INCIDENT ACTION PLAN GLASS INCIDENT

CA-LNU-015947

Saturday

BRIEFING BROADCAST - VFIRE 25

OPERATIONAL PERIOD

10/3/2020 0700
to
10/4/2020 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Glass</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">10/3/2020</td> <td style="border: none;">Date To:</td> <td style="border: none;">10/4/2020</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0700</td> <td style="border: none;">Time To:</td> <td style="border: none;">0700</td> </tr> </table>	Date From:	10/3/2020	Date To:	10/4/2020	Time From:	0700	Time To:	0700
Date From:	10/3/2020	Date To:	10/4/2020						
Time From:	0700	Time To:	0700						

3. Objective(s):
Strategic Objectives
 A full suppression strategy is to be implemented on the Glass Incident. Values at risk associated to the incident include human safety, private property and associated improvements, electrical power infrastructure, and cultural values. Minimize acres burned on all lands by utilizing effective and efficient strategies and tactics while maintaining safety first.

Leaders Intent
 Work effectively with cooperative partners towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take the appropriate actions regarding:
 Professional behavior, conduct timely / effective communications
 Personal safety and safety of others, including driving slowly, safely and defensively
 Implementation of tactics that offer a high probability of success
 Manage fatigue by taking breaks and maintaining work rest cycles

- Management Objectives
- Fight fire aggressively while maintaining safe work practices to minimize threats to the public and emergency responders; all actions and efforts will focus on safeguarding the citizens, communities and resources of Napa, Sonoma and Lake Counties
 - Ensure COVID-19 precautions and best practices are met always
 - Ensure evacuations and repopulations occurs in safe, efficient and effective manner
 - Minimize damage to structures, private property and other improvements in the fire area
 - Protect natural, cultural and heritage resources
 - Continue to foster and maintain positive relationships with all local cooperators and stakeholders
 - Provide timely and accurate incident information
 - Maintain fiscal accountability, keeping costs commensurate with values at risk

- Control Objectives
- Keep the fire North of Trinity Rd / Oakville Grade Rd.
 - Keep the fire South of Lake County line.
 - Keep the fire East of US 101
 - Keep the fire West of Chiles Pope Valley Rd.

General Situational Awareness:
 Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.
Stop, Think, Organize, Proceed

5. Site Safety Plan Required? Yes No

INCIDENT Weather Forecast

FORECAST NO: 05

NAME OF FIRE: Glass Fire

SHIFT DATE: Saturday 10/03/2020

UNIT: Sonoma-Lake-Napa

TIME AND DATE

FORECAST ISSUED: 1900hrs 10/02/2020

SIGNED:

Incident Meteorologist

Tom Bird

WEATHER DISCUSSION: Fire weather conditions continue to run at elevated levels as the region remains under high pressure. The high pressure will be responsible for more excessive heat today, and a repeat of the extremely dry conditions. High temperatures will top out at 15 degrees above normal, with max temperatures in the low 90s across the fire. Minimum relative humidity will again drop into the teens. Winds will favor northwest to west 10 to 15 mph with some higher gusts on the upper slopes and ridges. Weather moderates Sunday with a bit of on overnight onshore flow into Sunday morning, but continued warm and dry. More cooling, and gains in relative humidity, help out somewhat mid-week as we watch for a pattern shift at week's end that shows potential to bring precipitation next Friday into the weekend.

WEATHER FORECAST:

WEATHER: Mostly sunny, but with a lot of smoke. Hot, dry, slightly breezy at upper elevations in the aftn.

MAX TEMPERATURES (1500ft): 87-92 hills. Near 93-98 valley floors.

MIN HUMIDITY: 15-20%.

20 FT WINDS:

RIDGETOPS / SLOPES - Northwest 5-10 mph early, transitioning WNW 5-15 mph w/ gusts 20mph.

VALLEYS - General northwest to west 5 to 10 mph. Terrain influences will be a factor to consider.

HAINES INDEX: 5 (Moderate).

LAL: 1.

CHC of PCPN: 0% **CWR:** 0%.

STABILITY/INVERSION: Weak inversion, breaking by 11am. But moderate to heavy smoke should stay over the fire due to poor ventilation and weak transport.

FORECAST FOR NIGHT SHIFT:

Mostly Clear. Cooler. Improved RH recoveries. Early evening breezes over ridges and slopes. Minimum temperatures: 55-60 slopes and ridges / 60-65 valleys. Maximum RH: valleys 60-65% / 22-27% midslopes and above. Winds: Northwest 10-15 mph w/ gusts 20-30 mph ridges/slopes. Valley bottoms: Northwest 10-15 mph through midnight, then down drainage 5-15 mph.

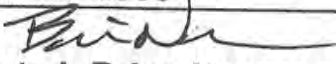

OUTLOOK FOR SUNDAY:

Low-level morning valley stratus possible, but sunny otherwise. Not as warm or dry. Maximum temperatures: 81-86. Minimum RH: 20-25%. Winds: Valleys - Mostly terrain driven 3-8 mph. Upper ridges and valleys - Southwest to south 5-12 mph.

EXTENDED FORECAST (MON-WED):

Mostly sunny skies...slight increase in clouds Wednesday. Variable smoke conditions. Temperatures cooling through the period. Slight increases in RH minimums. Marginal gains in nighttime recoveries. Winds generally lighter. Max Temps: 80-90. Min Temps: 50s valleys / 60-65 ridges. Min RH: 15-25%. RH recoveries 65-75% valleys/ 35-45 ridges. Winds: South to southwest 5-12 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 5	TYPE OF FIRE: Wildfire
FIRE NAME: GLASS CA-LNU-15947	OPERATIONAL PERIOD: 10/3/20 – 10/4/20
DATE ISSUED: 10/2/2020	TIME ISSUED: 1900
UNIT: SONOMA - LAKE - NAPA	SIGNED:  Typed/printed: Brian Newman FBAN

INPUTS

WEATHER SUMMARY

Slightly cooler today but continuing low humidity values for all areas. NorthWest to West winds 5-15 mph with gusts of 20 mph possible on the ridges. Increasing humidity recovery and cooling temperatures will occur overnight with marine layer near 1000 feet elevation.
See IMET forecast for specific details

OUTPUTS

FIRE BEHAVIOR

GENERAL: Fuels and Fire Behavior advisory in effect for the area for above normal fine fuel loading and critical fuel moistures. See attached advisory.

The fuels in the fire area are made up heavy brush and a dense grass crop along with a mix of Hardwoods and Conifer timber. Fuel moistures are at critical levels with all fuel models contributing to fire growth. Expect another day of active fire behavior across the incident but we will see a decrease in activity into the overnight hours. Generally light to moderate wind speeds are expected throughout the daytime period into the late evening, and will be terrain driven for lower elevations and breezy across ridges and upper slopes.

ERC currently at 92% - Probability of Ignition 87%

SPECIFIC:

East Zone: Slope and fuel driven runs can challenge control lines on the upper slopes, especially in wind aligned topography. Single and small group torching in the pines and firs can produce spot fires in the very receptive fuel beds. Expect active flanking and backing. Spotting up to ½ mile possible

West Zone: Steep topography with light flashy fuels and brush can produce short intense fire runs. North and West aligned drainages will see the highest activity due to the forecasted winds, active backing and flanking will continue. Spotting of ¼ to ½ mile possible.

Air Operations: Smoke inversion will thin by midday but may continue to impede air operations

Sunset 18:50 Sunrise 07:09

SAFETY

- Fuels are receptive to burning and spotting potential is very high, watch for signs of increased fire behavior
- Don't let down your guard down. Tragedies have occurred during mop up, especially in light flashy fuels

Fuels and Fire Behavior Advisory

Northern California Geographic Area

September 29, 2020

Subject: Dry offshore and northerly winds, followed by high temperatures will rapidly dry out fuels across Northern California. Extreme fire behavior and rapid to dangerous rates of spread has occurred during enhanced breezy periods accompanied with low humidity in areas clear of smoke. Extreme fire behavior will become more common as the fuel drying continues in September.

Discussion: Weeks of record temperatures during August and September, coupled with limited precipitation has expanded extreme to severe drought conditions across much of the Geographic Area. All indications show these drought conditions persisting through early October. Light precipitation that passed over the northern part of the region only lowered fire danger for a very brief period. Fires have recently shown or exhibited moderate to rapid rates of spread or generate extreme fire behavior when influence by winds. There is a high potential for extreme fire behavior to persist under a wider range of conditions as fuel continues to dry and gusty north to northeast foehn winds events become more frequent.

Difference from normal conditions: Winter precipitation was below to well below normal with 55% of normal mountain snowpack. Late spring moisture during the heart of the low-mid elevation growing season led to **above normal fine fuel loading**. Typical dry summer conditions coupled with above normal temperatures has dramatically effected fuel dryness and fire danger indices. ERC's will climb back up to between 90th to 97th percentile the next 2 weeks with some PSA's experiencing seasonal record values in temperatures. This time of year, live brush has typically low moisture levels due to normal seasonal drying but recently sampled live brush are at the at historic lows for many sampling sites.

Fuels – Low Elevation Grass Crop

Sierra Foothills Rangeland Forage Production Data

- 40 years of consistent data
- 2019-20 growing season 4th highest total
- 5 seasons of above normal in a row

Top 5 Growing Seasons	Pounds/Acres
2017-18	5514
1992-93	4696
1982-83	4630
2019-20	4420
2004-05	4410

For more information about the very unseasonable environmental conditions occurring, follow these links:

https://gacc.nifc.gov/oncc/fuelsFireDanger_Bi.php

<https://vegtri.unl.edu/Home/StateVegDRI.aspx?CA>

https://gacc.nifc.gov/oncc/fuelsFireDanger_Erc.php

https://gacc.nifc.gov/oncc/fuelsFireDanger_Thousand.php

https://gacc.nifc.gov/oncc/fuelsFireDanger_Hundred.php

<https://www.esrl.noaa.gov/psd/eddi/>

Concerns to Firefighters and the Public:

- Cured fine fuel loading below 3,000' elevation is above normal, exhibiting very rapid fire spread.
- Firefighters should be prepared for potential extreme fire behavior and dangerous or otherwise rapid rates of spread at any time of day, especially during foehn wind events.
- The potential for extreme fire activity will likely continue until enough precipitation occurs to significantly increase and maintain higher fuel moisture readings for an extended period.
- Rapid rates of spread could have a significant impact on public safety and make evacuations difficult.

Mitigation Measures:

- All local and visiting firefighters need to remain aware of current and expected weather and burning conditions and consider such information while making strategic and tactical decisions.
- Employ LCES principles (Lookouts, Communications, Escape Routes, Safety Zones).
- Review current fire potential products from Predictive Services at <https://gacc.nifc.gov/oncc/predictive/weather/index.htm> or potential Red Flag conditions from the National Weather Service and weather at <https://www.wrh.noaa.gov/fire2/cfw/>.

Area of Concern: All areas across Northern California could see very active fire behavior. The PSA numbers associated with those areas are NC01. NC02. NC03A. NC03B. NC04. NC05. NC06. NC07 and NC08.

CALFIRE INCIDENT MANAGEMENT TEAM 3

1. INCIDENT NAME: Glass		2. DATE PREPARED: October 2, 2020		3. TIME PREPARED: 1500	
4. PREPARED BY: Damon Godden SOF1(T)		5. LEADER NAME: David Sargenti SOF1		6. OPERATIONAL PERIOD: 10/3/2020 0700 TO 10/4/2020 0700	

SAFETY MESSAGE

Marathon: A long-lasting or difficult task or operation of a specified kind.

- Multiple hazards in the WUI: Steep narrow roads, heavy fuel loading, wells, wooden septic tanks, long escape routes, public presence, and power lines.
- Look Up, Down, and Around: Overhead, surface, and underground hazards.
- Understand the plan for the day and your individual role within the plan.
- Keep informed on weather conditions and forecasts.
- Increase your hydration, electrolytes and nutrition with fruits and vegetables.
- Drive defensively and expect the unexpected (SLOW DOWN).
- Heavy equipment and falling modules working on opening narrow roads.
- STOP COVID-19! (*Distance 6 Feet, Cover Nose and Mouth, Wash Hands*).

Signs and Symptoms of Heat Stress

Heat Exhaustion

- ✓ Faint or dizzy
- ✓ Excessive sweating
- ✓ Cool, clammy skin
- ✓ Nausea or vomiting
- ✓ Rapid, weak pulse
- ✓ Muscle cramps

Heat Stroke

- ✓ Throbbing headache
- ✓ No sweating
- ✓ Red, hot, dry skin
- ✓ Nausea or vomiting
- ✓ Rapid, strong pulse
- ✓ May lose consciousness

10's and 18's

11. UNBURNED FUEL BETWEEN YOU AND THE FIRE

David Sargenti

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	FATIGUE	<ul style="list-style-type: none"> Recognize signs of fatigue. Be aware of rest cycle while driving from incident. All personnel are responsible for their personal safety.
ALL	WEATHER	<ul style="list-style-type: none"> Base all actions on current and expected behavior of the fire. Be aware quiet areas could become active.
ALL	FIRE BEHAVIOR / RE-BURN	<ul style="list-style-type: none"> Prepare for slope reversal and wind shifts. Be aware of preheated canopy and potential for re-burn.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> Watch your speeds. Drive defensively! Expect the unexpected. Watch for road degradation and dusty conditions. Be aware of debris in the roadways from rollout and suppression operations.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> Ensure adequate personnel and resources are available for the operation. Validate LCES with all resources. Follow the Fire Operations checklist. Utilize Risk Management Process IRPG (p. 1).
ALL	WILDLAND URBAN INTERFACE HAZARDS	<ul style="list-style-type: none"> Be aware of weakened structures, roadways, and driveways. Scout for propane tanks, septic tanks, and wells. Watch out for public, power lines, narrow roads and poor egress.
ALL	POWER LINES	<ul style="list-style-type: none"> Be cautious of down lines. Make appropriate notifications if found.
ALL	HYDRATION/NUTRITION	<ul style="list-style-type: none"> Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others.
ALL	FIRE AND DROUGHT WEAKENED TREES/SNAG HAZARDS	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines (IRPG p. 22). Many of the trees within the fire area and along roadways are stressed due to drought conditions and burn times.
ALL	CIVILIAN PRESENCE	<ul style="list-style-type: none"> Watch for civilian traffic. Be aware that civilians continue to occupy the fire area. Watch for residents in and around the area.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Check the communication plan for frequency assignments. Be clear and concise when talking on the radio. Use human repeaters as needed.
ALL	BRIEFINGS	<ul style="list-style-type: none"> Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214.
ALL	LCES	<ul style="list-style-type: none"> Ensure that LCES is being utilized.
ALL	AIRCRAFT AWARENESS	<ul style="list-style-type: none"> Be aware of rotor wash when working near helicopters. Understand that hazardous trees may react to helicopters overhead. Monitor assigned aircraft frequencies.
ALL	HEAVY EQUIPMENT	<ul style="list-style-type: none"> Be aware of heavy equipment working in the area. Be watchful around heavy equipment, they may not see you.
ALL	COVID 19	<ul style="list-style-type: none"> Wear mask when in camp and around the public. Wash/sanitize hands often, Social distancing when applicable. Complete daily COVID screening process.
Incident Name: GLASS		Date Prepared: 10/02/2020 Prepared by: <i>Damon Godden</i> / Damon Godden SOF1(T)
		Operational Period: 10/03/2020-10/04/2020 0700-0700

In readiness is all

Fire and COVID-19 Briefing Checklist

Self-Awareness / Screening

- Immediately separate yourself from others.
- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Fever
 - Sore throat
 - Chills
 - Muscle pain
- Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- Avoid handshakes and communal use items.
- Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- Disinfect high touch surfaces often:
 - Radios, phones, doors, pumps, fuel cans, etc.

Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
- Utilize face coverings as a tool when practical.
- Clean or replace dirty face coverings, equipment, and PPE.

Communications

- Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your crew, and your camp!

FIRING PLAN AND GO / NO GO CHECKLIST

Test Firing Plan

The size and location of the test burn will be large enough and representative of the fuels of the proposed burn area.

Communications:

A radio net announcement at the incident will be made prior to firing operations. This will be communicated on tactical and command nets and will identify general location of geographic area to be burned. Special frequencies may or may not be used.

Frequencies:

1. Firing Group Tactical
2. Air to Ground
3. Aerial ignition discreet frequencies:

Slop-overs and Escapes:

If an escape/slop-over occurs notify the Division/Group Supervisor, who will take appropriate suppression actions. The Firing Group Supervisor will evaluate whether or not to continue firing and communicate such to the Division Group Supervisor. At all times, appropriate information will be transmitted through the chain of command to the Operations Section Chief.

Perimeter Firing Sequence:

The perimeter firing will proceed as follows:

Conditions:

Observed weather conditions: See IAP Weather Forecast
Fire Behavior Burn Index: See IAP Fire Behavior Analysis

Sequence of Firing:

1. Ignition will begin at anchor point(s)
2.
3.
4.
5.

Aerial Ignition Plan (Section 8344.5 of the CAL FIRE 8300 manual):

1. Ignition will begin at anchor point(s)
2.
3.
4.
5.

GO / NO-GO

- All personnel briefed
- Weather forecast reviewed
- Resources in place
- Lookouts posted
- Communications systems in place
- Escape routes and safety zones established and made known
- Fire behavior forecast reviewed
- Test Fire is favorable

8. MEDICAL EMERGENCY PROCEDURES

LINE EMERGENCY: Crew Supervisor to contact Division Supervisor with patient complaint/condition and location.

- Division Supervisor contacts:
 - FEMT / FEMP
 - Communications Unit
- Communication Unit will clear command channel for emergency traffic; as needed for Minor/Major Emergency
- Communications will switch all emergency traffic to CALCORD as needed or requested.
- Communications Unit contacts:
 - Medical Unit
 - Safety
 - Operations
- Division Supervisor will run medical emergency on CALCORD.
- Medical Unit will:
 1. Dispatch air/ground ambulance to as appropriate.
 2. If necessary, after patient pickup, dispatch ambulance to helibase for transportation.
 3. Notify receiving hospital of injury status.

CAMP EMERGENCY: Contact Medical Unit with patient complaint/condition and location. Medical Staff will respond to stabilize incident.

INJURY REPORTING PROCEDURES

NATURE OF INJURY _____

LOCATION OF PATIENT _____

TRANSPORTATION REQUESTED BY: AIR ___ GROUND ___

POINT OF PICKUP _____

LAT _____ LONG _____

PATIENT UNIT ID _____

REMINDER: DO NOT GIVE PT NAME OVER RADIO

IS AN EMT WITH PATIENT: YES ___ NO ___

AGE _____

SEX: MALE ___ FEMALE ___

ALL EMERGENCIES---Secure the area and identify witnesses for later investigation. Keep an accurate log of events.

CAL FIRE INCIDENT MANAGEMENT TEAM 3

TRAINING SPECIALIST MESSAGE

TRAINEES:

Please register with the TNSP as soon as possible in order to receive documented credit for your training assignment. Training is located directly next to check-in.

TRAINERS/EVALUATORS:

The narrative in the ICS 225 (Performance Evaluation) should reflect the tasks performed by the trainee on the incident. Be as descriptive as possible.

Bring the following with you to register:

- Incident Qualification Card
- Initiated Position Task Book
- Trainee Registration Form

REMOTE CHECK-IN

Matthew Seybert TNSP
714-875-4040

INCIDENT MANAGEMENT TEAM 3

DEMOBILIZATION MESSAGE Glass Incident CA-LNU-015947

We appreciate your efforts during this incident and want to make sure that we get you to your next destination safely and efficiently. When we begin demobilization, a Tentative Demobilization List will be posted in several places around base camp, including the briefing area and the eating area. If you are on this list, please adhere to the following:

SHOW UP AT THE DESIGNATED TIME

- Show up at the designated time.
- Do not show up early.
- Do not show up late.

A demobilization schedule has been prepared in careful coordination with all essential demobilization functions. Not following the demobilization schedule can have significant negative impacts on the Demobilization Unit staff and all other resources scheduled for demobilization. We do not want you or any other resources to have unnecessary delays. Please adhere to your scheduled demobilization time.

BE PREPARED FOR A RE-ASSIGNMENT

There may be other incidents in the state that are in need of resources. There is a possibility that some of the resources released from this incident will be immediately assigned to another one. Please make sure you are properly supplied, rested, and nourished while waiting for your designated demobilization time.

BE THOROUGH AND EFFICIENT

Demobilization begins and ends at the Demobilization Unit. Please follow the instructions given to you when starting the demobilization process. Returning to the Demobilization Unit with a complete and accurate Demobilization Check-Out (ICS-221) form will help prevent any unnecessary delays and ensure you are shown as available for future assignments. Unforeseen delays can occur during the demobilization process, such as mechanical issues discovered while at Ground Support. Plan to visit the Time Unit towards the end of the demobilization process in order to provide an accurate accounting of your time.

PUBLIC INFORMATION SECTION

Incident Information Line: (707) 967-4207
Incident Media Line: (707) 967-4208

Incident Updates:
www.fire.ca.gov/current_incidents

STATUS	
Incident Start Date: 9/27/2020	Incident Start Time: 3:50 AM
Cause: Under Investigation	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE Shasta Unit.

MAIL SERVICE – Mail/ packages can now be delivered to the Public Information trailer. All mail/ packages will be available for pickup at the Public Information trailer located in the entrance to base camp. Please use the following template to label the address:

Glass Fire PIO/ your name
1350 Bennett Valley Road
Santa Rosa, CA. 95404

FINANCE SECTION MESSAGE

FINANCE SECTION is located in the “Saralee and Richard’s Barn” Building. Enter from Redwood Plaza.

CAL FIRE TIME UNIT (Personnel and Hired Equipment)

- **CAL FIRE PERSONNEL** – make sure you have started your eFC-33’s and update after each shift. Please make sure Epay schedules are up to date.
- **HIRED EQUIPMENT SUPPLIERS** – Check in with the Time Unit and drop off your agreements.
- **SHIFT TICKET BOOKS** - for line supervisors are available in the Time Unit (agency personnel only).

DIVISION / GROUP - LINE SUPERVISORS

- Please make sure to turn in hired equipment shift tickets at the end of each shift.

COMP / CLAIMS

- **Damage Claims** (suppression, property, vehicle), 3 ways to report:
 - QR code at the bottom left
 - ICS-213. We will need location, description of damages, and your contact information.
 - LNU.Incidentclaims@fire.ca.gov
 - **Contact Number: (949) 680-8892**
- **WATER SOURCE WORKSHEET:** Please complete the worksheet for water sources used. You can also use the QR code at the bottom right.
- Please report all injuries and suppression damage to the Comp / Claims, no matter how minor.

CAL OES REPRESENTATIVE

- Located in OES Command Unit on trailer row near Finance.

Roger Raines, FSC1 
 Terry Eastwood, FSC1 
 Pat Aguada, FSC1 

WATER USAGE

DAMAGE CLAIM REPORT

ATTN: Federal Resources (specifically Federal Contracted Resources/ADs)

RE: Virtual Finance Support

If you are assigned to a CAL FIRE managed incident, you have noticed that there is no “federal” time unit on site. We have developed a virtual finance section to provide you with your invoices/time sheets. We will need for you to **scan and email** your documents to the R5.CalFire.Support@firenet.gov email address. (If you do not have a “scanning” app on your phone and/or computer you may visit the clerical trailer. If no clerical trailer is available check in with the Finance Section for assistance.) In the subject line enter:

TIME - Resource # - Company/Person Name – Attachment description - Fire Name/Number

Contract Crew/Equipment:

We need for you to send us the following information (even if you have submitted it to the CAL FIRE finance unit):

- Contact name, phone number, and email for on-site “leader”
- Resource Order
- Contract (Pages 1-2 and any additional pages referencing equipment/resource information)
- Crew Manifest
- Inspection (if one was done)
- Shift Tickets (signed by you and your incident supervisor) / CTRs (signed by your incident supervisor)

Administratively Determined (AD) Resources:

We need for you to send us the following information:

- Contact phone number and email
- Resource Order
- Casual Hire Form
- CTRs (signed by your incident supervisor)

Federal Employees:

As of right now, we are not planning to create OF-288s for Federal “regular” employees. Each of you can utilize your CTRs as your backup documentation for submitting your time sheets.

IF, however you require an OF-288, we will do our best to accommodate your needs. If you are claiming Hazard Pay, just like always, you must provide a justification for the claim (“H=Hazard”) is NOT enough. Use “action verbs” to explain what/why you are claiming the hazard.

WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a “Courtesy Email” 1-2 days prior to make sure all your documents have been received.
- Submit all time documentation (including travel home) ahead of demob.
- Send an email the morning of your demob to the Support email so the demob process can be started from the virtual finance group.

EMAIL: R5.CalFire.Support@firenet.gov

Please **do not wait** until the end of your assignment to get us your information. Since we are virtual, the process will take additional time.

In readiness is all

FIRE SUPPRESSION REPAIR GUIDELINES: GLASS INCIDENT CA LNU 015947

Fire suppression repair is the repair of damage caused directly from fire suppression activities. It is not the repair of infrastructure or rehabilitation of burned areas that happened as a result of the fire itself.

Damaged facilities will be upgraded to their pre-fire condition to the extent feasible. Projects too large or complex to be completed by the Fire suppression repair group shall be transferred to the Comp/Claims Unit or the local Unit. Repair work shall only occur in locations authorized by Operations and where fire suppression activities are complete. Fire Suppression Repair Group resources shall evaluate all Divisions for appropriate repair needs. This includes areas inside and outside the fire perimeter, provided the damage was caused by official fire suppression activities.

Examples of items that may be repaired include but are not limited to:

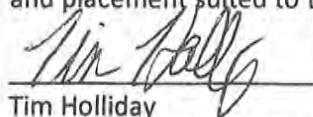

Infrastructure Damage	Natural Resource Damage
Fences and gates	Soil erosion
Culverts, bridges and other watercourse crossings	Adverse impacts to water quality
Water Sources	Adverse impacts to protected species of plants and animals
Utility distribution lines (above or below ground)	Dozer Line Repair
Road barriers removed for fire access	Watercourse Crossings
Trash, debris, and supplies left by fire suppression resources	
Miscellaneous damage to residential property	

Dozers construct both fire and contingency lines. Dozer line width varies greatly. The following measures shall be implemented for constructed dozer lines:

- Berms and push-piles shall be spread out to the extent feasible.
- Waterbreaks shall be constructed at an approximately 45 degree angle and shall be a minimum depth of 12 inches from the bottom of the cut to the top of the berm. Where feasible, the discharge from waterbreaks shall be directed into vegetated areas.
- Where slopes exceed the range at which a tractor can effectively work, waterbreaks shall be constructed with hand tools.
- Roads used in fire suppression activities shall be repaired to pre-fire conditions to the extent feasible. Gravel and soil-surfaced roads shall be watered to prevent excessive dust. Where fire suppression activities have damaged or rendered road drainage facilities non-functional, waterbreaks or drivable rolling dips shall be installed for drainage.
- Where fire suppression activities have filled in or damaged inside ditches, the ditches shall be cleaned and left unobstructed.
- Spacing of waterbreaks shall be as follows:

Slope Gradient	Maximum waterbreak spacing
0-10%	200
11-25%	150
25-50%	100
>50%	75

Spacing criteria is a general guide. Actual location of waterbreaks should be tailored to the topography and placement suited to the best dispersal of water flow.

Peer Support Team Message:

INCIDENT PEER SUPPORT:

We have a trailer on the incident for any peer support related needs and we are here for you. We may not be in the trailer at all times so please, **DO NOT HESITATE** to call us directly!

Amy Head 916 956-3277

Warren Parrish 916-823-6641

Chris Lomanto 916-247-6974

or

CAL FIRE Peer Support/Helpline

916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543

Mike Aiello 916-584-0548

Jeremy Sanders 916-281-6472

Nikole Schutz 916-709-0434

Amber Henderson 805-794-1690

Connie Quarisa 916-213-8697

Noelle BahnMiller 916-661-0011

Mike Deleo 916-661-0724

Shawna Powell 530-717-0667

Krissy Schaefer 619-592-6337

In addition to peer support, if there is a need, we can have a culturally competent Clinician available on the incident that could meet with you on an individual and/or group basis.

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together! Stay Healthy, Stay Alert and Stay Strong!

**CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762*
