INCIDENT ACTION PLAN CZU LIGHTNING

CA-CZU-005205

Thursday

OPERATIONAL PERIOD

8/27/2020 0700
to
8/28/2020 0700

the *Journal of Applied Behavior Analysis* (1974), and the *Journal of Experimental Psychology* (1975).

There are a number of reasons why the *Journal of Applied Behavior Analysis* is the most widely cited journal in the field. First, it is the only journal in the field that is published quarterly.

Second, it is the only journal in the field that is published by a professional organization, the Association for Behavior Analysis.

Third, it is the only journal in the field that is published by a publisher that is known for its high quality of publication.

Fourth, it is the only journal in the field that is published by a publisher that is known for its high quality of editing.

Fifth, it is the only journal in the field that is published by a publisher that is known for its high quality of circulation.

Sixth, it is the only journal in the field that is published by a publisher that is known for its high quality of distribution.

Seventh, it is the only journal in the field that is published by a publisher that is known for its high quality of advertising.

Eighth, it is the only journal in the field that is published by a publisher that is known for its high quality of subscription.

Ninth, it is the only journal in the field that is published by a publisher that is known for its high quality of pricing.

Tenth, it is the only journal in the field that is published by a publisher that is known for its high quality of customer service.

Eleventh, it is the only journal in the field that is published by a publisher that is known for its high quality of marketing.

Twelfth, it is the only journal in the field that is published by a publisher that is known for its high quality of research.

Thirteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of education.

Fourteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of entertainment.

Fifteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of information.

Sixteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of communication.

Seventeenth, it is the only journal in the field that is published by a publisher that is known for its high quality of technology.

Eighteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of science.

Nineteenth, it is the only journal in the field that is published by a publisher that is known for its high quality of art.

Twentieth, it is the only journal in the field that is published by a publisher that is known for its high quality of literature.

Twenty-first, it is the only journal in the field that is published by a publisher that is known for its high quality of history.

Twenty-second, it is the only journal in the field that is published by a publisher that is known for its high quality of philosophy.

Twenty-third, it is the only journal in the field that is published by a publisher that is known for its high quality of religion.

Twenty-fourth, it is the only journal in the field that is published by a publisher that is known for its high quality of politics.

Twenty-fifth, it is the only journal in the field that is published by a publisher that is known for its high quality of economics.

Twenty-sixth, it is the only journal in the field that is published by a publisher that is known for its high quality of sociology.

Twenty-seventh, it is the only journal in the field that is published by a publisher that is known for its high quality of psychology.

Twenty-eighth, it is the only journal in the field that is published by a publisher that is known for its high quality of anthropology.

Twenty-ninth, it is the only journal in the field that is published by a publisher that is known for its high quality of biology.

Thirtieth, it is the only journal in the field that is published by a publisher that is known for its high quality of chemistry.

Thirty-first, it is the only journal in the field that is published by a publisher that is known for its high quality of physics.

Thirty-second, it is the only journal in the field that is published by a publisher that is known for its high quality of mathematics.

Thirty-third, it is the only journal in the field that is published by a publisher that is known for its high quality of computer science.

Thirty-fourth, it is the only journal in the field that is published by a publisher that is known for its high quality of engineering.

Thirty-fifth, it is the only journal in the field that is published by a publisher that is known for its high quality of medicine.

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: CZU Lightning	2. Operational Period:	Date From: 8/27/2020 Time From: 0700	Date To: 8/28/2020 Time To: 0700
---	-------------------------------	---	-------------------------------------

3. Objective(s):

Strategic Objectives

A full suppression strategy is to be implemented on the CZU Lightning Incident. Values at risk associated to the incident include human safety, private property and associated improvements, electrical power infrastructure, and cultural values. Minimize acres burned on all lands by utilizing effective and efficient strategies and tactics while maintaining safety first.

Leaders Intent

Work effectively with cooperative partners in a unified command structure towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct, and timely / effective communications
- Personal safety and safety of others, including driving slowly, safely and defensively
- Implementation of tactics that offer a high probability of success
- Manage fatigue by taking breaks and maintaining work rest cycles
- All line supervision personnel including crew and striketeam leaders must attend the morning Operational Briefing

Management Objectives

- Fight fire aggressively while maintaining safe work practices to minimize threats to the public and emergency responders, all actions and efforts will focus on safe guarding the citizens and resources of Santa Cruz and San Mateo counties
- Ensure evacuation and repopulation occurs in safe, efficient, and effective manner
- Ensure COVID-19 precautions and best practices are met always
- Minimize damage to structures, private property and other improvements in the fire area
- Protect natural, cultural, and heritage resources
- Continue to foster and maintain positive relationships with all local cooperators and stakeholders
- Provide timely and accurate incident information
- Maintain fiscal accountability keeping costs commensurate with values at risk

Control Objectives

- Keep the fire North of Highway 17
- Keep the fire South of Highway 92
- Keep the fire East of Highway 1
- Keep the fire West of Interstate 280

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.
Stop, Think, Organize, Proceed
 In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.
 Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

5. Site Safety Plan Required? Yes No

CZU Lightning Fire Weather Forecast

FORECAST NO: 8
PREDICTION FOR: Wednesday Day and Night
SHIFT DATE: 8/27 0700 to 8/28 0700
FORECAST ISSUED: 8/26/2020 at 1900

NAME OF FIRE: CZU Lightning
UNIT: CA-CZU
SIGNED: *Alex Haan*
Incident Meteorologist

WEATHER DISCUSSION:

...INCREASING NORTHWEST WINDS TODAY...

The deep marine layer this morning will keep coastal fog around the coast and San Lorenzo Valley area this morning, then burning off by mid-day. Northwest winds will bring smoke from the north zone down over the south zone of the fire. Temperatures and humidity will continue their warming and drying trend through the rest of the week. Tonight, expect to see drier conditions in the higher elevations above 1500ft, but good recovery for the lower elevations and along the coast. Conditions will become hot and very dry by the weekend and into next week.

WEATHER FORECAST THURSDAY:

...WARMING AND DRYING TREND...

WEATHER: Mostly sunny with smoke. Coastal fog in the morning.

TEMPERATURES: Highs 75-85.... 65 along the coast. **LITTLE CHANGE**

HUMIDITY: 35-45%... except below 1500ft 45-65%. **10% DRIER**

20 FT WINDS:

ABOVE 1500ft – West and Northwest 5-10 mph with gusts up to 15 mph.

BELOW 1500ft – West and Northwest 5-10 mph. **Gusts up to 20 mph right along the coast.**

STABILITY: Marine layer up to 1500ft along the coast. **HAINES:** 4 above 2000ft level...2 below.

THURSDAY NIGHT:

...DRIER TONIGHT ALONG RIDGES...

WEATHER: Smoky skies. Coastal fog developing overnight.

TEMPERATURES: Overnight lows 60s above 1500ft... upper 50s below 1500ft. **LITTLE CHANGE**

HUMIDITY: above 1500ft around 30-50%... except 70-100% below 1500ft. **10% DRIER**

20 FT WINDS:

ABOVE 1500ft – West 4-8 mph with gusts up to 12 mph.

BELOW 1500ft – West 3-6 mph.

EXTENDED FORECAST:

...THERMAL BELTS DRIER BY THE END OF THE WEEK...

FRIDAY THROUGH FRIDAY NIGHT: Mostly sunny with smoke. Coastal Fog. Max temps...80-90. Day RH 25-35%. West winds 4-8 mph. Gusts to 12 mph. Min Temps... 60-70. Night RH... 25-35%....except near 90% along the coast.

SATURDAY THROUGH SUNDAY NIGHT: Mostly sunny with smoke. Coastal Fog. Max temps...82-92. Day RH 20-33%. West winds 4-8 mph. Gusts to 12 mph. Min Temps... 65-75. Night RH... 20-30%....except near 80% along the coast.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 8	TYPE OF FIRE: Wildfire
FIRE NAME: CZU LIGHTNING CA-CZU-5205	OPERATIONAL PERIOD: 8/27/20 – 8/28/20
DATE ISSUED: 8/26/2020	TIME ISSUED: 1900
UNIT: SAN MATEO / SANTA CRUZ	SIGNED: <i>Brian Newman</i> Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

Marine influence remains over much of the fire but is having only a moderate affect on fuels and burning conditions. A warming and drying trend continues today through the rest of the week and into next week. Winds will be slightly less, still out of the West and NorthWest
Review the IMET forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fire is burning in heavy timber mix of Hardwoods and Coastal Redwoods along with thick litter and some intermixed grass and brush. The region is experiencing moderate to severe drought due to rainfall for the area at about 50% of average with the last recorded wetting rain occurring more than 90 days ago. The fire continues to burn actively in all fuels due to the prolonged drying and depth of fuel beds. Fuel moistures in the brush are at critical levels, and the 100-hour fuels are around 10% with the 1000-hour fuels moistures around 7%. Heavy dead down fuels will be consumed near 100% leaving deep seated heat in ash pits and large burned out stump holes

SPECIFIC:

Below 1500 foot elevation: The marine layer and smoke will be over the fire for these areas for the first part of the shift, burning off mid-morning. This marine layer has had limited affect, transferring very little moisture to the fuels. The heavier 100- and 1000-hour fuels and thick duff layer continue to burn due to the persistent dry pattern the region is experiencing. Fire spread is mainly active backing, flanking and rollout, causing slopovers and short range spotting. Probability of ignition is 35%

Above 1500 foot elevation: The upper elevations will have less moisture recovery overnight and the fire will remain active further into the overnight hours. Once the air clears, expect an increase in activity and potential spotting. The fire will continue to burn with active flanking, backing and roll out along with occasional single tree torching due to heavy fuel loading and steep topography. Spotting potential is 400 to 600 feet. Probability of ignition is 45%

AIR OPERATIONS: Smoke and marine layer may remain over the fire for much of the day.

Sunset: 19:43 Sunrise: 06:35

SAFETY

- Weather is getting hotter and drier. Watch for poor overnight humidity recovery at the upper elevations
- Fire weakened trees and branches continue to release, falling with little warning and can easily block roadways.

CAL FIRE INCIDENT MANAGEMENT TEAM 3

1. INCIDENT NAME: CZU Lightning Complex		2. DATE PREPARED: August 26 ,2020	3. TIME PREPARED: 1500
4. PREPARED BY: Damon Godden SOF1(T)	5. LEADER NAME: David Sargenti SOF1	6. OPERATIONAL PERIOD: 8/27/2020 0700 TO 8/28/2020 0700	

SAFETY MESSAGE

No job is so important or so urgent that we cannot take time to perform our work SAFELY!!

- Drive defensively and expect the unexpected (SLOW DOWN).
- Stay engaged and avoid complacency. Mop up secures the line.
- Heavy equipment and falling modules working on opening narrow roads.
- Multiple hazards in the WUI: Steep narrow roads, heavy fuel loading, wells, wooden septic tanks, long escape routes, public presence, and power lines.
- Look Up, Down, and Around: Overhead, surface, and underground hazards.
- Understand the plan for the day and your individual role within the plan.
- Increase your hydration, electrolytes and nutrition with fruits and vegetables.
- STOP COVID-19! (*Distance 6 Feet, Cover Nose and Mouth, Wash Hands*).

Mop Up and Patrol Operations:

- Maintain your Situational Awareness.
- Observe for changes in the weather.
- PPE shall be utilized during operations.
- Understand your assignment.
- Pace the crew for the entire day.

10's and 18's

17. TERRAIN AND FUELS MAKE ESCAPE TO SAFETY ZONES DIFFICULT

CAL FIRE INCIDENT MANAGEMENT TEAM 3 SOF1 David Sargenti

David Sargenti

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	COVID-19	<ul style="list-style-type: none"> Complete daily COVID-19 screening process. Wear mask over nose and mouth/wash and sanitize hands often. Maintain social distancing.
ALL	FIRE BEHAVIOR / RE-BURN	<ul style="list-style-type: none"> Prepare for slope reversal and wind shifts. Be aware of preheated canopy and potential for re-burn.
ALL	WILDLAND URBAN INTERFACE	<ul style="list-style-type: none"> Steep narrow access and egress. Old redwood septic tanks, deep wells and LPG tanks. Be aware that civilians continue to be present in the fire area.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> Watch your speeds. "PLEASE SLOW DOWN". Drive defensively! Expect the unexpected. Watch for road degradation and dusty conditions. Be aware of falling/rolling trees and debris in the roadways from fire activity, wind and suppression operations.
ALL	WEATHER	<ul style="list-style-type: none"> Be aware of changing wind and other weather conditions.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> Ensure plan is in place and communicated. Follow the Fire Operations Checklist. Utilize Risk Management Process IRPG (p. 1).
ALL	POWER LINES	<ul style="list-style-type: none"> Be cautious of down lines. Make appropriate notifications if found.
ALL	HYDRATION/NUTRITION	<ul style="list-style-type: none"> Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others. Maintain proper caloric and nutritional consumption.
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	<ul style="list-style-type: none"> Situational awareness for falling trees and limbs while working, driving, and parking. Follow Hazard Tree Safety Guidelines (IRPG p. 22). Flag off cat faced trees and deep stump holes.
ALL	CIVILIAN PRESENCE	<ul style="list-style-type: none"> Watch for civilian traffic. If approached, please defer them to your chain of command.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Check the communication plan for frequency assignments. Use human repeaters as needed.
ALL	BRIEFINGS	<ul style="list-style-type: none"> Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214.
ALL	MOP UP AND PATROL OPERATIONS	<ul style="list-style-type: none"> Ensure that LCES in place. Stay focused on assignment given.
ALL	AIRCRAFT AWARENESS	<ul style="list-style-type: none"> Be aware of rotor and wing wash and change in fire behavior. Understand that hazardous trees may react to retardant and winds. Monitor assigned aircraft frequencies. Move clear of water drops.
ALL	HEAVY EQUIPMENT/TREE FELLING	<ul style="list-style-type: none"> Be watchful around heavy equipment, they may not see you. LCES, size up and mitigate concerns, work within your limits.
Incident Name: CZU Lightning Complex		Date Prepared: 8/26/2020 Prepared by: Damon Godden <i>Damon Godden</i> SOF1(T)
		Operational Period: 8/27/2020-8/28/2020 0700-0700

In readiness is all

CAL FIRE INCIDENT MANAGEMENT TEAM 3

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Immediately separate yourself from others.
- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Fever ○ Sore throat
 - Chills ○ Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Social Distancing and Protective Equipment

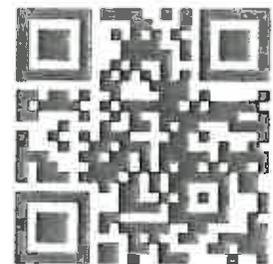

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

Communications

- Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your crew, and your camp!

8. MEDICAL EMERGENCY PROCEDURES

LINE EMERGENCY: Crew Supervisor to contact Division Supervisor with patient complaint/condition and location.

- Division Supervisor contacts:
 - FEMT / FEMP
 - Communications Unit
- Communication Unit will clear command channel for emergency traffic; as needed for Minor/Major Emergency
- Communications will switch all emergency traffic to CALCORD as needed or requested.
- Communications Unit contacts:
 - Medical Unit
 - Safety
 - Operations
- Division Supervisor will run medical emergency on CALCORD.
- Medical Unit will:
 1. Dispatch air/ground ambulance to as appropriate.
 2. If necessary, after patient pickup, dispatch ambulance to helibase for transportation.
 3. Notify receiving hospital of injury status.

CAMP EMERGENCY: Contact Medical Unit with patient complaint/condition and location. Medical Staff will respond to stabilize incident.

INJURY REPORTING PROCEDURES

NATURE OF INJURY _____
 LOCATION OF PATIENT _____
 TRANSPORTATION REQUESTED BY: AIR ___ GROUND ___
 POINT OF PICKUP _____
 LAT _____ LONG _____
 PATIENT UNIT ID _____
REMINDER: DO NOT GIVE PT NAME OVER RADIO
 IS AN EMT WITH PATIENT: YES ___ NO ___
 AGE _____
 SEX: MALE ___ FEMALE ___

ALL EMERGENCIES—Secure the area and identify witnesses for later investigation. Keep an accurate log of events.

Peer Support Team Message

Resource Box

CZU LIGHTNING COMPLEX INCIDENT PEER SUPPORT

Watch for the signs and symptoms of stress in yourself and the people around you. Many of us are here, away from our families and kindness towards each other is key. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

In addition to peer support, if there is a need, we can have a culturally competent Clinician available that could meet with you on an individual and/or group basis. You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit.

If you find yourself in this situation and need to talk to someone, please contact Employee Support Services.

Michael DeLeo 805-573-2419 (In Unit)
Tony Howard 916-224-1543
Mike Aiello 916-584-0548

Below are other Team Members not on the incident who can also be contacted directly:

Jeremy Sanders 916-281-6472
Shawna Powell 530-717-0667
Warren Parrish 916-823-6641
Nikole Schutz 916-709-0434
Amber Henderson 805-794-1690
Amy Head 916-956-3277

We are here for all personnel at this incident.
CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

TRAINING SPECIALIST MESSAGE

TRAINEES:

Please register with the TNSP as soon as possible in order to receive documented credit for your training assignment. Training is located directly next to check-in.

TRAINERS/EVALUATORS:

The narrative in the ICS 225 (Performance Evaluation) should reflect the tasks performed by the trainee on the incident. Be as descriptive as possible.

Bring the following with you to register:

- Incident Qualification Card
- Initiated Position Task Book
- Trainee Registration Form

REMOTE CHECK-IN

DEMOBILIZATION MESSAGE

**CZU Lightning
CA-CZU-005205**

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

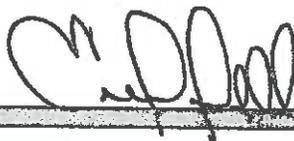

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

 DMOB IMT 3

In readiness is all

PUBLIC INFORMATION SECTION

Incident Information Line: (831) 335-6717
Media Line: (831) 337-8445

Email Updates (sign up):
www.tinyurl.com/CZUlightning

STATUS	
Incident Start Date: 8/16/2020	Incident Start Time: 3:15 PM
Cause: Lightning	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Santa Cruz Unit.

MAIL SERVICE – Due to the complexity of the incident, mail service will not be available.

FINANCE SECTION MESSAGE

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- Located at the Community Center
- CAL FIRE personnel ensure you have started your eFC33's and turn in the update sheet after each shift.
- Hired Equipment Suppliers ensure to check in with the TIME unit and drop off your EERA's.
- Shift Ticket books for Division/Line Supervisors are available in the TIME unit.

DIVISION GROUP/LINE SUPERVISORS

- Please make sure the shift tickets are being done for the suppliers and turned into the TIME unit after each shift.

COMP/CLAIMS

- Located on site in trailer row.
- Contact phone number (916) 206-2195
- For any suppression damages please use the QR code or document on a ICS213 with the location or address, description of damages, your name and contact number and if possible any photos.

WATER USAGE FORM

- Water tenders and engines please use the QR code or attached water usage form and turn it into the TIME unit.

FEDERAL TIME

- CAL FIRE TIME Unit or Line Supervisor will sign your Crew Time Reports (CTR's)
- A computer and printer will be available for use at the TIME Unit (Federal Time Kiosk)

OES/LOCAL GOVERNMENT

- Located on site in trailer row.
- Please make sure you have checked in with the representative.
- Chief Pete Mercado (619) 302-5360

ASSISTANCE BY HIRE (ABH)

- Any Local unit (San Mateo-Santa Cruz) that will be assistance by hire to CAL FIRE please see the TIME unit.

ROGER RAINES, FSC1 (559) 281-4311

TERRY EASTWOOD, DEP. FSC1

PATRICK AGUADA, DEP. FSC1 (T)

DAMAGE REPORT

WATER USAGE

ATTN: Federal Resources (specifically Federal Contracted Resources/ADs)

RE: Virtual Finance Support

If you are assigned to a CAL FIRE managed incident, you have noticed that there is no “federal” time unit on site. We have developed a virtual finance section to provide you with your invoices/time sheets. We will need for you to **scan and email** your documents to the R5.CalFire.Support@firenet.gov email address. (If you do not have a “scanning” app on your phone and/or computer you may visit the clerical trailer. If no clerical trailer is available check in with the Finance Section for assistance.) In the subject line enter:

TIME - Resource # - Company/Person Name – Attachment description - Fire Name/Number

Contract Crew/Equipment:

We need for you to send us the following information (even if you have submitted it to the CAL FIRE finance unit):

- Contact name, phone number, and email for on-site “leader”
- Resource Order
- Contract (Pages 1-2 and any additional pages referencing equipment/resource information)
- Crew Manifest
- Inspection (if one was done)
- Shift Tickets (signed by you and your incident supervisor) / CTRs (signed by your incident supervisor)

Administratively Determined (AD) Resources:

We need for you to send us the following information:

- Contact phone number and email
- Resource Order
- Casual Hire Form
- CTRs (signed by your incident supervisor)

Federal Employees:

As of right now, we are not planning to create OF-288s for Federal “regular” employees. Each of you can utilize your CTRs as your backup documentation for submitting your time sheets.

IF, however you require an OF-288, we will do our best to accommodate your needs. If you are claiming Hazard Pay, just like always, you must provide a justification for the claim (“H=Hazard”) is NOT enough. Use “action verbs” to explain what/why you are claiming the hazard.

WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a “Courtesy Email” 1-2 days prior to make sure all your documents have been received.
- Submit all time documentation (including travel home) ahead of demob.
- Send an email the morning of your demob to the Support email so the demob process can be started from the virtual finance group.

EMAIL: R5.CalFire.Support@firenet.gov

Please do not wait until the end of your assignment to get us your information. Since we are virtual, the process will take additional time.

DOCUMENTATION MESSAGE

CZU LIGHTNING
CA-CZU-005205

Who needs to turn in what?

Unit Logs (ICS-214s) are required by Strike Team Leaders and above. However, Crews, Engines and possibly other contractors working on the line or in camp, may be asked to fill them out, especially if there has been a significant event that may need to be documented, or if requested by your Supervisor.

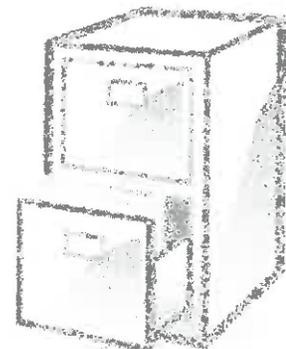

Strike Team Leaders only submit one 214 for your resource and not multiple Unit Logs for each engine.

Copies of the Crew Evaluations (ICS-224s) and Personnel Evaluations (ICS-225s) are sent to your home unit or business office. Therefore, it is imperative to provide the home unit or business name and address on the evaluation form.

Please do not turn in documents with staples.

Thank you for your help and cooperation.

Kim Moore ~ Documentation Unit

FIRING PLAN AND GO / NO GO CHECKLIST

Test Firing Plan

The size and location of the test burn will be large enough and representative of the fuels of the proposed burn area.

Communications:

A radio net announcement at the incident will be made prior to firing operations. This will be communicated on tactical and command nets and will identify general location of geographic area to be burned. Special frequencies may or may not be used.

Frequencies:

1. Firing Group Tactical
2. Air to Ground
3. Aerial ignition discreet frequencies:

Slop-overs and Escapes:

If an escape/slop-over occurs notify the Division/Group Supervisor, who will take appropriate suppression actions. The Firing Group Supervisor will evaluate whether or not to continue firing and communicate such to the Division Group Supervisor. At all times, appropriate information will be transmitted through the chain of command to the Operations Section Chief.

Perimeter Firing Sequence:

The perimeter firing will proceed as follows:

Conditions:

- Observed weather conditions: See IAP Weather Forecast
- Fire Behavior Burn Index: See IAP Fire Behavior Analysis

Sequence of Firing:

1. Ignition will begin at anchor point(s)
2.
3.
4.
5.

Aerial Ignition Plan (Section 8344.5 of the CAL FIRE 8300 manual):

1. Ignition will begin at anchor point(s)
2.
3.
4.
5.

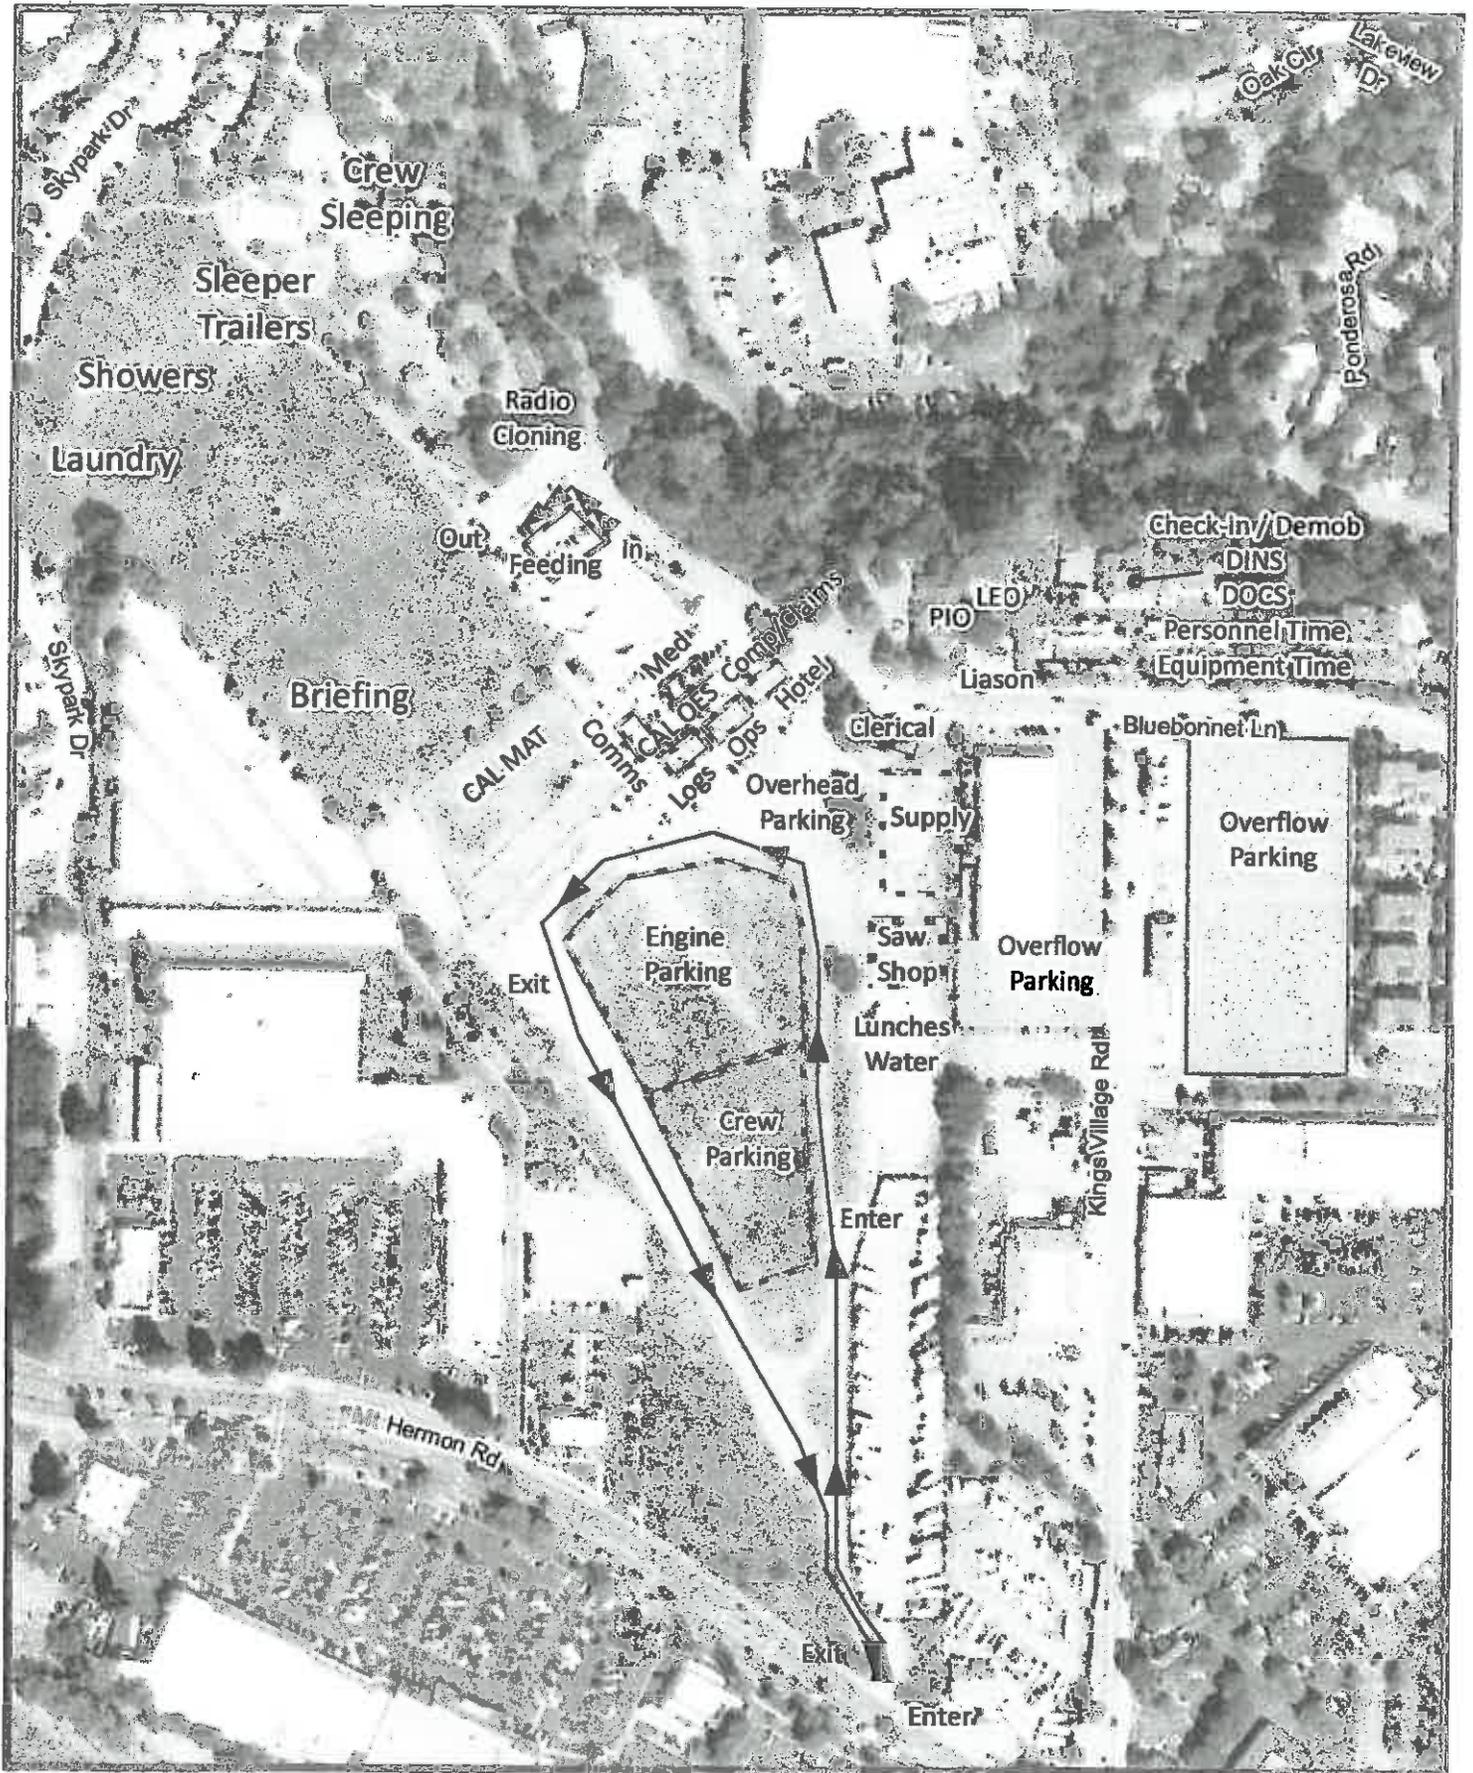

GO / NO-GO

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted
- Communications systems in place
- Escape routes and safety zones established and made known
- Fire behavior forecast reviewed
- Test Fire is favorable
