# INCIDENT ACTION PLAN SCU LIGHTNING COMPLEX

CA-SCU-005740

### **OPERATIONAL PERIOD**

9/3/2020

0700

to

9/4/2020

0700

INCID	ENT OBJECTIV	ES (ICS 2	202)							
1. Incident Name:	2. Operational Period:	Date From:	9/3/2020	Date To:	9/4/2020					
SCU LIGHTNING COMPLEX		Time From:	0700	Time To:	0700					
3. Objective(s):	e managan managan	*								
<u>Management Objectives</u>										
- Provide for emergency personnel and public safe	ety at all times.									
<ul> <li>Ensure COVID-19 precautions and best practice</li> </ul>	s are met at all times.									
- Protect property, improvements, and infrastructu	re.									
Ensure repopulation takes place in a quick, efficient, and effective manner.										
- Ensure coordinated, timely and accurate release of public information.										
Foster and maintain relationships with all cooperators and stakeholders.										
- Protect economic, natural, cultural and heritage	resources.	yr.								
- Maintain fiscal accountability and keep costs cor	nmensurate with values at ri	sk.								
Control Objectives										
<ul> <li>Keep the fire North Hwy 152</li> </ul>										
- Keep the fire West of I-5										
- Keep the fire South of I-580										
- Keep the fire East of I-680 and Hwy 101		ė.								
		*								
General Situational Awareness:										
Steep and rugged terrain, critically dry and recep	tive fuel beds, active area fo	or fire history and o	drought stresse	ed trees.						
In the COVID-19 environment, high density popu	ılations or large groups are p	particulary at risk.								
To help protect yourself, your family, and to ensu	re all emplovees return hon	ne safelv. make su	re to practice s	social distan	cina.					
Enhanced hygiene (especially handwashing), PF					9.					
5. Site Safety Plan Required?	Yes □ No

### SCU Lightning Complex Fire Weather Forecast

FORECAST NO: 16 NAME OF FIRE: SCU Lightning Complex

PREDICTION FOR: 0700 Thu-0700 Fri **UNIT:** CALFIRE Santa Clara

SHIFT DATE: Sept 3rd-Sept 4th SIGNED:

TIME AND DATE **Incident Meteorologist-Robert Rickey** 

FORECAST ISSUED: 2000 Sep 2<sup>nd</sup>

**WEATHER DISCUSSION:** High pressure will bring hot and dry conditions above 2000 ft today. Ridgetop winds will generally be light and from the northwest. Expect terrain driven winds along lower slopes and within drainages. For areas west of Mines Rd, humidity will slowly increase through the morning hours, before holding steady around 40% in the afternoon. East of Mines Rd, expect drier conditions with humidity bottoming out around 20% during the heat of the day. Winds will be light and terrain driven overnight. Don't get caught off guard, humidity may decrease overnight, with the potential for localized humidity around 20% during the early morning hours.

### WEATHER FORECAST FOR THURSDAY:

**WEATHER:** Morning clouds below 2000 feet, otherwise sunny with some smoke and haze.

### **HIGH TEMPERATURES:**

West of Mines Rd: 81-87 F East of Mines Rd: 88-94 F

### **HUMIDITY:**

West of Mines Rd: Humidity increasing to 38-44% during the morning, then holding steady.

East of Mines Rd: Humidity decreasing to 20-26%.

### 20 FT WINDS:

Ridgetop: NW 4-10 mph afternoon with gusts 11-17 mph.

Slopes: Upslope/Up-canyon 4-8 mph with gusts to 12 mph in the late afternoon.

TRANSPORT WINDS: W 10 mph.

**STABILITY/INVERSION:** Moderate to strong inversion breaking by 1300.

### **WEATHER FORECAST FOR THURSDAY NIGHT:**

**WEATHER:** Mostly clear skies with some smoke and haze.

### **TEMPERATURES:**

Below 2000 ft: 54-60 F Above 2000 ft: 60-70 F

**HUMIDITY RECOVERY:** 45-55% by the late evening, but lowering to 35-45% above 2000 feet beginning

after midnight. Some localized areas will see humidity near 25% from 0300-0600.

20 FT WINDS:

Ridgetop: W 4-8 mph with gusts to 12 mph in the evening, becoming W 4-8 mph overnight.

Slopes: Downslope/Down-canyon 2-5 mph.

**STABILITY/INVERSION:** Stable inversion layer setting up overnight.

**Extended Forecast**: Strengthening high pressure will bring warming and drying conditions through Labor Day Weekend, and an Excessive Heat Watch has been issued for Saturday through Monday. High temperatures are forecast to peak in the 90s, possible the low-100s, east of Mines Rd on Sunday and Monday. This will slowly erode the marine layer causing poor humidity recovery even along the lower slopes. Winds will generally be light and terrain driven.

### FIRE BEHAVIOR FORECAST FORECAST NUMBER: 17 TYPE OF FIRE: WILDFIRE SCU LIGHTNING COMPLEX OPERATIONAL PERIOD: 9/3-9/4/20 FIRE NAME: 0700-0700 CASCU-005740 TIME ISSUED: 2000 DATE ISSUED: 9/2/20 UNIT: SANTA CLARA SIGNED: Typed/printed: Stephen Volmer FBAN

### **INPUTS**

### **WEATHER SUMMARY:**

Hot and dry weather has settled into the area with high pressure building. Ridgetop winds will be Northwest 4-10mph. The lower elevations will experience terrain driven up slope/up valley winds during the day, downslope/downcanyon at night. The strong daytime inversion at will begin lifting around 1300. Expect mid 80's on the lower western slopes, and mid 90's on the interior and eastern slopes. Daytime humidity will be in higher on the western section of the fire. Nighttime drying will continue to occur above 2,000' elv and keep those locations warm and dry with active fire potential throughout the entire shift.

### **OUTPUTS**

### **FIRE BEHAVIOR**

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION
GRASS	45-88	7	.20 mi	90%
BRUSH	45-81	19	.40 mi	90%
OAK OVERSTORY	11-21	11	.30 mi	90%

### **GENERAL:**

The ERC is currently above the 90<sup>th</sup> percentile and will continue to rise in the current weather pattern. The 100hr fuels are below the 10<sup>th</sup> percentile, and the 1000hr fuels are below the 3<sup>rd</sup> percentile and are almost at historic levels. Thick decadent brush fields have a large amount of dead material in them and lack any significant fire history. **Fuels above 2,000' elevation will burn extremely well all night due to humidity dropping and temperatures lowing minimally**. When fuels, wind, and topography are all in alignment you can expect dangerous rates of spread, especially along HWY 152 and HWY 580.

### \*\*\*Values above are valid for any new starts in the area\*\*\*

### SPECIFIC:

- Be alert after midnight for decreasing humidity, and increasing fire activity after 1am.
- Heavy equipment working will be a significant ignition source. Be alert to your work area.
- Hot dry conditions will allow any new ignitions to become active extremely fast.

**AIR OPERATIONS:** Visibility will clear up after noon when the inversion lifts around 13:00. Expect gusty conditions over the ridgetops in the afternoon. Transport winds West 10mph will push the smoke into the San Juaquin Valley. Smoke will hinder air resources, have a back up plan before you need one.

### Sunset 19:31 Sunrise 06:38

### SAFETY

- Be alert to your parking location. Dry grass will ignite with heat from mufflers and engines.
- Burning stumps near the roadways will create a hollow cavity that could collapse will driving across. Walk the road if there is smoke nearby before driving through that area.
- Weather getting hotter and dryer. Take observations every hour to track the trends.

# SAFETY MESSAGE SCU LIGHTNING COMPLEX

1. Incident Name: SCU LIGHTNING COMPLEX

2. Operational Period: Date From: 9/3/20

Time From: 07:00

Date To: 9/4/20 Time To: 07:00

# Hotter & Dryer Weather Forecasted. HYDRATE Before, During, & After!

MONITOR yourself and your assigned personnel for FATIQUE and HYDRATION.

Provide for a positive and productive work environment.

Avoid Complacency.

Maintain Good Work Rest Cycles.

Re-Population is in progress, WATCH for contractors and civilians.

WATCH Heavy Equipment and traffic on narrow roadways.

EVALUATE your driving routes; CAUTION to congested roadways.

MAINTAIN a safe following distance: monitor speed, gear selection, & brakes.

UTILIZE backers and spotters, scout when in doubt!

Stay aware of road conditions as they can change throughout the day.

FOLLOW the incident communication plan.

Beware of environmental hazards: beehives, poison oak, and wildlife. READ terrain: footing, trip hazards, steep slopes, and stump holes.

PURGE outdated food and DISINFECT ice chests and apparatus.

DON'T let URGENCY drive the task.

Allow priorities to drive safe practices in your work zone.

### CAL FIRE / INCIDENT MANAGMENT TEAM 6

### **COVID-19 DAILY HEALTH CHECK SCREENING ALGORITHM**

### **EACH WORKDAY WILL BEGIN WITH THE FOLLOWING:**

Temperature recorded Employee Screening Questionnaire

### **TEMPERATURE RECORDED**

- Fever YES/NO? \*Fever is considered > 100.4\*
  - EMPLOYEE SCREENING QUESTIONNAIRE
- Are you feeling ill/feverish?
- Are you having chills?
- Do you have new or worsening SOB?
- Do you have a new or worsening cough?
- Do you have a new or prolonged sore throat?

No Fever and No answered to all Employee Screening Questionnaire

**Continue with Daily Operations** 

### Yes Fever OR Yes answered to any of the Employee Screening Questionnaire

- Wash Hands, Don Mask and Isolate from other employ-ees. Maintain a distance of > 6 feet.
- Notify the Company Officer and/or Strike Team Leader.
- Notify Medical Unit Leader
- Refer employee to appropriate healthcare provider for evaluation and treatment.
- Disinfect "High-touch" surface areas.

### REMINDERS TO ALL EMPLOYEES

- Self-Monitor yourself while you are on and off the line. If you experience any flu-like symptoms, COVID-19 symptoms, or any Respiratory illness symptoms contact your Company Officer and or Strike Team Leader.
- Maintain proper hand hygiene. Wash hands with soap and water for 20 seconds. Utilize hand sanitizer often. Do not shake hands, touch, or hug others.
- Over coughs or sneezes (if not masked). Cloth Masks should be exchanged and or washed daily.
- Masks are required when out in the public on non-emergency business.
- O Disinfect high-touch surfaces daily.
- Practice social distancing (> 6 feet) at meal times, dormitories, in-person meeting, or while in public.

### **CAL FIRE / Incident Management Team** 6

**COVID-19 Response Algorithm** 

### **Employee Response Action Plan**

### **COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation**

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

### **Incident Action Plan**

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- · Line Chief, Agency Administrator, and Region Office updated upon notification

### **Facilities Response**

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

### **Medical Evaluation & Contact Tracing**

- Personnel interviewed by Medical Unit. List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

## TRAINING MESSAGE

## **DEMOBING!!**

PLEASE REMEMBER TO BRING THE FOLLOWING DOCUMENTS WITH YOU TO TRAINING:

- >TASK BOOK
- **≻ICS 225**
- >TASK BOOK EVALUATION RECORD

DON'T TRAIN UNTIL YOU GET IT RIGHT, TRAIN UNTIL YOU

CAN'T GET IT WRONG!!

Any questions please contact the Training Specialist:

Shane Vargas (530) 410-4225

**Dottie Shaw (619) 971-1701** 

lan Crossley (530) 681-5100

# CAL FIRE INCIDENT MANAGEMENT TEAM 6

Jeff Veik- INCIDENT COMMANDER

### DEMOBILIZATION PLAN - SUMMARY SCU Lightning Complex CA-SCU-005740

### **GENERAL INFORMATION**

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition; surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

### **GENERAL GUIDELINES**

- O NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.
- o Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All government and hired vehicles leaving the incident will have a safety inspection. If a vehicle is within 1,000
  miles of a "B" service, it is the responsibility of the resource to contact Ground Support and have an oil change prior
  to their scheduled demobilization time.
- o All Rental Vehicles will receive a safety inspection prior to leaving the incident.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call North Ops at 1-800-237-3703 immediately upon being released from the incident

### **RESPONSIBILITIES**

Unit Leaders will declare resources excess to their Section Chief. Section Chiefs will declare excess resources to the Planning Section Chief through the Resource Unit Leader. This should be done 36 hours in advance of anticipated release. Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the RESOURCE UNIT where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the DEMOB UNIT, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact North Ops or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

### **RELEASE PRIORITIES**

- 1. Organized fire departments
- 2. OES engines
- 3. Hired personnel and equipment
- 4. Other agencies (USFS, BLM, etc.)
- 5. Out of region CAL FIRE forces
- 6. Within Region CAL FIRE Forces
- 7. Unit CAL FIRE Forces

### TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24-hour period as reset time before they depart from the incident.

### ATTN: Federal Resources (specifically Federal Contracted Resources/ADs)

### **RE: Virtual Finance Support**

If you are assigned to a CAL FIRE managed incident, you have noticed that there is no "federal" time unit on site. We have developed a virtual finance section to provide you with your invoices/time sheets. We will need for you to scan and email your documents to the R5. CalFire. Support@firenet.gov email address. (The CALFIRE finance section may have a scanner available if you do not have a "scanning" app on your phone and/or computer.) In the subject line enter:

TIME - Resource # - Company/Person Name - Attachment description - Fire Name/Number

### Contract Crew/Equipment:

We need for you to send us the following information (even if you have submitted it to the CAL FIRE finance unit):

- Contact name, phone number, and email for on-site "leader"
- Resource Order
- Contract (Pages 1-2 and any additional pages referencing equipment/resource information)
- Crew Manifest
- Inspection (if one was done)
- Shift Tickets (signed by you and your incident supervisor) / CTRs (signed by your incident supervisor)

### Administratively Determined (AD) Resources:

We need for you to send us the following information:

- Contact phone number and email
- Resource Order
- Casual Hire Form
- CTRs (signed by your incident supervisor)

### Federal Employees:

As of right now, we are not planning to create OF-288s for Federal "regular" employees. Each of you can utilize your CTRs as your backup documentation for submitting your time sheets.

IF, however you require an OF-288, we will do our best to accommodate your needs. If you are claiming Hazard Pay, just like always, you must provide a justification for the claim ("H=Hazard") is NOT enough. Use "action verbs" to explain what/why you are claiming the hazard.

### WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Email" 1-2 days prior to make sure all your documents have been received.
- Submit all time documentation (including travel home) ahead of demob.
- Send an email the morning of your demob to the Support email so the demob process can be started from the virtual finance group.

### EMAIL: R5.CalFire.Support@firenet.gov

Please do not wait until the end of your assignment to get us your information. Since we are virtual, the process will take additional time.

### Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

### CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be **no** posting of:

• Inappropriate information or materials, no opinions, no endorsements, inappropriate pictures or videos

### **Lost and Found**

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

### Peer Support Team Message:

### INCIDENT PEER SUPPORT:

We have a few people on the incident for any peer support related needs. The best way to get a hold of them is to call them directly.

John Kiszka-530 598-2615 Amber Henderson-805 794-1690 Clinician Jill Gustafson-530 957-8020

or

CAL FIRE Peer Support/Helpline 916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543
Mike Aiello 916-584-0548
Warren Parrish 916-823-6641
Shawna Powell-530 717-0667
Nikole Schutz 916-709-0434
Amy Head 916-956-3277
Chris Lomanto 916-247-6974
Connie Quarisa 916-213-8697

In addition to peer support, if there is a need, we can have a culturally competent Clinician available on the incident that could meet with you on an individual and/or group basis.

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

### FIRE SUPPRESSION REPAIR

### SCU LIGHTNING COMPLEX CA SCU-005740

Fire Suppression Repair (FSR) is the repair of damage caused directly from fire suppression activities, it is not the rehabilitation of areas damaged by the fire. See also CAL FIRE Handbook 7773

### Start Early!

Repair work should start as soon as practical but shall not hamper or conflict with fire suppression actions or compromise firelines.

When operationally feasible, Divisions can assist by flattening berms and constructing waterbars on dozer lines and underslung hand lines. Scattered trash, missed hose, etc. shall be collected and deposited at Drop Points for backhaul. Police your areas.

### Repair Work Inventory:

Assistance is requested in identifying FSR needs. Please provide location, type of repair and a reporting contact. Reporting can be done:

- In-person to the FSR Branch at Building "R" at the ICP
- Through your chain of command
- Scu.lightning.fsr@gmail.com
- Exported Avenza line and point layers are preferable but we can accept most types of GPS and text intel. Include a picture(s) if available

Landowners reporting damage should be relayed to the FSR Branch. The FSR Branch has foresters, archaeologists and other environmental who will evaluate each site, develop a repair plan, and schedule the repair with appropriate resources.

### Infrastructure Damage:

Report the location and type of suppression damage to infrastructure. Common examples include:

- Fences /gates
- Culvert/Bridge/Other watercourse crossings
- Developed water sources
- Utility distribution line; above/below ground.
- Restore barriers on roads previously closed but opened for suppression activities.
- Remove trash and debris, including flagging and signs when no longer needed.
- Misc. damage to infrastructure.

### Natural Resource Damage:

This category represents repairing problems <u>caused by fire suppression activities</u> (direct effect) and to prevent likely future problems such as accelerated erosion caused by winter rains (indirect effect).

- Construct drivable waterbars or rolling dips on unsurfaced roads.
- Construct waterbars on all dozer and hand lines according to the following Specifications: Water bars shall be cut diagonally into firm soil at least 6" deep and have a berm at least 12" in height. Water bar should have a 30-45 degree angle to the fall line. Outlets must be open and directed onto the least erodible material possible.

Slope or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Waterbreak Spacing	100'	100'	75'	50'

- Flatten berms along roads and firelines to maintain natural drainage patterns. If berms are necessary along a road segment, cut breach outlets periodically.
- Remove soil and debris deposited by fire suppression activities from drainage facilities and culvert inlets.
- Slash and soil deposited into watercourses shall be removed and stabilized as feasible.
- Work within 100 feet of a watercourse, cultural site or other sensitive location shall be performed with guidance from the FSR Group.
- Slash from felled trees adjacent to roads shall be lopped and scattered, chipped or piled for burning.
- Scattered trash, missed hose, etc. shall be collected and deposited at Drop Points. Police your areas.

### **Cultural Sites:**

Immediately report the location of any known or suspected archaeological/historical site through the chain of command to the incident Archaeologist and/or the FSR Branch. Indicate the type of impact, including retardant coverage. Avoid further disturbance if operationally feasible and flag the site perimeter. Otherwise, use the least disturbing suppression methods possible. Removing artifacts or vandalizing a site is a violation of State and Federal law.

### Comp Claims Issues:

Damaged resources that are too large or complex for the Fireline Suppression Group to handle shall be turned over to the IMT #6 Comp/Claims Unit. Examples of such issues include damage to pavement, bridges, pipelines, etc.
