28. Significant Events for the Time Period Reported (summarize significant progress made, evacuations, incident growth, etc.):

Spot fires continued to hamper control efforts in Div. L. Crews are currently containing the spot fires.

Incident: LODGE COMPLEX

29. Primary Fuel Model, or Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.):

Fuel Model: Timber (Litter and Understory)

The primary fuel model transitions to fuel model 4 on the east side of the Eel River drainage.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc.):

Structural Summary	# Threatened (up to 72 hrs)	# Damaged	# Destroyed
Single Residences	16	0	0
Multiple Residences	0	0	0
Mixed Commercial / Residential	0	0	0
Nonresidential Commercial Property	0	0	0
Other Minor Structures	0	0	0

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour timeframes:

Crews will make access to the new spot fire in Div L. Crews will continue to construct, improve line and mopup in other divisions. High potential for extreme fire behavior remains as the interior of the fire continues to burn. Divisions K, L, N, P and W have transitioned to mop-up and patrol. Divisions continue to monitor for additional spot fires.

All divisions will transition to mop up, patrol and suppression repair.

All divisions will transition to mop up, patrol and suppression repair.

All divisions will transition to mop up, patrol and suppression repair.

All divisions will transition to mop up, patrol and suppression repair.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

100% CONTAINMENT

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

Residences, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

Residences, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

Residences, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

Residences, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours:

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

Incident: LODGE COMPLEX

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Areas outside the control lines are being closely monitored for new spot fires. Mop up and suppression repair will continue on the remainder of the fire. Demob of suppression resources has begun.

41. Planned Actions for Next Operational Period:

Transition all divisions to mop up and patrol status. Continue suppression repair. Monitor Div. L for spot fires.

42. Projected Final Incident Size/Area: 14,000

43. Anticipated Incident Containment or Completion Date: 08/20/2014

44. Projected Significant Resource Demobilization Start Date: 08/15/2014

45. Estimated Incident Costs to Date: \$32,805,789.00

46. Projected Final Incident Cost Estimate: \$41,000,000.00

47. Remarks (or continuation of any blocks above – list block number in notation):

Interior islands of unburned fuel continue to be consumed.

Divisions K, L, N, P and W are being secured with aggressive mop up.

Areas outside the control lines will be closely monitored for any new spot fires.

Hose is being pulled from Division P.

Rehab is being preformed in Div. A,D, G, K, P and the Contingency Group.

Energy Release Components (ERC) are at historically high levels. The average slope is 70%.

Drift smoke from the fire has been settling in the Ukiah Valley and could create potential health and economic impacts, including Vineyards and Pear Orchards. Reports of smoke have been received from the Santa Rosa area of Sonoma County.

All times represented are in Central Standard Time (CST) unless otherwise noted.
