OUTPUTS

GENERAL: **GLENN ZONE**
1,000-hr dead fuel moisture at 90th percentile. Severe Drought conditions. Brush at critical fuel moisture. Increased potential with less smoke cover.

In the absence of weather conditions outside the forecast or extreme fire behavior conditions expect:

	Max. Flame Length	Max. Rate of Spread	Spotting	Probability of Ignition
Grass	5' (1.5 m)	35 ch/hr (0.7 km/hr)	< 1/3 mile (5 km)	75%

****minimum safety zone size for brush fuels is 1/2-acre (0.2 Ha) for a Strike Team of Engines.**
****minimum safety zone size for timber fuels is 1/3-acre (0.1 Ha) for a Strike Team of Engines.**

SPECIFIC:

Fires have potential for upslope runs in brush, outside of burn scars.

Doe Fire: Little to no fire growth anticipated at lower elevations.

Tatham Fire: Lower elevations minimal fire behavior observed, with potential for smoldering areas to pick up activity. Greatest potential in and south of Elder Creek.

Nighttime clearer air will continue to create conducive burning conditions ~2200-0300.

Fires potential increases over the next few shifts for upslope runs in brush, outside of burn scars. Watch for spotting through the night.

Hot Dry Windy Index around 50th percentile. This is a good representation of fire potential and resistance to control.

AIR OPERATIONS:

Mostly sunny. Improved visibility.

Mixing height: 5,000 ft. AGL. Transport winds: SE 5-10 mph, Sunrise 0634, Sunset 1950.

SAFETY

Snags and stump holes are likely in timber areas.

DRIVING

DRIVING CONTRIBUTES TO ONE OF THE LEADING CAUSES OF FIREFIGHTER FATALITIES

Watch Out - Maintain a high level of situational awareness in all driving situations and while working near roadways "SLOW DOWN"

- Very narrow, steep roads exist throughout the fire area
- Some areas of the fire require long travel times
- Smoke conditions at times are compromising visibility

Mitigation - Drive with a high level of Situational Awareness and adjust driving techniques per your situation

- Don't "thread the needle". Don't take your vehicle where it doesn't belong
- Use spotters and back-up personnel in tight situations
- If you're feeling drowsy, don't drive, stop and rest, change drivers or contact ground support and request a relief driver

FATIGUE

FATIGUE MAY COMPROMISE SAFETY!

Watch Out - Be on the lookout for signs of fatigue - look out for one another

- Chronic feelings of exhaustion, feeling "spacey."
- Impaired decision-making and judgment • Low motivation • Moodiness.
- An inability to pay attention and short-term memory problems, confusion.
- Slowed reflexes and responses.

Mitigation - Proper nutrition reduces fatigue

- Eat foods, which provide steady energy • limit sugary, fatty, fried foods.
- Hydrate - proper hydration prevents fatigue.
- Manage work rest ratio while performing work.
- Take full advantage of time off line to rest.

TOPOGRAPHY

STEEP TERRAIN TO WORK IN

Watch Out - Be on the lookout for topography driven fire conditions, loose rocks and boulders throughout the incident area

- Steep slopes may cause rolling material hazards
- Downhill line construction with potential slope reversal
- Significant slip hazards exist on steep slopes throughout the incident

Mitigation - Maintain high level of situational awareness

- Post lookouts and monitor changes in fire behavior
- 10's & 18's
- Listen for rolling rocks and boulders and yell out, "ROCK" to others around you

HIRED EQUIPMENT FIRELINE SAFETY MESSAGE

To prevent accidents and injuries to personnel when working with hired equipment on a fire assignment.

CAL FIRE requires annual firefighter safety training for all operators of equipment hired for fireline and/or suppression repair assignments. Specific requirements are outlined in the Fire Service Training and Education Program (FSTEP) Fireline Safety Awareness for Hired Vendors curriculum, approved by the Office of the California State Fire Marshal, State Fire Training Program. Each operator who successfully completes the required annual training is issued a course completion card valid for one year from the class completion date (due to COVID 2019 & 2020 cards are accepted). Operators shall retain this course completion card, and present it to incident personnel upon request. Incident personnel shall verify that all operators operating equipment under an EERA have a copy of the safety training completion card in their possession.

- **Driver's License**

- **All operators** of vehicles covered by the EERA must possess a current driver's license appropriate for the type of vehicle being operated. Operators of any motor vehicle or combinations having a Gross Vehicle Weight Rating (GVWR) of more than 26,000 lbs. must have a Commercial Driver's License (with any/all endorsements required by law), valid for the State of California.
- **Drivers of hired equipment** are not exempt from the limitations on driving hours or the logbook requirements of the Federal Motor Carrier Regulations

- **PPE Standards and Requirements for Equipment Operators**

- **Operator personal protective equipment** (PPE) shall comply with applicable Cal/OSHA requirements and the following regulatory standards.
- **Required PPE**
 - One hard hat, one set of goggles, one pair of gloves, boots lace-up minimum 8" leather lug-type soles in good condition, one flashlight (for night operations), one quart drinking water per hour per person, nomex shirt, trousers, and face shroud: Cal/OSHA approved, one fire shelter: USFS approved, one radio, refer to form FC-100R for minimum radio specifications. **Supervisors shall confirm with hired equipment operators that radios are operating properly to maintain communication during assigned shifts.**

- **Safety Inspections**

- **All privately-owned vehicles** requiring commercial drivers' licenses and with 26,001 lbs or greater GVWR, or at the discretion of the CAL FIRE Hired Equipment Coordinator, under agreement with CAL FIRE shall be **safety-inspected annually**. CAL FIRE personnel shall verify this inspection has occurred prior to hire each year. This includes California Special Equipment licensed vehicles, commercially licensed vehicles, and vehicles registered in other states. Proof of Inspection under the Biennial Inspection of Terminals (BIT program) is not acceptable. CAL FIRE shall accept an inspection as valid for one year only. An inspection date greater than twelve months' prior shall be rejected.
- **NOTE: Each operator who successfully completes the required annual training is issued a course completion card valid for one year from the class completion date (due to COVID 2019 & 2020 cards are accepted).**

Suppliers are not allowed to work operators for 24-hour shifts and must have the appropriate number of relief operators for each piece of equipment to meet the agreement needs. Line supervisors ensure 12-hour shift exchange takes place.

If you have any questions, contact the Equipment Technical Specialist (EQTS) or the CAL FIRE Statewide Hired Equipment Coordinator.

RE: Virtual Finance Support

If you are assigned to a CAL FIRE managed incident, you have noticed that there is no “federal” time unit on site. We have developed a virtual finance section to provide you with your invoices/time sheets. We will need for you to **scan and email** your documents to the R5.CalFire.Support@firenet.gov email address. (If you do not have a “scanning” app on your phone and/or computer you may visit the clerical trailer. If no clerical trailer is available check in with the Finance Section for assistance.) In the subject line enter:

TIME - Resource # - Company/Person Name – Attachment description - Fire Name/Number

Contract Crew/Equipment:

We need for you to send us the following information (even if you have submitted it to the CAL FIRE finance unit):

- Contact name, phone number, and email for on-site “leader”
- Resource Order
- Contract (Pages 1-2 and any additional pages referencing equipment/resource information)
- Crew Manifest
- Inspection (if one was done)
- Shift Tickets (signed by you and your incident supervisor) / CTRs (signed by your incident supervisor)

Administratively Determined (AD) Resources:

We need for you to send us the following information:

- Contact phone number and email
- Resource Order
- Casual Hire Form
- CTRs (signed by your incident supervisor)

Federal Employees:

As of right now, we are not planning to create OF-288s for Federal “regular” employees. Each of you can utilize your CTRs as your backup documentation for submitting your time sheets.

IF, however you require an OF-288, we will do our best to accommodate your needs. If you are claiming Hazard Pay, just like always, you must provide a justification for the claim (“H=Hazard”) is NOT enough. Use “action verbs” to explain what/why you are claiming the hazard.

WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a “Courtesy Email” 1-2 days prior to make sure all your documents have been received.
- Submit all time documentation (including travel home) ahead of demob.
- Send an email the morning of your demob to the Support email so the demob process can be started from the virtual finance group.

EMAIL: R5.CalFire.Support@firenet.gov

Please **do not wait** until the end of your assignment to get us your information. Since we are virtual, the process will take additional time.
