14. Date/Time Submitted:		15. Primary Location, Organization, or Agency Sent To: North Ops											
16. State: CA	17. County / Parish / Borough: Santa Clara	18. City: Gilroy											
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): CA-SCU											
22. Latitude/Longitude: Latitude: 37° 25' 26" Longitude: 121° 34' 4"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:											
25. Short Location or Area Description (list all affected areas or a reference point): Multiple locations across Diablo Mountain Range.			26. UTM Coordinates: Zone: Easting: Northing:										
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): https://ftp.nifc.gov/public/incident_specific_data/calif_n/!CALFIRE/!2020_Incidents/CA-SCU-005740_SCU_Lightning_Complex/ https://www.fire.ca.gov/incidents/2020/8/18/scu-lightning-complex/													
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Minimal													

Incident Status Summary (ICS-209)

Incident: **SCU LIGHTNING COMPLEX**

<p>Creeping Smoldering</p> <p>Narrative: Poor overnight humidity recovery continues to allow hot material to smolder and creep through unburned brush fields. This is creating minor interior torching of islands. Deep seated heat is still being found in stumpholes throughout the incident.</p>																											
<p>29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):</p> <p>Tall Grass (2.5 feet) Chaparral (6 feet) Timber (Grass and Understory)</p> <p>Narrative:</p>																											
<p>30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):</p> <p>An FMAG has been approved on 8-21 for Santa Clara and Stanislaus counties. SCU LIGHTNING COMPLEX started on August 16, with multiple fires within the complex. These fires have since merged into one major fire and are broken into two branches, Branch I and II. There is critical infrastructure in the immediate area of the fire. The fires continue to smolder and interior islands continue to burn out. Damage inspection is ongoing and approximately 89% complete.</p> <p>Highways Closed: Hwy 130</p> <p>Roadways Closed: Mines Road at the Santa Clara County line The intersection of Mines Road, Del Puerto Canyon Road, and San Antonio Valley Road. Quimby Road at Mount Hamilton Road.</p> <p>ALAMEDA COUNTY:- All threats have been mitigated.</p> <p>CONTRA COSTA COUNTY - All threats have been mitigated.</p> <p>SANTA CLARA COUNTY Current Order: San Antonio Rd south of Santa Clara county line. North of Cold Flat Lake to San Antonion Rd. Current Re Population: Henry Coe State Park, Cold Flat Lake South to Hwy 152</p> <p>SAN BENITO COUNTY - All threats have been</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">A. <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Excessive heat warning remains in effect remains in effect until Monday at 9 pm. Temperatures in excess of 100 degrees have been noted across the entire complex area as well as humidity in the low teens and single digits. This trend will continue for the next 3 days. Poor overnight humidity recovery is expected cross the fire complex.</p>																			

Incident Status Summary (ICS-209)

Incident: **SCU LIGHTNING COMPLEX**

		Active?

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Smoldering activity will continue to skunk through the unburnt fuels, drying them out, causing the islands to burn off. Re-burn potential is high in area that did not burn clean.**

24 hours: **Smoldering activity will continue to skunk through the unburnt fuels, drying them out, causing the islands to burn off. Re-burn potential is high in area that did not burn clean.**

48 hours: **Smoldering activity will continue to skunk through the unburnt fuels, drying them out, causing the islands to burn off. Re-burn potential is high in area that did not burn clean.**

72 hours: **Smoldering activity will continue to skunk through the unburnt fuels, drying them out, causing the islands to burn off. Re-burn potential is high in area that did not burn clean.**

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Branch I & II
Keep the fire within current fire perimeter.

Deer Zone
Repair work complete, Incident mitigated.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

Threats to Natural Resources:

- Ohlone Regional Preserve
- Henry Coe State Park

Threats to Endangered Resources:

- Red Legged Frog,
- Coastal Horned Lizard
- Western Pond Turtle

12 hours: **California Tiger Salamander**

- Central California Roach
- Alameda Whip Snake
- Tule elk

Threats to Cultural Resources:

- Prehistoric cultural sites like the summer campsite of the Ohlone Indians.

Remnants of these structures dating back to 1700s

- Ohlone Indians grinding pedestals.

Incident Status Summary (ICS-209)

Incident Status Summary (ICS-209)

Incident: **SCU LIGHTNING COMPLEX**

<ul style="list-style-type: none"> - Ohlone Indians grinding pedestals. - Historic barn dating back into the mid 1800s - Adobe Springs is the source for many consumable water brands. 																
Anticipated after 72 hours:																
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:																
12 hours:																
24 hours:																
48 hours:																
72 hours:																
Anticipated after 72 hours:																
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: <ol style="list-style-type: none"> 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. <p>Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.</p> <p>Crews will continue to strengthen control lines and mop up 300 ft off the line. Due to the size and complexity of the incident, fire suppression repair has become the main priority and a plan has been implemented.</p>																
41. Planned Actions for Next Operational Period: <p>Crews will continue to strengthen control lines and mop up 300 ft off the line. Fire suppression repair has become the main priority and a plan has being implemented. Demobilization of excess equipment.</p>																
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):																
43. Anticipated Incident Containment or Completion Date: 09/12/2020																
44. Projected Significant Resource Demobilization Start Date: 09/04/2020																
45. Estimated Incident Costs to Date: \$60,666,048.00																
46. Projected Final Incident Cost Estimate:																
47. Remarks (or continuation of any blocks above – list block number in notation): <p>An FMAG for this incident has been approved on 8-21 for Santa Clara, Stanislaus counties.</p> <p>ALL FIRES WILL HAVE 100 ON PERIMETER</p> <p>Increased acreage is due to interior islands being consumed.</p>
