Hog Fire Forecast

FORECAST NO: 5

NAME OF FIRE:

Hog

UNIT:

CALFIRE Team 3 Saturday Shift

PREDICTION FOR: SHIFT DATE:

July 25, 2020

FORECAST ISSUED:

1900 PDT July 24, 2020

Incident Meteorologist (IMET): Tony Fuentes

Email: Tony.Fuentes@noaa.gov

Cell: (240) 778-5300

Hot and dry conditions this weekend with cumulus cloud build ups developing in the afternoon. Breezy west-southwest winds this afternoon. There will be an increasing potential for thunderstorms Sunday and Monday. Monday will be the main threat for storms with some dry lightning strikes possible. Increasing wind gusts and dry conditions developing by midweek.

TODAY (SATURDAY):

WEATHER:

Partly cloudy with a few afternoon cumulus cloud build ups, 5% chance

of an isolated shower.

WINDS (EYE LEVEL):

Mid-slope: WSW around 6-12 mph after 1300.

Ridgetop: SW 8 - 14 mph gusts 18 mph.

MAX TEMPERATURES:

83-89°. 93° at ICP Camp.

MINIMUM HUMIDITY:

15-21%

TRANSPORT WIND:

WSW 10-20 mph

LAL 1 HAINES: 4

TONIGHT (SATURDAY NIGHT):

WEATHER:

Mostly clear.

MIN TEMPERATURES:

48-53°F

MAX HUMIDITY:

O E 40/

MAX HUMBUTY:

49-54% Downslope 2-6 mph.

WINDS (EYE LEVEL): LAL: 1. HAINES: 3

SUNDAY:

WEATHER:

Hot, afternoon cumulus build-ups. 15% chance of thunderstorms.

WINDS (EYE LEVEL):

SSE 4-8 mph, shifting SSW after 1600.

MAX TEMPERATURES:

84-89°. 96° at ICP Camp.

MINIMUM HUMIDITY:

17-22%

TRANSPORT WIND: LAL 2 HAINES: 5 SE 10-15 mph, shifting SW after 1600.

Extended Forecast Table:

FIF	RE BEHAVIOR FORECAST
FORECAST NUMBER: 5	TYPE OF FIRE: Wildfire
FIRE NAME: Hog	OPERATIONAL PERIOD: 7/25/20 - 7/26/20
DATE ISSUED: 7/25/2020	TIME ISSUED: 0600
UNIT: CA-LMU-3874	SIGNED: Brian Newman But
	Typed/printed: Brian Newman FBAN
	INPUTS

WEATHER SUMMARY

Atmospheric stability has increased over the fire, leading to additional warming and drying. See IMET forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL:

- The fire is burning in heavy timber and slash intermixed with bitterbrush and Manzanita, along with clear cut plots littered with moderate to heavy slash.
- Fuel moistures in the bitterbrush are nearing record levels, and timber fuel moistures are very low due to drought conditions in the area. Fuel moistures in Manzanita are much higher, slowing fire spread
- The fire will continue to burn actively when aligned with the wind and slope.

Timber and slash: Rate of spread 6-10 ft/min // Flame length 2-6 feet // Spotting 500 feet // PIG 80%

Bitterbrush: Rate of spread 13-20 ft/min // Flame lengths 8-12 feet // Spotting 1/4 mile feet // PIG 70%

Manzanita: Rate of spread 9-10 ft/min // Flame lengths 3-5 ft // Spotting 200-300 feet // PIG 65%

SPECIFIC:

Branch I: Fire behavior is minimal, with smoldering heavies and stump holes. Topographic features in the Susan river drainage and along Hwy 36 channel winds in various directions. Unburned islands can become active as the temperatures and winds increase.

Branch V: Fire behavior is minimal but still has potential for activity within the interior islands with the increase in wind speed and rise in temperatures.

Branch IX: This Branch has the most activity as spots and unburned islands continue to become active. Southwest winds will be gusty over the upper portions of the Branch. The Manzanita in the plantation areas is slowing fire spread due to higher fuel moistures but can still be receptive to spots. The timber understory and clear-cut plots contain heavy dead and down and have a higher probability to contain smoldering spots fires.

AIR OPERATIONS: A weak inversion around 6500 feet may inhibit air operations until midmorning, but skies will clear for the rest of the day. Upper level winds will be south to southwest.

Sunrise: 05:53 Sunset: 20:25

SAFETY

- Snags/ trees can burn in the upper portions. Look up! Just because there is no fire in the lower trunk doesn't' mean it safe.
- Mop up should be more extensive in areas that could generate windblown embers across the line.
- Ash pits may still contain high heat, watch your footing near burned out stump holes

CALFIRE INCIDENT MANAGEMENT TEAM 3

SAFETY MESSAGE

Briefing

an act or instance of giving precise instructions or essential information.

- Take all COVID 19 precautions.
- Trees are weakened due to fire activity. Look Up, Down, and Around.
- · Make sure everyone gets a briefing!
- Monitor your hydration/nutrition intake and keep adequate supplies of each.
- Watch for utility poles that have been weakened by fire, they may fall suddenly.
- Drive defensively, watch your speed and use warning lights when needed.
- Watch for civilian traffic in the fire area.

 UNFAMILIAR WITH WEATHER AND LOCAL FACTORS INFLUENCING FIRE

P.A.C.E YOURSELF

P - Primary Plan (Offensive)

Is focused on firefighting safety and mission objectives.

A - Alternate Plan (Offensive)

A fall back plan that closely supports the primary plan.

C - Contingency Plan (Defensive)

Focused on the firefighter's safety, move to a safety zone or temporary refuge area.

E - Emergency Plan (Defensive)

Firefighter survival, Deployment zones, fire shelters

CALFIRE INCIDENT MANAGEMENT TEAM 3 SOF1 David Sargenti

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES						
		Wear mask when in camp and around the public.						
ALL	COVID 19	Wash/sanitize hands often.						
ALL	COVID 19	 Maintain social distancing when applicable. 						
		Complete daily COVID screening process.						
ALL	INCIDENT WITHIN AN INCIDENT (IWI)	Review medical plan for proper notification procedures.						
		Watch your speeds.						
		Watch for civilian traffic on the roadways.						
ALL	DRIVING HAZARDS	Drive defensively! Expect the unexpected.						
ALL	DRIVING HAZARDS	Watch for road degradation and dusty conditions.						
		Be aware of debris in the roadways from rollout, suppression						
		operations and fire damage to poles.						
ALL	WEATHER	Be aware of changing wind conditions.						
ALL	WEATHER	Watch for changing weather conditions.						
		All personnel are responsible for their personal safety.						
ALL	PERSONNEL SAFETY	Immediately report any suspicious activity.						
	A STATE STATE OF THE STATE OF T	Be sure to wear all required PPE while on the fire line.						
ATT	BOWED LINES	Be cautious if you encounter any down lines.						
ALL	POWER LINES	Make appropriate notifications if found.						
ATT	HVDD A TION	 Drink water before, during and after each shift. 						
ALL	HYDRATION	 Be alert for signs of heat stress in yourself and others. 						
	FIRE AND DROUGHT	Follow Hazard Tree Safety Guidelines (IRPG p. 22).						
ALL	WEAKENED TREES/SNAG	Many of the trees within the fire area and along roadways are						
	HAZARDS	stressed due to drought conditions and burn times.						
	The second secon	Wear all appropriate PPE.						
ALL	MOP UP	Watch for stump holes.						
		Do not get complacent.						
•		Check the communication plan for frequency assignments.						
ALL	COMMUNICATIONS	Be clear and concise when talking on the radio.						
		Use human repeaters as needed.						
ALL	BRIEFINGS	 Make sure everyone gets a briefing on the plan for the day. 						
	and the state of the control of the state of	Document this on your ICS 214.						
ALL	LCES	Ensure that LCES is being utilized.						
		Watch for rotor wash when working near helicopters.						
ALL	HELICOPTER AWARENESS	Understand that hazardous trees may react to helicopters						
		overhead.						
		Monitor assigned aircraft frequencies.						
		Watch out for heavy equipment traffic!						
ALL	HEAVY EQUIPMENT	Be aware of heavy equipment working in the area.						
		Be watchful around heavy equipment, they may not see you.

TRAINING SPECIALIST MESSAGE

TRAINEES:

Please register with the TNSP as soon as possible in order to receive documented credit for your training assignment. Training is located in the trailer adjacent to check-in.

TRAINERS/EVALUATORS:

The narrative in the ICS 225 (Performance Evaluation) should reflect the tasks performed by the trainee on the incident. Be as descriptive as possible.

Bring the following with you to register:

- -Incident Qualification Card
- -Initiated Position Task Book
 - -Trainee Registration Form

Justin Voyson TNSP 661-547-8629

INCIDENT TRAINEE REGISTRATION FORM

HOG INCIDENT CA-LMU-003874 JUSTIN VOYSON TNSP 661-547-8629

Complete ALL fields and return to Training Specialist or DROP BOX for entry into database.

Remember to close out training packets with the Training Specialist before DEMOB.

INCIDENT MANAGEMENT TEAM 3

Hog Incident CA-LMU-003874

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

PUBLIC INFORMATION SECTION

Incident Information Line: (530) 282-5714

Incident Media Line: (530) 282-5714

Incident Updates: www.fire.ca.gov/current incidents

STATUS						
Incident Start Date: 7/18/2020	Incident Start Time: 3:30 PM					
Cause: Under Investigation	Acres:					
Containment:	Total Personnel:					

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found here.

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy here.

PHOTOGRAPHS AND VIDEOS OF INCIDENT — We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND — The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Shasta Unit.

MAIL SERVICE - The Information Section can assist you with sending and receiving mail.

FINANCE SECTION MESSAGE

CAL FIRE staff; please ensure you start your eFC-33s with the Personnel Time Recorder.

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by agency personnel / line supervisors only, as well as EERAs.

Please report all injuries and suppression damage to the Comp / Claims Unit, no matter how minor.

The Finance Section is located in the grass area across from briefing.

Federal and Contract resources need to check-in with the Federal Time Unit.

OES is located in the back of fairgrounds.

ROGER RAINES, FSC1 TERRY EASTWOOD, DEP. FSC1

FIRING PLAN AND GO / NO GO CHECKLIST

Test Firing Plan

The size and location of the test burn will be large enough and representative of the fuels of the proposed burn area.

Communications:

A radio net announcement at the incident will be made prior to firing operations. This will be communicated on tactical and command nets and will identify general location of geographic area to be burned. Special frequencies may or may not be used.

Frequencies:

- 1. Firing Group Tactical
- 2. Air to Ground
- 3. Aerial ignition discreet frequencies:

Slop-overs and Escapes:

If an escape/slop-over occurs notify the Division/Group Supervisor, who will take appropriate suppression actions. The Firing Group Supervisor will evaluate whether or not to continue firing and communicate such to the Division Group Supervisor. At all times, appropriate information will be transmitted through the chain of command to the Operations Section Chief.

Perimeter Firing Sequence:

Seguence of Firing:

The perimeter firing will proceed as follows:

Conditions:

5.

Observed weather conditions: See IAP Weather Forecast Fire Behavior Burn Index: See IAP Fire Behavior Analysis

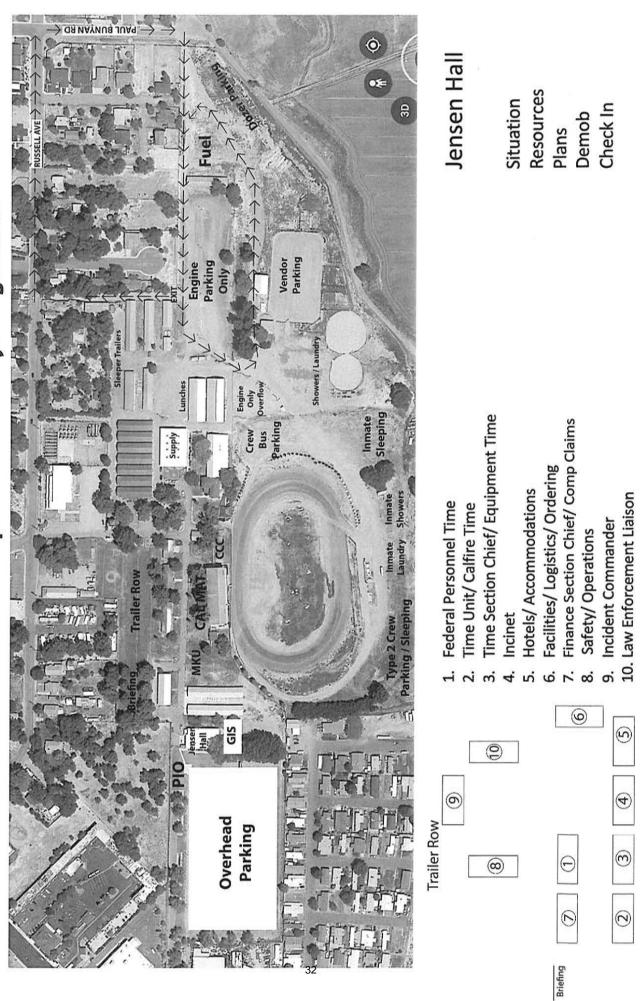

Dequence of Firing.	
Ignition will begin at anchor point(s)	
2.	
3.	
4	

Aerial Ignition Plan (Section 8344.5 of the CAL FIRE 8300 manual):

Ignition will begin at anchor point(s)	*
