Time From:	0700	Time To:	0700						

3. Objective(s):

Strategic Objectives

A full suppression strategy is to be implemented on the Hog Incident. Values at risk associated to the incident include human safety, private property and associated improvements, electrical power infrastructure, and cultural values. Minimize acres burned on all lands by utilizing effective and efficient strategies and tactics while maintaining safety first.

Leaders Intent

Work effectively with cooperative partners towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct timely / effective communications
- Personal safety and safety of others, including driving slowly, safely and defensively Implementation of tactics that offer a high probability of success
- Manage fatigue by taking breaks and maintaining work rest cycles
- All line supervision personnel including crew and striketeam leaders must attend the morning Operational Briefing

Management Objectives

- Maintaining safe work practices to minimize injuries to emergency responders and impacts to the public
- Ensure COVID-19 precautions and best practices are met always
- Minimize damage to structures, private property and other improvements in the fire area
- Continue to implement the Fireline Suppression Repair Plan while protecting natural, cultural, and heritage resources
- Continue to foster and maintain positive relationships with all local cooperators and stakeholders
- Provide timely and accurate incident information
- Maintain fiscal accountability keeping costs commensurate with values at risk

Control Objectives

- Keep the fire within the existing containment / control lines

General Situational Awareness

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

Stop, Think, Organize, Proceed

INPUTS

WEATHER SUMMARY

Dry and breezy with relative humidity dropping into the single digits. Temperatures in the high 80's, LAL 1. Winds upslope 3-7 mph becoming Southwest 10-14 mph with gusts to 20 mph after 13:00. Weak overnight humidity recovery will occur across the entire area.

See IMET forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL:

- The local area has an abundance of heavy timber with ground litter, intermixed with grass, bitterbrush, and Manzanita, along with clear cut plots littered with moderate to heavy slash.
- Fuel moistures in the bitterbrush are nearing record levels, and timber fuel moistures are very low due to drought conditions in the area. Fuel moistures in Manzanita are much higher, slowing fire spread.
- Expect new ignitions to become wind driven quickly, with dangerous rates of spread and short-range spotting, when in alignment with slope.

Timber and slash: Rate of spread 6-10 ft/min // Flame length 3-7 feet // Spotting 1000 feet // PIG 85%

Bitterbrush: Rate of spread 9-12 ft/min // Flame lengths 10-13 feet // Spotting ¼ mile // PIG 70%

Manzanita: Rate of spread 5-9 ft/min // Flame lengths 2-4 ft // Spotting 500 feet // PIG 60%

*****Values above are valid for any new starts in the area*****

SPECIFIC:

- Fire behavior will be minimal. Smoldering will be possible from stump holes with deep seated heat, and thick surface fuels.
- Increased winds will cause smoldering material to become active, as well as releasing fire weakened timber.
- Fuel and weather conditions are very similar to those from the day of ignition.
- Cut blocks contain a very receptive fuel bed for embers to become established in, and release from forming new spot fires easily.
- **ERC values have reached the 90th percentile.**

AIR OPERATIONS: Clear skies. Gusty conditions will continue over the ridge tops. Transport winds will be out of the South Southwest 20-25 mph.

Sunrise: 06:00 Sunset: 20:18

SAFETY

- Ash pits will remain hot and could be deep. Watch your footing.
- Fire weakened timber will continue to release. Be alert for fire and mechanically damaged trees.
- New starts will have the ability to grow rapidly with the increase in wind and decrease in humidity.

SAFETY MESSAGE

Achievement
a result gained by effort

- Take all COVID 19 precautions.
- Trees are weakened due to fire activity. Look Up, Down, and Around.
- Make sure everyone gets a briefing!
- Monitor your hydration/nutrition intake and keep adequate supplies of each.
- Be aware for changing weather conditions
- Drive defensively, watch your speed and use warning lights when needed.
- Be cautious while traveling home, take rest breaks as needed.

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Immediately separate yourself from others.
- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Fever ○ Sore throat
 - Chills ○ Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

Communications

- Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your crew, and your camp!

TRAINING SPECIALIST MESSAGE

TRAINERS/EVALUATORS:

Beat the Rush!!

If as much work as possible has been completed in the position task book, you are strongly encouraged to take advantage of your time in camp and conduct the training close-out with the TNSP. It is not necessary to wait until you demob.

TRAINEES:

Today, July 30th at 1200 hours is the deadline to close out your active training assignment with the TNSP. In order to receive documented credit for your training assignment, you must close out with the Training Specialist.

Bring the following to the "exit interview"

- Your properly initiated Position Task Book
- Completed and signed ICS 225 Performance Evaluation
- Completed and signed Evaluation Record

Forms are available at the Training Desk
Remember: No documentation- it didn't happen!

Justin Voyson TNSP 661-547-8629

INCIDENT MANAGEMENT TEAM 3

DEMOBILIZATION MESSAGE Hog Incident CA-LMU-003874

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Shasta Unit.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

FINANCE SECTION MESSAGE

CAL FIRE staff; please ensure you start your eFC-33s with the Personnel Time Recorder.

Please make sure hired equipment shift tickets are completed for all private vendors and dropped off in the Time Unit by agency personnel / line supervisors only, as well as EERAs.

Please report all injuries and suppression damage to the Comp / Claims Unit, no matter how minor.

The Finance Section is located in the grass area across from briefing.

Federal and Contract resources need to check-in with the Federal Time Unit.

OES is located in the back of fairgrounds.
