WEATHER SUMMARY

Warming and drying trend will begin today. There is the chance of isolated showers in the area during the afternoon, with a LAL of 1. Relative Humidity will drop to the low teens and increase wind speeds by Thursday.

Winds upslope 3-6 becoming West Southwest 8-12 mph with gusts to 15 mph.

See IMET forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL:

- The fire area has an abundance of heavy timber and slash intermixed with bitterbrush and Manzanita, along with clear cut plots littered with moderate to heavy slash.
- Fuel moistures in the bitterbrush are nearing record levels, and timber fuel moistures are very low due to drought conditions in the area. Fuel moistures in Manzanita are much higher, slowing fire spread
- Scorched and fire dried brush can carry fire when pushed by forecasted winds

Timber and slash: Rate of spread 6-10 ft/min // Flame length 3-7 feet // Spotting 1000 feet // PIG 70%

Bitterbrush: Rate of spread 9-12 ft/min // Flame lengths 10-15 feet // Spotting ¼ mile // PIG 80%

Manzanita: Rate of spread 4-7 ft/min // Flame lengths 2-4 ft // Spotting 500 feet // PIG 65%

Values above are valid for any new starts in the area

SPECIFIC:

Branch I & V: Fire behavior is minimal, with stump holes and smoldering heavy material burning down well interior. Increased winds will cause smoldering material and unburned islands to become active, as well as releasing fire weakened timber.

Branch IX: Entire branch received little moisture over the past 2 days. Unburned islands continue to hold heat and smolder. The timber understory and clear-cut plots contain heavy dead and down and have a higher probability to contain smoldering spots fires.

AIR OPERATIONS: Partially cloudy with afternoon cumulus build ups. Expect gusty conditions over the ridge tops. Southwest transport winds 10-15 mph.

Sunrise: 05:58 Sunset: 20:20

SAFETY

- Snags and stump holes are likely in timber areas.
- Fire weakened timber will continue to release throughout the burn, especially in gusty conditions.
- Be alert for new starts, as they will grow quickly with the high wind and low humidity.

- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Shasta Unit.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.
