Crews Fire Weather Forecast

FORECAST NO: 1

PREDICTION FOR: Weds-Thurs am

SHIFT DATE: 0700 7/8-0700 7/9

TIME AND DATE

FORECAST ISSUED: 1900 7/7/2020

NAME OF FIRE: Crews CA-SCU-004686

UNIT: CalFire-Santa Clara

SIGNED: Ryan Walbrun-IMET WFO Monterey

Incident Meteorologist Ka Wall

<u>WEATHER DISCUSSION:</u> No big weather changes forecast for Wednesday's operational period. A 1500 foot deep marine layer will cover the lower portions of the fire but clouds may only be patchy to start the day. Full sunshine will prevail by 0900 hours Wednesday. High temperatures will warm into the mid 80s with afternoon humidity falling to around 25-30%. Afternoon winds will be from the southwest with gusts 15-20 mph. Winds will remain gusty through sunset, strongest higher elevations of Branch III. As the marine layer surges in overnight expect good humidity recovery over most of the fire below 1500 feet. However the highest locations above the marine layer may see little or no humidity recovery overnight into Thursday morning as high pressure begins to build.

WEATHER FORECAST WEDNESDAY:

WEATHER: A few morning clouds lower slopes otherwise sunny through the day.

TEMPERATURES: Warming into the mid 80s during the afternoon hours.

HUMIDITY: Lowering 25-30%, driest above 1500 feet in Branch III

20 FT WINDS:

RIDGETOP - Southwest 5 mph increasing 6-12 mph afternoon with gusts 15-20 mph

SLOPE/VALLEY - Light through midday then West to Southwest 4-8 mph gusts 12 mph.

STABILITY/INVERSION: Marine inversion around 1500 feet in the morning, mixing out by late morning.

WEATHER FORECAST FOR WEDNESDAY NIGHT:

WEATHER: Clear through 10 pm then a few clouds lower slopes overnight.

TEMPERATURES: Overnight lows 50-55 except 55-60 above 1500 feet.

HUMIDITY: Good recovery 60-80% lower slopes except 50-60% above 1500 feet.

20 FT WINDS:

RIDGETOP - Southwest 7-12 mph evening gusts 20 mph easing after 10 pm.

SLOPE/VALLEY - Southwest 5-10 mph gusts 15 mph thru sunset then light overnight.

STABILITY/INVERSION: Marine inversion 1200 feet overnight lowering to 1000 feet by morning.

EXTENDED FORECAST: High pressure will strengthen Thursday through the weekend with a warming

and drying trend. Highs in the lower 90s with humidity to around 20%. Light winds except afternoon westerly seabreeze following Hwy 152 corridor.

SAFETY MESSAGE: Be mindful of rapidly **lowering** humidity during the overnight hours for elevations above 1500 feet. This occurs as the marine layer hits the lower slopes.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 2 TYPE OF FIRE: WILDLAND
FIRE NAME: CREWS OPERATIONAL PERIOD: JULY 8 0700-0700
DATE ISSUED: July 7, 2020 TIME ISSUED: 20:00

UNIT: Santa Clara SIGNED:

Typed/printed: FBAN Stephen Volmer

INPUTS

WEATHER SUMMARY: Early morning light down canyon downslope winds transitioning to more breezy conditions beginning in the afternoon and lasting through sundown. Temperatures will begin cooling over the next few days, with good overnight relative humidity recovery in the lower elevations. Expect temperatures to return to normal levels beginning Thursday.

Daytime high temperature mid 80s degrees, decreasing to 50 degrees in the evening. Minimum relative humidity will be 30% during the day, and increase up to 80% overnight. Winds will be Southwest 5-10 with gusts to 15 possible throughout the entire shift

Limited overnight humidity recovery and warmer temperatures above 1500' elv

OUTPUTS

FIRE BEHAVIOR

GENERAL: Fuels have continued to dry out but are still below critical levels. Expect ignitions to occur easily with dangerous fire spread rates when in alignment with wind, slope, and topography throughout the area. An inversion will set in over night and keep light fuels above 1500' dry and very receptive to any ignition source.

SPECIFIC

GRASS: Rate of Spread....100 ft/min Flame Length....6 ft Spotting....1/4 mi Probability of Ignition 70%

SHRUB: Rate of Spread....20 ft/min Flame Length....7 ft Spotting....1/4 mi Probability of Ignition 70%

OAK UNDERSTORY: Rate of Spread....3 ft/min Flame Length....1.5 ft Spotting....1/4 mi Probability of Ignition 70%

Divisions M, P, and S have very steep terrain with heavy canopy cover, which has produced a very dirty burn. Be alert for deep seated heat, stump holes in the duff layer, fire weakened branches, and rolling material.

Sunset 7/8...20:28 Sunrise 7/9...05:55

AIR OPERATIONS: Limited visibility in the lower elevations of the fire early in the morning due to inversion setting in. Inversion will break apart by late morning allowing for increased visibility. Expect gusty Southwest winds over the ridgetops 15-20mph.

SAFETY

Watch out for fire weakened branches and trees while working in and around the oak overstory

Be alert for unburned fuel between you and the fire

County of Santa Clara

Public Health Department

COVID-19 SPECIFIC:

What are the symptoms of the novel coronavirus?

- Symptoms include fever, fatigue, cough, loss of taste or smell, and aches
- The illness can progress to shortness of breath and complications from pneumonia
- Symptoms may also include nausea with vomiting and diarrhea. Some infected patients experience only mild symptoms while others – particularly older individuals and those with underlying health conditions – might develop more severe symptoms
- If you have any of these symptoms, please talk to YOUR LOCATION's Safety Officer

How can I best protect myself from getting the novel coronavirus?

- Use proper hygiene including washing hands with soap and or using hand sanitizers
- Avoid touching your face, particularly your eyes, nose, and mouth because one-way viruses spread is when you touch your mouth, nose, or eyes
- Cough or sneeze into a tissue, sleeve, or arm--Do not use your hands
- Clean frequently touched surfaces such as countertops and doorknobs
- Keep away from others who are sick
- Stay home when you are sick

What should I do if I do not feel Well?

- If you have a fever, go home immediately and stay there until at least three days **after** the fever goes away naturally without the use of fever-reducing medicine, assuming that you have not tested positive for COVID-19. (For example: if your fever lasts for three days, you should stay home for at least six days
- If you have a fever and any of the symptoms listed above, you should self-isolate at home and consult with your doctor.
- Consider not attending or hosting large gatherings. This is where cold, flu, and other respiratory viruses are often spread.

DEMOBILIZATION INSTRUCTIONS Crews Incident CA-SCU-004686

DEMOB PROCEDURES

- CHECK THE DEMOB LIST EACH MORNING. YOU CAN FIND THE DEMOB LIST THROUGH
 THE "QR" CODE ON THE I.A.P. COVER OR ON LISTS POSTED THROUGHOUT CAMP.
 ONLY REPORT TO DEMOB AT YOUR SCHEDULED TIME. EARLY ADMITTANCE WILL
 NOT BE ALLOWED.
- FLIGHT ARRANGEMENTS MUST BE MADE 48HRS PRIOR TO RELEASE.
- REPORT TO DEMOB AT APPOINTMENT TIME TO RECEIVE A CHECKOUT FORM (ICS-221), THEN GO TO THE FOLLOWING UNITS TO OBTAIN THE NECESSARY SIGNATURES:
 - √ SUPPLY UNIT
 - ✓ Communications Unit
 - √ GROUND SUPPORT/VEHICLE INSPECTION***
 - ✓ DOCUMENTATION UNIT
 - √ TIME UNIT
 - √ TRAINING UNIT (IF APPLICABLE)
 - √ ACCOMMODATIONS (IF APPLICABLE)

***VEHICLE INSPECTION:

- o The Demob Unit will inform you if the vehicle needs to be inspected.
- O YOU MUST HAVE THE ICS-221 DEMOB FORM WITH YOU AT VEHICLE INSPECTION.
- A VEHICLE INSPECTION TIME WILL BE PROVIDED WHEN YOU INITIALLY ARRIVE TO THE DEMOBILIZATION UNIT.
- O DO NOT REPORT FOR VEHICLE INSPECTION PRIOR TO YOUR APPOINTMENT

HAVE YOUR EQUIPMENT INVENTORY CARD READY WHEN HEADING TO VEHICLE INSPECTION.

RETURN THE COMPLETED ICS-221 FORM TO THE DEMOB UNIT AND TRAVEL HOME SAFE!

Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be **no** posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Inappropriate pictures or videos

Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.
