INCIDENT ACTION PLAN

LNU LIGHTNING COMPLEX

CA-LNU-013407

Thursday

OPERATIONAL PERIOD

8/20/2020 0700
 to
8/21/2020 0700

INCIDENT OBJECTIVES (ICS 202)

| | | | | | | | | | |
|---|--|------------|-----------|----------|-----------|------------|------|----------|------|
| 1. Incident Name: <p style="text-align: center;">LNU LIGHTNING COMPLEX</p> | 2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="padding-right: 10px;">Date From:</td> <td style="padding-right: 20px;">8/20/2020</td> <td style="padding-right: 20px;">Date To:</td> <td>8/21/2020</td> </tr> <tr> <td>Time From:</td> <td>0700</td> <td>Time To:</td> <td>0700</td> </tr> </table> | Date From: | 8/20/2020 | Date To: | 8/21/2020 | Time From: | 0700 | Time To: | 0700 |
| Date From: | 8/20/2020 | Date To: | 8/21/2020 | | | | | | |
| Time From: | 0700 | Time To: | 0700 | | | | | | |

3. Objective(s):

Management Objectives

- Provide for emergency personnel and public safety at all times.
- Ensure COVID-19 precautions and best practices are met at all times.
- Protect property, improvements, and infrastructure.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

Control Objectives:

Branch X - Keep the fire:

- North of the Russian River
- South of Stewart's Point - Skagg Springs Rd.
- East of Highway 1
- West of Dry Creek Rd.

Branch XX & Branch XXX - Keep the fire:

- North of Highway 12
- South of Highway 20
- East of Highway 29
- West of Highway 505 & 16

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.

Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

5. Site Safety Plan Required? Yes No

Fire Weather Forecast

THURSDAY AUG 20, 2020

| | | |
|------------------------------------|--------------------------------|--------------------|
| FORECAST NO: 2 | NAME OF FIRE: | LNU COMPLEX |
| PREDICTION FOR: Thursday | UNIT: | LNU |
| SHIFT DATE: August 20, 2020 | Incident Meteorologist: | Tom Wright |
| ISSUED: 1900, Aug 19, 2020 | | |

***** CONTINUED HOT, DRY, BREEZY TODAY *****

DISCUSSION: Hot and dry weather continues today, and breezy west-northwest winds will develop again this afternoon and lead to critical fire weather conditions. Northwest winds will be gusty through the valley locations, but the strongest winds will be over the ridges, gaps, and saddles.

THURSDAY:

- **WEATHER:** Mostly sunny.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming northwest 5-10 MPH with gusts to 15 MPH. Ridges and gaps: northwest 5-10 MPH through 1100 then becoming west-northwest 10-15 MPH with gusts to 20 MPH.
- **MAX TEMPERATURES:** bottom: 92-97, top: 88-93.
- **MIN RH:** bottom 20-25%, top 25-30%.

Branch X: Winds: North-northwest 10-20 MPH with gusts to 30 MPH. Min RH: 25-30%. Highs 83-88.

THURSDAY NIGHT:

- **WEATHER:** Mostly clear.
- **WIND (20 FT):** Valleys: becoming light and variable. Ridges: west 5-10 MPH.
- **MIN TEMPERATURES:** 65-70.
- **MAX RH:** Valleys 70-80%, ridges: 40-50%.

Branch X: Winds: North-northwest 8-13 MPH. Max RH: 50-55%. Lows 60-65.

FRIDAY:

- **WEATHER:** Mostly sunny.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming west-northwest 5-10 MPH with gusts to 15 MPH. Ridges and gaps: northwest 5-10 MPH through 1100 then becoming west-northwest 10-15 MPH with gusts to 20 MPH.
- **MAX TEMPERATURES:** bottom: 92-97, top: 88-93.
- **MIN RH:** 25-30% all areas.

Branch X: Winds: North-northwest 10-15 MPH with gusts to 20 MPH. Min RH: 30-35%. Highs 83-88.

LONG TERM TRENDS

Saturday and Sunday: Little change. **Monday:** Sight chance of thunderstorms.

FIRE BEHAVIOR FORECAST

| | |
|--|--|
| FORECAST NUMBER: 2 | TYPE OF FIRE: WILDLAND FIRE |
| FIRE NAME: LNU Lightning Complex | OPERATIONAL PERIOD: 08/20/20 – 08/21/20 24hr |
| DATE ISSUED: 08/19/20 | TIME ISSUED: 2200hrs |
| UNIT: LNU | SIGNED: Robert Clark <i>R. CLARK</i> |
| Typed/printed: Robert Clark FBAN(t) | |

INPUTS

WEATHER SUMMARY: *See official forecast*** HOT, DRY, WINDY**

Sky/ Weather.... Mostly sunny

Max Temperatures...92-97 Min Humidity... bottom 20-25%, top 25-30%.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels throughout the complex area are critically dry with the area in severe drought stage with 1000hr fuels near record low levels and ERC's above the 90th percentile. Fuels are highly receptive to ignition from embers or lightning holdovers. Plume dominated fire behavior will be highly possible again over most of the complex and highly active fire behavior should be expected. Roll out and tree torching is probable, and will contribute to the spotting potential.

Grass- Head- ROS 40-110 ch/hr FL 6-10 ft, Flank- ROS 25-75 ch/hr FL 5-7 ft

Light Brush- Head- ROS 9-20 ch/hr FL 6-10 ft, Flank- ROS 7-14 ch/hr FL 5-7 ft

Heavy Brush- Head- ROS 70-140 ch/hr FL 12-25 ft, Flank- ROS 53- 130 ch/hr FL 8-22ft

Timber Understory- Head – ROS 12-25 ch/hr FL 7-11 ft, Flank- ROS 9-20 ch/hr FL 8-10 ft

Timber Litter- Head- ROS 9-20 ch/hr FL 4-7 ft, Flank- ROS 6-15 ch/hr FL 3-5 ft

*Greater rates of spread and flame lengths are possible when wind and slope are in alignment.

Probability of Ignition: up to 80% **Spotting Distance:** Spotting up to ½ mile. Under the strongest wind gusts, spotting is possible up to 1 mile.

SPECIFIC:

West Zone- Fuels in this zone are mostly Pine and Redwood timber and understory with grass areas present along most ridges.

Wallridge fire will continue to burn to the southeast towards Rio Nido, Hacienda, and the Hwy 101 corridor.

Meyers fire will continue to burn towards the southeast along the coastal ridges.

North Zone- Morgan fire is burning in grass, brush, and oak woodland. It has merged with the Gamble fire on the north end. It will continue to burn towards the south, west of Lake Berryessa, and east towards Hwy 16 and the valley floor.

The Aetna fire is burning in grass, brush and oak woodland. It will continue to burn south towards Three Peaks and Angwin and southeast into Pope Valley. North Slopes of Three Peaks have a timber component.

South Zone- Fire will continue to spread to the east and south. Lighter fuels are present on the lower slopes. Watch for fire spread to the north along the east facing Vaca and Blue Ridge ranges influenced by the local valley winds.

AIR OPERATIONS: Smoke from area fires may limit aircraft use.

SAFETY

Escape routes and safety zones are a must, especially with the extremely dry fuels and observed extreme fire behavior!

Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.

LIGHTNING COMPLEX SAFETY MESSAGE

Maintain Situational Awareness

INCIDENT: Lightning Complex CA-LNU-013407 **DATE:** August 20, 2020 **TIME:** 0700-0700

Major Hazards and Risks: Extreme fire behavior, Hot dry weather, Limited resources.

Extreme Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines and embers cast into structures during Structure Defense.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Fatigue: Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

Driving: Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Downed powerlines: Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Review your ICS 206 and know what to do in the event of an (IWI).

Lookouts, Communication, Escape routes, Safety zones

Tailgate Safety

- **Accountability:** everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- **Communication:** everyone knows the com-plan
- **Briefing:** everyone knows the plan and the contingency plan
- **Safety gear:** All safety gear in good working condition
- **LCES:** they are clear and made known to everyone

Covid-19 Precautions:

- Keep your distance. Wear a mask when less than 6' from other people.
- Wash your hands
- No group gatherings without masks
- Don't show up to work sick
- Do daily health evaluations on your personnel each day.

Incident Safety Officer: Chad Thompson

Incident Commander: Sean Kavanaugh

LIGHTNING COMPLEX INCIDENT RISK ANALYSIS (ICS 215a)

| DIV | HAZARDOUS ACTIONS/CONDITIONS | MITIGATIONS / WARNINGS / REMEDIES |
|--|--|--|
| ALL | EXTREME FIRE BEHAVIOR | Review Wildland Urban Interface Firefighting in the IRPG. Monitor current weather conditions and forecasts. Make sure all personnel receive a briefing every shift. Work within your capabilities when limited resources are available. Maintain adequate escape routes and safety zones. Set trigger points when appropriate. Adhere to the 10 Fire Orders, mitigate 18 Situations, and use Structure Defense Tactical Actions when protecting structures. |
| ALL | STEEP TERRAIN / ROLLING DEBRIS | Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation. |
| ALL | THUNDERSTORM / LIGHTNING | Thunderstorms bring sudden reverse in wind direction and increase in wind speed. Take precautions when you hear thunder, not when the storm arrives. Take shelter in vehicle or building if possible. Find a low spot away from tall trees and don't group together. Don't stay on ridge tops. Follow <i>Thunderstorm Safety</i> guidelines in the IRPG. |
| ALL | FATIGUE / HEAT / DEHYDRATION | During periods of hot/dry weather with limited resources be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible. |
| ALL | COVID 19 | Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Napa County Public Health Guidelines. Monitor for symptoms, follow reporting procedure. |
| ALL | BACKFIRING and BURNOUT OPERATIONS | Before beginning a backfiring or burnout operation, ensure that: Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE. |
| ALL | DOZER SAFETY | Watch for rolling material. Monitor safe working distances. Avoid working below a Dozer. Utilize communication with the operator (radio or hand signals) Watch for signs indicating buried high-pressure gas lines, stay out of the dust. |
| ALL | POWER LINES | Follow <i>Powerline Safety</i> guidelines in the IRPG. Communicate power line hazards to immediate supervisor. Flag area around downed power lines and deny access. Treat all downed power lines as energized. |
| ALL | AIRCRAFT OPERATIONS | Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. |
| ALL | HAZARD TREES | Identify and isolate the area to provide for safety of others. Flag and make the proper notifications. Evaluate all trees prior to working under or near them. Don't fall any tree outside of your qualification. |
| ALL | LINE CONSTRUCTION | Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Utilize Risk Management Process (IRPG). |
| ALL | DRIVING | Drive defensively! Narrow winding roads are hazardous. Slow Down. Drive with headlights on and seatbelts on. Be alert for heavy trucks and high speed opposing traffic crossing into your lane. Use warning devices when operating near traffic. |

6. Special Medical Emergency Procedures

Line Emergency
 Crew Supervisor will contact Division Supervisor with patient complaint/condition and location.
 - Division Group Supervisor Contacts:
 1. Closest EMS resource
 2. Communications Unit
 - Communications Unit Contacts:
 1. Ground or Air ambulance as requested.
 2. Operations
 3. Safety
 4. Medical Unit
 - Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel.
 1. A pre-assigned tactical frequency (i.e. CALCORD) should be used for IWI and only for duration of the emergency.
 - Communications Unit will clear the Command channel for emergency traffic as needed for duration of the need.

Camp Emergency
 Contact Medical Unit with patient complaint/condition and location. Medical staff will respond to stabilize the patient.
 - Medical Unit contacts
 1. Communications
 2. Safety
 3. Logistics
 4. Operations
 5. Crew Supervisor
 6. Comp/Claims

Injury Reporting Procedures

Nature of Injury: _____
 Location of Patient: _____
 Point of Contact: _____
 Transportation Requested by: Air _____ Ground _____
 Point of Pick-Up: _____
 Lat: _____ Long: _____
 Patient Unit ID: _____
 Is an EMT with Patient: Yes _____ No _____
 Age: _____ Sex: Male _____ Female _____

All Emergencies - Secure the area and identified witnesses for later investigation. Keep accurate log of events.

Check box if aviation assets are utilized for rescue. If assets are used, coordinate with Air Operations.

FIRING OPERATION CHECKLIST

Location: _____

Date: _____ Time: _____

Firing Supervisor _____

1. Personnel Briefing

- Objectives
- Conditions (fire environment)
- Resource assignments identified
 - Firing personnel
 - Holding forces
 - Lookouts
- Ignition plan/sequence
- Communication Plan
- Contingency Plan
- Safety issues

2. Go / No-Go

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted as needed
- Anchor and termination firing points identified
- Communications systems in place
- Fire behavior forecast reviewed
- Escape routes and safety zones established and made known
- Adjoining forces/Air Attack notified

3. Approval Prior To Firing

- Division Supervisor
- Branch Director
- Operations

4. Other Notifications

- Other: _____
- Other: _____

Attach Firing Operations Checklist to ICS-214

Archaeological and Historic Properties: General Fire-line Guidance.

**Do not compromise safety for the protection and preservation of archaeological and historic properties.
When possible and prudent:**

1. Be on the lookout for prehistoric and historic archaeological sites. These sites typically occur adjacent to streams and springs, confluences are often especially sensitive. However, sites can occur in other areas too. The most common indicators of prehistoric sites in this area (North Coast Ranges) are scatters of shiny black obsidian flakes from tool making activities and dark midden soils. Historic-era sites include homesteads that contain foundations, rock chimneys, and stone / brick-lined wells. Historic-era mining sites are possible as well.
2. Note, that not much of the area has ever been surveyed for archaeological resources and many sites out there have yet to be discovered.
3. If you observe archaeological resources, flagged or unflagged, attempt to avoid with ground disturbing activities altogether.
4. If avoidance is not possible, minimize ground disturbance. Use a hand crew rather than a dozer to remove fuels from control lines that must cross site areas if possible.
5. Leave all artifacts in place as some may have been intentionally placed for religious or ceremonial reasons.
6. Note locations of discovered resources on a map, better yet, take site coordinates with a GPS. Leave information for the archaeologist so that the sites can be relocated and protected during Fire Suppression Repair. Flag the site in red if possible.
7. If you encounter a burial or other human remains, cease work in that area and contact the archaeologist immediately.

Your help preserving California's non-renewable cultural resources is appreciated. It is our responsibility as federal and state employees to help in the protection of our heritage – preserving these places, and artifacts for scientific, cultural, educational, spiritual, and religious uses.

LNU LIGHTNING COMPLEX PUBLIC INFORMATION

Incident Information Line: 707-967-4207

Email pictures to: LNULightningComplex2020@gmail.com

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Immediately separate yourself from others.
- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Fever ○ Sore throat
 - Chills ○ Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

Communications

- Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your crew, and your camp!
