

## Incident Status Summary (ICS-209)

Incident: **LODGE COMPLEX**

1. Incident Name: <b>LODGE COMPLEX</b>		2. Incident Number: <b>CA-MEU-007202</b>	
3. Report Version: Initial <input checked="" type="checkbox"/> Update Final	4. Incident Commander(s) & Agency or Organization: <b>TODD DERUM</b>	5. Incident Management Organization: <b>Type 1 Team</b>	6. Incident Start Date/Time: Date: <b>07/30/2014</b> Time: <b>0630 CT</b>
7. Current Incident Size or Area Involved: <b>11100 Acres</b>	8. Percent (%) Contained or Completed: <b>45 %</b>  Percent (%) of Perimeter to be Contained: <b>100 %</b>	9. Incident Type: <b>Wildfire</b>	10. Incident Complexity Level: Single <input checked="" type="checkbox"/> Complex  <b>Single Command</b>
		11. Report Time Period: From Date/Time: <b>08/12/2014 2000 CT</b> To Date/Time: <b>08/13/2014 0800 CT</b>	
		9. Incident Description: B. Incident Description: C. Cause: <b>Lightning/Natural</b> D. Fire Suppression Strategy:	
		Strategy	Percent (%)
		<b>Monitor</b>	
		<b>Confine</b>	
		<b>Point Zone Protection</b>	
		<b>Full Suppression</b>	<b>100</b>
12. Prepared By: Print Name: <b>Eric Scovel SITL</b>  Date/Time Prepared: <b>08/13/2014 0800 CT</b>		13. Approved By: Print Name: <b>Phil Matteson DPIC</b>  Signature: _____	
14. Date/Time Submitted: <b>08/13/2014 0743 CT</b>		15. Primary Location, Organization, or Agency Sent To: <b>NOPS</b>	
16. State: <b>CA</b>	17. County / Parish / Borough: <b>Mendocino</b>		18. City: <b>Laytonville</b>
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership: <b>CA-MEU</b>	
22. Latitude/Longitude: Latitude: <b>39° 46' 6"</b> Longitude: <b>123° 38' 59"</b>	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description: Principal Meridian: <b>Mount Diablo</b> Township: <b>22N</b> Range: <b>16W</b> Section: <b>21</b> 1/4 Sec: of 1/4 Sec:	
25. Short Location or Area Description (list all affected areas or a reference point): <b>West of Laytonville</b>			26. UTM Coordinates: Zone: Easting: Northing:
27. Note any electronic geospatial data included or attached (indicate data format, content, and collection time information and labels): <b>IAP and map products are located on the NIFC FTP website</b>			
28. Significant Events for the Time Period Reported (summarize significant progress made, evacuations, incident growth, etc.): <b>Interior islands continue to burn. In Div. Y the line continues to gain depth as it slowly burns into the Tenmile drainage. This</b>			

## Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

division is still a concern for potential of a strong run coming out of the Tenmile Creek drainage. The slow surface litter burn creates a concern, leaving the overstory intact and potentially allowing the canopy to be the primary fire carrier. Division M is the priority division. Crews continue to bring fire down the Low Gap Creek drainage, keeping pace with the fire on the east of the creek. Division W has a slop over which crews are constructing line around and mopping up.

29. Primary Fuel Model, or Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.):

Fuel Model: **Timber (Litter and Understory)**

**The primary fuel model transitions to fuel model 4 on the east side of the Eel River drainage.**

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc.):

Structural Summary	# Threatened (up to 72 hrs)	# Damaged	# Destroyed
Single Residences	16	0	0
Multiple Residences	0	0	0
Mixed Commercial / Residential	0	0	0
Nonresidential Commercial Property	0	0	0
Other Minor Structures	0	0	0

31. Public Status Summary:

*Number of Civilians (Public) Indicated Below:*

	Previous Report Total	# this Reporting Period	Total # to-date
Fatalities	0		0
With Injuries/Illness	0		0
Trapped/In Need of Rescue	0		0
Missing	0		0
Evacuated	59	0	59
Sheltering in Place	0		0
In Temporary Shelters	0		0
Have Received Mass Immunizations	0		0
Require Immunizations	0		0
In Quarantine	0		0
Other	0		0
<b>Total # Civilians (Public) Affected:</b>	<b>59</b>	<b>0</b>	<b>59</b>

32. Responder Status Summary:

*Number of Responders Indicated Below:*

	Previous Report Total	# this Reporting Period	Total # to-date
Fatalities	0		0
With Injuries/Illness	12	0	12
Trapped/In Need of Rescue	0		0
Missing	0		0
Evacuated	0		0
Sheltering in Place	0		0
In Temporary Shelters	0		0
Have Received Mass Immunizations	0		0
Require Immunizations	0		0
In Quarantine	0		0
Other	0		0
<b>Total # Responders Affected:</b>	<b>12</b>	<b>0</b>	<b>12</b>

33. Life, Safety, and Health Status/Threat Remarks:

**None of the 12 reported injuries meet Cal OSHA Title 8 reporting requirements.**

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):

**Yesterday's cloud layer kept the sun off the fire area for the entire operational period. The temperature reached 75 degrees and RH was at 45%. Today's**

34. Life, Safety, and Health Threat Management:

	Active?
No Likely Threat	
Potential Future Threat	X
Mass Notifications in Progress	

## Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

<p><b>predicted weather calls for sunshine and warming trend on it's way.</b></p>		Active?
	Mass Notifications Completed	X
	No Evacuation(s) Imminent	
	Planning for Evacuation	
	Planning for Shelter-in-Place	
	Evacuation(s) in Progress	X
	Shelter-in-Place in Progress	
	Repopulation in Progress	
	Mass Immunization in Progress	
	Mass Immunization Complete	
	Quarantine in Progress	
	Area Restriction in Effect	

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour timeframes:

**Crews will continue to complete firing operations in Branch II and IV. Division M will continue to construct & improve line and plumb for future firing operations. The Contingency group continues to construct line. Fire spread is expected to be minimal, however high potential for extreme fire behavior exists. Branch I is unstaffed.**

**12 hours:** Crews will continue to complete firing operations in Branch II and IV. Division M will continue construct & improve line and plumb for future firing operations. The Contingency group continues to construct line. Fire spread is expected to be minimal, however high potential for extreme fire behavior exists. Branch I is unstaffed.

**24 hours:** The fire has high potential to be pushed south if weather conditions, fuels and topography align. If this happens, the fire will potentially make a long strong run toward Div. Y and then on to Cahto Peak. The fuels will create spotting conditions up to 1/2 of a mile in front of the fire. The easterly movement could continue to Hwy 101.

**48 hours:** Crews will continue to complete firing operations in Branch II and IV. Division M will continue construct & improve line and plumb for future firing operations. The Contingency group continues to construct line. Fire spread is expected to be minimal, however high potential for extreme fire behavior exists. Branch I is unstaffed. The fire has high potential to be pushed south if weather conditions, fuels and topography align. If this happens, the fire will potentially make a long strong run toward Div. Y and then on to Cahto Peak. The fuels will create spotting conditions up to 1/2 of a mile in front of the fire. The easterly movement could continue to Hwy 101.

**72 hours:** Crews will continue to complete firing operations in Branch II and IV. Division M will continue construct & improve line and plumb for future firing operations. The Contingency group continues to construct line. Fire spread is expected to be minimal, however high potential for extreme fire behavior exists. Branch I is unstaffed.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):  
**100% CONTAINMENT**

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

**Residences, Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor. Critical infrastructure on Cahto Peak, including:**

## Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

24 hours:	<p>Laytonville Fire Tower, PG&amp;E lines, Grain Tower, BLM Building, UC Weather Station, UNAVCO Seismic Station, CAL FIRE Lookout, 101 Netlink Tower, CAL FIRE Radio Tower, Verizon Tower, AT&amp;T Building &amp; Antennas.</p> <p>Residences, Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild &amp; scenic Eel River Corridor. Critical infrastructure on Cahto Peak, including; Laytonville Fire Tower, PG&amp;E lines, Grain Tower, BLM Building, UC Weather Station, UNAVCO Seismic Station, CAL FIRE Lookout, 101 Netlink Tower, CAL FIRE Radio Tower, Verizon Tower, AT&amp;T Building &amp; Antennas.</p>
48 hours:	<p>Residences, Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild &amp; scenic Eel River Corridor. Critical infrastructure on Cahto Peak, including; Laytonville Fire Tower, PG&amp;E lines, Grain Tower, BLM Building, UC Weather Station, UNAVCO Seismic Station, CAL FIRE Lookout, 101 Netlink Tower, CAL FIRE Radio Tower, Verizon Tower, AT&amp;T Building &amp; Antennas.</p>
72 hours:	<p>Residences, Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild &amp; scenic Eel River Corridor. Critical infrastructure on Cahto Peak, including; Laytonville Fire Tower, PG&amp;E lines, Grain Tower, BLM Building, UC Weather Station, UNAVCO Seismic Station, CAL FIRE Lookout, 101 Netlink Tower, CAL FIRE Radio Tower, Verizon Tower, AT&amp;T Building &amp; Antennas.</p>
Anticipated after 72 hours:	
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	<p>To complete critical line firing, the incident needs; 12 Type I hand crew strike teams, 7 Water Tenders because of the loss of the use of ponds and the long turnaround time.</p>
24 hours:	<p>To complete critical line firing, the incident needs; 12 Type I hand crew strike teams, 7 Water Tenders because of the loss of the use of ponds and the long turnaround time.</p>
48 hours:	<p>To complete critical line firing, the incident needs; 12 Type I hand crew strike teams, 7 Water Tenders because of the loss of the use of ponds and the long turnaround time.</p>
72 hours:	<p>To complete critical line firing, the incident needs; 12 Type I hand crew strike teams, 7 Water Tenders because of the loss of the use of ponds and the long turnaround time.</p>
Anticipated after 72 hours:	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:	
<ol style="list-style-type: none"><li>1) critical resource needs identified above,</li><li>2) the Incident Action Plan and management objectives and targets,</li><li>3) anticipated results.</li></ol>	
<p><b>The priority is in Division M. Containment of this division will put a complete line around the fire. The area of Div M is a north facing slope. A FOBS was put out there for 24 hour weather observations. This info will provide the window of opportunity for a firing operation.</b></p> <p><b>The above resources are necessary to ensure safe operations. The location of this fire in the BLM Wilderness Area is remote and in extremely steep terrain and heavy fuels. These are contributing factors for the resource requests.</b></p> <p><b>All containment lines must be scouted and reviewed prior to construction.</b></p> <p><b>Crews will continue to construct, prep fireline and plumb with hoselays as directed. Line construction will continue in Div. M, N and L to tie in to the Eel River.</b></p>	
41. Planned Actions for Next Operational Period:	
<p><b>The priority division is Div M. Tentative plans are to have a firing operation to complete the line around the fire. Other areas of the fire are mopping up. Suppression repair efforts are being executed in Branch I.</b></p>	
42. Projected Final Incident Size/Area: <b>14,000</b>	
43. Anticipated Incident Containment or Completion Date: <b>08/20/2014</b>	

## Incident Status Summary (ICS-209)

Incident: **LODGE COMPLEX**

44. Projected Significant Resource Demobilization Start Date: **08/15/2014**

45. Estimated Incident Costs to Date: **\$23,999,939.00**

46. Projected Final Incident Cost Estimate: **\$41,000,000.00**

47. Remarks (or continuation of any blocks above – list block number in notation):  
**Multiple hand crews are reaching their 21 day mark and are in need being rested. That is the reason for the large critical need request of Type I hand crew strike teams.**

**Large spot fires are continuing to hamper control efforts.**

**An evacuation shelter has been set up by the American Red Cross at the Leggett School, 1 School Way**

**Contingency line construction is being completed within the road network system of Hargus Road.**

**The Cahto Peak area has been prepped.**

**Areas of the fire are burning in duff and litter, which creates high potential for a reburn in the canopy. These areas of concern are being closely monitored.**

**Potential for fire spread continues to be a threat to numerous high profile areas including the conservancy owned and operated by UC Berkeley, which includes a USGS Hydrologic Bench Mark Stream for stream monitoring purposes. It is also a critical zone observatory. UC Berkeley is utilizing a \$5 million grant for continued studies in this area. BLM has numerous threatened and endangered species in this area, including a designated Wilderness Area and a Wild & Scenic River Corridor.**

**Energy Release Components (ERC) are at historically high levels. Handlines are the primary control line which is hampered by the steep terrain, potential for rolling debris to ignite fuels below working crews, and high temperatures. The average slope is 70%.**

**Drift smoke from the fire has been settling in the Ukiah Valley and could create potential health and economic impacts, including Vineyards and Pear Orchards. Reports of smoke have been received from the Santa Rosa area of Sonoma County.**

**Branch IV is a critical section, as this section of the fire is susceptible to sustained runs of fire coming out of the South Fork of the Eel River drainage. These runs, like previously experienced runs, have the high potential of crossing the control line.**

**All times represented are in Central Standard Time (CST) unless otherwise noted.**

Incident Name	Suppression Strategy	Size	MMA	Cost to Date
LODGE COMPLEX	Full Suppression	11,100	45 %	\$23,999,939.00
