27. Note any electronic geospatial data included or attached (indicate data format, content, and collection time in and labels): IAP and map products are located on the NIFC FTP website	formation

28. Significant Events for the Time Period Reported (summarize significant progress made, evacuations, incident growth, etc.):

The Evacuation Warning was lifted for all areas of the fire. Creeping and smoldering of interior islands continues in all

Incident: LODGE COMPLEX

divisions. Release of excess resources continues. Mop up, patrol, pulling hose, and suppression repair continue throughout the incident.

29. Primary Fuel Model, or Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.):

Fuel Model: Timber (Litter and Understory)

The primary fuel model transitions to fuel model 4 on the east side of the Eel River drainage.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc.):

Structural Summary	# Threatened (up to 72 hrs)	# Damaged	# Destroyed
Single Residences	0	0	0
Multiple Residences	0	0	0
Mixed Commercial / Residential	0	0	0
Nonresidential Commercial Property	0	0	0
Other Minor Structures	0	0	0

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour timeframes:

All divisions are in mop up, patrol and suppression repair. 12 hours:

Transition back to the home unit will occur. All divisions will continue to mop up, patrol and suppression repair. 24 hours:

48 hours: All divisions are in mop up, patrol and suppression repair.

72 hours: All divisions are in mop up, patrol and suppression repair.

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

#### 100% CONTAINMENT

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

Threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated 12 hours:

wild & scenic Eel River Corridor.

Threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated 24 hours:

wild & scenic Eel River Corridor.

Threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated 48 hours:

wild & scenic Eel River Corridor.

Threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated 72 hours:

wild & scenic Eel River Corridor.

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours:

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

#### Incident: LODGE COMPLEX

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Areas outside the control lines are being closely monitored for any new spot fires. Mop up and suppression repair will continue on the remainder of the fire. Demob of excess resources continues.

41. Planned Actions for Next Operational Period:

All divisions are in mop up, patrol and suppression repair.

42. Projected Final Incident Size/Area: 14,000

43. Anticipated Incident Containment or Completion Date: 08/20/2014

44. Projected Significant Resource Demobilization Start Date: 08/15/2014

45. Estimated Incident Costs to Date: \$36.907.997.00

46. Projected Final Incident Cost Estimate: \$41,000,000.00

47. Remarks (or continuation of any blocks above – list block number in notation):

Interior islands of unburned fuel continue to be consumed.

All divisions are in mop up, patrol and suppression repair.

Incident Base continues a reduction in it's size.

Meeting for the transition back to the unit is scheduled for tomorrow.

Areas outside the control lines will be closely monitored for any new spot fires.

Energy Release Components (ERC) are at historically high levels. The average slope is 70%.

The Evacuation Warning has been lifted for all areas including Dann Valley, Little Creek, Cedar Flat, Cummings/Little Red Mountain, Camp St. Michael, Hermitage, Big Bend, Camp Seabow, Elder Place, Tan Oak Park, Bald Mountain Ranch, Mad Creek and Elk Creek east of Brush Mountain.

All times represented are in Central Standard Time (CST) unless otherwise noted.
