Fire Weather Forecast

FORECAST NO: 24
PREDICTION FOR: DAY/NIGHT SHIFT
SHIFT DATE: August 18, 2018
TIME/DATE ISSUED: August 17, 2018 2000 PDT

NAME OF FIRE: Carr
UNIT: CA-SHU
SIGNED: Ryan Walbrun
Incident Meteorologist

WEATHER DISCUSSION: Heavy smoke is forecast to linger over Branch IV and V at least through early afternoon as strong high pressure continues to build. Light north winds this morning will turn southerly this afternoon as upvalley flow develops. Today will be the hottest day in over a week with triple digit heat for lower elevations. Heat related illness combined with fatigue and poor air quality will be a safety concern for firefighters working the line. It will be hard to break the inversion with strong high pressure aloft and light winds that will keep the smoke capped, so if you see signs of the inversion breaking use that as a trigger point to fall back. The very dry air aloft would allow any slope and timber fuel aligned runs to quickly become plume dominated. Forecast concerns for the night shift will be continued poor humidity recovery with winds turning light northerly for Divisions O and P after 2200.

WEATHER FORECAST FOR SATURDAY:

WEATHER: Heavy smoke. Continued hot and dry. Southerly winds developing after 1400 hours.
MAX TEMPERATURES: 92 smokey areas above 3000 ft to 103°F below 1000 ft. 2-4 degrees warmer.
MIN HUMIDITY: 9-18%. Trend of 2-5% drier.
20-FOOT WIND:
VALLEY - Downslope/downvalley 2-5 mph early becoming upslope/upvalley 3-5 mph with gusts to 10 mph after 1400.
MIDSLOPES/RIDGETOP - Northerly winds 3-6 gust 8 mph before 1100 becoming South 5-8 gusts 12-14 mph after 1400.
HAINES INDEX: 5 if breaking thru inversion **INVERSION:** Strong inversion slowly lifting after 1500

SATURDAY NIGHT:

WEATHER: Smoke settling over Branch IV and V. Otherwise clear with poor RH recovery.
MIN TEMPERATURES: 59-68°F. Little change
MAX HUMIDITY: 25-35% Trend of 5% drier
20-FOOT WIND:
SLOPE/VALLEY - Downslope/downvalley 2-5 mph after 2200. Then North 2-5 mph overnight.
RIDGETOP - Southwest 4-8 gust 12 mph through sunset. Turning Northerly 3-6 gust 8-10 mph late.

EXTENDED FORECAST:

SUNDAY THROUGH WEDNESDAY: Continued hot and dry on Sunday with highs near 100 lower elevations. A weak trough will approach later Sunday night into early next week but any changes at the surface will be subtle. Daytime highs still in the 90s with afternoon southerly winds around 10 mph. Nighttime winds will trend light northerly at night. Temperatures and humidity will be seasonable with overnight lows in the 60s. Daytime humidity around 15% with better night time recovery around 50%. Haines indices 3-4 anticipated.

SAFETY MESSAGE: Warmer and drier is a Watchout Situation. Monitor humidity trends, especially afternoon and overnight. There is also a Fuels and Fire Behavior Advisory in effect for the region. Avoid complacency and monitor for changes in the inversion as skies turn sunnier. Heat related issues may be the biggest weather related threat for mop-up operations. Focus on hydrant-3-

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 24	TYPE OF FIRE: Wildland Fire
FIRE NAME: CARR	OPERATIONAL PERIOD: 24hr 8/18 (0700-0700)
DATE ISSUED: 08/17	TIME ISSUED: 2100
UNIT: SHU	SIGNED: D. Boursier FBAN/LTAN

INPUTS

WEATHER SUMMARY

****Hotter and Drier with lighter variable winds****
See Weather Forecast in IAP.

OUTPUTS

GENERAL: Fuels and topography driven activity.

Hazards throughout the fire area include: interior green islands and slopes, ash pits, fire weakened trees, dust devils, and roll-out.

New starts will see rapid growth and establishment. Smoke columns will contribute to long range spotting.

In the absence of weather conditions outside the forecast or extreme fire behavior conditions expect:

	Max. Flame Length	Max. Rate of Spread	Spotting	Probability of Ignition
Grass	< 5' (1.5m)	40 ch/hr (1.2 km/hr)	< ½ mile (.8 km)	89%
Grass/Shrub Mix	< 5' (1.5m)	20 ch/hr (.6 km/hr)	< ½ mile (.8 km)	89%
Timber Understory	< 8' (2.5m)	10 ch/hr (.2 km/hr)	< ½ mile (1.2 km)	89%
Timber Litter	< 4' (1m)	5 ch/hr (.1 km/hr)	< ¼ mile (.4 km)	89%

****minimum safety zone size for brush fuels is ¾ acre (.3 Ha) for a Strike Team of Engines.**

SPECIFIC:

Branch I, II & III
Interior smoldering activity. Dormant heat areas may flare with air movement. Interior islands and green slopes with wind exposure alignment may see activity. Expect most activity to occur as afternoon winds increase and smoke clears. Roll-out and spotting potential across established lines. Keep alert to unburned islands, fire weakened trees, ash pits, and dust devils.

Branch IV and V
Significant smoke coverage will temper fire behavior. Keep alert to unanticipated smoke clearing that will see increase in fires' activity. Predominately surface fire spread. Expect areas with understory preheating via slash piles, fuel jackpots or topography to transition into canopy. Interior Torching and short crown runs possible. Look for areas of fuels treatment, timber harvest or previous fire activity for safety or control objectives. Roll-out and spotting potential across established lines. Anticipate locations above drainages to be susceptible spotting areas.

AIR OPERATIONS:

Most of fire area should remain smoked in for majority of burn period. Break in inversion not anticipated. Mixing height: 8,000 ft. AGL, Transport winds: SW 5-10 mph, Sunrise 0623, Sunset 2006.

SAFETY

For new starts, light flashy 1-hour fuels are the primary carrier of fire.
Rapid action is paramount before establishment in heavier fuels.

SAFETY MESSAGE

EVERYONE's a SAFETY OFFICER!!!

INCIDENT: Carr

DATE: August 18, 2018

TIME: 0700 -- 0700

MAJOR HAZARDS and RISKS: STEEP and ROCKY TERRAIN – TIGHT NARROW ROADWAYS – FATIGUE

ALL PPE – ALL the TIME – On the FIRELINE – NO EXCEPTION!

Stay hydrated and monitor for fatigue.

Hazard Trees- Identify and notify supervisor of all hazard trees. Use appropriate flagging when it can be safely done. If falling trees, stay within certified falling capabilities.

While working and driving be alert for rolling materials and rocks. Remain vigilant while driving within the fire and while traveling to and from the incident.

Ash pits are an inherent and hidden risk to firefighters that can cause serious burns and injuries. Wear all PPE. Flag hazardous areas and watch for stumps that have been smoldering for multiple days

Identify and notify immediate supervisor of any downed lines, treat as if energized.

Demob: Complete good walk arounds of vehicle prior to leaving and periodically during travel.

Boat/Water Safety: A briefing on the watercraft shall occur prior to departure. PFD's will be worn within 10' of the water line. Watercraft transportation is available after dark for emergencies only. A weather forecast shall be obtained prior to launching. Follow manufacturer recommendations for safe operation

COMPLACENCY

Being overly satisfied or comfortable with an existing situation or condition; often while unaware of some potential danger or hazard.

DON'T LET IT HAPPEN TO YOU!

Escape Route/Safety Zone Checklist

Escape Routes:

- *More than one escape route
- *Scouted – soils, vegetation, slope
- *Timed – slowest person, fatigue, dozer speed
- *Marked – flagged for day and night use

Safety Zone:

- *Survivable without a shelter
- *Natural – clean burn, water, bare soil/rock
- *Manmade – constructed sites, roads
- *Scouted for size and hazards
- *Close enough considering escape time needed

Remember and Follow:

- *The 10 Standard Fire Orders
- *The 18 Situations That Shout Watch Out
- *The Common Denominators of Fire Behavior on Tragedy Fires
- *The Downhill Line Construction Guidelines

LINE EMERGENCY REPORTING PROCEDURES

- Declare a "LINE EMERGENCY" on the COMMAND CHANNEL.
- Identify:
 - TYPE _____
 - SEVERITY _____
 - POINT OF CONTACT _____
- Identify resource needs, i.e., ambulance, hoist, REMS, Law Enforcement, etc.
- Provide COMMUNITIONS the following information:
 - CHIEF COMPLAINT: _____
 - LOCATION OF PATIENT: _____
 - TRANSPORTATION REQUEST BY: AIR _____ GROUND _____
 - DIVISION _____ CREW _____
 - POINT OF PICKUP _____
 - LAT _____ LONG _____
 - IS EMT WITH THE PATIENT: YES _____ NO _____
 - AGE _____
 - SEX: MALE _____ FEMALE _____

****ALL EMERGENCIES: Secure the area and identify witnesses for later investigation. Keep an accurate log of events****

STRUCTURE DEFENSE GUIDE

STRUCTURE TRIAGE DECISION PROCESS (S-FACTS)

SURVIVAL

- Initial Assessment: can you survive here? **If not, LEAVE NOW!**
- Is there a Safety Zone nearby? **If not, LEAVE NOW! (IRPG)**
- Do you have a viable Escape Route?
- What is the decision point at which you will leave based on fire behavior and rate of spread?
- Is there a Temporary Refuge Area (TRA) on site? **If not, LEAVE NOW!**
 - Preplanned area for immediate, temporary refuge
 - Use of fire shelter should not be necessary
 - Is there a viable Escape Route to the TRA or Safety Zone?
- Is "Prep and Go" tactic an option?
- Do you have communications with your supervisor and adjoining forces?
- If safety issues cannot be mitigated, **LEAVE NOW!**

FIRE ENVIRONMENT

- Can you survive based on current and expected fire behavior? **If not, LEAVE NOW!**
- Look up, Look Down, Look Around Indicators:
 - Fuels (characteristics, moisture, temperature)
 - What will the intensity of the fire be when it arrives?
 - How long will it take to consume the fuels?
 - Wind
 - Current speed/direction
 - Expect changing winds
 - Terrain
 - Are you in a chute, chimney, or saddle? **If yes, LEAVE NOW!**
 - Is wind in alignment with topography?
 - What is your position relative to topography?
 - Are you mid slope or on top of a ridge?
 - Atmospheric Stability
 - Fire Behavior (requires constant monitoring)
 - Spotting, crowning, sheeting, rate of spread?
 - Flame length and height?
- Other weather considerations:
 - What is the current relative humidity?
 - Is there an expected change?
 - Are thunderstorms forecasted?

ACCESS

- Is access compatible with time and distance factors necessary to utilize as an Escape Route to a Safety Zone?
 - Road surface adequate for speed necessary?
 - Adequate width?
 - Turnaround/turnouts?
 - Bridges within limits for fire apparatus?
 - Drainage ditches/culverts?
 - Steep grades?
 - Is there a safe place to spot apparatus?

CONSTRUCTION/CLEARANCE

- Does the structure have adequate defensible space, based on topography, fuels, and current and expected fire behavior?
- Can defensible space problems be mitigated quickly?
- Will building materials and yard clutter compromise safety?
- Is the construction wood siding or shake shingle roof?
- Are there vent openings, open eaves, large glass windows facing fire front, decks with vegetation below?
 - Will ember intrusion through attic or foundation vents be a problem?
- What are the contents in the garage and outbuildings?
- Are there hazardous materials present?
- Are there propane tanks, fuel tanks, or power lines?
- Is there an adequate water supply nearby?
- Are additional resources needed to mitigate issues?
- Consider "Prep and Go" or "Prep and Defend" tactics

TIME CONSTRAINTS

- Is there time for an adequate size up of the structure defense problem?
- Is there time to mitigate safety concerns?
- Is there time and adequate resources to properly prepare and defend the structure?
- Is there time to escape, utilizing Escape Routes, to a Safety Zone? **If not, LEAVE NOW!**

STAY OR GO

- Tactical decision based on the S-FACTS
- Is it safe to stay? If no, utilize "Check and Go" tactic
- Is there time to prepare the structure for defense and what will the fire behavior be when the fire gets here?
- "Prep and Go" or "Fire Front Following" tactics should be used when it is not safe to "Prep and Defend"

STRUCTURE TRIAGE CATEGORIES

Not-Threatened

- Safety Zone nearby and TRA present at structure
- Construction features/defensible space make the structure unlikely to ignite
- Residents may/may not have evacuated

Threatened Defensible

- Safety Zone nearby and TRA present at structure
- Construction features/defensible space require structure defense tactics during fire front impact
- Residents may/may not have evacuated

Threatened non-Defensible

- Lack of adequate Safety Zone nearby
- Structure cannot be safely defended
- Residents must be evacuated

ENTRAPMENT AVOIDANCE

- Are you adhering to the **10 Standard Firefighting Orders?** (IRPG)
- Have you considered the **18 Situations that Shout Watch Out?**
- Have you considered the **Common Denominators of Fire Behavior on Tragedy Fires?** (IRPG)
- Are you maintaining **LCES?** (IRPG)
- Look Up, Look Down, Look Around (IRPG)
- Have Decision Points ("Trigger Points") been established?
- Conduct Risk Management (IRPG)
 - Situational Awareness – Hazard Assessment – Hazard Control – Decision Point – Evaluate

FIRING OPERATION CHECKLIST

Location: _____

Date: _____ Time: _____

Firing Supervisor _____

1. Personnel Briefing

- Objectives
- Conditions (fire environment)
- Resource assignments identified
 - Firing personnel
 - Holding forces
 - Lookouts
- Ignition plan/sequence
- Communication Plan
- Contingency Plan
- Safety issues

2. Go / No-Go

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted as needed
- Anchor and termination firing points identified
- Communications systems in place
- Fire behavior forecast reviewed
- Escape routes and safety zones established and made known
- Adjoining forces/Air Attack notified

3. Approval Prior To Firing

- Division Supervisor
- Branch Director
- Operations

4. Other Notifications

- Other: _____
- Other: _____

Attach Firing Operations Checklist to ICS-214

CARR FIRE

CA-SHU-007808

FINANCE MESSAGE

Finance / Admin Section

- Finance Section is located in Fusaro Building
- Please come by the Time Unit and start your and update your FC-33
- Vendors please drop off your agreements to the Time Unit
- Shift Tickets need to be completed by line supervisor and turned and the end of each shift.
- All injuries need to be reported to the COMP / CLAIMS Unit
- All property Damage must be reported and documented
- Please report any Vehicle Damage this includes Rental Vehicles
- Local Government please check in with OES
- Federal Time: Timekeeper on site.
- **OFF-SITE FEEDING IS NOT APPROVED**
- Water usage report needs to be turned in daily to the COMP / CLAIMS Unit

- ***This fire is a under cost apportionment***
ALL DIVS, OPBD, STAM NEED TO DEBRIEF WITH THE COST APPORTIONMENT TEAM DAILY.
Cost apportionment is located in the trailer directly across from Fusaro Hall.

STATUS	
Incident Start Date: 7/23/2018	Incident Start Time: 1:15 PM
Cause: Mechanical Failure of Vehicle	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Shasta Unit.

MAIL SERVICE – The Information trailer will still be available for outgoing mail, but as we continue to demobilize we urge everybody to stop having packages delivered to the incident.

DEMOBILIZATION INSTRUCTIONS CARR CA-SHU-007808

DEMOB PROCEDURES

- CHECK THE DEMOB LIST EACH MORNING. YOU CAN FIND THE DEMOB LIST THROUGH THE “QR” CODE ON THE I.A.P. COVER OR ON LISTS POSTED THROUGHOUT CAMP. **ONLY REPORT TO DEMOB AT YOUR SCHEDULED TIME.** EARLY ADMITTANCE WILL NOT BE ALLOWED.
- **FLIGHT ARRANGEMENTS MUST BE MADE 48HRS PRIOR TO RELEASE.**
- REPORT TO DEMOB AT APPOINTMENT TIME TO RECEIVE A CHECKOUT FORM (ICS-221), THEN GO TO THE FOLLOWING UNITS TO OBTAIN THE NECESSARY SIGNATURES:
 - ✓ SUPPLY UNIT
 - ✓ COMMUNICATIONS UNIT
 - ✓ GROUND SUPPORT/VEHICLE INSPECTION***
 - ✓ DOCUMENTATION UNIT
 - ✓ TIME UNIT
 - ✓ TRAINING UNIT (IF APPLICABLE)
 - ✓ ACCOMMODATIONS (IF APPLICABLE)

***VEHICLE INSPECTION:

- THE DEMOB UNIT WILL INFORM YOU IF THE VEHICLE NEEDS TO BE INSPECTED.
- YOU MUST HAVE THE ICS-221 DEMOB FORM WITH YOU AT VEHICLE INSPECTION.
- A VEHICLE INSPECTION TIME WILL BE PROVIDED WHEN YOU INITIALLY ARRIVE TO THE DEMOBILIZATION UNIT.
- **DO NOT REPORT FOR VEHICLE INSPECTION PRIOR TO YOUR APPOINTMENT**

HAVE YOUR EQUIPMENT INVENTORY CARD READY WHEN HEADING TO VEHICLE INSPECTION.

RETURN THE COMPLETED ICS-221 FORM TO THE DEMOB UNIT AND TRAVEL HOME SAFE!

TRAINING **SPECIALIST MESSAGE**

OFFICE LOCATION IS IN THE FUSARO BUILDING

TRAINEE'S: PLEASE CLOSE OUT YOUR TRAINING PACKAGE **PRIOR** TO STARTING DEMOB. WHEN YOU COME TO THE **TRAINING SPECIALIST** TO **CLOSE** A FILE, YOU MUST BRING THE FOLLOWING ITEMS:

- TRAINER (EVALUATOR)
- YOUR **INITIATED** POSITION TASK BOOK IN FOR REVIEW. THE PTB MUST BE COMPLETED BY THE TRAINER (EVALUATOR)
- COMPLETED EVALUATION RECORD
- COMPLETED INDIVIDUAL PERFORMANCE EVALUATION (ICS 225)
- FORMS ARE AVAILABLE AT THE TRAINING DESK.

Dave Randolph TNSP (805) 857-4820
Jamie Heald TNSP-T (805) 990-1828

Peer Support Team Message:

CARR INCIDENT PEER SUPPORT: (916) 591-9004

The gravity of this event is large. Many of us have been impacted by the events that have occurred as well as past incidents.

A peer support team has been assembled and Peers are available at the ICP. The Peer Support contact number is (916)-591-9004, which is available 24/7.

Some of the signs and symptoms you may be experiencing include, but are not limited to:

Irritability, lack of sleep, quick to anger, withdrawal, above average tobacco use, an increase in negative coping mechanisms such as excessive alcohol and/or substance abuse. You might experience lack of appetite, isolate yourself, and various other unexplained responses to normal every day events.

You may not be experiencing these symptoms now or during this fire incident. However, you may find yourself experiencing them when you return to your home or unit. You may find yourself being triggered by a past event that has impacted you, while assigned to future incidents. A sight, sound, smell, or touch could trigger a memory that previously existed, but you may not have been aware of.

If you find yourself in this situation and need to talk to someone contact your Employee Assistance Program (EAP). EAP programs are here to help. It is important to be able to talk to someone and get stuff off your chest vs carrying this around for your career.
