ACCOUNTABILITY

DYNAMIC RESOURCE UTILIZATION ACROSS, ZONES, BRANCHES AND DIVISIONS

Watch Out - Don't assume all resources are familiar with local firefighting processes

- Working with and relying on hired equipment
- Multiple fires in a small geographic area
- Not familiar with roads, terrain and local conditions affecting fire behavior

Mitigation - Maintain communication with those you supervise

- Line supervisors perform routine accountability checks on all resources assigned to you
- Remain vigilant, know your maps and ingress and egress routes
- Line Supervisors make sure everyone on the fireline gets a briefing down to the lowest level, including hired equipment operators coming in for night shift

TOPOGRAPHY

STEEP TERRAIN TO WORK IN

Watch Out - Be on the lookout for topography driven fire conditions, loose rocks and boulders throughout the incident area

- Steep slopes may cause rolling material hazards
- This terrain will cause quick, unexpected upslope fire behavior
- Significant slip hazards exist throughout the incident

Mitigation - Maintain high level of situational awareness

- Post lookouts and monitor changes in fire behavior
- Watch out in areas with steep slopes and watch your footing
- Listen for rolling rocks and boulders and yell out, "ROCK" to others around you

DRIVING

DRIVING CONTRIBUTES TO ONE OF THE LEADING CAUSES OF FIREFIGHTER FATLITIES

Watch Out - Maintain a high level of situational awareness in all driving situations and while working near roadways "SLOW DOWN"

- · Very narrow, steep roads exist throughout the fire area
- Some areas of the fire require long travel times
- Smoke conditions at times are compromising visibility

Mitigation - Drive with a high level of Situational Awareness and adjust driving techniques per your situation

- Don't "thread the needle". Don't take your vehicle where it doesn't belong
- Use spotters and back-up personnel in tight situations
- · If you're feeling drowsy, don't drive, stop and rest, change drivers or contact ground support and request a relief driver

Each Safety Message is designed for a daily Tailgate Safety discussion
