CZU Lightning Fire Weather Forecast

FORECAST NO: 1

PREDICTION FOR: Thursday Day and Night

SHIFT DATE: 8/20 0700 to 8/21 0700 FORECAST ISSUED: 8/19/2020 at 1900

NAME OF FIRE: CZU Lightning

UNIT: CA-CZU

SIGNED: Alex Hoon Incident Meteorologist

WEATHER DISCUSSION:

...HOT, DRY AND BREEZY THROUGH FRIDAY...

Slight cooling is expected for today, although temperatures remain above normal with abnormally very dry conditions over most of the fire area. Breezy north-northwest winds will continue today over the fire through tonight and into Friday. The only exception will be a shallow marine layer right along the coast below 1000ft. Expect to see poor recoveries tonight for most of the fire area around 15-20% in the thermal belts above 1500ft. Some relief is expected by Friday afternoon as a deepening marine layer is expected to bring higher humidity into the weekend. Lighter winds are expected Saturday and Sunday.

WEATHER FORECAST THURSDAY:

WEATHER: Sunny with smoke.

TEMPERATURES: Highs 80s and low 90s... except near 70 degrees along the coast.

HUMIDITY: 10-15%... except near the coast around 40%.

20 FT WINDS:

ABOVE 1500 ft - North-northwest 10 mph with gusts to 20 mph.

BELOW 1500 ft - North-northwest 5-10 mph with gusts to 15 mph.

STABILITY: Marine layer near 1000ft along the coast. HAINES 5 above 1500ft level.

THURSDAY NIGHT:

...VERY DRY OVERNIGHT THERMAL BELT...

WEATHER: Smoky skies. Otherwise clear.

TEMPERATURES: Overnight lows 70s above 1500ft... 60s below 1500ft

HUMIDITY: above 1500ft near 15-20%... except near 60% near the coast.

20 FT WINDS:

ABOVE 1500ft - North-Northwest 10-15 mph with gusts to 25 mph.

BELOW 1500ft - North-Northwest 5-10 mph with gusts to 15 mph.

EXTENDED FORECAST: ...II

...INCREASING MOISTURE LATE FRIDAY... STEADY NORTH WINDS...

FRIDAY AND FRIDAY NIGHT: Mostly sunny. Max temps...80-90°F. Min RH 25-35%. North-Northwest 10-15 mph with gusts to 25 mph. Min Temps... 60s/70s.

SATURDAY AND SUNDAY: Mostly sunny with some coastal fog. Max temps...80-90°F. Min RH 30-40%. Light north winds 5 mph. Min Temps... upper 60s/70s.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 1

FIRE NAME: CZU LIGHTNING

DATE ISSUED: 8/20/2020

UNIT: CA-CZU-5205

TYPE OF FIRE: Wildfire

OPERATIONAL PERIOD: 8/20/20 – 8/21/20

TIME ISSUED: 0600

SIGNED: Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

Temperatures will cool slightly today but remain above average for the area. The marine layer will struggle to reach inland areas, limiting humidity recovery for the fire area except along the coastline. Winds will continue to be the concern with steady North West winds 10-15 MPH with gusts possible to 20 to 25 MPH on the ridges. Night time conditions will have temps lowering to the low to mid 60's with humidity rising to 50% along the coastline and limited recovery only reaching 15 to 20% for all other areas, with persistent winds at 10-15 MPH gusting to 25 MPH from the North.

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fire is burning in heavy timber mix of Hardwoods and Coastal Redwoods along with thick litter and some intermixed grass and brush. The region is experiencing moderate to severe drought with rainfall for the area at about 50% of average for the previous rain season. Fuel moistures in the brush are near critical levels, and the 100 hour and 1000 hour fuels moistures are around 7%. The probability of ignition is 85% to 97% depending on fuel model.

SPECIFIC:

Below 1500 foot elevation: The fire will be active through most of the operational period. A coastal influence may affect the activity right along the coast but will have minimal influence away from that. The fire is primarily in Coastal Redwoods and thick timber litter. These fuels will burn readily at this point and can produce large ember cast with the forecasted winds. Single and group tree torching is possible and may experience high rates of spread when aligned with slope and winds.

Above 1500 foot elevation: The fire will remain active for the entire operational period due to little to no humidity recovery. The fire is primarily carried by the lighter fuels, brush and litter. Single and group tree torching will continue, causing spotting of ½ to 1 mile. The fuels are very receptive to fire brands and will spread easily especially when fanned by the predicted winds. When aligned with slope and winds, fire activity can quickly transition to short crown runs.

AIR OPERATIONS: Thick smoke over the southern end fire area will limit air operations especially in lower valleys, while the North end of the fire should have clear air most of the day.

SAFETY

- Escape routes and safety zones are a must especially with heavy timber and extremely dry fuels and observed active fire behavior! Don't let down your guard down.
- Snags/ trees can burn in the upper portions. Look up! Just because there is no fire in the lower trunk doesn't' mean it safe.
- Fire in drainages can dislodge rocks and burning objects.

SAFETY MESSAGE

ac-count-a-bil-i-ty

1. the obligation of an individual or organization to account for its activities, accept responsibility for them, and to disclose the results in a transparent manner.

- Take all COVID 19 precautions.
- Trees are weakened due to fire activity. Look Up, Down, and Around.
- Make sure everyone gets a briefing!
- Monitor your hydration/nutrition intake and keep adequate supplies of each.
- Understand the plan for the day and your individual role within the plan.
- Drive defensively and expect the unexpected.
- · Civilians are still present within the fire areas.
- There are power and utility lines down around the fire areas. Take appropriate action when encountering these hazards.

SNAG (Hazard Tree) SAFETY:

- Size up snag hazards in work area
- Never become complacent
- Always look up
- Get weather reports
- Scout out parking, work areas, and safety zones
- Advise co-workers of known hazards
- Face your hazards and take appropriate action
- Examine work area for other hazards
- Take extra caution around heavy equipment
- You are responsible for your own safety

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/	MITIGATIONS/WARNINGS/REMEDIES					
ALL	COVID 19	 Wear mask when in camp and around the public. Wash/sanitize hands often. Maintain social distancing when applicable. Complete daily COVID screening process. 					
ALL	WILDLAND URBAN INTERFACE	 Review IRPG (pg. 12-16) Scout driveways prior to committing to them. Triage structures and placard as necessary. 					
ALL	DRIVING HAZARDS	 Watch your speeds. Drive defensively! Expect the unexpected. Watch for road degradation and dusty conditions. Be aware of debris in the roadways from rollout and suppression operations. 					
ALL	WEATHER	 Be aware of changing wind conditions. Watch for changing weather conditions. 					
ALL	FIRING OPERATIONS	 Ensure adequate personnel and resources are available for the operation. Follow the Fire Operations checklist. Utilize Risk Management Process IRPG (p. 1). 					
ALL	POWER LINES	 Be cautious of down lines. Make appropriate notifications if found. 					
ALL	HYDRATION	 Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others. 					
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	 Follow Hazard Tree Safety Guidelines (IRPG p. 22). Many of the trees within the fire area and along roadways are stressed due to drought conditions and burn times. 					
ALL	CIVILIAN PRESENCE	 Watch for civilian traffic. Be aware that civilians continue to occupy the fire area Watch for residents in and around the area. 					
ALL	COMMUNICATIONS	 Check the communication plan for frequency assignments. Be clear and concise when talking on the radio. Use human repeaters as needed. 					
ALL	BRIEFINGS	 Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214. 					
ALL	LCES	Ensure that LCES is being utilized.					
ALL	AIRCRAFT AWARENESS	 Be aware of rotor wash when working near helicopters. Understand that hazardous trees may react to helicopters overhead. Monitor assigned aircraft frequencies. 					
ALL	HEAVY EQUIPMENT	 Be aware of heavy equipment working in the area. Be watchful around heavy equipment, they may not see you.

TRAINING SPECIALIST MESSAGE

TRAINEES:

A Training Specialist is on site but currently working remotely, trainees will be required to submit all documentation to the training specialist electronically. Please utilize the QR codes below during the check-in process and prior to the demob process.

- During the check-in process, you will need to take photos of your valid incident qualification card and position task book cover page and upload using the QR code.
- During the close-out process, you will need to take photos of your ICS 225, Evaluation Record and Verification/Certification page (if being recommended for qualification), and upload using the QR code.

Please ensure all forms and position task books are filled out completely with all signatures in place prior to uploading. Your close-out packet will be emailed to you electronically and hard copies will be mailed to the training officer listed during the check-in process.

CHECK-IN

Forms are available at the Training Desk if needed

Justin Voyson TNSP 661-547-8629

CLOSE-OUT

INCIDENT MANAGEMENT TEAM 3

DEMOBILIZATION MESSAGE CZU Lightning CA-CZU-005205

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

	STATUS
Incident Start Date: 8/16/2020	Incident Start Time: 3:15 PM
Cause: Lightning	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy here.

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Santa Cruz Unit.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

FINANCE SECTION

MESSAGE

CAL FIRE personnel and equipment time will be located at the Community Center.

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by agency personnel / line supervisors only, as well as EERAs.

Procurement and Comp/Claims will be located offsite and phone numbers for them will be located at the TIME Unit.

Report all injuries and suppression damage to the Comp/Claims Unit, no matter how minor.

OES will be located by the Communications Unit.

Any Local Unit, Local Government that will be Assistance by Hire please see the TIME Unit.

ROGER RAINES, FSC1 /

TERRY EASTWOOD, DEP. FSC1/2

PATRICK AGUADA, DEP. FSC1 (T)
