INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: BUTTE INCIDENT CA-AEU-024918	2. Operational Period: Date From: 09/20/2015 Date To: 09/21/2015 Time From: 0700 hours Time To: 0700 hours																				
3. Objective(s): <u>Management Objectives</u> <ul style="list-style-type: none"> • Provide for public and emergency personnel safety at all times • Provide for timely and accurate release of incident information to the public, media, first responders and cooperators • Protect and defend structures and improvements in the fire area • Protect natural and cultural resources in the fire area • Provide a process to manage emergency resources efficiently • Ensure costs are minimized appropriately for values at risk • Ensure coordination and communication with stakeholders and cooperating agencies <u>Control Objectives</u> <ul style="list-style-type: none"> • Keep the fire: <ol style="list-style-type: none"> 1. North of the Stanislaus River 2. South of Ridge, Sutter Creek Volcano, Pioneer Creek and Mill Creek Roads and the North Fork of the Mokelumne River 3. East of Highway 49 4. West of the Stanislaus National Forest DPA boundary <i>boundary</i> 																					
4. General Weather Conditions: SEE ATTACHED																					
General Situational Awareness and Safety: <ul style="list-style-type: none"> • MAINTAIN L.C.E.S. AT ALL TIMES. Safety zones and escape routes are mandatory • Ensure all personnel maintain situational awareness • Rolling material and steep terrain. Remember to maintain good footing • Keep your hydration up by drinking water and electrolyte beverages. Avoid energy drinks • Maintain good communications with your supervisors, adjacent forces and crew members • Guard against complacency. 																					
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Approved Site Safety Plan(s) Located at:

Butte Fire Weather Forecast

FORECAST NO: 9
 PREDICTION FOR: DAY SHIFT – NIGHT SHIFT
 SHIFT DATE: September 20, 2015
 FORECAST ISSUED: September 19, 2015

NAME OF INCIDENT: Butte Fire
 UNIT: Cal Fire Amador-EJ Dorado Unit
 SIGNED: *Terry Lebo*
 Terry Lebo, Incident Meteorologist

WEATHER DISCUSSION:

Hot and dry conditions this weekend will continue into the first part of next week. On Tuesday and Wednesday a mid-level low off the Baja Peninsula will lift northeast. The low and its associated moisture will pass to far south to bring rainfall to the area but increasing southwest flow will allow for some moisture return in the area during the middle of the week.

FORECAST FOR SUNDAY:

Weather: Sunny, 0% chance of rain
 Max Temperature: Valley Bottom 88-94 Ridgetop 85-90
 Minimum Humidity: Valley Bottom 9-14% Ridgetop 6-11%
 20 ft Winds:
 Slopes/Valleys: West 3 to 6 mph.
 Ridges: West 5 to 8 mph.
 Transport Winds: South 5 mph.
 LAL 1
 Chance of Wetting Rain 0%

FORECAST FOR TONIGHT:

Weather: Clear, 0% chance of rain
 Max Temperature: Valley Bottom 62-67 Ridgetop 65-70
 Minimum Humidity: Valley Bottom 24-29% Ridgetop 21-26%
 20 ft Winds:
 Slopes/Valleys: Northwest 3 to 6 mph early then east 3 to 6 mph with gusts to 9 mph.
 Ridges: Northwest 4 to 7 mph early then northeast 3 to 7 mph with gusts to 11 mph.
 Transport Winds: South 4 mph.
 LAL 1
 Chance of Wetting Rain 0%

FORECAST FOR MONDAY:

Weather: Mostly sunny with increasing high clouds late, 0% chance of rain
 Max Temperature: Valley Bottom 87-93 Ridgetop 85-90
 Minimum Humidity: Valley Bottom 12-17% Ridgetop 9-14%
 20 ft Winds:
 Slopes/Valleys: West 3 to 6 mph.
 Ridges: West 4 to 7 mph.
 Transport Winds: South 5 mph.
 LAL 1
 Chance of Wetting Rain 0%

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 10	TYPE OF FIRE: Wildfire
FIRE NAME: Butte	OPERATIONAL PERIOD: 9/20-21/15 0700-0700
DATE ISSUED: 9/19/15	TIME ISSUED: 1900
UNIT: AEU – Amador El Dorado Unit	SIGNED: 
	Typed/printed: Don Watt FBAN

INPUTS

WEATHER SUMMARY:

Today will be sunny and the humidity will continue to decrease today with slightly higher temperatures. The temperature will be 85-94 degrees during the day and 62-70 degrees overnight. The humidity will be 7-15% during the day with a slight recovery to 21-29% overnight. Winds will be light from the west 3-6 mph slopes/valleys and west 5-8 mph on the ridges during the day. Overnight winds will be northwest 3-6 mph becoming east with gusts to 9 mph in the valleys and slopes, ridge winds will be northwest 4-7 mph becoming northeast with gusts to 11.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

The fuels in the area have returned to their cured state and combined with the weather the Probability of Ignition is 100%. Short range spotting will be minimal due to the light wind unless a column starts to develop. As a column develops it will continue to increase spotting distance, to medium range since the winds aloft are light. The smoldering fuels will continue to burn and may become active in the heat of the day. As the heavier fuels burn down watch for rolling material on the steeper slopes. The overnight winds will have higher gusts watch for ember cast in any area that may have active fire.

Fuels Advisory

CSR 7 Day Outlook

CNR 7 Day Outlook

SPECIFIC:

The Mokelumne River portion of the fire will continue to have rolling material as it continues to smolder and break loose. Post lookouts to watch for any material which may cross the containment lines. The east and south side of the fire will continue to have smoldering in the islands of unburned fuels, which may become active in the late morning to afternoon. On the south side of the fire watch for rolling material in the steeper sections of the islands. The rolling material may increase the fire activity allowing for short range spotting along Fricot City Road. Pay attention to the masticators along the road, there is a possibility for a new start with the dry conditions. The west side of the fire will continue to some smoldering material. Any area that has an understory burn with standing brush the leaves will start falling and creating a new surface layer. This new surface layer will readily burn when it is on top of smoldering material.

AIR OPERATIONS

There should be no issues for aircraft during the operational period.

SAFETY

When working in the islands make sure to post a lookout to watch for an increase in fire activity. The islands can be thick making travel difficult.

AIR OPERATIONS SUMMARY

PREPARED BY: David A. Lopez

PREPARED DATE/TIME: 9/19/15 17:00

1. INCIDENT NAME: Butte Fire	2. OPERATIONAL PERIOD DATE: 9/20/15	START TIME: 07:00	END TIME: 21:00	SUNRISE: 06:47	SUNSET: 19:02

Incident Location

County Amador State-CA Latitude N Longitude W

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

FINANCE MESSAGE

DATE: 9-20-15

Finance Section is located at both Incident Bases.

OUT OF STATE RESOURCES

- Please turn in a copy of your agreement

LOCAL GOVERNMENT

- Please contact OES prior to your 7 day rotation

TIME UNIT

- All Hired Equipment must demob out of the Calaveras Incident Base
- Federal Time Keeper is available at the Calaveras Incident Base .
- Please come by the Time Unit and start your FC-33
- Vendors please drop off your agreements to the Time Unit
- Shift Tickets need to be completed by line supervisor and turned and the end of each shift.

COMP / CLAIMS

- Report all injuries
- Property Damage must be reported to and documented
- Please report any Vehicle Damage

PROCUREMENT UNIT

- No offsite feeding is approved
- Water usage report needs to be turned in Dailey

CAL FIRE INCIDENT MANAGEMENT TEAM WATER USAGE PLAN

California Drought Emergency

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/ owner.

Fireline personnel- (During mop up operations)

- Use of Pencil Hose and Garden Nozzles with Shut-Offs.
- Use of Back pumps.
- Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely
- Locate/ Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline

Road Maintenance and Repair-

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind ect).
- Consider use of tertiary or treated water (sp)

Aviation Operations-

- Use of Gels, Foams and Retardants. Set up portable plants.
- Consider Blivits and Pencil hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops

Private Water Supplies-

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, 214 form) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

Public/ Municipal Water Supplies-

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Place on incident map.
- Use alternative or reclaimed water sources when available. Place on incident map.
- Make arrangements for reimbursement and damage claims if needed.

Management and Supervision-

- Use leaders intent and establish Water Conservation as an Management Objective.
- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Finance
- Review this check list and brief daily.

CAL FIRE INCIDENT MANAGEMENT TEAM 1

PHILL VENERIS – INCIDENT COMMANDER

DEMOBILIZATION PLAN - SUMMARY

Butte Incident
CA-AEU-024918

GENERAL INFORMATION

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition, surplus personnel are available for release if they have rested for a minimum of 8 hours.

GENERAL GUIDELINES

- **NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.**
- DEMOB list will be posted around camp and also will be added to the CAL FIRE IMT 1 online folder. (Scan QR code to read DEMOB list or <http://calfire.box.com/calfireimt1>)
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000 miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior to their scheduled DEMOB time.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call North Ops at 1-800-237-3703 immediately upon being released from the incident.

RESPONSIBILITIES

Unit Leaders will declare resources excess to their **Section Chief**. **Section Chiefs** will declare excess resources to the Planning Section Chief through the **Resource Unit Leader**. This should be done 36 hours in advance of anticipated release. Use the **Declaration of Excess Resources sheet** or **General Message Form (ICS-213)** to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the **RESOURCE UNIT** where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the **DEMOB UNIT**, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment.

RELEASE PRIORITIES

1. Organized fire departments
2. OES engines
3. Hired personnel and equipment
4. Other agencies (USFS, BLM, etc.)
5. Out of region Cal Fire forces
6. Within Region Cal Fire Forces
7. Unit CAL FIRE Forces

TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24 hour period as reset time before they depart from the incident.

TRAINING SPECIALIST MESSAGE

A Training Specialist is available for trainees on the incident. We are now located in a trailer across from check in.

All federal, state and local government agency trainees working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

We are now experiencing an increase in DEMOB'S with the incident. Please come by early to close out your training package and check out with us PRIOR to starting the DEMOB process.

To check out: bring your evaluation record, performance evaluation, qualification card and position task book.

Training Specialist

Steve Hurdle
