

Southern LNU Complex

INCIDENT

CA-LNU-010105

INCIDENT ACTION PLAN

OPERATIONAL PERIOD

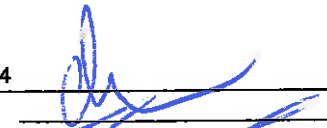

10/12/2017 0700

to

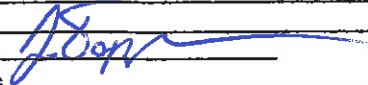

10/13/2017 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Southern LNU Complex	2. Operational Period:	Date From: 10/12/2017 Time From: 0700	Date To: 10/13/2017 Time To: 0700
3. Objective(s):			
Management Objectives			
-Fight fire aggressively while maintaining safe work practices to minimize threats to the public and emergency responders.			
-Minimize damage to structures, private property, and other improvements in the fire area.			
-Identify and protect cultural and heritage resources.			
-Protect natural and agricultural resources, as feasible, safe, and appropriate.			
-Continue to foster and maintain positive relationships with all local cooperators and stakeholders.			
-Provide timely and accurate incident information.			
-Maintain fiscal accountability, keeping costs commensurate with values at risk.			
Control Objectives			
Atlas			
-Keep the fire East of Highway 29			
-Keep the fire North of Jameson Canyon Road			
-Keep the fire West of Pleasant Valley Road			
-Keep the fire South of Pope Canyon Road			
Partrick			
-Keep the fire North of Highway 12			
-Keep the fire West of Buhman Road			
-Keep the fire East of Agua Caliente Creek			
-Keep the fire South of Pickle Canyon			
General Situational Awareness:			
-Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.			
-Watch out for downed power lines, trees, and erratic winds.			
5. Site Safety Plan Required?		Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

Fire Weather Forecast

FORECAST NO: 2
PREDICTION FOR: Thursday
SHIFT DATE: Oct 12, 2017
ISSUED: 2000, October 11, 2017

NAME OF FIRE:
UNIT:
Incident Meteorologist:

Southern LNU Complex
Lake Napa
Tom Wright *TRW*

***** RED FLAG WARNING FOR STRONG WINDS AND LOW HUMIDITIES THIS MORNING *****

DISCUSSION: Critical fire weather conditions continue today! Strong winds with low humidities will continue this morning, especially over the ridges. Winds diminish late this morning and afternoon, but it will remain very dry this afternoon.

THURSDAY:

- WEATHER: Mostly sunny. Breezy in the morning.
- WIND (20 FT):
 - Valley bottom: north 5-15 mph with gusts to 20 mph becoming northwest and diminishing to 5-10 mph.
 - Ridges: North-northeast 20-30 mph with gusts to 40 mph becoming northwest and diminishing to 5-15 mph in the afternoon.
- MAX TEMPERATURES: 70-75.
- MIN RH: 10-17%
- CHANCE RAIN: 0%

THURSDAY NIGHT:

- WEATHER: Mostly clear.
- WIND (20 FT):
 - Valley bottom: north diminishing to 2-5 mph.
 - Ridges: North-northeast 5-10 mph.
- MIN TEMPERATURES: 45-50 Valleys to 50-55 Ridges
- HUMIDITY RECOVERIES: 40-45% Ridges to 65-70% Valleys
- CHANCE RAIN: 0%

FRIDAY:

- WEATHER: Mostly sunny.
- WIND (20 FT):
 - Valley bottom: north 2-5 mph.
 - Ridges: North-northwest 5-10 mph.
- MAX TEMPERATURES: 68-73.
- MIN RH: 17-22%
- CHANCE RAIN: 0%

3-5 Day OUTLOOK (SAT-MON):

Breezy to windy with moderate to poor recoveries again Friday night into Saturday morning. Warmer and continued very dry with less wind later Saturday through Monday.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER 3	TYPE OF FIRE Wildland
FIRE NAME Southern LNU Complex	OPERATIONAL PERIOD 10-12-2017 (24 HOUR SHIFT)
DATE ISSUED 10-11-17	TIME ISSUED 2000 HOURS
	SIGNED <i>J. Heggie</i> Jon Heggie FBAN

INPUTS

WEATHER SUMMARY

RED FLAG Warning will run through this morning. Expect a north wind to linger over the fire in the morning and low relative humidity to remain throughout the day. As the high pressure moves to the east, the winds will transition and you may experience a shift by the afternoon. Cooler temperatures will aid in fire suppression but low relative humidity will have a direct impact on light flashy fuels. Overnight recovery will be fair on the ridges and good in the valleys. This fire has seen substantial growth **without** high winds and low humidity in extremely receptive fuels.

SEE WEATHER FORECAST

OUTPUTS

FIRE BEHAVIOR

GENERAL

Probability of Ignition = 75-85%

Spotting Distance= 3/4 to 1.5 mile (strong winds)

Dead Fuel Moisture 3%

Live Fuel Moisture 57%

The fire is burning in Oak woodland with a heavy grass load. Heavy pockets of brush are more promenade north aspects and contain large amounts of dead loading due to years of drought conditions. Live fuel moisture are at critical levels and the 100 hour fuels are at historic lows. Energy Release Component are above the 90th percentile and at historic highs.

SPECIFIC

Atlas

Fire growth has slowed slightly in the last operational period but moderate growth continues mainly on the north and east side of the incident. Predicated north winds have not surfaced at the time of forecast but situational awareness is imperative for all operations. In areas where wind and slope align, fire spread will be critical and reaction time to safety zones **MUST** be a part of every plan. Long range spotting may be present in the morning into receptive fuels. Down dead oaks will increase rollout potential and slope reversal in steep drainages will increase fire behavior. Look for the fire to continue to burn toward Lake Berryessa to the northeast and toward Hwy 128 south of Lake Berryessa. Expected rates of spread in the grass to be **225 ch/h** with flame lengths to be at **28 ft**. Rates of spread in the brush will be **150 ch/h** and flame lengths at **22 ft**. In wind, prone areas rates of spread and flame lengths could double predicted values.

Partrick

An influx of resources and favorable weather have aided in suppression efforts and the fire showed only moderate growth in the previous operational period. Predicted winds have not surfaced at the time of forecast but if winds develop, the fire may push to the southwest in the into Sonoma and Vineburg. Predicted high winds will remain in the area for the morning hours and high fire growth potential remains high. Division M will have the most opportunity for fire growth toward Las Amigas Rd to the south and Hwy 12 to the west. The Norrbom fire to the north may influence or impact Division N if the wind becomes aligned and line is not contained. Expected rates of spread in the grass to be **215 ch/h** with flame lengths to be at **25 ft**. Rates of spread in the brush will be **140 ch/h** and flame lengths at **22 ft**. In wind, prone areas rates of spread and flame lengths could double predicted values.

AIR OPERATIONS

- Identify where crews are in the area before drops.
- Smoke conditions may limit air operations
- High winds in the morning may make drops ineffective

SAFETY

- Spots will establish rapidly so escape routes must be short and effective. 4x flame length separation distance minimum.
- When developing strategies and tactics, safety zones and escape routes you should be evaluating potential fire behavior (worst case scenario), not just observed fire behavior.
- Firefighter and public life safety will be the top priority for all emergency responders.

CALFIRE INCIDENT MANAGEMENT TEAM 3

1. INCIDENT NAME:		2. DATE PREPARED:	3. TIME PREPARED:	
Southern LNU Complex		10/11/2017	1800

SAFETY MESSAGE

A **Red Flag Warning** also known as a Fire Weather **Warning** is a forecast **Warning** issued by the United States National Weather Service to inform area firefighting and land management agencies that conditions are ideal for wildland fire combustion, and rapid spread.

- **Trees are weakened due to fire activity. Look Up, Down, and Around.**
- **Watch for changing weather, Red Flag Warning!**
- **Monitor your hydration/nutrition intake and keep adequate supplies of each.**
- **Be sure to ALWAYS use the appropriate PPE.**
- **Drive defensively and expect the unexpected.**
- **Accountability – Know where, and whom you are working for and be on time.**
- **Be aware of changing road conditions around the fire area.**

**Seek Safety,
Aim Safety,
Follow Safety,
Ensure Safety,
Teach Safety,
Yield Safety.**

1. FIRE NOT SCOUTED AND SIZED UP

TRAINING MESSAGE

Make Your Training Count

The Incident Training Specialist is located behind the Check-In table; Hours of operation are 0630 to 2030 hours. **If you are a trainee or have a trainee working with you please stop by to register your training assignment.** It is very important that you register early!

Focus on:

- What training task have you experienced during your assignment*
- How can you take advantage of opportunities during the remainder of your assignment?*
- Document in the taskbook promptly while it's fresh in your mind.*

If you have any questions please call us:

Rob Scott TNSP 949-292-3207
Matt Seybert TNSP (T) 714-875-4040

STATUS	
Incident Start Date: 10/8/2017	Incident Start Time: 09:52 PM
Incident Type: Vegetation	Cause: Under Investigation
Incident Location: Napa County	Total Personnel:
Acreage:	Containment:

Update

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

409.5

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

Social Media

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

In readiness is all

FINANCE SECTION MESSAGE

The OES rep is available for any questions regarding F-42's and local government time keeping.

There is a computer dedicated for E-Pay use set up in the Finance Section.

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by agency personnel / line supervisors only.

Please make sure hired equipment agreements are turned into the Time Unit.

Please report all injuries and suppression damage to the Comp / Claims Unit, no matter how minor.

Please complete water use forms included in the IAP. Turn in to Comp/Claims.

Any "off site" feeding charged to the incident must be pre-approved by the Logistics Section and/or Finance Section Chief.

The Finance Section is located in the Bingo Hall.
