

INCIDENT ACTION PLAN

LNU LIGHTNING COMPLEX

CA-LNU-013407

Friday

OPERATIONAL PERIOD

8/21/2020 0700

to

8/22/2020 0700

Briefing will be broadcasted on CDF TAC 27

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">LNU LIGHTNING COMPLEX</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="padding: 0 10px;">Date From:</td> <td style="padding: 0 10px;">8/21/2020</td> <td style="padding: 0 10px;">Date To:</td> <td style="padding: 0 10px;">8/22/2020</td> </tr> <tr> <td style="padding: 0 10px;">Time From:</td> <td style="padding: 0 10px;">0700</td> <td style="padding: 0 10px;">Time To:</td> <td style="padding: 0 10px;">0700</td> </tr> </table>	Date From:	8/21/2020	Date To:	8/22/2020	Time From:	0700	Time To:	0700
Date From:	8/21/2020	Date To:	8/22/2020						
Time From:	0700	Time To:	0700						

3. Objective(s):

Management Objectives

- Provide for emergency personnel and public safety at all times.
- Ensure COVID-19 precautions and best practices are met at all times.
- Protect property, improvements, and infrastructure.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

Control Objectives:

<p><u>Branch X - Keep the fire:</u></p> <ul style="list-style-type: none"> - North of the Russian River - South of Kelly Rd. - East of Highway 1 - West of Dry Creek Rd. 	<p><u>Branch XX, XXX, XL - Keep the fire:</u></p> <ul style="list-style-type: none"> - North of Highway 12 - South of Highway 20 - East of Highway 29 - West of Highway 505 & 16
---	---

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.

Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

5. Site Safety Plan Required? Yes No

Fire Weather Forecast

FRIDAY AUG 21, 2020

FORECAST NO: 3
PREDICTION FOR: Friday
SHIFT DATE: August 21, 2020
ISSUED: 1900, Aug 20, 2020

NAME OF FIRE: LNU COMPLEX
UNIT: LNU
Incident Meteorologist: Tom Wright

***** CONTINUED HOT, DRY, BREEZY TODAY *****

DISCUSSION: Hot and dry weather continues today, and breezy west-northwest winds will develop again this afternoon and lead to near-critical fire weather conditions. Northwest winds will be gusty through the valley locations, but the strongest winds will be over the ridges, gaps, and saddles. **Winds shift to southwest tomorrow!**

FRIDAY:

- **WEATHER:** Mostly sunny.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming west-northwest 5-10 MPH with gusts to 15 MPH. Ridges and gaps: northwest 5-10 MPH through 1100 then becoming west-northwest 10-15 MPH with gusts to 20 MPH.
- **MAX TEMPERATURES:** bottom: 92-97, top: 88-93.
- **MIN RH:** 23-28% bottom, 28-33% top.

Branch X: Winds: North-northwest 10-15 MPH with gusts to 20 MPH. Min RH: 35-40%. Highs 80-85.

FRIDAY NIGHT:

- **WEATHER:** Mostly clear.
- **WIND (20 FT):** Valleys: becoming light and variable. Ridges: northwest 4-8 MPH.
- **MIN TEMPERATURES:** 60-65 bottom, 65-70 top.
- **MAX RH:** Valleys 70-80%, ridges: 40-50%.

Branch X: Winds: North-northwest 5-10 MPH. Max RH: 80-100%. Lows 55-60.

SATURDAY: ***** WINDS BECOMING MORE SOUTHWESTERLY *****

- **WEATHER:** Mostly sunny.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming south 4-8 MPH with gusts to 12 MPH. Ridges and gaps: northwest 4-8 MPH through 1100 then becoming west-southwest 8-13 MPH with gusts to 18 MPH.
- **MAX TEMPERATURES:** bottom: 92-97, top: 88-93.
- **MIN RH:** 23-28% bottom, 28-33% top

Branch X: Winds: West-southwest 5-10 MPH with gusts to 15 MPH. Min RH: 45-55%. Highs 75-80.

LONG TERM TRENDS

Sunday: Little change. **Monday and Tuesday:** Slight chance of thunderstorms.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3	TYPE OF FIRE: WILDLAND FIRE
FIRE NAME: LNU Lightning Complex	OPERATIONAL PERIOD: 08/21/20 – 08/22/20 24hr
DATE ISSUED: 08/20/20	TIME ISSUED: 2200hrs
UNIT: LNU	SIGNED: Robert Clark
	Typed/printed: R. Clark, T. Velin, H. Scanlon

INPUTS

WEATHER SUMMARY: ***See official forecast*** Continued hot and dry weather.
Sky/ Weather.... Mostly sunny
Max Temperatures...bottom 92-97, **top** 88-93 **Min Humidity... bottom** 23-28%, **top** 28-33%.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels are at holding at the 90th percentile for ERC and are available to burn, continuing through the next 7 days. The area is currently in moderate drought. Fuels are highly receptive to ignition from embers, lightning holdovers, or new ignitions. Highly active fire behavior should be expected. Roll out and tree torching is probable, and will contribute to the spotting potential.

Rates of Spread- up to 1.5 mi/hr, **Flame Lengths** up to 25 ft

*Greater rates of spread and flame lengths are possible when wind and slope are in alignment.

Probability of Ignition: up to 80% **Spotting Distance:** Spotting up to ½ mile.

SPECIFIC:

West Zone Meyers – This fire is burning in heavy timber broken up by grassy meadows. Lower temperatures and higher humidities will decrease fire behavior and spread in light fuels. North-northwest winds will challenge control lines on the eastern flank. If the fire crosses Meyers grade road it is likely to become well established in more continuous heavy fuels with few roads

Walbridge – Expect the fire to be active on the eastern flank today. Heavy fuels and difficult terrain will challenge control efforts. If the fire did not reach Guerneville or Rio Nido last night, I would expect it to occur this operational period. As the fire approaches the Hwy 101 corridor and the Russian river the terrain eases and the fuels transition to grass and agriculture. If the fire crosses the Russian river to the south, chances are high that it will become well established in heavy timber understory fuels.

East Zone-

Branch XX- Expect the fire to continue to actively burn against the wind on the west flanks and will make runs to the southeast when in alignment with favorable fuels and topography. Spread to the northeast towards Hwy 20 will be possible. It will continue to burn south towards Three Peaks and Angwin, and southeast into Pope Valley. North Slopes of Three Peaks have a timber component.

Branch XXX- Fire will continue to spread to the south, with spread to the east still possible. Southern end of the branch will be influenced by the local valley winds. Watch for fire spread to the north along the east facing Vaca and Blue Ridge ranges influenced by the local valley winds.

Branch XL- - expect fire to back downslope with favorable afternoon winds. Fire growth will be to the southeast. Grass and shrub fuels have burned recently, with some dead shrub skeletons available to burn. Good nighttime humidity recovery in the valley bottom will moderate burning after dark.

AIR OPERATIONS:

SAFETY

Escape routes and safety zones are a must, especially with the extremely dry fuels and observed extreme fire behavior!

Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.

Stump holes/ ash pits from the larger fuels will be present over most of the complex area.

LIGHTNING COMPLEX SAFETY MESSAGE

Lookouts, **C**ommunication, **E**scape routes, **S**afety zones

INCIDENT: Lightning Complex CA-LNU-013407 | **DATE:** August 21, 2020 | **TIME:** 0700-0700

Major Hazards and Risks: Extreme fire behavior, Hot dry weather, Limited resources.

Extreme Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines and embers cast into structures during Structure Defense.

Driving: Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Fatigue: Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Downed powerlines: Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

Review your ICS 206 and know what to do in the event of an (IWI).

Maintain Situational Awareness

New Incidents:

- Remain flexible and mobile.
- Identify available resources ahead of time
- Utilize **PACE** planning. Have a **primary, alternative, contingent, and emergency** plans.
- **Establish LCES** in the beginning of a new start.

Covid-19 Precautions:

- Keep your distance. Wear a mask when less than 6' from other people.
- Wash your hands
- No group gatherings without masks
- Don't show up to work sick
- Do daily health evaluations on your personnel.

Incident Safety Officer: **Chad Thompson**

Incident Commander: **Sean Kavanaugh**

LIGHTNING COMPLEX INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	EXTREME FIRE BEHAVIOR	Review Wildland Urban Interface Firefighting in the IRPG. Monitor current weather conditions and forecasts. Make sure all personnel receive a briefing every shift. Work within your capabilities when limited resources are available. Maintain adequate escape routes and safety zones. Set trigger points when appropriate. Adhere to the 10 Fire Orders, mitigate 18 Situations, and use Structure Defense Tactical Actions when protecting structures.
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation.
ALL	DRIVING	Drive defensively! Narrow winding roads are hazardous. Slow Down. Drive with headlights on and seatbelts on. Be alert for heavy trucks and high speed opposing traffic crossing into your lane. Use warning devices when operating near traffic.
ALL	FATIGUE / HEAT / DEHYDRATION	During periods of hot/dry weather with limited resources be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible.
ALL	COVID 19	Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Napa County Public Health Guidelines. Monitor for symptoms, follow reporting procedure.
ALL	BACKFIRING and BURNOUT OPERATIONS	Before beginning a backfiring or burnout operation, ensure that: Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE.
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below a Dozer. Utilize communication with the operator (radio or hand signals) Watch for signs indicating buried high-pressure gas lines, stay out of the dust.
ALL	POWER LINES	Follow <i>Powerline Safety</i> guidelines in the IRPG. Communicate power line hazards to immediate supervisor. Flag area around downed power lines and deny access. Treat all downed power lines as energized.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft.
ALL	HAZARD TREES	Identify and isolate the area to provide for safety of others. Flag and make the proper notifications. Evaluate all trees prior to working under or near them. Don't fall any tree outside of your qualification.
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Utilize Risk Management Process (IRPG).
ALL	LIMITED RESOURCES	Always work within the capabilities of yourself or your crew. Apply a risk management process to identify hazards, implement a plan, and evaluate progress frequently. Do not implement a plan that relies on other resources showing up. Anticipate changes, stay flexible, and be ready for the unexpected.

FIRING OPERATION CHECKLIST

Location: _____

Date: _____ Time: _____

Firing Supervisor _____

1. Personnel Briefing

- Objectives
- Conditions (fire environment)
- Resource assignments identified
 - Firing personnel
 - Holding forces
 - Lookouts
- Ignition plan/sequence
- Communication Plan
- Contingency Plan
- Safety issues

2. Go / No-Go

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted as needed
- Anchor and termination firing points identified
- Communications systems in place
- Fire behavior forecast reviewed
- Escape routes and safety zones established and made known
- Adjoining forces/Air Attack notified

3. Approval Prior To Firing

- Division Supervisor
- Branch Director
- Operations

4. Other Notifications

- Other: _____
- Other: _____

Attach Firing Operations Checklist to ICS-214

In readiness is all

Archaeological and Historic Properties: General Fire-line Guidance.

Do not compromise safety for the protection and preservation of archaeological and historic properties. When possible and prudent:

1. Be on the lookout for prehistoric and historic archaeological sites. These sites typically occur adjacent to streams and springs, confluences are often especially sensitive. However, sites can occur in other areas too. The most common indicators of prehistoric sites in this area (North Coast Ranges) are scatters of shiny black obsidian flakes from tool making activities and dark midden soils. Historic-era sites include homesteads that contain foundations, rock chimneys, and stone / brick-lined wells. Historic-era mining sites are possible as well.
2. Note, that not much of the area has ever been surveyed for archaeological resources and many sites out there have yet to be discovered.
3. If you observe archaeological resources, flagged or unflagged, attempt to avoid with ground disturbing activities altogether.
4. If avoidance is not possible, minimize ground disturbance. Use a hand crew rather than a dozer to remove fuels from control lines that must cross site areas if possible.
5. Leave all artifacts in place as some may have been intentionally placed for religious or ceremonial reasons.
6. Note locations of discovered resources on a map, better yet, take site coordinates with a GPS. Leave information for the archaeologist so that the sites can be relocated and protected during Fire Suppression Repair. Flag the site in red if possible.
7. If you encounter a burial or other human remains, cease work in that area and contact the archaeologist immediately.

Your help preserving California's non-renewable cultural resources is appreciated. It is our responsibility as federal and state employees to help in the protection of our heritage – preserving these places, and artifacts for scientific, cultural, educational, spiritual, and religious uses.

LNU LIGHTNING COMPLEX PUBLIC INFORMATION

Incident Information Line: 707-967-4207

Email pictures to: LNULightningComplex2020@gmail.com

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post:**

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.

Peer Support Team Message

LNU LIGHTNING COMPLEX INCIDENT PEER SUPPORT

Resource Box

Thank you for taking the time to have a look at this message.

Please pay attention to yourselves and others around you. Positive interactions go a long way. Many of us are here, away from our families and kindness towards each other is key.

Things to be aware of:

- Negative coping mechanisms
- Lack of sleep
- Irritability
- Fatigue
- Social withdrawal
- Depression
- Increased anxiety

You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit.

If you find yourself in this situation and need to talk to someone, please contact Employee Support Services.

Warren Parrish: 916-823-6641

Chris Lamonto: 916-247-6974

Amy Head: 916-956-3277

ESS Helpline: 916-445-4337

We are here for all personnel at this incident.
