### **INCIDENT Weather Forecast**

FORECAST NO: 02

PREDICTION FOR: Wednesday/Wednesday Night

SHIFT DATE: September 16, 2015

FORECAST ISSUED: 9/15/2015 at 1900

NAME OF FIRE: Valley

UNIT: LNU

SIGNED:

Mark Loeffelbein (IMET)

<u>WEATHER DISCUSSION:</u> A trough of low pressure will move onshore increasing winds from the south/southwest on Wednesday. Wednesday and Wednesday night rain is likely with up to 0.1 to 0.3 inches of possible over the fire with the best chance of rain being over the west half. The increased cloud cover and moisture will lead to lower temperature and higher humidity readings. Winds will swing to the northwest early Thursday and continue from the northwest through the day. A warming and drying trend will start on Thursday and last through the weekend.

FORECAST FOR TODAY: Mostly Cloudy (70-100%).

30% Chance of Rain in the Morning...70% Chance of Rain after 1200.

Max Temperature: Valley Bottom...60-65 Ridge Top...55-60. 3-8 Degrees Cooler.

Min RH: West Side...80-90% East Side...60-70%. 20-30 Percent Higher.

20 FT Winds:

**Slope/Valleys:** South/Southwest 8 to 10 gusts to 12 mph. Ridgetops: South/Southwest 10 to 14 gusts to 20 mph.

CWR......50%

Inversion..........Inversions likely holding through the day.

OUTLOOK FOR TONIGHT: Mostly Cloudy (80-100%).

70% Chance of Rain before midnight. 30% Chance after midnight.

Min Temperature: Valley Bottom...48-53 Ridge Top...45-50.

Max RH:

Valley Bottom...90-100% Ridge Top...75-85%.

20 FT Winds:

Slope/Valleys: Southwest 8 to 12 mph...West 3 to 6 mph after 0100.

Ridgetops: Southwest 12 to 16 gusts to 25 mph...West 4 to 8 mph after 0100.

CWR.....50% before midnight...30% after midnight.

LAL.....1

Inversion.......Inversions continuing overnight.

EXTENDED OUTLOOK: Thursday...Partly Cloudy (20-40%). High: 75-80. Min RHs 35 to 45%.

Winds: NW 6 to 12 gusts to 18 mph.

Friday...Mostly Sunny (0-20%). High: 78-83. Min RHs: 20 to 30%. Winds: NW 4 to 8 mph.

### Obs from Tuesday:

RAWS	Max Temp	Min RH	Max Wind	Min Temp	Max RH	Precip
Konocti (2163')	66	34%	W 15G22	51	93%	0.00"
Hawkeye (2024')	64	37%	W 15G21	49	100%	0.00"

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 03 TYPE OF FIRE: Wildland Fire FIRE NAME: Valley OPERATIONAL PERIOD: 09-16 (0700-0700)

09-15-2015 DATE ISSUED: TIME ISSUED: 2100

UNIT: LNU SIGNED: Scott Jones

### **INPUTS**

Printed:

### WEATHER SUMMARY

Mostly cloudy, chance of rain in the early afternoon Temps: 60° - 65° RH: 60 - 70% LAL -- 1

20ft - (MPH)

Slope/Valley - S/SW 8 to 10 gusts to 12

Ridgetop -- S/SW 10 to 14 gusts to 20

### **OUTPUTS**

### FIRE BEHAVIOR

### **GENERAL:**

Yesterday's fire behavior was much more representative of the conditions that have been experienced in this area during the 2015 fire season. Mid-afternoon (3 pm) moderate fire behavior become much more active, flame lengths doubled, spot fires and pockets of critical rates of spread were observed. This was a significant change from the two previous operational periods which were influenced by the cloud cover.

Fire Behavior for Optimal Alignment Receptive Fuels

Fuel Type	ROS (Ft-MIN) Forward	ROS (Ft-MIN) Lateral	FL (Ft)	P(i)G
Grass / Low Brush	7 – 20	1 – 2	2 – 4	21%
Shrub / Pine	18 – 44	1 – 3	7 - 10	21%
Timber Understory	5 – 14	1 - 2	5 – 8	21%

Fuels that are in vertical alignment and jackpots, or during firing operations crews should expect significantly increased ROS and FL.

### SPECIFIC:

Branch XV - I

There is still the potential to find sleepers in heavier fuels.

Branch XIII Geysers

There will probably not be enough precipitation to extinguish the heavier fuels but unaided fire growth should be minimal.

Branch XI - IX

Until ground resources are able to make direct attack this area will continue to be a concern for fire growth. Branch VII - V

Heavy fuel loading with laddering into timber models and jackpots are adding to fuels that are already very receptive to sustaining fire growth. The introduction of precipitation should reduce the fire activity but will probably not be enough to extinguish the heat sources.

Branch III

Minimal fire activity expected.

### AIR OPERATIONS:

Inversions likely throughout the operational period.

### SAFETY

Wildfire environment with weakened trees, hidden areas of heat and possible footing hazards with ash root cavities. If moisture develops the slick surface will add an additional footing hazard.

### **CAL FIRE INCIDENT MANAGEMENT TEAM 3**

SAFETY MESSAGE

1. INCIDENT NAME:

2. DATE PREPARED:

3. TIME PREPARED:

Valley

September 15, 2015

1600

4. PREPARED BY: Safety Officer 5. LEADER NAME:

Curtis Brown SOF1

6. OPERATIONAL PERIOD: 9/16/2015 0700 TO 9

TO 9/17/2015 0700

### SAFETY MESSAGE

CAUTION!!! Civilians continue to occupy the fire area!!

- SLOW DOWN when driving to and from assignments even if the roads are closed to emergency personnel only. Roads may be WET and SLICK from recent rain.
- Manage yourself and those around you for excessive fatigue. TAKE BREAKS as needed.
- Use caution when working around burned or damaged structures numerous hazards still exist.
- Ensure radios are properly <u>programmed</u> for today's IAP and that crews are trained in communications procedures for the incident.
- Stay hydrated!!! Time to think = time to drink. Document rest and hydration on 214.
- ALL PPE must be worn when working on the fireline.
- Monitor FIRE BEHAVIOR very closely and adjust suppression activities accordingly. Ensure Escape Routes, Temporary Refuge Areas and Safety Zones are identified.
- HEADS UP!!! LOOKOUT for <u>SNAGS</u> when working around areas with burned trees or burned powerpoles.

3. SAFETY ZONES AND ESCAPE ROUTE:

CALFIRE INCIDENT MANAGEMENT TEAM 3 SOF1 Curtis Brown

PAGE 1

***************************************		INCIDENT RISK ANALYSIS (ICS 215A)								
Branch	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES								
ALL	DRIVING HAZARDS	Drive defensively! Expect the unexpected.								
		<ul> <li>Increase following distances. SLOW DOWN!</li> </ul>								
		Maintain Situational Awareness.								
		<ul> <li>Roads maybe SLICK from recent rains.</li> </ul>								
ALL	FIRE WEAKENED TREES/	<ul> <li>Follow Hazard Tree Safety Guidelines (IRPG p. 22).</li> </ul>								
	SNAG HAZARDS	<ul> <li>Many of the trees within the fire area and along roadways are stressed due</li> </ul>								
		to prolonged drought conditions and extended burn times.								
A Y Y		Treat burning power poles as snag hazards.								
ALL	COMMUNICATIONS	All handheld radios need to be cloned to the Incident Radio								
		Communication Plan.								
		Tactical Channels STA-1 and STA-2 are not in the CALFIRE statewide								
		load.  • Everyone on the fire receives an briefing on the plan for the day.								
ALL	FATIGUE	<ul> <li>Everyone on the fire receives an briefing on the plan for the day</li> <li>Be alert for signs of fatigue and take breaks as necessary.</li> </ul>								
		Adhere to the 2 to 1 work rest cycle.								
		Monitor incoming resources for level of fatigue.								
ALL	HYDRATION	Drinking water before, during and after each shift.								
		Be alert for signs of heat stress in yourself and others.								
ALL	CIVILIAN PRESENCE	Be aware that civilians continue to occupy the fire area.								
N		Report suspicious activity to your Supervisor.								
		Drive defensively.								
ALL	FIRE BEHAVIOR	Conduct thorough briefing for all personnel (inside rear cover IRPG).								
		• Ensure LCES in place prior to engagement (IRPG p. 7).								
		Establish adequate safety zones (IRPG p.8).								
		Use Downhill Line Checklist (IRPG p. 9).								
		• Follow "Look Up, Look Down, Look Around" procedures (IRPG p. 3-4).								
		Adhere to 10 Standard Fire Orders, Mitigate 18 Situations that Shout								
		Watch Out.								
Branch	GEYSERS	Hazardous Materials are stored and used at the Calpine facility.								
XIII		• Keep distance from Calpine infrastructure including: pipelines, vents, and								
		exhaust chimneys. Be aware of the thermal vents throughout the facility.								
		Extreme heat may be associated with these vents.								
		• Use caution when in the vicinity of this infrastructure and forecast while								
		planning control lines. Be alert for mine shafts, etc. in fire area. If found,								
		flag area, notify all line personnel, DIVS, OPSC, & SOFR, keep personnel out of area.								
		Specific Safety Message for the Geysers area.								
		Numerous vertical and horizontal mine shafts in the area.								
ALL	HAZARDOUS STRUCTURES	Follow Structure Size-up. (IRPG p.13).								
		Be aware of Propane Tank hazards.								
ALL	FIRING OPERATIONS	Conduct thorough briefing for all personnel.								
		Utilize Risk Management Process (IRPG p.1)								
		PPE to be worn by all personnel.								
		• Establish LCES prior to implementing burning operations (IRPG p. 7).								
ALL	LIMITED MEDIVAC CAPABILITY DUE	Identify personnel with Advanced Life Support capability on the line.								
	TO SMOKE INVERSION OR	Review ICS 206 for Incident Ambulance locations.								
	WEATHER CONDITIONS	Follow Medical Emergency Procedures as outlined on the ICS-206.								
ALL	POWER LINES	Follow Power Line safety guidelines (IRPG pg.24)								
		Watch out for burned out power poles.								
-		Treat all downed power lines as energized.								
Incident Na	ame:	DATE PREPARED: 9/15/15, OPERATIONAL PERIOD								
VALLE	Y INCIDENT	Prepared by: David Sargenti SOF1(F)  September 16, 2015 0700-0700								

## GEYSERS SAFETY MESSAGE

This Safety Message applies to any resource assigned to the Geysers, in addition to the Valley Incident Safety Message.

- ⇒ The Geysers is a power distribution area, assume all power lines are energized.

  <u>DO NOT CUT ANY DOWN POWERLINES.</u>
- ⇒ Steep winding UNMARKED roads are throughout the Geysers. Drive defensively with headlights on anticipating the unexpected.
- ⇒ The Geysers area contain vertical and horizontal mines shafts, look down for vertical mines and stay away from horizontal mine openings.
- ⇒ Earthquakes are prevalent throughout the Geysers, LOOK OUT for rolling rocks and take earthquake precautions if earthquakes are felt.
- ⇒ Hydrogen Sulfide (H2S) in parts per million can be hazardous, if available utilize air monitoring equipment to detect for this hazard.
- ⇒ Natural steam vents exist in many areas. DO NOT mistake steam for smoke you maybe BURNED.
- ⇒ Reclaimed hydrants are painted PURPLE do not drink water from the hydrant system in the Geysers.
- ⇒ Stay upwind of cooling towers, the steam may contain hazardous materials. Use DEFENSIVE tactics on cooling tower fires.

Contact CALPINE at 707.894.3701 regarding CALPINE equipment.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

## Information Message

Incident Public Information Line: (707) 967-4207

Incident Media Line: (916) 591-9018

#### MEDIA

<u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot
  provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

#### CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies, the media and the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

#### PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

#### LOST AND FOUND

The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

#### MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.

## VALLEY INCIDENT FINANCE SECTION MESSAGE

The OES rep is available for any questions regarding F-42's and local government time keeping.

There is a computer dedicated for E-Pay use set up in the Finance Section.

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by agency personnel / line supervisors only.

Please report all injuries and suppression damage to the Comp / Claims Unit, no matter how minor. For fire suppression damage, please include photos (if possible), a location and a brief description.

Please use the Water Use forms included in the IAP.

Any "off-site" feeding charged to the incident must be preapproved by the Logistics Section and/or Finance Section Chief. The Motel Tech Spec will have information on this.

ROGER RAINES, FSC1 TERRY EASTWOOD, DEP. FSC1

## Turn shift tickets into Finance.

Contact Andy Whitlock for questions: 707-498-7545

## Trainees;

## Have you checked in at Training?

- Training Hours are 0630 to 2000 hours in Firtch Hall just past Check-In.
- TNSP Lynn Webb's cell phone number is 707-391-6754 if you have questions.
- Bring your task book and Evaluator's contact information.
- It's a quick process that will help your assignment be successfully documented.
- We are here to help you take important steps for your career.

#### Archaeological and Historic Properties: General Fire-line Guidance for the BLM Ukiah Field Office.

Do not compromise safety for the protection and preservation of archaeological and historic properties. When possible and prudent:

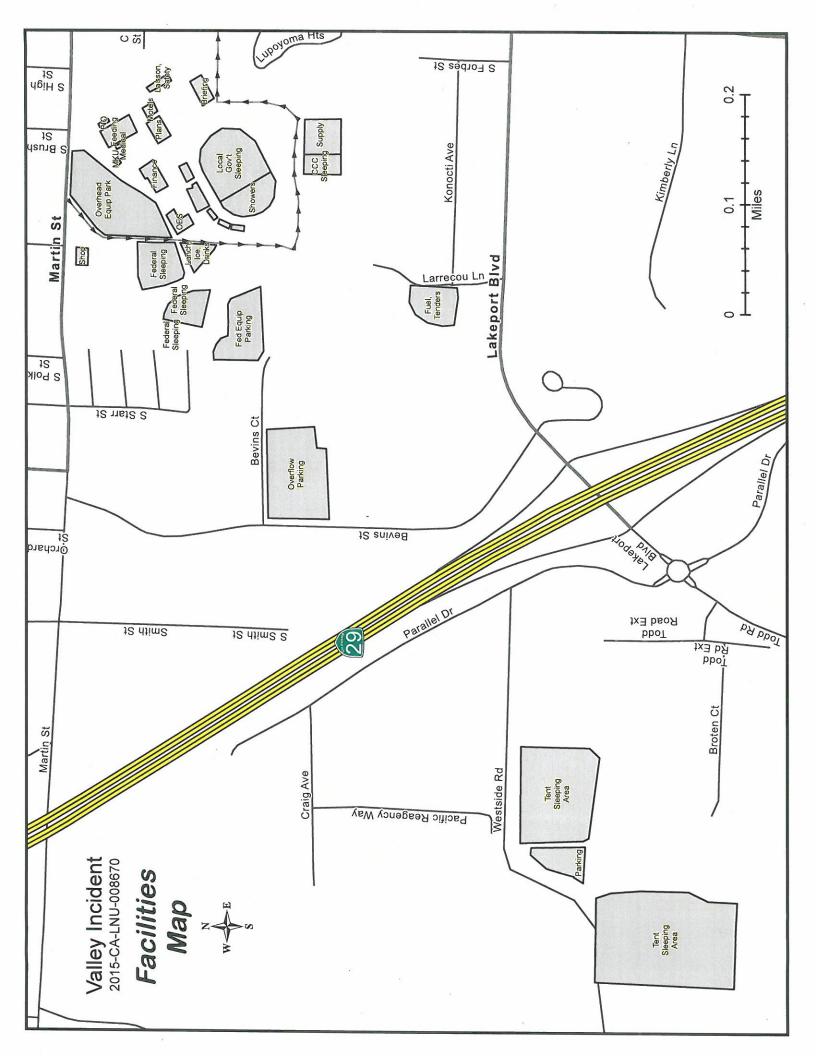

- 1. Be on the lookout for prehistoric and historic archaeological sites. These sites typically occur adjacent to streams and springs, confluences are often especially sensitive. However, sites can occur in other areas too. The most common indicators of prehistoric sites in this area (North Coast Ranges) are scatters of shiny black obsidian flakes from tool making activities and dark midden soils. Historic-era sites include homesteads that contain foundations, rock chimneys, and stone / brick-lined wells. Historic-era mining sites are possible as well.
- 2. Note, that much of the area has never been surveyed for archaeological resources and many sites out there have yet to be discovered.
- 3. If you observe archaeological resources, flagged or unflagged, attempt to avoid with ground disturbing activities altogether.
- 4. If avoidance is not possible, minimize ground disturbance. Use a hand crew rather than a dozer to remove fuels from control lines that must cross site areas if possible.
- 5. Leave all artifacts in place as some may have been intentionally placed for religious or ceremonial reasons.
- 6. Note locations of discovered resources on a map, better yet, take site coordinates with a GPS. Leave information for the archaeologist so that the sites can be relocated and protected during Fire Suppression Repair. Flag the site in red if possible.
- 7. If you encounter a burial or other human remains, cease work in that area and contact the archaeologist immediately.

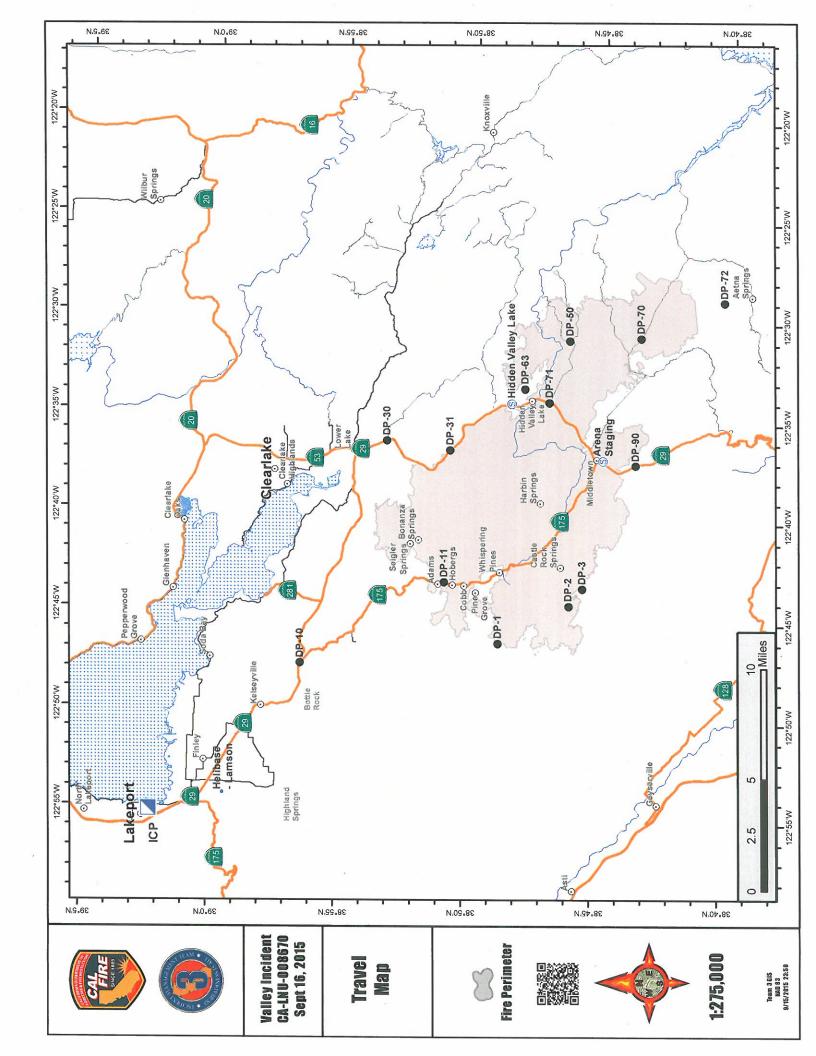

Your help preserving California's non-renewable cultural resources is appreciated.

## FC-315 INSTRUCTIONS FOR USE

#### **INITIAL AND EXTENDED ATTACK INCIDENTS:**

The Incident Commander approves replacement request based on Engine Accountability sheets or other fire equipment inventory documents approved by the requesting resource's home unit.

- If equipment and supplies are available at the incident for replacement, the request is filled at the incident host unit.
- If equipment and supplies are unavailable at the incident for replacement AND the requesting resource is
  not being immediately demobilized, the hosting unit will place a resource order for needed items through
  appropriate channels to the servicing fire cache or vendor. The order will be shipped to the incident and
  replacement will take place at the host unit.
- If equipment and supplies are unavailable at the incident for replacement, AND the requesting resource is being demobilized, an FC-315 will be completed by the host unit, 'S' number issued, signed by the authorizing official and given to the requesting resource.
- On an Initial or Extended Attack incident, where a Supply Unit has not been established, approvals are limited to the Incident Commander or Agency Representative.

#### LARGE INCIDENTS WHERE A BASE HAS BEEN ESTABLISHED:

The incident Supply Unit Leader (SPUL) will be responsible for handling incident replacement requisitions when a incident base is established. The SPUL approves replacement request based on Engine Accountability sheets or other fire equipment inventory documents approved by the requesting resource's home unit.

- If equipment and supplies are NOT available at the incident for replacement, AND the requesting resource
  is not being immediately demobilized, The Supply Unit will place a resource order for needed items through
  appropriate channels to the servicing fire cache or vendor. The order will be shipped to the incident and
  replacement will take place at the Supply Unit.
- If equipment and supplies are unavailable at the incident for replacement, AND the requesting resource is being demobilized, an Incident Replacement Requisition (FC-315) will be completed by the Supply Unit, a 'S' number issued, signed by the authorizing official and given to the requesting resource.
- Authorized approvals and signatures MUST be included on the FC-315. For large incidents where a Base
  has been established, these approvals are limited to Incident Supply Unit Leader, Logistics Section Chief,
  Incident Commander or Agency Representative.

Replacement orders will be based on approved OF-315's and must be processed within 30 days of control of incident. A copy of the FC-315 will be attached to all pay documents charged against an incident number.

(Revision 4/04)

used to certify lost, stolen or worn out property. A STD 152 Property Survey Report must be completed.

# Instructions for Use of CDF 101 Property Certification of Location or Damage

Document Number: for use as a local number system or when attached to a FC-40 document.

Location / Incident Name: Enter the CDF facility property is assigned to. If submitting to an incident base, enter the Incident Name.

Incident Number: Enter the appropriate incident number

Unit: Enter the Unit the property is assigned to. If submitting to an incident base, enter the request number of the person certifying damage example E-320, C-14 or O-355.

Region: Enter the CDF Region where the property was assigned. If submitting to an incident base, enter the CDF Region responsible for the incident.

Date: Enter the date the P.L.or D. was completed.

The following items were: Enter either 'Broken', 'Left on Line', 'Damaged' or other status of the property. Reminder, this form cannot be used in place of the STD-152 to certify Lost, Stolen, Worn Out or Damaged beyond repair property.

Date of Occurrence: Enter the date the property was broken, left on line or damaged.

Quantity: Enter the quantity for the line item.

Unit of Measure: Enter the unit of measure for the line item (example ea = each).

CDF Stock Number: Enter the PIN or stock number.

Description: Enter the description of the line item, indicate size, make, model and type. Clearly describe the item and provide adequate data to effectively identify equipment or property.

Property Number: Enter the CDF property number assigned to the line item, Capitalized or sensitive property must have their property number entered here.

Location of Items: Where is the property now (example, left on Division B night shift 8/1/04, Drop Point 2). A GPS coordinate, Station 22 or Unit Service Center may also be used to describe Location.

Remarks: Enter specific remarks here, how was the property damaged, what specifically is wrong with it.

Signature of Person Certifying Occurrence as Described:

Signature: The CDF Employee certifying the occurrence must sign.

Printed Name: Enter the printed name of the signature.

Title: Enter the title of the signature.

Date: Enter the date of the signature.

#### **Unit Supervisors Approval:**

If submitted on an incident this section must be completed by the supervisor of the property custodian. This may be the Strike Team Leader, Division Supervisor, Receiving and Distribution Manager, Supply Unit Leader, Logistics Section Chief, Agency Representative or Incident Commander.

If submitted at the home Unit this section must also be completed by the supervisor of the property custodian. This may be a Battalion or Division Chief.

Comments: Supervisors may enter comments of approval or disapproval.

Signature of Unit Administrator: Signature of Unit Supervisor reviewing the certification described.

Title: Title of the signature.

Date: Date of the signature.

Notes:

This document is NOT required if exchanging property at an incident base with the exception of capitalized or sensitive property assigned a CDF property number.

This document is required as certification when submitting an MRT to your local Service Center for replacement of property.

An OF-315 (Incident Replacement Requisition) is required as authorization to purchase fire replacement items at your local Unit. This document is required when submitting an MRT to you local Service Center for fire replacement items. A CDF-101 and/or A STD-152 are required for the certification of the status of property being requisitioned for replacement.

## **INCIDENT MANAGEMENT TEAM 3**

## **WATER USAGE REPORT**

1E:	D	ivision	/ Group:
SOURCE / VENDOR ID:	-	-	REQUEST#
I.e., Strike	e Team 1110C, Acme Water	Tenders	
WATER SOURCE LOCATION	Source (Hydrant, Pond, Tank, Other)	Gallons Used	Property Owner / Contac Number**

\*\*Please note PROPERTY OWNER AND CONTACT NUMBER! (Use reverse side if needed.)

The intent of this document is to track, record and validated the amount of water used on a incident. It's not intended to review the performance of equipment using the water on an incident.

## **INCIDENT MANAGEMENT TEAM 3**

### **WATER USAGE PLAN**

#### California Drought Emergency

The following shall be considered and implemented by all fire resources as a means to provide maximum efficiencies when utilizing water resources, while minimizing the impacts to private and public water supplies. Accountability shall be maintained for all water supplies that are utilized and care should be applied to ensure proper replacement and/or reimbursement to the supplier/owner.

#### Fireline personnel- (During mop up operations)

- Use Pencil Hose and Garden Nozzles with Shut-Offs.
- Use Back pumps.
- Use Dry Mop-up and consolidation of heavy fuels to areas where they can burn out safely.
- Locate/Relocate Firelines to lighter fuels or natural barriers when safe.
- Set up and use portable tanks in anticipation of longer transport times for Water Tenders.
- Use of foams, gels and other water enhancers.
- Evaluate need to mop up in excess of 200 feet from fireline.

#### Road Maintenance and Repair-

- Monitor and water roads only when and where needed.
- Water when most effective (evening and nights).
- Use chemical treatments when available (Magchloride, Omni bind etc.).
- Consider use of tertiary or treated water.

#### **Aviation Operations-**

- Consider use of Gels, Foams and Retardants. Set up portable plants.
- Consider using Blivits and Pencil Hose for interior mop up operations as opposed to numerous bucket drops.
- Establish and use pre-use agreements for existing and known water sources.
- Use large watershed dip sites when able. Minimize use of small, static ponds and lakes.
- Maintain accountability of water used and locations of dip sites.
- Evaluate need for interior bucket drops.

#### Private Water Supplies-

- Notify property owner as early as possible.
- Minimize usage and develop alternative water supplies when and where appropriate.
- Track usage (meter, ICS-214, IMT3 Water Usage Reports) and develop a plan to replace water.
- Make arrangements for reimbursement and damage claims if needed.

#### Public/Municipal Water Supplies-

- Notify Agency as soon as possible and request a representative to the incident.
- Identify fill areas and request metering devices. Note locations on incident map.
- Use alternative or reclaimed water sources when available. Note locations on incident map.
- Make arrangements for reimbursement and damage claims if needed.

#### Management and Supervision-

- Use leaders intent and establish Water Conservation as a Management Objective.
- Consider complexity of water use on incidents. Establish a Water Supply Group Supervisor to coordinate additional resources to support the incident needs.
- Complete the Water Usage Report daily and turn in to Situation Unit.
- Review this check list and brief daily.
