winds will increase slightly with a few gusty winds up to 20 mph possible Friday afternoon. Winds will continue to be breeze each afternoon. No wetting rain expected during the next 7 days.

FRIDAY

<u>Sky/weather</u>	Sunny.
<u>Max temperature</u>	79-82.
<u>Min humidity</u>	29-34 percent.
<u>Wind (20 ft)</u>	Variable 2 to 5 mph... becoming northwest 5 to 10 mph late in the morning.
<u>Mixing height</u>	0-1100 ft AGL.
<u>Transport winds</u>	Northwest 5 to 9 mph.

FRIDAY NIGHT

<u>Sky/weather</u>	Clear.
<u>Min temperature</u>	Around 60.
<u>Max humidity</u>	41-48 percent.
<u>Wind (20 ft)</u>	Northwest winds 5 to 10 mph becoming variable 3 mph.
<u>Mixing height</u>	0-300 ft AGL.
<u>Transport winds</u>	Northwest 5 to 9 mph.

INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL DIV's	SNAG HAZARDS	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG). Limit number of personnel around snags and their exposure time; fallers must be qualified for trees being fallen. Be especially alert around snags during wind events. Check for hazard trees & "widow-makers" in sleeping areas prior to using. Maintain Situational Awareness.
ALL DIV's	DRIVING HAZARDS	<ul style="list-style-type: none"> Drive defensively! Expect the unexpected around every curve. Drive with headlights on; use chock blocks, keep windshields clean; look before backing; and use backers whenever available. Don't drive when fatigued. Adhere to agency driving regulations and guidelines. Be alert for wildlife, heavy trucks, & high speed opposing traffic crossing into your lane. Check traffic approaching from behind when making left turns. Increase following distances on dusty roads. Slow down when you meet opposing traffic or encounter washboard surfaces. Maintain Situational Awareness!
ALL	FATIGUE	<ul style="list-style-type: none"> Be alert for signs of fatigue in yourself and others and take breaks as necessary. Maintain 2:1 work/rest ratio. Monitor incoming resources for level of fatigue.
ALL	HYDRATION	<ul style="list-style-type: none"> Drinking water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others.
DIV'S ALL	WORKING AROUND HEAVY EQUIPMENT	<ul style="list-style-type: none"> Stay at least 100' in front or 50' behind equipment. Never approach without making eye contact with operator. Avoid working below equipment. Establish visual and radio communications with operator before engaging. Communicate all hazards to operator.
ALL	CREW CHIPPER USE	<ul style="list-style-type: none"> Personnel involved to review & sign JHA; follow JHA direction; Utilize recommended PPE; review operator's manual. Never operate chipper alone.
ALL	POISONOUS INSECTS, SNAKES	<ul style="list-style-type: none"> Identify, avoid, and get treatment for any bites or stings. Use caution (for bees, wasps, etc.) when drinking from opened cans.
ALL	FOOT TRAVEL	In steep and rocky terrain, watch footing and maintain proper spacing. Watch for over-head hazards. Treat "hot spots" on your feet before they become blisters. Maintain downhill tool placement.
DIV ALL		
ALL DIV's	EXTREMELY STEEP TERRAIN AND ROLLING MATERIAL	Watch your footing; take your time; ensure adequate spacing between crewmembers; post lookouts to warn of rolling debris.
ALL DIV's	POISON OAK	<ul style="list-style-type: none"> Review identification of poison oak. Avoid poison oak, wash as frequently as possible. Use Technu if available. Change into clean clothing as often as possible.
ALL DIV's	COMPLACENCY	<ul style="list-style-type: none"> Repeated assignments in the same area can lead to complacency making personnel more vulnerable to accidents. Situational awareness must be maintained for the duration of the incident.
ALL DIV's	TREE FELLING	<ul style="list-style-type: none"> Conduct thorough briefing for all personnel (inside rear cover IRPG). Establish traffic control as necessary, keep personnel unnecessary to the operation out of the area. Evaluate trees (IRPG page 80). Use Look-Up, Down, All Around Process (IRPG page 2). Use all required PPE. Minimize exposure to personnel.
ALL DIV's	THUNDERSTORMS	<ul style="list-style-type: none"> Follow Thunderstorm Safety Precautions. (IRPG) Be alert for special messages from communications when lightning activity is eminent in fire area. Get to vehicles or best shelter available. Follow Corral Complex Base Camp Thunderstorm Safety Plan when in camp.
ALL DIV's	SAFETY ZONES	<ul style="list-style-type: none"> Follow safety zone guidelines Carefully evaluate burned areas before designation as safety zones due to spotty burning in numerous areas. When safety zones are distant from work site, set trigger points to allowing personnel to reach them in a timely manner.
