INCIDENT ACTION PLAN SCU LIGHTNING COMPLEX

CA-SCU-005740

Saturday

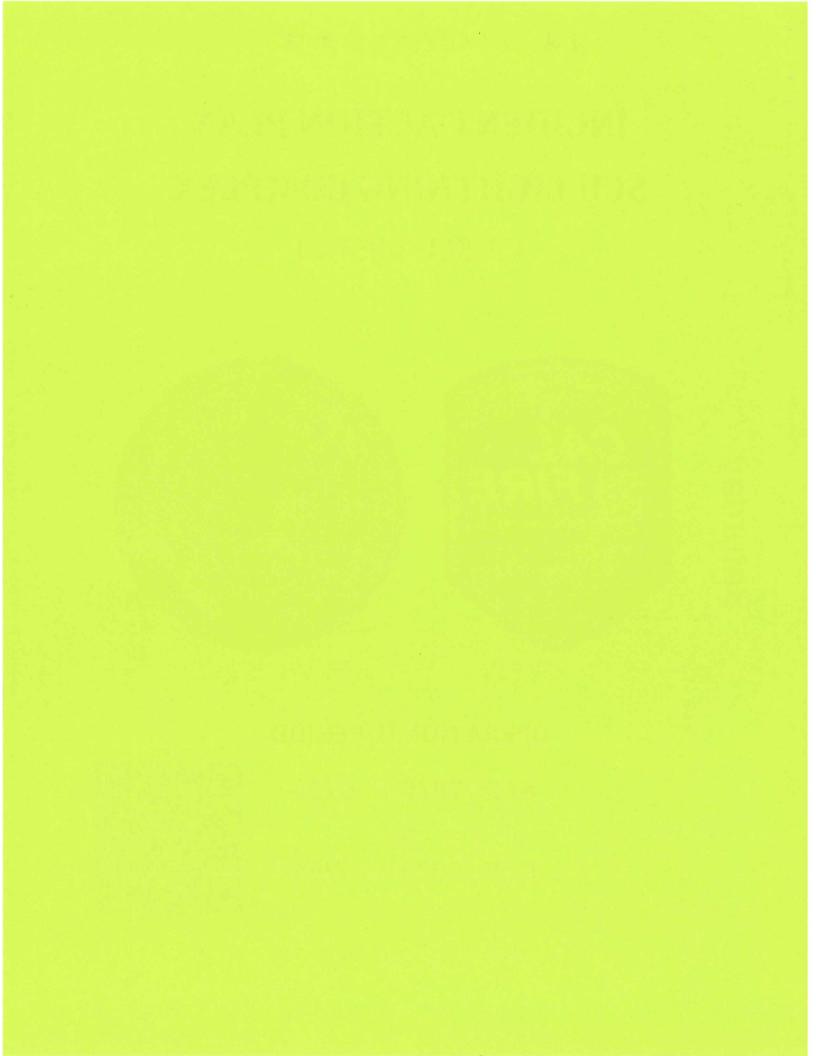

OPERATIONAL PERIOD

8/22/2020 0700

to

8/23/2020 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period:	Date From:	8/22/2020	Date To:	8/23/2020
SCU LIGHTNING COMPLEX		Time From:	0700	Time To:	0700
3. Objective(s):					
<u>Management Objectives</u>					
- Provide for emergency personnel and public safe	ety at all times.				
 Ensure COVID-19 precautions and best practice 	s are met at all times.				
- Protect property, improvements, and infrastructu	re.				
- Ensure repopulation takes place in a quick, effici	ent, and effective manner.				
- Ensure coordinated, timely and accurate release	of public information.				
- Foster and maintain relationships with all cooper	rators and stakeholders.				
- Protect economic, natural, cultural and heritage	resources.				
- Maintain fiscal accountability and keep costs cor	mmensurate with values at r	isk.			
Control Objectives					
Canyon Zone and Calaveras Zone					
- Keep the fire North of Hwy 152					
- Keep the fire West of I-5					
- Keep the fire South of Corral Hollow Rd.					
- Keep the fire East of I-680 and Hwy 101					
Deer Zone					
- Keep individual fires within current perimeters.

Canyon Zone Fire Weather Forecast

FORECAST NO: 4

PREDICTION FOR: 0700 Sat-0700 Sunday

SHIFT DATE: Aug 22nd-Aug 23rd

TIME AND DATE

FORECAST ISSUED: 2000 Aug 21st

NAME OF FIRE: SCU Lightning Complex

UNIT: CALFIRE Santa Clada

SIGNED:

Incident Meteorologist-Ryan Walbrun

...Fire Weather Watch Sunday for possible dry lightning and gusty outflow winds...

WEATHER DISCUSSION: Smoky skies will keep the inversion in place through midday with continued warm and dry conditions. Places outside of the smoke will see increasing high clouds as tropical moisture approaches the region signaling a change in the weather. Winds in the drainages and lower slopes will continue to be mainly light upslope. Winds on the ridges form the southwest. Continued increasing high clouds tonight with mild overnight temperatures and poor humidity recovery. For tonight be aware of lowering humidity above 1000 feet. This is a common phenomenon for these hills, where humidity values actually lower after midnight and through sunrise to as low as the single digits. Take five at 2 am and check your RH.

WEATHER FORECAST FOR SATURDAY:

WEATHER: Smoke and haze for most of the day with increasing mid and high level clouds from the south.

TEMPERATURES: Highs 86-92 (little change)

HUMIDITY: 11-22% (little change)

20 FT WINDS:

Ridgetop: West to Southwest 5-10 mph afternoon gusts 15 mph

Slopes: Upslope/Upcanyon 3-8 mph

STABILITY/INVERSION: Inversion will be moderate to strong with extensive smoke from other fires as well through midday before lifting by midday or early afternoon.

WEATHER FORECAST FOR SATURDAY NIGHT:

WEATHER: Smoke and haze. Otherwise increasing mid and high clouds from the south overnight.

TEMPERATURES: Lows 61-70, warmest above 1000 feet.

HUMIDITY RECOVERY: Steady humidity values 20-30% most the night but may drop to 10%.

20 FT WINDS: Ridgetop: Southwest winds 5-10 mph evening gusts 15 mph easing after dark.

Slopes: Downcanyon 2-5 mph.

STABILITY/INVERSION: Stable inversion layer setting up overnight.

SAFETY INFORMATION: We are approaching the 17 year anniversary of the largest deployment in California history. This occurred in these hills during the 2003 Santa Clara Lightning Complex. Humidity values plummeted to less than 15% overnight leading to the deployment. Take five at 2 am and check wx.

EXTENDED FORECAST: Increasing clouds Sunday leading to a chance of mainly dry thunderstorms Sunday night into Monday. Strong and gusty outflow winds associated with any storms will be of concern along with any strikes that lead to new starts.

Calaveras Zone Fire Weather Forecast

FORECAST NO: 4

NAME OF FIRE: SCU Lightning Complex

PREDICTION FOR: 0700 Sat-0700 Sunday

UNIT: CALFIRE Santa Clara

SHIFT DATE: Aug 22nd-Aug 23rd

SIGNED:

TIME AND DATE

FORECAST ISSUED: 2000 Aug 21st

Incident Meteorologist-Ryan Walbrun

...Fire Weather Watch Sunday for possible dry lightning and gusty outflow winds...

WEATHER DISCUSSION: Marine layer will be about 1000 feet deep this morning along the west side of the Calaveras Zone with cooler temperatures and higher humidity to start the day on the lower slopes. Continued warm and dry above the inversion layer. The inversion will mix out with another warm and seasonably dry day. One change for today will be some increasing high clouds as tropical moisture starts to pass over the region. Winds will continue to be fairly light but change to more of Southwest direction on the ridges above 2000 feet. This will test some of the northern lines for the first time but for the most part continue to push the fire towards Hwy 130 and fires in the Canyon Zone. For tonight still expect the pattern of night time drying above the marine layer. If working above the marine layer at 1000 feet or higher expect to see humidity values lower between midnight and end of shift Sunday. Warm and dry weather above the inversion at night means Watch Out!

WEATHER FORECAST FOR SATURDAY:

WEATHER: Smoke and haze through midday otherwise increasing high clouds.

TEMPERATURES: Highs 82-88 (similar to yesterday)

HUMIDITY: 20-30% (little change)

20 FT WINDS: West to Southwest 4-8 mph thru midday then increasing 6-12 mph with gusts 18-20 mph.

STABILITY/INVERSION: Smoke in the morning will keep the inversion in place through morning but

breaking by midday.

WEATHER FORECAST FOR SATURDAY NIGHT:

WEATHER: Increasing high clouds signaling a change in the weather otherwise smoke and haze.

TEMPERATURES: Lows 62-68, warmest above 1500 feet.

HUMIDITY RECOVERY: 55-65% lower slopes below 1000 feet, 30-40% above 1000 feet but interior areas may see humidity values crash as low as 12-20% after midnight thru sunrise. Watch for this!

20 FT WINDS: West to Southwest winds 5-10 mph evening gusts 15 mph easing after dark.

STABILITY/INVERSION: Stable inversion layer setting up overnight.

<u>SAFETY INFORMATION:</u> We are approaching the 17 year anniversary of the largest deployment in California history. This occurred in these hills during the 2003 Santa Clara Lightning Complex. Humidity values plummeted to less than 15% overnight leading to the deployment. Take five at 2 am and check wx.

EXTENDED FORECAST: Increasing clouds Sunday leading to a chance of mainly dry thunderstorms Sunday night into Monday. Strong and gusty outflow winds associated with any storms will be of concern along with any strikes that lead to new starts.

Deer Zone Fire Weather Forecast

FORECAST NO: 4

PREDICTION FOR: 0700 Sat-0700 Sun

SHIFT DATE: Aug 22nd-Aug 23rd

TIME AND DATE

FORECAST ISSUED: 2000 Aug 21st

NAME OF FIRE: SCU Lightning Complex

UNIT: CALFIRE Santa Clara

SIGNED:

Incident Meteorologist-Ryan Walbrun

...Fire Weather Watch Sunday for possible dry lightning and gusty outflow winds...

<u>WEATHER DISCUSSION:</u> Cool temperatures with higher humidity values to start the day. Temperatures will warm into the lower 90s once again. Westerly winds will continue to test containment lines in the Deer Zone this afternoon and evening. Some high clouds will be seen during the afternoon and evening hours as tropical moisture begins to surge northward. Continued breezy west winds this evening with cool temperatures and good humidity recovery.

WEATHER FORECAST FOR SATURDAY:

WEATHER: Smoke and haze through midday. Breezy West winds in the afternoon with high clouds.

TEMPERATURES: Highs 86-92 (little change from yesterday)

HUMIDITY: 28-35% (little change from yesterday)

20 FT WINDS: Westerly 5-10 mph thru midday then increasing 10-15 mph with frequent gusts

25 mph during the afternoon along Morgan Territory Rd and Los Vaqueros Reservoir

STABILITY/INVERSION: Smoke and cooler temperatures in the morning will keep the inversion strong

through midday then breaking as winds increase and skies clear.

WEATHER FORECAST FOR SATURDAY NIGHT:

WEATHER: Breezy West winds through midnight. Otherwise, smoky with increasing high clouds.

TEMPERATURES: Lows 63-68

HUMIDITY RECOVERY: 60-70%

20 FT WINDS: Westerly winds 10-15 mph gusts to 25 mph thru midnight then slowly easing overnight.

STABILITY/INVERSION: Stable inversion layer setting up overnight.

SAFETY INFORMATION: West winds will continue to test the lines. Any new starts will be under the influence of breezy afternoon southwest winds. Smoke from nearby fires could limit air operations.

EXTENDED FORECAST: Increasing clouds Sunday leading to a chance of mainly dry thunderstorms Sunday night into Monday. Strong and gusty outflow winds associated with any storms will be of concern along with any strikes that lead to new starts.

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 5 TYPE OF FIRE: WILDFIRE FIRE NAME: SCU LIGHTNING COMPLEX OPERATIONAL PERIOD: 8/22-8/23/20 0700-0700 CASCU-005740 DATE ISSUED: 8/21/20 TIME ISSUED: 2000 UNIT: SANTA CLARA SIGNED: Typed/printed: Stephen Volmer FBAN **INPUTS**

WEATHER SUMMARY:

Mildly cooler temperatures across the unit with warm and dry overnight conditions. West to Southwest winds will surface when the inversion breaks, creating gusty conditions across the ridgetops. Daytime humidity will be in the low 20's across the complex. The East side of the Canyon zone will experience up slope/up valley winds throughout the day. Night time humidity will vary greatly between the zones, and elevations. Expect lower humidity to occur above 1,000' elv across the complex after midnight, with little decrease in fire activity.

See the Weather Forecasts for the specific details of each zone

OUTPUTS

FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION
GRASS	100-145	9	.30 mi	92%
BRUSH	88-124	23	.75 mi	92%
OAK OVERSTORY	20-30	13	.50 mi	92%

GENERAL:

All fuels in the area are completely cured, with a large amount of dead fuels intermixed within them. The region is currently experiencing severe drought conditions. Expect critical rates of spread when fuels, wind, and topography are all in alignment. Heavy dead down fuels will be consumed 100% leaving deep seated heat in the ash pits. Expect an increase in fire activity when the inversion lifts and smoke clears the area. New starts and spot fires will come to life quickly. Poor overnight humidity recovery will lead to active fire behavior thought the evening.

Values above are valid for any new starts in the area

SPECIFIC:

- Fuels in the area are extremely receptable to ember cast and will produce spot fires easily, as will rollout in the steep drainages.
- Humidity values will decrease between midnight and sunrise to the low teens.
- Fire activity will decrease when going through the Oak and Pine overstory areas.

AIR OPERATIONS: Smoke and haze will fill the area producing limited visibility to the Southeast. Expect gusty conditions over the ridgetops in the afternoon. Transport winds W 7mph. Air resources might not be available for your tactical plans due to visibility or being timed out.

Sunset 19:47 Sunrise 06:28

SAFETY

- Winds increase and/or changes direction.......Weather getting hotter and dryer.
- Take weather often to track the trends in critical weather patterns before they come
- Fire weakened timber and branches will continue to release. Be alert while working in timbered areas.

CAL FIRE / INCIDENT MANAGMENT TEAM 6

COVID-19 DAILY HEALTH CHECK SCREENING ALGORITHM

EACH WORKDAY WILL BEGIN WITH THE FOLLOWING:

Temperature recorded Employee Screening Questionnaire

TEMPERATURE RECORDED

- Fever YES/NO? *Fever is considered > 100.4*
 EMPLOYEE SCREENING QUESTIONNAIRE
- Are you feeling ill/feverish?
- Are you having chills?
- Do you have new or worsening SOB?
- Do you have a new or worsening cough?
- Do you have a new or prolonged sore throat?

No Fever and No answered to all Employee Screening Questionnaire

Continue with Daily Operations

<u>Yes Fever OR Yes answered to any of the Employee</u> <u>Screening Questionnaire</u>

- Wash Hands, Don Mask and Isolate from other employ-ees. Maintain a distance of > 6 feet.
- Notify the Company Officer and/or Strike Team Leader.
- Notify Medical Unit Leader
- Refer employee to appropriate healthcare provider for evaluation and treatment.
- Disinfect "High-touch" surface areas.

REMINDERS TO ALL EMPLOYEES

- Self-Monitor yourself while you are on and off the line. If you experience any flu-like symptoms, COVID-19 symptoms, or any Respiratory illness symptoms contact your Company Officer and or Strike Team Leader.
- Maintain proper hand hygiene. Wash hands with soap and water for 20 seconds. Utilize hand sanitizer often. Do not shake hands, touch, or hug others.
- Over coughs or sneezes (if not masked). Cloth Masks should be exchanged and or washed daily.
- Masks are required when out in the public on non-emergency business.
- O Disinfect high-touch surfaces daily.
- Practice social distancing (> 6 feet) at meal times, dormitories, in-person meeting, or while in public.

CAL FIRE / Incident Management Team 6

COVID-19 Response Algorithm

Employee Response Action Plan

COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

Incident Action Plan

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

Facilities Response

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

Medical Evaluation & Contact Tracing

- Personnel interviewed by Medical Unit. List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

TRAINING MESSAGE

TRAINERS:

PLEASE REMEMBER TO REVIEW THE TASK BOOK WITH YOUR TRAINEE EACH DAY AND SET GOALS FOR THE OPERATIONAL PERIOD.

TRAINEES:

IF YOU HAVE ANY QUESTIONS REGARDING YOUR TRAINING ASSIGNMENT, PLEASE CONTACT THE TRAINING SPECIALIST.

Don't train until you get it right, train until you can't get it wrong!

Any questions please contact the Training Specialist:

Shane Vargas (530) 410-4225

Dottie Shaw (619) 971-1701

lan Crossley (530) 681-5100

Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be **no** posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Inappropriate pictures or videos

Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

Incident Base Camp Mailing Address

c/o Public Information Office/Trailer 4501 Pleasanton Ave. Pleasanton, CA 94566 Pleasanton Ave, Street Entrance

Peer Support Team Message:

INCIDENT PEER SUPPORT:

We have a few people on the incident for any peer support related needs. The best way to get a hold of them is to call them directly.

Jeremy Sanders-916 281-6472 Shawna Powell-530 717-0667 John Kiszka-530 598-2615

or

CAL FIRE Peer Support/Helpline 916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543
Mike Aiello 916-584-0548
Warren Parrish 916-823-6641
Nikole Schutz 916-709-0434
Amber Henderson 805-794-1690
Amy Head 916-956-3277
Chris Lomanto 916-247-6974
Connie Quarisa 916-213-8697

In addition to peer support, if there is a need, we can have a culturally competent Clinician available on the incident that could meet with you on an individual and/or group basis.

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!
