WEATHER DISCUSSION: ...ON SHORE MOISTURE STARTING TO INCREASE...

We are starting to see a bit higher moisture as the marine layer rebuilds along the coast and gradually pushes inland. The marine layer will become a little deeper, reaching to around 1000ft elevation. The higher elevations above 1500ft will still be warm and dry today with steady north-northwest winds. As for tonight, the thermal belt will still remain above that 1000ft elevation, with humidity in the 25-35% range under steady north-northwest winds. The marine inversion will continue to deepen Saturday into Sunday with increasing moisture at all elevations. Hurricane Genevieve off the Baja Coast will bring up some moisture Sunday night into Monday, along with a slight chance of thunderstorms.

WEATHER FORECAST FRIDAY:

WEATHER: Mostly sunny with heavy smoke. Some coastal fog possible in the morning.

TEMPERATURES: Highs in the 80s... except 70s along the coast. **DOWN 5 DEGREES**

BELOW 1500 ft – North-northwest 5-10 mph with gusts to 15 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 2	TYPE OF FIRE: Wildfire
FIRE NAME: CZU LIGHTNING CA-CZU-5205	OPERATIONAL PERIOD: 8/21/20 – 8/22/20

INPUTS

WEATHER SUMMARY

The marine layer will reach further inland and will bring temps down a few degrees, and the humidity will be 10% wetter. Winds will continue to be the concern with steady North West winds 10-15 MPH with gusts possible to 20 to 25 MPH on the ridges. Nighttime conditions will have less wind and much more recovery at the lower elevations. Upper elevations will continue to be fairly dry but will have some recovery as well.

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fire is burning in heavy timber mix of Hardwoods and Coastal Redwoods along with thick litter and some intermixed grass and brush. The region is experiencing moderate to severe drought with rainfall for the area at about 50% of average for the previous rain season. Fuel moistures in the brush are near critical levels, and the 100 hour and 1000 hour fuels moistures are around 7%. The probability of ignition is 60% within the marine layer and 80% for upper elevations

SPECIFIC:

Below 1500 foot elevation: The marine layer will be over the fire for these areas. The fire activity should be somewhat moderated by this rise in humidity in the lighter fuels, but the heavier fuels will continue to carry fire due to the time lag it takes for the fuel moistures to be affected. The thick timber litter in the Coastal Redwoods will hold heat and contribute to fire spread as well. Single tree torching is still possible and may increase rates of spread when aligned with slope and winds.

Above 1500 foot elevation: The fire has stayed active in the upper elevations for the past 4 days continuously due to above average temperatures and drying. Expect this to continue for most of the operational period. The fire is primarily carried by the lighter fuels, brush and timber litter. Single and group tree torching will continue, causing spotting of ½ to 1 mile. The fuels are very receptive to fire brands and will spread easily especially when fanned by the predicted winds. When aligned with slope and winds, fire activity can transition to short crown runs.

AIR OPERATIONS: The entire fire will under an inversion early, but the North zone should clear out mid-morning. The southern zone will be limited for air operations due to inversions and smoke especially in lower valleys

Sunset: 19:53 Sunrise: 06:29

SAFETY

- Safety zones are essential as demonstrated by yesterday's fire activity.
- In the heavy timber safety zones are limited, if the hard black is used for safety zones watch out for snags.
- Snags and stump holes are likely in timber areas.

DEMOBILIZATION MESSAGE

**CZU Lightning
CA-CZU-005205**

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

STATUS	
Incident Start Date: 8/16/2020	Incident Start Time: 3:15 PM
Cause: Lightning	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Santa Cruz Unit.

MAIL SERVICE – Due to the complexity of the incident, mail service will not be available.

FINANCE SECTION MESSAGE

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by agency personnel / line supervisors only, as well as EERAs.
