36. Projected Incident Activity, Potential, Movement, Escalatic operational period and in 12-, 24-, 48-, and 72-hour timefram		

Crews will secure the small amount of firing that was conducted to contain the spot fires in Div. L. Crews will 12 hours: continue to mop-up in all divisions. High potential for extreme fire behavior remains as the interior of the fire continues to burn. Divisions continue to monitor for additional spot fires.

24 hours: All divisions will transition to mop up, patrol and suppression repair.

48 hours: All divisions will transition to mop up, patrol and suppression repair.

72 hours: All divisions will transition to mop up, patrol and suppression repair.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

#### 100% CONTAINMENT

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
