28. Significant Events for the Time Period Reported (summarize significant progress made, evacuations, incident growth, etc.):

Unburned islands well within the fire perimeter continue to be consumed. Release of excess resources continues. Mop up,

### Incident: LODGE COMPLEX

# patrol, pulling hose and suppression repair continue throughout the incident.

29. Primary Fuel Model, or Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.):

## Fuel Model: Timber (Litter and Understory)

The primary fuel model transitions to fuel model 4 on the east side of the Eel River drainage.

Threatened and endangered species including the Spotted Owl	Marbled Murrelet and various plants	designated

48 hours: Threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

72 hours: Threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order: 12 hours:

24 hours:

48 hours:

72 hours:

### Incident: LODGE COMPLEX

#### Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

1) critical resource needs identified above,

2) the Incident Action Plan and management objectives and targets,

3) anticipated results.

Areas outside the control lines are being closely monitored for any new spot fires. Mop up and suppression repair will continue on the remainder of the fire. Demob of excess resources continues.

41. Planned Actions for Next Operational Period:

All divisions are in mop up, patrol and suppression repair.

42. Projected Final Incident Size/Area: 12,535

43. Anticipated Incident Containment or Completion Date: 08/20/2014

44. Projected Significant Resource Demobilization Start Date: 08/15/2014

45. Estimated Incident Costs to Date: \$38,197,524.00

46. Projected Final Incident Cost Estimate: \$41,000,000.00

47. Remarks (or continuation of any blocks above – list block number in notation):

Interior islands of unburned fuel continue to be consumed.

All divisions are in mop up, patrol and suppression repair.

Incident Base continues its reduction in size.

Areas outside the control lines will be closely monitored for any new spot fires.

Energy Release Components (ERC) are at historically high levels. The average slope is 70%.

The Evacuation Warning has been lifted for all areas including Dann Valley, Little Creek, Cedar Flat, Cummings/Little Red Mountain, Camp St. Michael, Hermitage, Big Bend, Camp Seabow, Elder Place, Tan Oak Park, Bald Mountain Ranch, Mad Creek and Elk Creek east of Brush Mountain.

Meeting for the transition back to the unit is scheduled for Tuesday morning at 1000 hours.

This will be the last 209 submitted by CAL FIRE IMT 4. MEU will take responsibility for submitting the 209's for the upcoming operational periods.

All times represented are in Central Standard Time (CST) unless otherwise noted.
