# INCIDENT ACTION PLAN LNU LIGHTNING COMPLEX

CA-LNU-013407

#### **OPERATIONAL PERIOD**

8/20/2020

to

0700

8/21/2020 0700

	ENT OBJECT	<del></del>	<del></del>					
1. Incident Name:	2. Operational Period:	Date From:	8/20/2020	Date To:	8/21/2020			
LNU LIGHTNING COMPLEX  3. Objective(s):		Time From:	0700	Time To:	0700			
Management Objectives								
- Provide for emergency personnel and public safety at all time	ne.							
- Ensure COVID-19 precautions and best practices are met at								
	all limes.							
- Protect property, improvements, and infrastructure.								
- Ensure coordinated, timely and accurate release of public info								
- Foster and maintain relationships with all cooperators and sta	akeholders.							
- Protect economic, natural, cultural and heritage resources.								
- Maintain fiscal accountability and keep costs commensurate	with values at risk.							
Control Objectives:								
Branch X - Keep the fire:	Branch XX & Bra	nch XXX - Kee	n the fire:					
North of the Russian River	- North of Highwa		<u>p tile ille.</u>					
South of Stewart's Point - Skagg Springs Rd.	- South of Highwa							
East of Highway 1	-	•						
- III								
West of Dry Creek Rd.	- West of Highway	7 505 & 16						
General Situational Awareness:			· · · · · · · · · · · · · · · · · · ·		<del></del>			
Stoop and graged torrain editionally decreased asserting facility								
Steep and rugged terrain, critically dry and receptive fuel bed	s, active area for fire histor	y and drought s	tressed trees.					
In the COVID-19 environment, high density populations or lar			rotect yourself,	your family				
and to ensure all employees return home safely, make sure to	o practice social distancing	1.						
Full and desired for the state of the state								
Enhanced hygiene (especially handwashing), PPE & monitori	ing practices help limit the	infection rate of	first responders	s.				
5. Site Safety Plan Required?	Yes □ No							
Approved Site Safety Plan(s) Located at:								
6. Incident Action Plan								
ICS 203 ICS 205	Firing Checklist							
Weather ICS 208	Shift Ticket Exam	0 🔲

# Fire Weather Forecast THURSDAY AUG 20, 2020

FORECAST NO:

PREDICTION FOR: Thursday

SHIFT DATE:

ISSUED:

August 20, 2020

NAME OF FIRE:

Incident Meteorologist:

UNIT:

LNU COMPLEX

LNU

**Tom Wright** 

1900, Aug 19, 2020

\*\*\* CONTINUED HOT, DRY, BREEZY TODAY \*\*\*

**DISCUSSION:** Hot and dry weather continues today, and breezy west-northwest winds will develop again this afternoon and lead to critical fire weather conditions. Northwest winds will be gusty through the valley locations, but the strongest winds will be over the ridges, gaps, and saddles.

#### **THURSDAY:**

• WEATHER: Mostly sunny.

- WIND (20 FT): Valleys: Light and variable through 1100 then becoming northwest 5-10 MPH with gusts to 15 MPH. Ridges and gaps: northwest 5-10 MPH through 1100 then becoming west-northwest 10-15 MPH with gusts to 20 MPH.
- MAX TEMPERATURES: bottom: 92-97, top: 88-93.
- MIN RH: bottom 20-25%, top 25-30%.

Branch X: Winds: North-northwest 10-20 MPH with gusts to 30 MPH. Min RH: 25-30%. Highs 83-88.

#### **THURSDAY NIGHT:**

WEATHER: Mostly clear.

- WIND (20 FT): Valleys: becoming light and variable. Ridges: west 5-10 MPH.
- MIN TEMPERATURES: 65-70.
- MAX RH: Valleys 70-80%, ridges: 40-50%.

Branch X: Winds: North-northwest 8-13 MPH. Max RH: 50-55%. Lows 60-65.

#### FRIDAY:

- WEATHER: Mostly sunny.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming west-northwest 5-10 MPH with gusts to 15 MPH. Ridges and gaps: northwest 5-10 MPH through 1100 then becoming west-northwest 10-15 MPH with gusts to 20 MPH.
- MAX TEMPERATURES: bottom: 92-97, top: 88-93.
- MIN RH: 25-30% all areas

Branch X: Winds: North-northwest 10-15 MPH with gusts to 20 MPH. Min RH: 30-35%. Highs 83-88.

#### LONG TERM TRENDS

Saturday and Sunday: Little change. Monday: Sight chance of thunderstorms.

FIRE BEHAVIOR FORECAST									
FORECAST NUMBER: 2	TYPE OF FIRE: WILDLAND FIRE								
FIRE NAME: LNU Lightning Complex	OPERATIONAL PERIOD: 08/20/20 - 08/21/20 24hr								
DATE ISSUED: 08/19/20	TIME ISSUED: 2200hrs								
UNIT: LNU	SIGNED: Robert Chark DECLARIC								
	Typed/printed: Robert Clark FBAN(t)								

#### **INPUTS**

WEATHER SUMMARY: \*\*\*See official forecast\*\*\* HOT, DRY, WINDY

Sky/ Weather.... Mostly sunny

Max Temperatures...92-97 Min Humidity... bottom 20-25%, top 25-30%.

#### **OUTPUTS**

#### **FIRE BEHAVIOR**

#### GENERAL:

Fuels throughout the complex area are critically dry with the area in severe drought stage with 1000hr fuels near record low levels and ERC's above the 90th percentile. Fuels are highly receptive to ignition from embers or lightning holdovers. Plume dominated fire behavior will be highly possible again over most of the complex and highly active fire behavior should be expected. Roll out and tree torching is probable, and will contribute to the spotting potential.

Grass- Head- ROS 40-110 ch/hr FL 6-10 ft, Flank- ROS 25-75 ch/hr FL 5-7 ft

Light Brush- Head- ROS 9-20 ch/hr FL 6-10 ft, Flank- ROS 7-14 ch/hr FL 5-7 ft

Heavy Brush- Head- ROS 70-140 ch/hr FL 12-25 ft, Flank- ROS 53- 130 ch/hr FL 8-22ft

Timber Understory- Head - ROS 12-25 ch/hr FL 7-11 ft, Flank- ROS 9-20 ch/hr FL 8-10 ft

Timber Litter- Head- ROS 9-20 ch/hr FL 4-7 ft, Flank- ROS 6-15 ch/hr FL 3-5 ft

\*Greater rates of spread and flame lengths are possible when wind and slope are in alignment.

Probability of Ignition: up to 80% Spotting Distance: Spotting up to ½ mile. Under the strongest wind gusts, spotting is possible up to 1 mile.

#### SPECIFIC:

West Zone- Fuels in this zone are mostly Pine and Redwood timber and understory with grass areas present along most ridges.

Wallridge fire will continue to burn to the southeast towards Rio Nido, Hacienda, and the Hwy 101 coridor.

Meyers fire will continue to burn towards the southeast along the coastal ridges.

North Zone- Morgan fire is burning in grass, brush, and oak woodland. It has merged with the Gamble fire on the north end. It will continue to burn towards the south, west of Lake Berryessa, and east towards Hwy 16 and the valley floor.

The Aetna fire is burning in grass, brush and oak woodland. It will continue to burn south towards Three Peaks and Angwin and southeast into Pope Valley. North Slopes of Three Peaks have a timber compontent.

South Zone- Fire will continue to spread to the east and south. Lighter fuels are present on the lower slopes. Watch for fire spread to the north along the east facing Vaca and Blue Ridge ranges influenced by the local valley winds.

AIR OPERATIONS: Smoke from area fires may limit aircraft use.

#### SAFETY

Escape routes and safety zones are a must, especially with the extremely dry fuels and observed extreme fire behavior!

Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.

#### **LIGHTNING COMPLEX SAFETY MESSAGE**

#### **Maintain Situational Awareness**

INCIDENT: Lightning Complex CA-LNU-013407 DATE: August 20, 2020 TIME: 0700-0700

Major Hazards and Risks: Extreme fire behavior, Hot dry weather, Limited resources.

**Extreme Fire Behavior**: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines and embers cast into structures during Structure Defense.

**Personnel:** Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

**Fatigue:** Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

**Driving:** Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

**Downed powerlines:** Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

**Hazard trees:** Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Review your ICS 206 and know what to do in the event of an (IWI).

Lookouts, Communication, Escape routes, Safety zones

#### **Tailgate Safety**

- Accountability: everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- Communication: everyone knows the com-plan
- **Briefing:** everyone knows the plan and the contingency plan
- Safety gear: All safety gear in good working condition
- LCES: they are clear and made known to everyone

#### **Covid-19 Precautions:**

- Keep your distance. Wear a mask when less than 6' from other people.
- Wash your hands
- No group gatherings without masks
- Don't show up to work sick
- Do daily health evaluations on your personnel each day.

Incident Safety Officer: Chad Thompson Incident Commander: Sean Kavanaugh

#### LIGHTNING COMPLEX INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS /	REMEDIES							
ALL	EXTREME FIRE BEHAVIOR	Review Wildland Urban Interface Firefighting in the IRPG.  Monitor current weather conditions and forecasts. Make sure all personnel receive a briefing every shift. Work within your capabilities when limited resources are available. Maintain adequate escape routes and safety zones. Set trigger points when appropriate. Adhere to the 10 Fire Orders, mitigate 18 Situations, and use Structure Defense Tactical Actions when protecting structures.								
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be ca Maintain Situational Awareness and separation.	reful of loose rolling debris							
ALL	THUNDERSTORM / LIGHTNING	Thunderstorms bring sudden reverse in wind direction and increase in wind speed. Take precautions when you hear thunder, not when the storm arrives. Take shelter in vehicle or building if possible. Find a low spot away from tall trees and don't group together. Don't stay on ridge tops. Follow <i>Thunderstorm Safety</i> guidelines in the IRPG.								
ALL	FATIGUE / HEAT / DEHYDRATION	During periods of hot/dry weather with limited resources be alert for signs of fatigue and take breaks as necessary.  Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible.								
ALL	COVID 19	Maintain 6' distance whenever possible. Utilize masks, washing/sanitizing, disinfect common surfaces, follow Guidelines. Monitor for symptoms, follow reporting pr	Napa County Public Health							
ALL	BACKFIRING and BURNOUT OPERATIONS	Before beginning a backfiring or burnout operation, ensure that: Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE.								
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working dista a Dozer. Utilize communication with the operator (rad Watch for signs indicating buried high-pressure gas lin	io or hand signals)							
ALL	POWER LINES	Follow <i>Powerline Safety</i> guidelines in the IRPG. Communicate power line hazards to immediate supervirular Flag area around downed power lines and deny access. Treat all downed power lines as energized.	sor.							
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in Use air-to-ground frequency to communicate with aircr Use clear, concise statements when directing aircraft.	the sky. aft.							
ALL	HAZARD TREES	Identify and isolate the area to provide for safety of oth proper notifications. Evaluate all trees prior to working Don't fall any tree outside of your qualification.	ers. Flag and make the g under or near them.							
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel. Ensure Lo engagement. Establish adequate safety zones. Use Do Utilize Risk Management Process (IRPG).	CES in place prior to wnhill Line Checklist.							
ALL	DRIVING	Drive defensively! Narrow winding roads are hazardor headlights on and seatbelts on. Be alert for heavy truck traffic crossing into your lane. Use warning devices wh	s and high speed opposing

Attach Firing Operations Checklist to ICS-214

#### Archaeological and Historic Properties: General Fire-line Guidance.

Do not compromise safety for the protection and preservation of archaeological and historic properties. When possible and prudent:

- 1. Be on the lookout for prehistoric and historic archaeological sites. These sites typically occur adjacent to streams and springs, confluences are often especially sensitive. However, sites can occur in other areas too. The most common indicators of prehistoric sites in this area (North Coast Ranges) are scatters of shiny black obsidian flakes from tool making activities and dark midden soils. Historic-era sites include homesteads that contain foundations, rock chimneys, and stone / brick-lined wells. Historic-era mining sites are possible as well.
- 2. Note, that not much of the area has ever been surveyed for archaeological resources and many sites out there have yet to be discovered.
- 3. If you observe archaeological resources, flagged or unflagged, attempt to avoid with ground disturbing activities altogether.
- 4. If avoidance is not possible, minimize ground disturbance. Use a hand crew rather than a dozer to remove fuels from control lines that must cross site areas if possible.
- 5. Leave all artifacts in place as some may have been intentionally placed for religious or ceremonial reasons.
- 6. Note locations of discovered resources on a map, better yet, take site coordinates with a GPS. Leave information for the archaeologist so that the sites can be relocated and protected during Fire Suppression Repair. Flag the site in red if possible.
- 7. If you encounter a burial or other human remains, cease work in that area and contact the archaeologist immediately.

Your help preserving California's non-renewable cultural resources is appreciated. It is our responsibility as federal and state employees to help in the protection of our heritage – preserving these places, and artifacts for scientific, cultural, educational, spiritual, and religious uses.

## CAL FIRE INCIDENT MANAGEMENT TEAM 2

#### TRAINING SPECIALIST MESSAGE

The Training Specialist is now available remotely.

#### ALL ASSIGNED TRAINEES

working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

Please scan the below QR Code to check in with the Training Specialist

Claudia Soiza TNSP 949.632.7813 Forms are Available upon request

#### **LNU COMPLEX FINANCE MESSAGE**

- Finance is set up in trailer row.
- Suppliers drop off contracts with Time Unit.
- See Hired Equipment Tech Spec if you are not getting shift tickets.
   EQTS Jason Hill 707-533-3610
- DIVS are responsible for completing hired equipment shift tickets every day.
   See Shift Ticket example.
- Use of CAL CARD for off-site feeding is approved. Drop off copy of CAL CARD receipt for incident records.
- Report all injuries, vehicle damage, or property damage to COMP/CLAIM.

# LNU LIGHTNING COMPLEX PUBLIC INFORMATION

Incident Information Line: 707-967-4207

Email pictures to: <u>LNULightningComplex2020@gmail.com</u>

#### **MEDIA**

<u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire
  personnel cannot provide members of the media with authorization to enter private
  property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

#### CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

#### PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

#### **LOST AND FOUND**

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

#### **MAIL SERVICE**

The Information staff will assist you in mailing and receiving letters and packages.

#### Fire and COVID-19 Briefing Checklist

Sel	f-Awareness / Screening								
	Immediately separate yourself from others.								
	o Cough, more than expected								
	<ul> <li>Shortness of breath or difficulty breathing</li> </ul>								
	New loss of taste or smell								
	o Fever o Sore throat								
	o Chills o Muscle pain								
	Review and follow crew and division plans to								
	isolate, triage, and transport symptomatic personnel.								
Hy	giene on the Fireline								
	Properly wash or sanitize your hands often,								
	especially before and after eating or entering a								
	public place, and after coughing or sneezing.								
	Avoid handshakes and communal use items.								
	Maintain a supply of hand sanitizer and hand wipes.								
	Inform supervisor of needed resupply.								
	Disinfect high touch surfaces often:								
	o Radios, phones, doors, pumps, fuel cans, etc.								
So	cial Distancing and Protective Equipment								
	Initiate, practice, and remind others of social								
	distancing.								
	Conduct briefings and conversations outdoors and at								
	least 6 feet apart.								
	Utilize face coverings as a tool when practical.								
	Clean or replace dirty face coverings, equipment,								
	and PPE.								
	mmunications								
	Face coverings and social distancing complicate								
	communications. Ensure effective sender/receiver								
	messaging.								
Pr	Protect yourself, your crew, and your camp!								
	Find more information: https://www.nwcg.gov/coronavirus.
