

## Incident Status Summary (ICS-209)

Incident: **GOLD**

1. Incident Name: <b>GOLD</b>		2. Incident Number: <b>CA-LMU-003917</b>	
3. Report Version (check one box): Initial <input checked="" type="checkbox"/> Update Final	4. Incident Commander(s) & Agency or Organization: <b>Dave Russell - IC CAL FIRE IMT #4</b> <b>Michael Crites - IC USFS</b>	5. Incident Management Organization: <b>Type 1 Team</b>  <input checked="" type="checkbox"/> Unified Command	6. Incident Start Date/Time: Date: <b>07/20/2020</b> Time: <b>1218 PDT</b>
7. Current Incident Size or Area Involved (use unit label – e.g., "Acres", "Square Miles"): <b>21870 Acres</b>	8a. Percent (%) Contained or Completed: <b>65 %</b>	9. Incident Type: <b>Wildfire</b> B. Incident Description: <b>Timber and Grass</b> C. Cause: <b>Unknown</b> D. Fire Suppression Strategy:	10. Incident Complexity Level: <input checked="" type="checkbox"/> Single Complex  <b>Single Complex</b>
	b. Total Percentage (%) of Perimeter that will be Contained or Completed: <b>100 %</b>		
12. Prepared By: Print Name: <b>Dennis O'Neil, SITL</b> Date/Time Prepared: <b>07/28/2020 0530 PDT</b>		13. Approved By: Print Name: <b>Charles Blankenheim, IC (T)</b> Signature: 	
14. Date/Time Submitted: <b>07/28/2020 0550 PDT</b>	15. Primary Location, Organization, or Agency Sent To: <b>ONCC, LMU</b>		
16. State: <b>CA</b>	17. County / Parish / Borough: <b>Lassen</b>	18. City: <b>Adin</b>	
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): <b>CA-LMU</b>	
22. Latitude/Longitude: Latitude: <b>41° 5' 8"</b> Longitude: <b>120° 54' 15"</b>	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:	
25. Short Location or Area Description (list all affected areas or a reference point): <b>5 miles south of the town of Adin on Hwy 139</b>			26. UTM Coordinates: Zone: Easting: Northing:
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): <b><a href="https://ftp.nifc.gov/public/incident_specific_data/calif_n/!CALFIRE/!2020_Incidents/CA-LMU-003917_Gold/GIS/">https://ftp.nifc.gov/public/incident_specific_data/calif_n/!CALFIRE/!2020_Incidents/CA-LMU-003917_Gold/GIS/</a></b>			
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):  <b>Minimal Smoldering</b>			

## Incident Status Summary (ICS-209)

Incident: **GOLD**

Narrative:  
**Fire activity was minimal.**

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Timber (Grass and Understory)  
 Timber (Litter and Understory)  
 Brush (2 feet)**

Narrative:  
**Pinyon-juniper exhibited torching and ember cast into grass.**

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc): <b>The Damage Inspection Team has completed surveying the fire area. They have begun compiling the DINS report.</b>	A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed

# Incident Status Summary (ICS-209)

Incident: **GOLD**

## Repopulation:

**Zone A - The Zone A Evacuation Warning has been lifted for all residents along Hwy 139 from Susanville Rd. (A-2) south to Termo Grasshopper Rd.**

**Zone C - The Evacuation Order issued for the areas west of Hwy 139, south of Haydenhill Rd, east of Anderson Ranch Rd/Dixie Valley Rd and north of Long Flat Rd. has been reduced to an Evacuation Warning**

**Zone D-1 - The Evacuation Order has been reduced to an Evacuation warning for the area of Ash Valley Rd at Williams Rd. south to Mallard Dr. west to Prairie Rd. south to Termo Grass Hopper Rd, and west on Termo Grasshopper Rd to Spooner Rd and north to Ash Valley Rd.**

**Zone D-2 - The Evacuation Warning has been lifted for the area south of Ash Valley Rd at US-395 west to Williams Rd, south to Mallard Dr, west to Prairie Rd, south to Termo Grass Hopper Rd. and east to US-395.**

**Zone E - The Evacuation Warning has been lifted for areas west of Hwy 139 from Termo Grasshopper Rd. south to Gleghorn Rd and east of Slate Creek Rd.**

**Zone F-1 - The Evacuation Warning has been lifted for the area south Susanville Rd (A-2) from Hwy 139 west to US Forest Service Road 54/McClelland Rd, and north of Lonkey Hill.**

**Roads closed to all traffic except FD, LE, and other critical incident resources (i.e., utility companies, Caltrans, County Roads, etc.):**

**Ash Valley Rd. at Rail Canyon**

**Ash Valley Rd west of Williams Rd**

**FS Rd 38N04**

## Evacuation Centers:

**None**

**35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):**

**A brief break in the weather occurs today as little or no thunderstorms are expected. However, still on track for gusty west and southwest afternoon winds and very dry conditions beginning Wednesday. A dry slot will move across the region and promote near single digit daytime RHs along with very poor nighttime recoveries ( 25-30%) Wednesday night through Friday.**

## Incident Status Summary (ICS-209)

Incident: **GOLD**

**TODAY (TUESDAY DAYTIME):**

**WEATHER: Mostly sunny. A return of normal afternoon west wind.**

**MAX TEMPERATURES: 83 - 88**

**MIN HUMIDITY 4500 ft: 14 - 19 %.**

**WIND: East and Southeast 3 to 6 mph until noon. becoming West and Northwest 6 to 10 mph with gusts to 20 mph until 1800 PDT.**

**LAL: 1 CWR: 0% HAINES: 3**

**STABILITY / INVERSION: Unstable.**

**SMOKE TRANSPORT WIND: West 15 mph.**

**TONIGHT:**

**WEATHER: Partly Cloudy & lower RH recoveries.**

**MIN TEMPERATURES: 51-55.**

**MAX HUMIDITY: 45-55%.**

**WINDS (EYE LEVEL): Downslope or east 3 to 5 mph**

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Potential for increased fire behavior and new starts exists due to previous lightning as well drying conditions.**

24 hours: **Potential for increased fire behavior and new starts exists due to previous lightning as well drying conditions.**

48 hours: **Potential for increased fire behavior and new starts exists with anticipated Red Flag conditions through the end of the week, due to strong West wind and low RH.**

72 hours: **Weather models suggest a continuation of Red Flag warning through the week. New starts from lightning, coupled with strong winds and low RH, may lead to an increase in activity.**

Anticipated after 72 hours: **Weather models suggest a potential Red Flag warning later in the week. New starts from lightning, and low RH, may lead to an increase in activity.**

37. Strategic Objectives (define planned end-state for incident):

**Keep the fire North of Fort Mountain**

**Keep the fire South of Sweagert Flat and Hilton Road**

**Keep the fire East of Snag Hill**

**Keep the fire West of Madeline Plain**

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **Potential new starts from lightning strikes continue to be possible. The incident is burning in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and sensitive resources that are threatened, including spotted owl habitat.**

24 hours: **Potential new starts from previous lightning strikes will continue to be possible. The incident is burning in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and sensitive resources that are threatened, including spotted owl habitat.**

48 hours: **Potential new starts from previous lightning strikes will continue to be possible. The forecasted Red Flag conditions which will include strong winds and low relative humidity will likely increase fire behavior. The incident is burning in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and**

## Incident Status Summary (ICS-209)

Incident: **GOLD**

72 hours:	<p><b>sensitive resources that are threatened, including spotted owl habitat. Potential new starts from previous lightning strikes will continue to be possible. The forecasted Red Flag conditions which will include strong winds and low relative humidity will likely increase fire behavior. The incident is burning in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and sensitive resources that are threatened, including spotted owl habitat.</b></p>																
Anticipated after 72 hours:	<p><b>Potential new starts from previous lightning strikes will remain possible. The forecasted Red Flag conditions which will include strong winds and low relative humidity will likely increase fire behavior. The incident is burning in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and sensitive resources that are threatened, including spotted owl habitat.</b></p>																
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:																	
12 hours:																	
24 hours:																	
48 hours:																	
72 hours:																	
Anticipated after 72 hours:																	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:																	
1) critical resource needs identified above,																	
2) the Incident Action Plan and management objectives and targets,																	
3) anticipated results.																	
Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.																	
<b>LMU is currently managing two large wildland fire incidents. There will still be a threat of fires from previous lightning strikes, including those from yesterday. The incident is burning in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and sensitive resources that are threatened, including spotted owl habitat.</b>																	
41. Planned Actions for Next Operational Period:																	
<b>Personnel will continue to improve direct fire line, mop up and tactical patrol. Damage Inspection has completed field inspections and is compiling report and documentation. Suppression repair has begun implementing the plan for both SRA and FRA. Resources will continue to construct contingency line for California Pines.</b>																	
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"): <b>30,000</b>																	
43. Anticipated Incident Containment or Completion Date: <b>08/04/2020</b>																	
44. Projected Significant Resource Demobilization Start Date: <b>07/29/2020</b>																	
45. Estimated Incident Costs to Date: <b>\$16,148,694.00</b>																	
46. Projected Final Incident Cost Estimate: <b>\$35,000,000.00</b>																	
47. Remarks (or continuation of any blocks above – list block number in notation):																	
49. Resources (summarize resources by category, kind, and/or type; show # of resources on top 1/2 of box, show # of personnel associated with resource on bottom 1/2 of box):
