

CORRECTED

Carr

INCIDENT

#CA-SHU-007808

INCIDENT ACTION PLAN

OPERATIONAL PERIOD

7/28/2018

to

7/29/2018

INCIDENT OBJECTIVES (ICS 202)

Incident Name:

Carr

2. Operational Period:

Date From:

7/28/2018

Date To:

7/29/2018

Time From:

0700

Time To:

0700

3. Objective(s):

Management Objectives

- Provide for public and emergency personnel safety at all times
- Provide for timely and accurate release of incident information to the public, media, first responders, agency administrators and cooperators
- Protect and defend property, improvements, infrastructure; economic, natural, cultural, and heritage resources in the fire area
- Identify, process, and coordinate the safe repopulation and re-entry of affected communities in an efficient and timely manner
- Foster and maintain relationships; ensure coordination and communication with all stakeholders, adjoining jurisdictions and cooperating agencies
- Manage the incident in a cost-efficient manner

Control Objectives

- Keep the fire North of Clear Creek Road
- Keep the fire South of Big Gulch
- Keep the fire East of Hoadley Peak Repeater
- Keep the fire West of Interstate 5

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds.

5. Site Safety Plan Required?

Yes No

Approved Site Safety Plan(s) Located at:

FIRE BEHAVIOR FORECAST

| | |
|--------------------|--|
| FORECAST NUMBER: 3 | TYPE OF FIRE: Wildland Fire |
| FIRE NAME: CARR | OPERATIONAL PERIOD: 24hr 7/28 (0700-0700) |
| DATE ISSUED: 07/27 | TIME ISSUED: 2100 |
| UNIT: SHU | SIGNED: //Troy Velin//  |

INPUTS

WEATHER SUMMARY

Very Hot and Dry with poor humidity recovery overnight. See Spot Weather Forecast in IAP.

Local Red Flag Warning for low RH and locally gusty winds

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels in the area range from grass in the lower elevations (cured), decadent brush in mid elevations (nearing critical), and stands of grey pine in the upper elevations and on the Northern aspects.

The topography in the fire area is steep and rugged. The drainages can be narrow and will funnel predominant winds. Ridgetops are also narrow, expect slop overs and spots on fire challenged ridgetops.

Plume domination has occurred on the fire every day for the last several operational periods. Extreme fire behavior has been observed in all areas of the fire including gusty and erratic winds. Expect spotting up to 1 mile.

Expect similar conditions today as the fire will continue to be influenced by similar weather, fuels and terrain.

SPECIFIC:

Branch I

The fire is making significant terrain and fuel driven runs to the South and Southwest towards Shasta Bally. Fire is established in the Clear Creek Drainage and will move with down canyon winds to the south, expect the largest growth to occur overnight as down canyon winds increase.

Branch II

The fire will follow terrain and move to the West towards Hoadley Peak.

Branch III

As growth to the North continues, I expect lateral movement on the West and East sides of the Branch. On the Eastside of the Branch pay attention to spotting distances as a spot across the Sacramento river drainage will threaten the communities South of Lake Shasta.

Branch IV

Fuels in this area are critically dry and receptive to spotting.

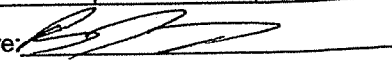

AIR OPERATIONS:

Best chances for clear air will be on the West side of the fire. Late in the afternoon may bring chances of clear air on the South side of the fire.

SAFETY

Fuels are highly receptive to spot fires, post lookouts to monitor for this. Safety Zones and Escape Routes need to be adjusted to account for rapid growth in rough terrain.

SAFETY MESSAGE/PLAN (ICS 208)

| | |
|---|--|
| INCIDENT NAME: CARR FIRE CA-SHU-007808 | Operational Period: Date From: 7/28/18 Date to: 7/28/18 Time From: 0700 Time to: 0700 |
|---|--|

Maintain LCES throughout the Operational Period
!!!! Stay diligent on work assignments and re-assess your people!!!!

MAJOR HAZARDS AND RISKS

Extreme Fire Behavior/Weather

Monitor weather for wind shifts, building columns, temperature changes, and decreased RH's throughout the day. Expect fuel and terrain driven fire, have a contingency plan with established decision points and safety zones.

Hydration/Nutrition/Fatigue

EXTREME HEAT: Drink plenty of fluids throughout the day, take tactical pauses to rehydrate and eat accordingly. Address dehydration and fatigue concerns immediately upon symptom onset, do not delay treatment for dehydration emergencies.

Situational Awareness/Accountability

Ensure Personal, Personnel, and Resource Accountability is being conducted due to extreme fire behavior and new resources arriving to the incident. Know who you are working for, make sure your assignment is clear, maintain crew integrity, and discourage freelancing.

Public in and around fire area

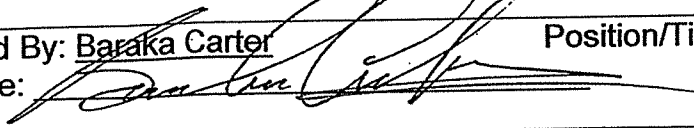

Be familiar with evacuation routes, give yourself plenty of time for escape and implement PACE due to possible delays because of heavy traffic and pedestrians around fire.

Driving

Steep, narrow, one-way, dusty roads throughout fire area. Maintain safe following distances and appropriate speed when traversing low visibility roadways. Flag unstable roads and other hazards that may be encountered while driving. Use caution and slow for uncontrolled intersections.

Mines/Hazardous Materials

Conduct thorough size up of working areas. Flag and make notifications of hazardous areas found on the line. Use caution when working around the plant on Iron Mountain.

FIRING OPERATION CHECKLIST

Location: _____

Date: _____

Time: _____

Firing Supervisor _____

1. Personnel Briefing

- Objectives
- Conditions (fire environment)
- Resource assignments identified
 - Firing personnel
 - Holding forces
 - Lookouts
- Ignition plan/sequence
- Communication Plan
- Contingency Plan
- Safety issues

2. Go / No-Go

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted as needed
- Anchor and termination firing points identified
- Communications systems in place
- Fire behavior forecast reviewed
- Escape routes and safety zones established and made known
- Adjoining forces/Air Attack notified

3. Approval Prior To Firing

- Division Supervisor
- Branch Director
- Operations

4. Other Notifications

- Other: _____
- Other: _____

Attach Firing Operations Checklist to ICS-214

Peer Support Team Message:

The gravity of this event is large. Many of us have been impacted by the events that have occurred as well as past events.

We have a peer support team activated our contact number is (916)-591-9004 which is available 24/7.

Some of the signs and symptoms you may be experiencing include but not limited to:

Irritability, lack of sleep, quick to anger, withdrawing, above average tobacco use, lack of appetite, isolation, excessive alcohol use, unexplained responses to normal every day events.

You may not be experiencing these symptoms now or during this fire incident, however you may find yourself experiencing them when you return to your home unit or home. You may find yourself on a small fire and freeze up being triggered by a past event that has impacted you. A sight, sound, smells, or touch could trigger a memory that previously existed but you may not have been aware of.

If you find yourself in this situation and need to talk to someone contact EAP they are here to help. It is important to be able to talk to someone and get stuff off your chest vs caring this around for your career.
