

# INCIDENT ACTION PLAN

# CAMP INCIDENT

CA-BTU-016737

Thursday

## OPERATIONAL PERIOD

11/15/2018 0700

to

11/16/2018 0700

# INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b> <p style="text-align: center;">Camp</p>	<b>2. Operational Period:</b>	Date From: 11/15/2018    Date To: 11/16/2018 Time From: 0700            Time To: 0700
---	-------------------------------	--

**3. Objective(s):**

Management Objectives

- Provide for and maintain public and first responder safety by utilizing the incident safety analysis process.
- Protect all critical infrastructure to include communication towers, water systems, natural gas, railroad and highways.
- It is the Unified Incident Commander's Leader's Intent to ensure transparent, timely and accurate communication at all levels of the incident.
- Be financially responsible for all management and fire suppression tactics.
- Foster and enhance community and political relationships.
- All management actions and efforts will be focused on serving, safeguarding and protecting the citizens and natural resources of Butte County.

Control Objectives

- Keep the fire East of Hwy 99 to Cohasset Rd.
- Keep the fire South of Kanaka Creek
- Keep the fire West of Oroville Quincy Hwy
- Keep the fire North of Hwy 149 and the intersection of Hwy 149 and Hwy 99

**General Situational Awareness:**

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

**5. Site Safety Plan Required?**                      Yes  No

**Approved Site Safety Plan(s) Located at:**

**6. Incident Action Plan**

**Fire Weather Forecast**

**FORECAST NO:** 7  
**PREDICTION FOR:** DAY/NIGHT SHIFT  
**SHIFT DATE:** November 15-16, 2018  
**TIME/DATE ISSUED:** November 14, 2018 2000 PDT

**NAME OF FIRE:** Camp  
**UNIT:** CA-BTU  
**SIGNED:** Aviva Braun IMET(T) and Alex Hoon Incident Meteorologist

*Handwritten signatures and initials*

**WEATHER DISCUSSION: ...VERY DRY AND GENERALLY LIGHT WINDS...**

The pattern will largely remain the same through Saturday with northeast winds each night, continuing through the morning, and switching to a light upslope/upvalley wind each afternoon. Under this pattern, we'll begin to see local variations in weather conditions based on elevation and aspect. A few details to note: the thermal belt will largely stay around 1500-2500 feet in elevation and the northeast winds will most affect the NE-SW aligned drainages each overnight period.

Looking into the future, we are looking at an uptick in breezy overnight northeasterly winds beginning Saturday night. We are also becoming increasingly confident in incoming precipitation for the end of next week. Winds will increase out of the southwest ahead of any rain.

**WEATHER FORECAST FOR TODAY: ...GENERALLY LIGHT WINDS IN THE MORNING...**

**WEATHER:** High clouds with heavy smoke.

**MAX TEMPERATURES:** 55-65°F LITTLE CHANGE

**MIN HUMIDITY:** 25-35% in the valleys, 15-25% along the thermal belt and higher.

**20-FOOT WIND:**

**SLOPE/VALLEY** - Light, downvalley/downdrainage winds in the morning, becoming upslope/updrainage 3 to 5 mph in the afternoon.

**RIDGETOP-** Northeast 10 to 15 mph with gusts to 30 mph in the morning, then becoming upslope/upvalley 5 to 15 mph with gusts to 20 mph after noon. This is especially true along NE-SW aligned drainages.

**MIXING HEIGHT:** 1500 ft AGL in the afternoon

**TRANSPORT WINDS:** Light winds

**TONIGHT: ...GENERALLY LIGHT NORTHEAST WINDS AFTER 2000...**

**WEATHER:** A few clouds with smoke inversion.

**MIN TEMPERATURES:** 45-55°F....near 33 degrees in Chico. LITTLE CHANGE

**MAX HUMIDITY:** 45-55% in the valleys, 15-25% along the thermal belt and higher.

**20-FOOT WIND:**

**SLOPE/VALLEY** - Downslope/downdrainage 2-6 mph. Except 10-15 mph with gusts up to 30 mph, along the Feather River drainage and other NE-SW aligned valleys.

**RIDGETOP** - Northeast 10-15 mph with gusts up to 20 mph.

**EXTENDED FORECAST: ... POOR OVERNIGHT RECOVERIES, THERMAL BELT AND ABOVE...**

**THURSDAY - SATURDAY:** Partly cloudy. Max temps...55-65°F. Min RH 15-25%. Light updrainage winds during the afternoon. Northeast 10 to 15 mph with gusts to 30 mph overnight and into the morning hours along the ridgelines and through NE-SW aligned drainages.

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER: 7</b>	<b>TYPE OF FIRE: Wildland Fire</b>
<b>FIRE NAME: Camp</b>	<b>OPERATIONAL PERIOD: 24hr 11/15 (0700-0700)</b>
<b>DATE ISSUED: 11/14</b>	<b>TIME ISSUED: 1800</b>
<b>UNIT: BTU</b>	<b>SIGNED: Jonathan Pangburn EBAN</b> <i>Jonathan Pangburn</i>

### INPUTS

#### WEATHER SUMMARY

**\*\*Warm and Dry, with Overnight NE Winds\*\***  
See Weather Forecast in IAP.

### OUTPUTS

#### GENERAL:

**\*\*Thermal Belt ~1,500-2,500' Overnight\*\***

Expect varying windows for direct attack versus indirect, as related to flame lengths and rates of spread, based upon forecast wind and smoke coverage. Expect daytime backing down slopes, then upslope runs. Winds will be Northeast overnight, continuing to align downslope with the Feather River and Butte Creek drainages. Spotting will continue to present a concern, especially after 2200 hours.

ERC values continue to set new record highs for the entire month of November. Dead fuel moistures remain critical. Fuel conditions are more similar to late summer. It has been 214 days since the lower elevations last received 0.5" of precipitation. Areas with most activity last two shifts have no recorded fire history: south of Goat Point (DIV E), east of Feather River (DIV CC / MM), and north of Paradise (DIV N/U).

In the absence of weather conditions outside the forecast or extreme fire behavior conditions expect:

	Max. Flame Length	Max. Rate of Spread	Spotting	Probability of Ignition
Grass	< 5' (1.5 m)	30-40 ch/hr (0.6-0.8 km/hr)	< 0.25 mile (0.4 km)	45%
Grass/Shrub Mix	< 7' (2 m)	15-25 ch/hr (0.3-0.5 km/hr)	< 0.25 mile (0.4 km)	45%
Shrub	< 10' (3 m)	50-75 ch/hr (1-1.5 km/hr)	< 0.5 mile (0.8 km)	60%
Timber Litter	5-7' (1.5-2 m)	10-20 ch/hr (0.2-0.4 km/hr)	< 0.5 mile (0.8 km)	60%
Slash-Blowdown	10-20' (3-7 m)	40-60 ch/hr (0.8-1.2 km/hr)	< 0.5 mile (0.8 km)	60%
WUI/Shrub/Timber Runs	20-30' (6-10 m)	150-200 ch/hr (3-4 km/hr)	< 0.5 mile (0.8 km)	60%

**\*\*minimum safety zone size for brush fuels is 1/3 acre (0.1 Ha) for a Strike Team of Engines.**

**\*\*minimum safety zone size for slash fuels is 1/2 acre (0.2 Ha) for a Strike Team of Engines.**

**\*\*minimum safety zone size for WUI/shrub/timber is 1.25 acre (0.5 Ha) for a Strike Team of Engines.**

#### SPECIFIC:

Branch I, VI, X: Single and group tree torching and passive crown fire activity in timber stands, especially areas of dense canopy or ladder fuels; greatest activity 1000-1700, and after 2000. Expect mostly surface fire backing and flanking into the NE wind after 2000, with short runs after rollout below or spotting. Clearcuts and thinned areas will exhibit lower rates of spread, but are highly susceptible to spotting. Thermal belt above ~1,500'; watch for spotting, especially with firing operations.

Branch II, III, XI: Expect lower rates of spread and fire activity at lower elevations. Lower POI due to shading from smoke. Greatest activity from 1200-1700 below 1,500-2,500 feet. Areas above thermal belt will increase in spotting and fire behavior with influence of overnight winds.

Areas of tactical advantage (water features, highways), normally utilized as barriers to fire spread, continue to be compromised with winds via spotting, during the entire shift. The fire has crossed a 300-foot span of Lake Oroville 3 times.

#### AIR OPERATIONS:

Improved visibility at higher elevations; little to no visibility in lower elevations. Heavy fuel consumption will continue to hinder operations with turbulence and smoke inversion.

Mixing height: 1,500 ft. AGL, Transport winds: stagnant, Sunrise 0651, Sunset 1651.

### SAFETY

Post lookouts. Escape routes and safety zones are a must with heavy timber and extremely dry fuels!  
Daytime terrain & fuels-driven fire will transition to sustained, strong winds in the evening.

# Fuels and Fire Behavior Advisory

## Northern California Geographic Area

November 9, 2018

**Subject:** Unseasonably dry, mild weather the past few weeks has amplified fuel dryness in all size classes across Northern California. Extreme fire behavior and rapid to dangerous rates of spread continue to occur with high potential for that to persist through the week of November 11<sup>th</sup>.

**Discussion:** Unseasonably mild, very dry weather in recent weeks across Northern California this fall has kept fuels very dry and been expanding drought conditions. Although reasonably plentiful rain fell across much of the Geographic Area right around the beginning of October, recent dry weather has essentially erased any fuel moisture gains from that event. Much of the time since then, a ridge of high pressure persisting out over the Pacific Ocean has mostly been keeping a very dry airmass over the Geographic Area. The weather pattern during the past 3 weeks been particularly dry with a steady series of N to E foehn wind events that have contributed significantly to fuel dryness and challenging fire control conditions. Fires have recently shown or exhibited rapid or dangerous spread rates or generate extreme fire behavior. Even some internal islands in earlier large fire perimeters (e.g. Carr Fire) have reportedly rekindled, apparently from long-held residual heat. It is not just windy areas that have experienced rapid spread, but some fuel-and-slope-driven fires have also seen unseasonable, very active fire behavior.

**Difference from normal conditions:** Northern California normally sees enough precipitation by late October to bring about fire season-ending conditions. Early October's precipitation did mitigate fire danger for a bit, but unseasonably dry weather since then and several significant foehn wind events the past few weeks have created very dry fuel conditions much later into the fall season than usual. Very low daily afternoon minimum relative humidity (RH) values of 5-12% have been common, and recent wind events have limited overnight RH recovery to less than 25% in many locations and to less than 15% in some. This has had a dramatic effect on fuel dryness and fire danger indices which are now either near seasonal record values or at core fire season severity levels. For more information about the very unseasonable environmental conditions occurring, follow these links:

[https://gacc.nifc.gov/oncc/fuelsFireDanger\\_Bi.php](https://gacc.nifc.gov/oncc/fuelsFireDanger_Bi.php)

[https://gacc.nifc.gov/oncc/fuelsFireDanger\\_Erc.php](https://gacc.nifc.gov/oncc/fuelsFireDanger_Erc.php)

[https://gacc.nifc.gov/oncc/fuelsFireDanger\\_Hundred.php](https://gacc.nifc.gov/oncc/fuelsFireDanger_Hundred.php)

[https://gacc.nifc.gov/oncc/fuelsFireDanger\\_Thousand.php](https://gacc.nifc.gov/oncc/fuelsFireDanger_Thousand.php)

<https://www.esrl.noaa.gov/psd/eddi/>

and [ftp://ftp.cdc.noaa.gov/Public/mhobbins/EDDI/CN\\_DEWS/EDDI\\_01mn.png](ftp://ftp.cdc.noaa.gov/Public/mhobbins/EDDI/CN_DEWS/EDDI_01mn.png)

### Concerns to Firefighters and the Public:

- One hour fine fuel loading across the Geographic Area remains well above normal.
- Firefighters should be prepared for potential extreme fire behavior and dangerous or otherwise rapid rates of spread at any time of day, especially during foehn wind events.
- The potential for extreme fire activity will be likely to continue until enough precipitation occurs to significantly increase fuel moisture.
- Rapid rates of spread could have a significant impact on public safety and make evacuations difficult.

### Mitigation Measures:

- All local and visiting firefighters need to remain aware of current and expected weather and burning conditions and consider such information while making strategic and tactical decisions.
- Employ LCES principles (Lookouts, Communications, Escape Routes, Safety zones).
- Review current fire potential products from Predictive Services at <https://gacc.nifc.gov/oncc/predictive/weather/index.htm> or potential Red Flag conditions from the National Weather Service at Weather at <https://www.wrh.noaa.gov/fire2/cafw/>.

**Area of Concern:** Most areas across Northern California could see active fire behavior, but the most severe conditions are in the Sacramento Valley and surrounding foothills, the western slopes of Cascade and Northern Sierra Nevada mountains, and Mendocino County southward, including all of the Bay Area. The PSA numbers associated with those areas are NC03A, NC03B, NC05 and NC07.

### **UNDERSTANDING THE PLAN**

#### **OPERATIONS BRIEFING AND TAILGATE SAFETY BRIEFINGS**

##### Watch Out

- Operational briefings not being passed down to lowest level
- Leaders intent and Objectives not clear
- Complacency during Operational Briefings and Tailgate Safety Briefings

##### Mitigations

- Leaders have the responsibility to provide complete briefings and ensure their subordinates have a clear understanding of the plan and objectives
- All personnel who have not received a briefing shall notify their direct supervisor
- Supervisors will engage their personnel in an active briefing

S  
A  
F  
E  
T  
Y

### **STEEP TERRAIN**

##### Watch Out

- Loose soil, Rolling logs, rolling rocks
- Poor footing
- Be aware of dozers and other equipment working above you

##### Mitigation

- Walk your line and identify the hazardous locations on your division and communicate to your personnel and adjoining divisions and agencies
- Reduce the number of personnel on a steep slope to the minimum required to complete the mission.
- Assess whether missions on a steep slopes are necessary to meet Incident objectives.

### **EXPOSURES**

DUE TO THE NUMBER OF COMMERCIAL AND RESIDENTIAL STRUCTURES

##### Watch Out

- Sifting in and around structure foundations
- Working in and around industrial and commercial areas
- Respiratory issues and difficulties

##### Mitigation

- Wear particulate respiratory mask
- Consider wearing your SCBA to work in these areas
- Seek medical attention and report to your supervisor
  - Below are QR Codes to CPF and CSFA exposure report forms

### AIR OPERATIONS SUMMARY ICS-220

**Incident Name and Incident Number**  
**Camp Incident CA - BTU - 016737**

**Sunrise** 650    **Startup** 720    **Cutoff** 1625    **Sunset** 1655

**General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.**  
 TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN  
 TRACK ALL DROP LOCATIONS / NUMBER OF DROPS / GALLONS DROPPED  
 ALL GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES FORMAT.  
 AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.  
 If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOB/D and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.

**Time Prepared**  
 1700

**Shutdown**  
 1725

**Helibase Information**  
 Name Oroville  
 Latitude 39° 48.78  
 Longitude 121° 62.20

**Name** Chester  
**Latitude** 40° 28.72  
**Longitude** 121° 24.15

**MEDICAL EMERGENCY PROCEDURES**

**LINE EMERGENCY: CALCORD**  
 Crew Supervisor will contact Division Supervisor with patient complaint/condition and location.  
 - Division Group Supervisor Contacts:  
 1. Closest EMS resource  
 2. Communications Unit  
 - Communications Unit Contacts:  
 1. Ground or Air Ambulance as requested.  
 2. Medical Unit (916) 622-3371  
 3. Safety  
 4. Operations  
 - Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel.  
 1. A pre-assigned tactical frequency (CALCORD) should be used for IWI and only for duration of the emergency.  
 - Communications Unit will clear the Command channel for emergency traffic as needed for duration of the need.

**CAMP EMERGENCY:**  
 Contact Communications on CALCORD or @ 530-417-4561 with patient complaint and location.  
 Communications will respond appropriate medical response.  
 Communications contacts:  
 . Medical Unit  
 . Safety  
 . Logistics  
 . Operations  
 . Crew Supervisor  
 . Comp/Claims

# CAMP FIRE INFORMATION

## CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:** Inappropriate information, Inappropriate pictures or videos, Opinions regarding the incident or policy, Endorsements of any kind.

## FEDERAL FIRE SOCIAL MEDIA POLICY

Social media posts can reflect on the professionalism of your crew, your agency and Wildland Firefighting Community. The U.S. Forest Service has enjoyed a reputation as the world leader in wildland firefighting for over 100 years. Protect our legacy with good conduct on the fireline and online. When assigned to a federal fire you are considered a federal employee under the delegation of authority. Even if you are a contractor, AD or from a partner agency we recommend you follow these ethics guidelines which apply to federal employees all the time.

### **Think before you post:**

- On official time, do official duties; if using government equipment, do government business.
- Don't use your official position/title for private gain.
- Do share government information that is publically available (such as links to Inciweb, weather reports, feature stories, official evacuation notices etc...) Do not disclose (via any medium) non-public information to further private interests or the private interests of others.
- Do not share information outside official channels that could be associated with a crime or a claim, (for instance do not post on social media about serious accidents, deaths or destroyed property).
- Do not accept compensation for statements made over social media that relate to official duties.
- Never use your official title while engaging in "political activity" (activity directed toward the success or failure of a political party, partisan candidate or partisan political group).
- Federal employees may express their opinions concerning partisan political candidates and political parties on social media when they are off duty and away from the federal workplace.
- If you have questions about content you'd like to post on social media, contact a PIO, they can help you.

## CITIZENS IN THE AREA

As citizens start to repopulate into the affected areas we would like to remind you that you are a great asset and resource ambassador of the fire service. As you come into contact with the citizens please treat the citizens as if they were the citizens of your own community.

These citizens just went through a very tragic incident. Please help curb aggressive media away from citizens who may not want to be interviewed or allowed on their private property.

## PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

For approval to post Photo and Video you have taken of the fire, please send to the PIO's incident email at: [Camp2018fire@gmail.com](mailto:Camp2018fire@gmail.com)

## LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Public Information Trailer in Base Camp.

## MAIL SERVICE

The Information staff will assist you in receiving letters and packages. Mailing address for Mendocino Complex Fire personnel to have mail sent to:

(Persons Name, O-Number)  
C/O Camp Fire Incident  
Silver Dollar Fairgrounds  
ATTN: PIO TRAILER  
2357 Fair St.  
Chico, CA 95928

## PHONE LINES

**Public Information Line: 530-538-7826**  
**Media Information Line: 530-487-4788**

**Email Updates (Sign-Up):** <https://tinyurl.com/2018campfire>

## MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

## ***TRAINING SPECIALIST MESSAGE***

**A Training Specialist is available for trainees on  
the incident.**

**All State, Federal and local government agency  
Trainees working on Position Task Books will  
need to register with the Incident Training  
Specialist in order to receive proper credit for  
your assignment.**

## **Archaeological and Historic Properties: Fireline Guidance for the Camp Incident, Butte County CA**

*Do not compromise safety for the protection and preservation of archaeological and historic properties. When possible and prudent:*

1. Be on the lookout for prehistoric archaeological sites. These sites may include seasonal camps marked by the presence of obsidian and/or basalt flakes, bedrock mortar food processing sites, and village sites that contain the above and dark midden soils. The Native American group living in the area at time of historic contact was the Maidu.
2. Be on the lookout for historic archaeological sites. These sites may include old homesteads now marked by the presence of foundations, wells, and can dumps, early sawmill sites, abandoned ditches, mining tailings, and other mining features including adits (horizontal) and shafts (vertical).
3. Look for these prehistoric and historic sites in flat areas, especially adjacent to streams and springs.
4. Known sites will be marked with red/white or red/black striped plastic flagging tape.
5. If you observe artifacts, features, or sites attempt to avoid if possible. If you can't avoid, minimize ground disturbance as much as possible, only clearing the surface to as minimal a depth as necessary. Try to go around sites with dozers rather than through them. Flag new sites if possible.
6. If you find artifacts leave them in place. Some artifacts may have been intentionally placed for religious or ceremonial reasons.
7. Note locations of discovered artifacts, features, and/or sites on a map. Better yet take a GPS reading if possible. Leave information for the archaeologist with the Situation Unit so that the sites can be relocated and protected during Fire Suppression Repair.
8. If you encounter a burial site cease work in the area and contact the archaeologist immediately.

Thanks for your help protecting California's cultural heritage.

# FIRING OPERATION CHECKLIST

Location: \_\_\_\_\_

Date: \_\_\_\_\_ Time: \_\_\_\_\_

Firing Supervisor \_\_\_\_\_

## 1. Personnel Briefing

- Objectives
- Conditions (fire environment)
- Resource assignments identified
  - Firing personnel
  - Holding forces
  - Lookouts
- Ignition plan/sequence
- Communication Plan
- Contingency Plan
- Safety issues

## 2. Go / No-Go

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted as needed
- Anchor and termination firing points identified
- Communications systems in place
- Fire behavior forecast reviewed
- Escape routes and safety zones established and made known
- Adjoining forces/Air Attack notified

## 3. Approval Prior To Firing

- Division Supervisor
- Branch Director
- Operations

## 4. Other Notifications

- Other: \_\_\_\_\_
- Other: \_\_\_\_\_

Attach Firing Operations Checklist to ICS-214
