28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Minimal

Incident: GOLD

Smoldering Creeping

Narrative:

Fire behavior was minimal during today's shift. Single tree torching was occurring well inside the fire's perimeter.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Timber (Grass and Understory)
Timber (Litter and Understory)
Brush (2 feet)

Narrative:

Pinyon-juniper with grass and brush understory.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Damage Inspection and final report have been completed.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	25	0	9
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	1	0
H. Nonresidential Commercial Property	0	0	0

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

All containment lines are holding. Crews are reinforcing control lines, conducting mop up in 12 hours: heavy fuels and unburned islands and tactical patrol. Potential for increased fire behavior due to critically low afternoon relative humidity and very poor recoveries at night.

24 hours: Same as 12 hour.

48 hours: **Same as 12 hour.** 72 hours: **Same as 12 hour.**

Anticipated after 72 hours: Same as 12 hour.

37. Strategic Objectives (define planned end-state for incident):

Keep the fire North of Fort Mountain

Keep the fire South of Sweagert Flat and Hilton Road

Keep the fire East of Snag Hill

Keep the fire West of Madeline Plain

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources,

Incident: GOLD

cultural resources,	and continuity of	of operations and/or bus	iness. Identify	corresponding incide	ent-related p	otential
economic or casca	ding impacts:			_		

Potential for increased fire behavior due to critically low afternoon relative humidity and very poor recoveries at night. The incident is in areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and

sensitive resources that are threatened, including spotted owl habitat.

24 hours: **Same as 12 hour.**48 hours: **Same as 12 hour.**72 hours: **Same as 12 hour.**

Anticipated after 72 hours: Same as 12 hour.

- 39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
- 12 hours:
- 24 hours:
- 48 hours:
- 72 hours:

Anticipated after 72 hours:

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

LMU is currently managing two large wildland fire incidents. The incident is within areas with private residences, ranches, and commercial operations including agriculture, livestock, and timber. There are cultural and sensitive resources that are threatened, including spotted owl habitat.

41. Planned Actions for Next Operational Period:

Personnel will continue to improve direct fire line, mop up in heavy fuels and unburned islands, and tactical patrol. Damage Inspection and final report have been completed. Suppression repair continues to implement the plan for both SRA and FRA.

- 42. Projected Final Incident Size/Area (use unit label e.g., "Acres", "Square Miles"): 25,000
- 43. Anticipated Incident Containment or Completion Date: 08/07/2020
- 44. Projected Significant Resource Demobilization Start Date: 07/29/2020
- 45. Estimated Incident Costs to Date: \$27,961,306.00
- 46. Projected Final Incident Cost Estimate: \$33,000,000.00
- 47. Remarks (or continuation of any blocks above list block number in notation):
- 49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
