Weather Forecast		
1. Incident Name: CZU Lightning	2. Operational Period: Date From: 9/6/20 Date To: 9/7/20 Time From: 0700 Time To: 0700	Last Update 09/05/2020-1900 hours
<p>National Weather Service San Francisco/Monterey Bay Area 2020-09-05 2:50 PM PDT Spot Forecast for CZU Lightning...CAL FIRE National Weather Service San Francisco Bay Area 250 PM PDT Sat Sep 5 2020 Forecast is based on forecast start time of 0700 PDT on September 06. If conditions become unrepresentative...contact the National Weather Service.</p> <p>.DISCUSSION...Very hot and dry conditions will persist through the Monday. Lack of a marine layer will mean hot conditions will extend nearly to the coast. Little or no overnight humidity recovery is expected, especially above 1000 feet, and daytime humidity values will drop into the teens and perhaps locally as low as the single digits. Winds will remain light and mostly from the north and northwest.</p> <p>.SUNDAY... Sky/weather.....Sunny. Max temperature.....85 at Davenport to 106 at Ben Lomond. Min humidity.....30 percent at Davenport to 13 percent at Ben Lomond. Wind (20 ft).....Light winds becoming northwest 5 to 10 mph in the afternoon with gusts to 15 mph above 2000 feet. LAL.....1. Transport winds....North around 5 mph in the morning shifting to the northwest 10 to 15 mph in the afternoon. Marine layer.....None.</p> <p>.SUNDAY NIGHT... Sky/weather.....Clear. Min temperature.....60-70 except 71-83 above 1000 feet. Max humidity.....30-45 percent except 20-30 percent above 1000 feet. Wind (20 ft).....Northwest winds 5 to 10 mph shifting to the north less than 5 mph after midnight. LAL.....1. Transport winds....Northwest around 10 mph in the evening shifting to the north after midnight. Marine layer.....None.</p> <p>.LABOR DAY (MONDAY)... Sky/weather.....Sunny. Max temperature.....80 at Davenport to 102 at Ben Lomond. Min humidity.....30 percent at Davenport to 11 percent at Ben Lomond. Wind (20 ft).....North winds 5 to 10 mph shifting to the northwest in the afternoon with gusts to 15 mph above 2000 feet. LAL.....1. Transport winds....North around 5 mph in the morning shifting to the northwest 10 to 15 mph in the afternoon. Marine layer.....None.</p> <p>\$\$ Forecaster...D_DYKEMA Requested by...Brian Newman Type of request...WILDFIRE .TAG 2012183.0/MTR .DELDT 09/05/20 .FormatterVersion 1.0.26 .EMAIL brian.newman@fire.ca.gov</p>

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 18	TYPE OF FIRE: Wildfire
FIRE NAME: CZU LIGHTNING CA-CZU-5205	OPERATIONAL PERIOD: 9/6/20 – 9/7/20
DATE ISSUED: 9/5/2020	TIME ISSUED: 1900
UNIT: SAN MATEO / SANTA CRUZ	SIGNED: <i>Brian Newman</i> Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

There will be no marine layer over the fire for the shift. Temperatures will be much hotter and drier today with minor cooling overnight. Humidity will be very low with minimal recovery over all areas except on the immediate coastline. Generally light winds over the fire will be from the northwest throughout the day. North winds is the elevated fire danger wind direction
See spot weather forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fuels in the fire area are made up of a heavy timber mix of Hardwoods and Coastal Redwoods along with thick litter and some intermixed grass and brush. Fuel moistures have recovered slightly with the recent marine influence. The brush is at normal seasonal levels, and the 100-hour fuels around 10% with the 1000-hour fuels moistures around 9%. Burning conditions may increase where there is existing heat due the warming and drying trend.

ERC currently at 80% for Dense Conifer fuels

SPECIFIC:

Below 1500 feet: There will be no marine layer over the fire for the shift, allowing fuels to dry quicker. Fire activity is mainly limited to smoldering in most areas with ash pits and heavy down fuels. Tree roots continue to burn out causing them to come down on a regular basis. Deep seated heat in the duff layers continues to pose issues as well. Roll out is still a possibility on the steep slopes. Probability of ignition is 77%

Above 1500 feet: Creeping and smoldering ground fuels continue to be active in dirty burn areas loaded with thick duff. Expect increased activity on the edges of unburned islands and pockets if there is existing heat. Isolated heat signatures are still showing in most areas in the heavier ground fuels. Tree roots are burning out causing them to come down on a regular basis. Poor overnight moisture recovery again will allow for heavy fuels to continue burning throughout the night. Probability of ignition is 81%

AIR OPERATIONS: Air operations will not be limited by weather, there may be lingering smoke in the valleys in the morning.

Sunset: 19:29 Sunrise: 06:43

SAFETY

- Snags/ trees can burn in the upper portions. Look up! Just because there is no fire in the lower trunk doesn't mean it safe.
- Be aware of ash pits and stump holes across the incident, watch where you step!
- Don't let down your guard down. Tragedies have occurred during mop up.

CALFIRE INCIDENT MANAGEMENT TEAM 3

1. INCIDENT NAME: CZU Lightning Complex		2. DATE PREPARED: September 5, 2020		3. TIME PREPARED: 1500	
4. PREPARED BY: Damon Godden SOF1(T)		5. LEADER NAME: David Sargenti SOF1		6. OPERATIONAL PERIOD: 9/06/2020 0700 TO 9/07/2020 0700	

SAFETY MESSAGE

Fatigue: extreme tiredness, typically resulting from mental or physical exertion or illness.

- Leaders provide clear instructions including LCES.
- A sharp tool is a safe tool. Carry them on the downhill side.
- Roadways are dangerous. Expect the unexpected.
- Be aware working around heavy equipment.
- Brief every firefighter with the work assignment for the day.
- Covid-19 prevention. (Wash hands often, 6' distance, cover nose and mouth)
- Wear all required PPE. (Helmet, gloves, eye protection, hearing protection).
- Weather is getting hotter and dryer. "HYDRATE, HYDRATE, HYDRATE"!

Signs and Symptoms of Heat Stress

Heat Exhaustion

- ✓ Faint or dizzy
- ✓ Excessive sweating
- ✓ Cool, clammy skin
- ✓ Nausea or vomiting
- ✓ Rapid, weak pulse
- ✓ Muscle cramps

Heat Stroke

- ✓ Throbbing headache
- ✓ No sweating
- ✓ Red, hot, dry skin
- ✓ Nausea or vomiting
- ✓ Rapid, strong pulse
- ✓ May lose consciousness

10's and 18's

5. UNINFORMED ON STRATEGY, TACTICS AND HAZARDS

CALFIRE INCIDENT MANAGEMENT TEAM 3 SOF1 David Sargenti

David Sargenti

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	COVID-19	<ul style="list-style-type: none"> • Complete daily COVID-19 screening process. • Wear mask over nose and mouth/wash and sanitize hands often. • Maintain social distancing.
ALL	FIRE BEHAVIOR / RE-BURN	<ul style="list-style-type: none"> • Prepare for slope reversal and wind shifts. • Be aware of preheated canopy and potential for re-burn.
ALL	WILDLAND URBAN INTERFACE	<ul style="list-style-type: none"> • Steep narrow access and egress. • Old redwood septic tanks, deep wells and LPG tanks. • Be aware that civilians continue to be present in the fire area.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> • Watch your speeds. "PLEASE SLOW DOWN". • Drive defensively! Expect the unexpected. • Watch for road degradation and dusty conditions. • Be aware of falling/rolling trees and debris in the roadways from fire activity, wind and suppression operations.
ALL	WEATHER	<ul style="list-style-type: none"> • Be aware of changing wind and other weather conditions.
ALL	POWER LINES	<ul style="list-style-type: none"> • Be cautious of down lines. • Make appropriate notifications if found.
ALL	HYDRATION/NUTRITION	<ul style="list-style-type: none"> • Drink water before, during and after each shift. • Be alert for signs of heat stress in yourself and others. • Maintain proper caloric and nutritional consumption.
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	<ul style="list-style-type: none"> • Situational awareness for falling trees and limbs while working, driving, and parking. • Follow Hazard Tree Safety Guidelines (IRPG p. 22). • Flag off cat faced trees and deep stump holes.
ALL	CIVILIAN PRESENCE	<ul style="list-style-type: none"> • Watch for civilian traffic. • If approached, please defer them to your chain of command.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> • Check the communication plan for frequency assignments. • Use human repeaters as needed.
ALL	BRIEFINGS	<ul style="list-style-type: none"> • Make sure everyone gets a briefing on the plan for the day. • Document this on your ICS 214.
ALL	HANDLINE/MOP UP AND PATROL OPERATIONS	<ul style="list-style-type: none"> • Ensure that LCES in place. • Stay focused on assignment given. • Down Hill Checklist
ALL	AIRCRAFT AWARENESS	<ul style="list-style-type: none"> • Be aware of rotor and wing wash and change in fire behavior. • Understand that hazardous trees may react to retardant and winds. • Monitor assigned aircraft frequencies. Move clear of water drops.
ALL	HEAVY EQUIPMENT/TREE FELLING	<ul style="list-style-type: none"> • Be watchful around heavy equipment, they may not see you. • LCES, size up and mitigate concerns, work within your limits.
Incident Name: <p style="text-align: center;">CZU Lightning Complex</p>		Date Prepared: 9/05/2020 Prepared by: Damon Godden <i>Damon Godden</i> SOF1(T)
		Operational Period: 09/06/2020-9/07/2020 0700-0700

In readiness is all

CAL FIRE INCIDENT MANAGEMENT TEAM 3

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Immediately separate yourself from others.
- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Fever ○ Sore throat
 - Chills ○ Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

Communications

- Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your crew, and your camp!

AIR OPERATIONS SUMMARY ICS-220

Incident Name / Number CZU Lightning / CA-CZU-005205	Sunrise 639	Startup 709	Cutoff 1903	Sunset 2003	Time Prepared 1900	Date Prepared Saturday September 5, 2020	Prepared By Matt Stanford <i>Matt Stanford</i>
General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc. TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN. TRACK ALL DROP LOCATIONS / NUMBER OF DROPS / GALLONS DROPPED. ALL GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES FORMAT. AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc. If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOB and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area. 8. MEDICAL EMERGENCY PROCEDURES

LINE EMERGENCY: Crew Supervisor to contact Division Supervisor with patient complaint/condition and location.

- Division Supervisor contacts:
 - FEMT / FEMP
 - Communications Unit
- Communication Unit will clear command channel for emergency traffic; as needed for Minor/Major Emergency
- Communications will switch all emergency traffic to CALCORD as needed or requested.
- Communications Unit contacts:
 - Medical Unit
 - Safety
 - Operations
- Division Supervisor will run medical emergency on CALCORD.
- Medical Unit will:
 1. Dispatch air/ground ambulance to as appropriate.
 2. If necessary, after patient pickup, dispatch ambulance to helibase for transportation.
 3. Notify receiving hospital of injury status.

CAMP EMERGENCY: Contact Medical Unit with patient complaint/condition and location. Medical Staff will respond to stabilize incident.

INJURY REPORTING PROCEDURES

NATURE OF INJURY _____

LOCATION OF PATIENT _____

TRANSPORTATION REQUESTED BY: AIR ___ GROUND ___

POINT OF PICKUP _____

LAT _____ LONG _____

PATIENT UNIT ID _____

REMINDER: DO NOT GIVE PT NAME OVER RADIO

IS AN EMT WITH PATIENT: YES ___ NO ___

AGE _____

SEX: MALE ___ FEMALE ___

ALL EMERGENCIES---Secure the area and identify witnesses for later investigation. Keep an accurate log of events.

Peer Support Team Message

Resource Box

CZU LIGHTNING COMPLEX INCIDENT PEER SUPPORT

Watch for the signs and symptoms of stress in yourself and the people around you. Many of us are here, away from our families and kindness towards each other is key. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

In addition to peer support, if there is a need, we can have a culturally competent Clinician available that could meet with you on an individual and/or group basis. You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit.

If you find yourself in this situation and need to talk to someone, please contact Employee Support Services.

Michael DeLeo 805-573-2419

Tony Howard 916-224-1543

Mike Aiello 916-584-0548

Below are other Team Members not on the incident who can also be contacted directly:

Jeremy Sanders 916-281-6472

Shawna Powell 530-717-0667

Warren Parrish 916-823-6641

Nikole Schutz 916-709-0434

Amber Henderson 805-794-1690

Amy Head 916-956-3277

We are here for all personnel at this incident.

CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

TRAINING SPECIALIST MESSAGE

TRAINERS/EVALUATORS:

Beat the Rush!!

If as much work as possible has been completed in the position task book, you are strongly encouraged to take advantage of your time in camp and conduct the training close-out with the TNSP. It is not necessary to wait until you demob.

TRAINEES:

Tuesday, September 8th at 1200 hours is the deadline to close out your active training assignment with the TNSP. In order to receive documented credit for your training assignment, you must close out with the Training Specialist.

Bring the following to the "exit interview"

- Your properly initiated Position Task Book
- Completed and signed ICS 225 Performance Evaluation
- Completed and signed Evaluation Record

Forms are available at the Training Desk
Remember: No documentation- it didn't happen!

Justin Voyson TNSP 661-547-8629

In readiness is all

INCIDENT MANAGEMENT TEAM 3

DEMOBILIZATION MESSAGE

**CZU Lightning
CA-CZU-005205**

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

A handwritten signature in black ink, appearing to read "C. P. Hall".

Incident Information Line: (831) 335-6717
Media Line: (831) 337-8445

Email Updates (sign up):
www.tinyurl.com/CZUlightning

STATUS	
Incident Start Date: 8/16/2020	Incident Start Time: 3:15 PM
Cause: Lightning	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Santa Cruz Unit.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

DELIVERY ADDRESS – Name / PIO
241 Kings Village Rd.
Scotts Valley, CA 95067

ATTN: Federal Resources (specifically Federal Contracted Resources/ADs)

RE: Virtual Finance Support

If you are assigned to a CAL FIRE managed incident, you have noticed that there is no “federal” time unit on site. We have developed a virtual finance section to provide you with your invoices/time sheets. We will need for you to **scan and email** your documents to the R5.CalFire.Support@firenet.gov email address. (If you do not have a “scanning” app on your phone and/or computer you may visit the clerical trailer. If no clerical trailer is available check in with the Finance Section for assistance.) In the subject line enter:

TIME - Resource # - Company/Person Name – Attachment description - Fire Name/Number

Contract Crew/Equipment:

We need for you to send us the following information (even if you have submitted it to the CAL FIRE finance unit):

- Contact name, phone number, and email for on-site “leader”
- Resource Order
- Contract (Pages 1-2 and any additional pages referencing equipment/resource information)
- Crew Manifest
- Inspection (if one was done)
- Shift Tickets (signed by you and your incident supervisor) / CTRs (signed by your incident supervisor)

Administratively Determined (AD) Resources:

We need for you to send us the following information:

- Contact phone number and email
- Resource Order
- Casual Hire Form
- CTRs (signed by your incident supervisor)

Federal Employees:

As of right now, we are not planning to create OF-288s for Federal “regular” employees. Each of you can utilize your CTRs as your backup documentation for submitting your time sheets.

IF, however you require an OF-288, we will do our best to accommodate your needs. If you are claiming Hazard Pay, just like always, you must provide a justification for the claim (“H=Hazard”) is NOT enough. Use “action verbs” to explain what/why you are claiming the hazard.

WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a “Courtesy Email” 1-2 days prior to make sure all your documents have been received.
- Submit all time documentation (including travel home) ahead of demob.
- Send an email the morning of your demob to the Support email so the demob process can be started from the virtual finance group.

EMAIL: R5.CalFire.Support@firenet.gov

Please **do not wait** until the end of your assignment to get us your information. Since we are virtual, the process will take additional time.

DOCUMENTATION MESSAGE

CZU LIGHTNING
CA-CZU-005205

Who needs to turn in what?

Unit Logs (ICS-214s) are required by Strike Team Leaders and above. However, Crews, Engines and possibly other contractors working on the line or in camp, may be asked to fill them out, especially if there has been a significant event that may need to be documented, or if requested by your Supervisor.

Strike Team Leaders only submit one 214 for your resource and not multiple Unit Logs for each engine.

Copies of the Crew Evaluations (ICS-224s) and Personnel Evaluations (ICS-225s) are sent to your home unit or business office. Therefore, it is imperative to provide the home unit or business name and address on the evaluation form.

Please do not turn in documents with staples.

Thank you for your help and cooperation.

Kim Moore ~ Documentation Unit

CZU LIGHTNING

Fireline Suppression Repair Guide

Suppression Repair Guidelines:

1. Follow the CZU Lightning Incident Suppression Repair Plan.
2. Identify issues of damage made by fire suppression activities.
3. Repair damaged areas as instructed by the North and South Group Leaders.
4. Attempt to make contact with the landowners prior to repairs.
5. Identify issues to be brought to Comp Claims when it is outside the scope of suppression repair.

General Cleanup and Repair:

1. Collect all trash such as plastic water bottles, cardboard, plastic flagging, foodstuffs, wrappers, blown hose and plastic bags and pack it out.

Access Roads:

1. Install waterbreaks where a waterbreak previously existed.
2. Install or maintain rolling dips where they previously existed.
3. Breach berms to facilitate drainage.
4. Clean out inlet and outlet of culverts plugged with soil and vegetation pushed by the dozer.
5. Water roads as necessary that were used for fire control operations to reduce dust and stabilize soil. Grading will be determined by the Group leader.
6. Where suppression activities have damaged/destroyed road drainage facilities (culverts, over-side drains) repair or replace as determined by the Group Leader.

Constructed Fireline Adjacent to Homes:

1. Spread piles of soil where Dozers ran adjacent to homes.
2. Lop, chip, and/or make safe piled or knocked over trees and vegetation that was pushed over for dozer line construction.
3. Repair any broken or damaged fences and/or gates as the result of fire suppression activities. Document the extent and condition of damage prior to repairs.

Helispots, Drop Points, Staging Areas, Safety Zones:

1. Avoid leaving heavy piles of slash and/or debris; scatter so it appears natural.
2. Pull any berms back onto the site. Install cross-drainage.
3. Spread slash or brush over the area if available.

Dozer Lines:

1. Install waterbars on constructed dozer lines. Waterbar spacing will not exceed 150 feet.

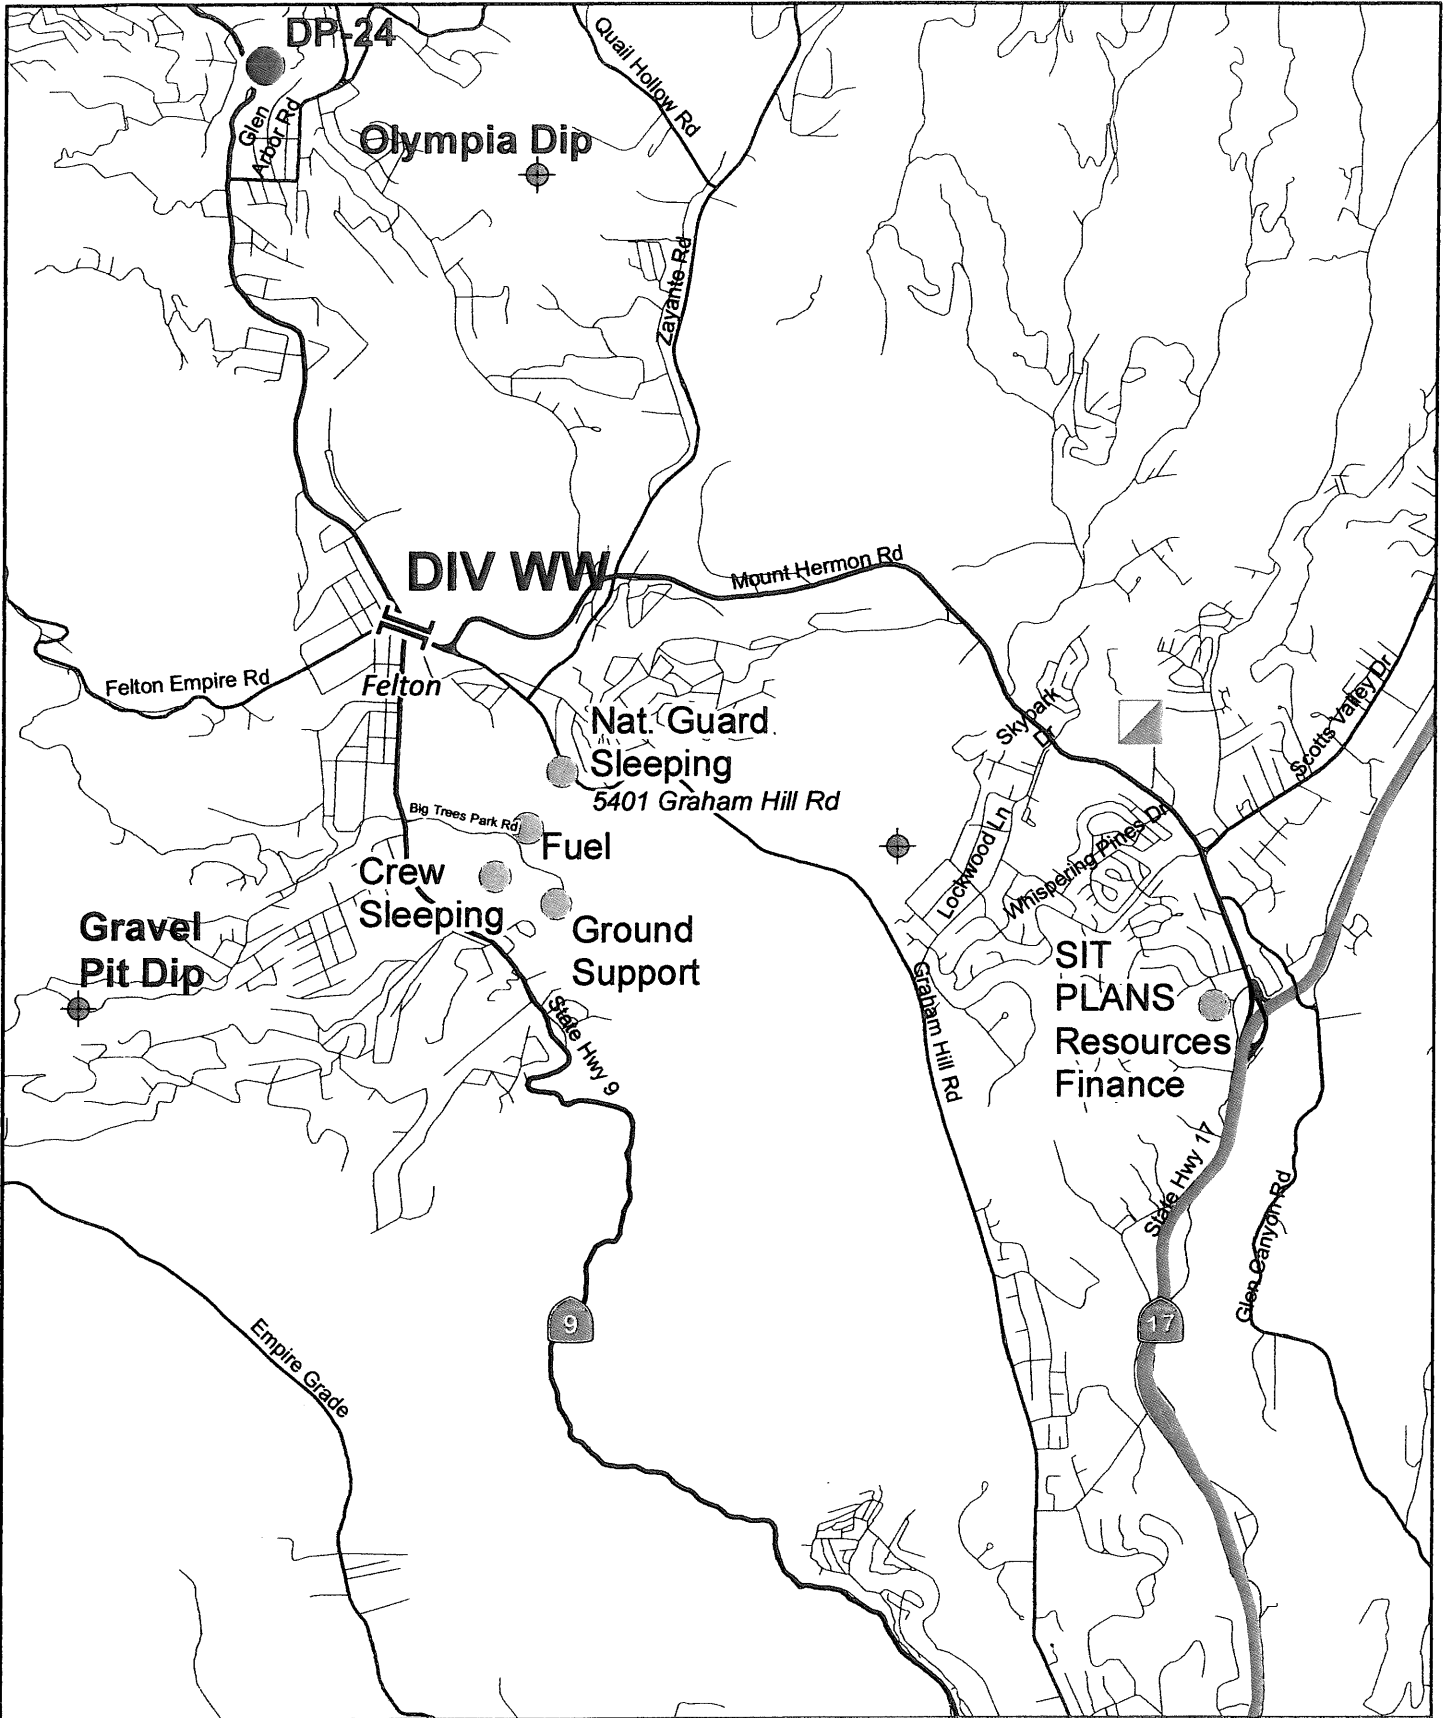

Road Gradient	Waterbreak spacing
0-10%	150 feet
11-25%	100 feet
26-50%	75 feet
>50%	50 feet

2. Waterbars should be constructed at an angle of approximately 45 degrees to the fire line, and deep enough to significantly reduce the chance of being destroyed by off-road vehicle use.
3. For dozer lines that are located along ridgelines, alternate the direction of the waterbars (in a herring bone configuration) to eliminate water accumulation on one side of the ridge.
4. Waterbars should be located to discharge into natural vegetation where possible.
5. Scatter organic debris over dozer line surface near areas where dozer lines intersect roads to prevent trespass.
