22. Latitude/Longitude: Latitude: 39° 46' 6" Longitude: 123° 38' 59"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description:- Principal Meridian: Mount Diablo Township: 22N Range: 16W Section: 21 1/4 Sec: of 1/4 Sec:											
25. Short Location or Area Description (list all affected areas or a reference point): West of Laytonville			26. UTM Coordinates: Zone: Easting: Northing:										
27. Note any electronic geospatial data included or attached (indicate data format, content, and collection time information and labels): IAP and map products are located on the NIFC FTP website													
28. Significant Events for the Time Period Reported (summarize significant progress made, evacuations, incident growth, etc.): Approximately 10 miles of indirect line was constructed in Div P,W,Y last night. The slop over across the Eel River slowly is													

Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

encroaching into Branch IV. Last night's firing operations made great progress. The cell phones are still effected by the damaged fiber optic cable (unrelated to this incident), this has also effected landline phones in the area. There is no ETA on it's repair.

29. Primary Fuel Model, or Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.):

Fuel Model: Timber (Litter and Understory)

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc.):

Structural Summary	# Threatened (up to 72 hrs)	# Damaged	# Destroyed
Single Residences	3	0	0
Multiple Residences	6	0	0
Mixed Commercial / Residential	0	0	0
Nonresidential Commercial Property	0	0	0
Other Minor Structures	8	0	0

31. Public Status Summary:

Number of Civilians (Public) Indicated Below:

	Previous Report Total	# this Reporting Period	Total # to-date
Fatalities	0		0
With Injuries/Illness	0		0
Trapped/In Need of Rescue	0		0
Missing	0		0
Evacuated	12	0	12
Sheltering in Place	0		0
In Temporary Shelters	0		0
Have Received Mass Immunizations	0		0
Require Immunizations	0		0
In Quarantine	0		0
Other	0		0
Total # Civilians (Public) Affected:	12	0	12

32. Responder Status Summary:

Number of Responders Indicated Below:

	Previous Report Total	# this Reporting Period	Total # to-date
Fatalities	0		0
With Injuries/Illness	0		0
Trapped/In Need of Rescue	0		0
Missing	0		0
Evacuated	0		0
Sheltering in Place	0		0
In Temporary Shelters	0		0
Have Received Mass Immunizations	0		0
Require Immunizations	0		0
In Quarantine	0		0
Other	0		0
Total # Responders Affected:	0		0

33. Life, Safety, and Health Status/Threat Remarks:

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):

Last night's cool weather helped fire crews with the firing operations. Temperatures remained in the 50's and no winds were observed. The National Weather Service has issued a Hazardous Weather Outlook for isolated thunderstorms for today.

34. Life, Safety, and Health Threat Management:

	Active?
No Likely Threat	
Potential Future Threat	X
Mass Notifications in Progress	
Mass Notifications Completed	

Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

		Active?
	No Evacuation(s) Imminent	
	Planning for Evacuation	X
	Planning for Shelter-in-Place	
	Evacuation(s) in Progress	
	Shelter-in-Place in Progress	
	Repopulation in Progress	
	Mass Immunization in Progress	
	Mass Immunization Complete	
	Quarantine in Progress	
	Area Restriction in Effect	

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour timeframes:

The fire continues to progress north. Concern for gusty outflows from any nearby thunderstorms is a concern for today. An evacuation warning will be issued to South Leggett, Cedar Flat & Dann Valley areas today. Crews will continue to construct, prep and plumb lines with hoselays as directed.

12 hours:

The fire continues to progress north. Concern for gusty outflows from any nearby thunderstorms. Weather permitting, firing operations will commence from DP 10 to Low Gap, and DP 7 to Low Gap.

24 hours:

Branch IV will commence a significant firing operation of approximately 10 miles, weather dependent.

48 hours:

The fire has potential to be pushed eastward along a south facing slope if all the weather conditions are in alignment. This would allow the fire to have a long, strong run toward the dozerline. The fuels along this ridge are brushy and create spotting conditions . This run could continue to Hwy 101. Repeaters, located atop of Cahto Mountain, consists of Verizon, CHP, AT&T, Cal Fire and multiple others could be threatened by the fire.

72 hours:

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

100% CONTAINMENT

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

24 hours: Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

48 hours: Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor.

72 hours: Commercial timberland, logging operations and equipment; designated wilderness area, Angelo Coast Elder Creek Reserve, threatened and endangered species including the Spotted Owl, Marbled Murrelet and various plants, designated wild & scenic Eel River Corridor, the town of Laytonville and Hwy 101, repeaters, located atop

Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

of Cahto Mountain, consisting of Verizon, CHP, AT&T, Cal Fire and multiple others	
Anticipated after 72 hours:	
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	5 type III strike teams of engines for support of firing operations and line construction; 1 type IV strike team of engines for structure protection in area with very narrow roads; 13 strike teams of handcrews, any type for firing operations and line construction; 5 dozers for line construction; 1 water tender; 3 DIVS; 2 C Fallers; 4 HEQB; 2 FEMP; 4 SOFR
24 hours:	5 type III strike teams of engines for support of firing operations and line construction; 1 type IV strike team of engines for structure protection in area with very narrow roads; 13 strike teams of handcrews, any type for firing operations and line construction; 5 dozers for line construction; 1 water tender; 3 DIVS; 2 C Fallers; 4 HEQB; 2 FEMP; 4 SOFR
48 hours:	10 type III strike teams of engines for support of firing operations and line construction; 1 type IV strike team of engines for structure protection in area with very narrow roads; 13 strike teams of handcrews, any type for firing operations and line construction; 5 dozers for line construction; 1 water tender; 3 DIVS; 2 C Fallers; 4 HEQB; 2 FEMP; 4 SOFR
72 hours:	15 type III strike teams of engines for support of firing operations and line construction; 1 type IV strike team of engines for structure protection in area with very narrow roads; 13 strike teams of handcrews, any type for firing operations and line construction; 5 dozers for line construction; 1 water tender; 3 DIVS; 2 C Fallers; 4 HEQB; 2 FEMP; 4 SOFR
Anticipated after 72 hours:	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. The above resources are necessary to ensure safe operations. Remote location of this fire, on extremely steep terrain and in heavy fuels, is a contributing factor. All containment lines must be scouted, reviewed prior to construction. Resources are needed to fully staff fire. Currently some divisions are unstaffed due to lack of resources. Some fireline personnel are working in multiple ICS roles. The fire is being held in check DP 2 to Low Gap. Control lines are being established DP 10 to Little Creek & Low Gap. Divisions A, G, & D are holding and looking good. Priority one is now Divisions W, Y, P & N. Drive time from ICP to DP is 2 hours.	
41. Planned Actions for Next Operational Period: Continue to construct direct handline when possible, indirect line as planned. Improve existing lines. Building of contingency lines continues and secondary contingency lines are being scouted and identified. Firing operations will be a go if weather permits.	
42. Projected Final Incident Size/Area: 14,000	
43. Anticipated Incident Containment or Completion Date: 08/20/2014	
44. Projected Significant Resource Demobilization Start Date: 08/15/2014	
45. Estimated Incident Costs to Date: \$3,950,567.00	
46. Projected Final Incident Cost Estimate: \$6,000,000.00	
47. Remarks (or continuation of any blocks above – list block number in notation): ICP located in Laytonville. Fire spread continues to be a threat to numerous high profile areas including the conservancy owned and operated by UC Berkeley, which includes USGS Hydrologic Bench Mark Stream for stream monitoring purposes. It is also a critical zone observatory. UC Berkeley is utilizing a \$5 million grant for continued studies in this area. BLM has	

Incident Status Summary (ICS-209)

Incident: LODGE COMPLEX

numerous threatened and endangered species in this area, including a designated Wilderness Area and a Wild & Scenic River Corridor.
 ERC's are historic high levels. Handlines are the primary control line which is hampered by the steep terrain, potential for rolling debris to ignite fuels below working crews, and high temperatures. The average slope is 70%.
 Additional resources have been arriving and has helped achieve short term goals. Drift smoke from the fire has been settling in the Ukiah Valley and could create potential health and economic impacts, including vineyards and pear orchards.
 All times represented are in Central Standard Time (CST) unless otherwise noted.
