### SCU Lightning Complex Fire Weather Forecast

FORECAST NO: 18 NAME OF FIRE: SCU Lightning Complex

PREDICTION FOR: 0700 Sat-0700 Sun UNIT: CALFIRE Santa Clara

SHIFT DATE: Sept 5<sup>th</sup>-Sept 6<sup>th</sup> SIGNED:

TIME AND DATE Incident Meteorologist-Robert Rickey

FORECAST ISSUED: 2000 Sep 4<sup>rd</sup>

<u>WEATHER DISCUSSION:</u> Strong high pressure will bring a round of near record heat and very low humidity to the area today, and an Excessive Heat Warning is in effect from today through Monday. Temperatures over the fire will range from the mid-90s to the low-100s. These unusually hot temperatures will combine with afternoon humidity in the 15-25% range. Temperatures at the ICP in Pleasanton, and the camp in Gilroy, will be around 105 F. Don't get caught off guard, humidity may climb during the evening, but decrease overnight.

### WEATHER FORECAST FOR SATURDAY:

WEATHER: Some morning clouds below 1000 feet, otherwise sunny with some smoke and haze.

### HIGH TEMPERATURES:

West of Mines Rd: 90-96 F East of Mines Rd: 97-103 F

HUMIDITY:

West of Mines Rd: Humidity increasing to 22-28% during the morning, then holding steady.

East of Mines Rd: Humidity decreasing to 13-19%.

20 FT WINDS:

Ridgetop: WNW 4-8 mph with afternoon gusts to 12 mph.

Slopes: Upslope/Up-canyon 4-8 mph with gusts to 12 mph in the late afternoon.

TRANSPORT WINDS: NE 5 mph.

STABILITY/INVERSION: Weak inversion breaking by 1200.

### WEATHER FORECAST FOR SATURDAY NIGHT:

WEATHER: Mostly clear skies with some smoke and haze.

TEMPERATURES:

Below 1000 ft: 68-74 F Above 1000 ft: 75-85 F

HUMIDITY RECOVERY: 20-30%. Some localized areas will see humidity below 20%.

20 FT WINDS:

Ridgetop: Variable 4-8 mph.

Slopes: Downslope/Down-canyon 2-5 mph.

Extended Forecast: High pressure will continue to bring near record heat over Labor Day Weekend, and an Excessive Heat Warning remains in effect through Monday. High temperatures will peak on Sunday and Monday, with temperatures in the upper-90s to mid-100s over the entire fire. Temperatures at the ICP in Pleasanton, and the camp in Gilroy, will see highs above 110 F. These abnormally high temperatures will combine with afternoon humidity in the teens. Winds will generally be light and terrain driven over the weekend; however, a passing weather system may brush the area bringing stronger winds to the area on Monday and Tuesday. A Fire Weather Watch is now in effect from Monday evening through Wednesday morning.

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 19 TYPE OF FIRE: WILDFIRE

FIRE NAME: SCU LIGHTNING COMPLEX OPERATIONAL PERIOD: 9/5-9/6/20 0700-0700

CASCU-005740

DATE ISSUED: 9/4/20 TIME ISSUED: 2000

UNIT: SANTA CLARA SIGNED:

Typed/printed: Stephen Volmer FBAN

**INPUTS** 

### WEATHER SUMMARY: \*\* EXCESSIVE HEAT WARNING IS IN EFFECT FROM 9/5 @ 11AM - 9/7 @ 9PM\*\*

Hot and dry weather has settled into the area due to the strong high pressure. Ridgetop winds will be West Northwest 4-8 mph. The lower elevations will experience light terrain driven up slope/up valley winds during the day, downslope/downcanyon at night. Any inversion layer that develops will be weak and break by 1200. Expect high 90's on the lower western slopes, and the mid 100's on the interior and eastern slopes. Daytime humidity will be in the mid teens East of Mines Rd, and in the low 20's West of Mines Rd. Nighttime drying will continue to occur above 2,000' elv and keep those locations warm and dry with active fire potential throughout the entire shift. Expect the sudden humidity drop to begin occurring after 11pm.

### **OUTPUTS**

### FIRE BEHAVIOR

RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION	
55-97	7	.30 mi	93%	
	20	.50 mi	93%	
	11		93%	
	RATE OF SPREAD FT/MIN 55-97 53-89 12-23	SPREAD         FT/MIN         FT           55-97         7           53-89         20	SPREAD         FT/MIN         FT         DISTANCE           55-97         7         .30 mi           53-89         20         .50 mi	

### GENERAL:

Live fuel moistures in the area are below critical levels, and will continue to drop with the hot dry conditions over the next week. 1000hr fuels are below the 3<sup>rd</sup> percentile and are almost at historic levels. Interior Islands still have a high potential for ignition, with reburn likely to occur in areas of dirty burns. Fuels above 2,000' elevation will burn extremely well all night due to humidity dropping and temperatures lowing minimally. When fuels, wind, and topography are all in alignment you can expect critical rates of spread across the entire region.

### \*\*\*Values above are valid for any new starts in the area\*\*\*

### SPECIFIC:

- Heavy equipment working will be a significant ignition source. Be alert to your work area.
- Hot dry conditions will allow any smoldering material and new ignitions to become active extremely fast.

AIR OPERATIONS: Weak inversion layer will clear out by noon. Expect gusty conditions over the ridgetops in the afternoon. Transport winds Northeast 5 mph will push any smoke into the Santa Clara Valley. Air resources may be committed to other incidents, have a secondary plan.

Sunset 19:27 Sunrise 06:41

### SAFETY

- Weather getting hotter and dryer. Begin hydrating now. Make sure you are ready to go.
- Be alert to your parking location. Dry grass will ignite with heat from mufflers and engines.
- New starts will become established quickly. Know your travel routes.

### SAFETY MESSAGE SCU LIGHTNING COMPLEX

1. Incident Name: SCU LIGHTNING COMPLEX

2. Operational Period: Date From: 9/5/20

Time From: 07:00

Date To: 9/6/20 Time To: 07:00

### Hotter & Dryer Weather Forecasted. HYDRATE Often! HYRDATE Before, During and After Shift.

MONITOR yourself and your assigned personnel for FATIGUE and HYDRATION.

Work before the heat.

Use cooling stations throughout the day.

Avoid Complacency.

Maintain Good Work Rest Cycles.

Excessive heat warning in effect. Ensure proper cooling and hydration.

Re-Population is in progress; WATCH for contractors and civilians.

WATCH for Heavy Equipment and traffic on narrow roadways.

EVALUATE your driving routes; Use CAUTION no congested roadways.

MAINTAIN a safe following distance: monitor speed, gear selection, & brakes.

UTILIZE backers and spotters; when in doubt scout it out!

Utility companies are utilizing helicopters for utility work. Stay away from utility work areas.

FOLLOW the incident communication plan.

ALWAYS wear the proper PPE.

PURGE outdated food and DISINFECT ice chests and apparatus.

DON'T let URGENCY drive the task;
Allow priorities to drive safe practices in your work zone.

■ 4. Site Safety Plan Required? Yes ☐ No X							
5. Prepared by: Name:	J.Buchmeier SOF1 / J.Novak SOF1(T)						
ICS 208	Date/Time September 4, 2020 / 1900						

3. Incident Area	4. Hazards/Risks	5. Mitigations						
DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES						
ALL	COVID 19	Adhere to local, state, federal and CDC health guidelines.  Maintain social distancing when applicable.  Wear a mask for yourself and others.  Report any symptoms immediately to a supervisor.  Hygiene, hand washing, and disinfecting of surfaces & handles often.						
ALL	FATIGUE, HEAT, & DEHYDRATION	Don't underestimate the task at hand.  Adhere to work/rest cycle for the task(s) to complete.  Don't get caught off guard.  Drink water before, during and after shifts, up to 1.5 gal. per shift.						
ALL	COMPLACENCY	Be alert for signs of fatigue and take breaks as necessary on hot dry days.  Monitor incoming resources for level of fatigue.  Be alert for signs of heat stress in yourself and others; use the buddy syste Eat small meals often and when possible. Find shade when you can.  Have the right radio clone.						
ALL	FIRE BEHAVIOR & NEW START(S)	Know your LCES and maintain Situational Awareness. Use experienced Look Outs. Follow downhill line construction guidelines. Monitor weather for changes in the wind, temp, and RH during the shift. Have a contingency plan with established decision points and safety zones.						
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.						
ALL	FALLING MODULES, HAZARD TREES, STUMP HOLES	Identify and isolate the area to provide for the safety of others. Flag and make proper notifications. Do not fall trees out of your certification level. Evaluate wind and lean prior to making cuts. Monitor footing; watch for ash pits and root balls.						
ALL	MOP UP, REHAB, & REPAIR	Conduct thorough briefing for all personnel; Assure proper PPE. Ensure LCES in place prior to engagement; Establish adequate Safety Zones Use Downhill Line Checklist. Follow "Look Up, Look Down, Look Around" procedures. Utilize Risk Management Processreference the IRPG. Watch for Heavy Equipment and Roll Out.						
ALL	DRIVING HAZARDS	SLOW DOWN! Long travel times to the line, stay alert. Utilize Chocks.  Drive defensively! Expect the unexpected around every curve.  Drive with headlights and seatbelts on. 5 MPH at incident base/camp.  Narrow roads with limited passing room; utilize spotters & backers.  Coordinate your movements on one-lane roads, follow traffic plans.  Assess Road Conditions; Flag hazard if you cannot mitigate, report.						
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft; clear the line. Only utilize aircraft to insert personnel on the line when necessary.						
ALL	HEAVY EQUIPMENT & DOZER SAFETY	Watch for rolling material.  Monitor safe working distances.  Avoid working below dozer.  Utilize communication with the operator (radio or hand signals).						

### CAL FIRE / INCIDENT MANAGMENT TEAM 6

### COVID-19 DAILY HEALTH CHECK SCREENING ALGORITHM

### EACH WORKDAY WILL BEGIN WITH THE FOLLOWING:

Temperature recorded Employee Screening Questionnaire

### **TEMPERATURE RECORDED**

- Fever YES/NO? \*Fever is considered > 100.4\*
   EMPLOYEE SCREENING QUESTIONNAIRE
- Are you feeling ill/feverish?
- Are you having chills?
- Do you have new or worsening SOB?
- Do you have a new or worsening cough?
- Do you have a new or prolonged sore throat?

No Fever and No answered to all Employee Screening Questionnaire

Continue with Daily Operations

### Yes Fever OR Yes answered to any of the Employee Screening Questionnaire

- Wash Hands, Don Mask and Isolate from other employ-ees. Maintain a distance of > 6 feet.
- Notify the Company Officer and/or Strike Team Leader.
- Notify Medical Unit Leader
- Refer employee to appropriate healthcare provider for evaluation and treatment.
- · Disinfect "High-touch" surface areas.

### REMINDERS TO ALL EMPLOYEES

- Self-Monitor yourself while you are on and off the line. If you experience any flu-like symptoms, COVID-19 symptoms, or any Respiratory illness symptoms contact your Company Officer and or Strike Team Leader.
- Maintain proper hand hygiene. Wash hands with soap and water for 20 seconds. Utilize hand sanitizer often. Do not shake hands, touch, or hug others.
- Ocover coughs or sneezes (if not masked). Cloth Masks should be exchanged and or washed daily.
- Masks are required when out in the public on non-emergency business.
- Disinfect high-touch surfaces daily.
- Practice social distancing (> 6 feet) at meal times, dormitories, in-person meeting, or while in public.

### **CAL FIRE / Incident Management Team 6**

**COVID-19 Response Algorithm** 

### **Employee Response Action Plan**

### **COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation**

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smeil
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

### **Incident Action Plan**

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

### **Facilities Response**

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

### Medical Evaluation & Contact Tracing

- Personnel interviewed by Medical Unit. List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

### TRAINING MESSAGE

### <u>DEMOBING???</u>

PLEASE REMEMBER TO BRING THE FOLLOWING

### **COMPLETED DOCUMENTS**

WITH YOU TO TRAINING:

- >TASK BOOK
- > ICS 225 Please ensure signatures of both trainer and trainee are on the 225
- >TASK BOOK EVALUATION RECORD

DON'T TRAIN UNTIL YOU GET IT RIGHT, TRAIN UNTIL YOU CAN'T GET IT WRONG!!

Any questions please contact the Training Specialist:

Shane Vargas (530) 410-4225

**Dottie Shaw (619) 971-1701** 

Ian Crossley (530) 681-5100

### CAL FIRE INCIDENT MANAGEMENT TEAM 6

Jeff Veik- INCIDENT COMMANDER

### DEMOBILIZATION PLAN - SUMMARY SCU Lightning Complex CA-SCU-005740

### **GENERAL INFORMATION**

The Demobilization Plan is developed to facilitate the orderly removal and checkout of resources on the incident. By definition; surplus personnel are available for release if they have rested for a minimum of 8 hours, are cleaned up, outfitted and have a vehicle ready to depart to their next destination.

### **GENERAL GUIDELINES**

- O NO RESOURCES WILL LEAVE THE INCIDENT UNTIL AUTHORIZED TO DO SO BY THE DEMOB UNIT.
- Efforts will be made to ensure that all released personnel arrive at their destination prior to 2200 hours.
- All Resources will arrive at the Demobilizations Unit at their scheduled time Only.
- All Rental Vehicles will receive a safety inspection prior to leaving the incident.
- All trainees are to keep their time up to date and report to the Training Specialist with their task books and evaluations prior to completion of the demobilization process.
- All strike team leaders are responsible to call North Ops at 1-800-237-3703 immediately upon being released from the incident

### RESPONSIBILITIES

Unit Leaders will declare resources excess to their Section Chief. Section Chiefs will declare excess resources to the Planning Section Chief through the Resource Unit Leader. This should be done 36 hours in advance of anticipated release. Use the Declaration of Excess Resources sheet or General Message Form (ICS-213) to list all excess resources. Include the resource name, request number, name of person, date and time of declared excess, and time in which the resource will be eligible to leave. Send to the RESOURCE UNIT where the resource will be determined to be surplus to the incident. Surplus resources will then be able to report to the DEMOB UNIT, receive a Demobilization Checkout Form (ICS 221), get the appropriate ICS 221 signatures, and then return the completed ICS 221 to the DEMOB UNIT prior to final release or reassignment. Resources are not to contact North Ops or the expanded dispatch center unless instructed to do so by the Demobilization Unit.

### **RELEASE PRIORITIES**

- 1. Organized fire departments
- OES engines
- Hired personnel and equipment
- Other agencies (USFS, BLM, etc.)
- 5. Out of region CAL FIRE forces
- 6. Within Region CAL FIRE Forces
- 7. Unit CAL FIRE Forces

### TRAVEL INFORMATION

All resources will meet agency specific requirements on hours of travel per day. For CAL FIRE hand crews, a full 24 hour reset period shall be adhered to before departing from the incident. After a crew's last operational period they shall begin the demobilization release procedure during their 24 hour off shift. In addition, they must use the following complete 24-hour period as reset time before they depart from the incident.

### ATTN: Federal Resources (specifically Federal Contracted Resources/ADs)

### **RE: Virtual Finance Support**

If you are assigned to a CAL FIRE managed incident, you have noticed that there is no "federal" time unit on site. We have developed a virtual finance section to provide you with your invoices/time sheets. We will need for you to <u>scan and email</u> your documents to the <u>R5.CalFire.Support@firenet.gov</u> email address. (The CAL FIRE finance section may have a scanner available if you do not have a "scanning" app on your phone and/or computer.) In the subject line enter:

TIME - Resource # - Company/Person Name - Attachment description - Fire Name/Number

### **Contract Crew/Equipment:**

We need for you to send us the following information (even if you have submitted it to the CAL FIRE finance unit):

- Contact name, phone number, and email for on-site "leader"
- Resource Order
- Contract (Pages 1-2 and any additional pages referencing equipment/resource information)
- Crew Manifest
- Inspection (if one was done)
- Shift Tickets (signed by you and your incident supervisor) / CTRs (signed by your incident supervisor)

### **Administratively Determined (AD) Resources:**

We need for you to send us the following information:

- Contact phone number and email
- Resource Order
- Casual Hire Form
- CTRs (signed by your incident supervisor)

### **Federal Employees:**

As of right now, we are not planning to create OF-288s for Federal "regular" employees. Each of you can utilize your CTRs as your backup documentation for submitting your time sheets.

IF, however you require an OF-288, we will do our best to accommodate your needs. If you are claiming Hazard Pay, just like always, you must provide a justification for the claim ("H=Hazard") is NOT enough. Use "action verbs" to explain what/why you are claiming the hazard.

### WHEN YOU ARE CLOSE TO DEMOB:

- Give Finance a "Courtesy Email" 1-2 days prior to make sure all your documents have been received.
- Submit all time documentation (including travel home) ahead of demob.
- Send an email the morning of your demob to the Support email so the demob process can be started from the virtual finance group.

### INJURY/CLAIMS:

If you have an injury and or claim concern, send an email to the inbox below and our Claims Specialist will get in touch with you. Provide a <u>name</u>, <u>cell phone number</u>, and <u>email address</u>.

### EMAIL: R5.CalFire.Support@firenet.gov

**Please** do not wait until the end of your assignment to get us your information. Since we are virtual, the process will take additional time.

Cause: Under Investigation	Total Personnel:						

### Media Law

The <u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- Media is not permitted on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

### CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be **no** posting of:

• Inappropriate information or materials, no opinions, no endorsements, inappropriate pictures or videos

### Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.

### **Incident Base Camp Mailing Address**

### Peer Support Team Message:

INCIDENT PEER SUPPORT:

We have a few people on the incident for any peer support related needs. The best way to get a hold of them is to call them directly.

John Kiszka-530 598-2615 Amber Henderson-805 794-1690 Clinician Jill Gustafson-530 957-8020

or

CAL FIRE Peer Support/Helpline 916-445-4337

Below are other Team Members not on the incident who can also be contacted directly:

Tony Howard 916-224-1543
Mike Aiello 916-584-0548
Warren Parrish 916-823-6641
Shawna Powell-530 717-0667
Nikole Schutz 916-709-0434
Amy Head 916-956-3277
Chris Lomanto 916-247-6974
Connie Quarisa 916-213-8697

In addition to peer support, if there is a need, we can have a culturally competent Clinician available on the incident that could meet with you on an individual and/or group basis.

Watch for the signs and symptoms of stress in yourself and the people around you. Try and stay positive and get much needed rest when you can. We can do this, together!

Stay Healthy, Stay Alert and Stay Strong!

CAL FIRE Employees can also contact EAP directly at: 1-866-327-4762

### FIRE SUPPRESSION REPAIR

### SCU LIGHTNING COMPLEX CA SCU-005740

Fire Suppression Repair (FSR) is the repair of damage caused directly from fire suppression activities, it is not the rehabilitation of areas damaged by the fire. See also CAL FIRE Handbook 7773

### Start Early!

Repair work should start as soon as practical but shall not hamper or conflict with fire suppression actions or compromise firelines.

When operationally feasible, Divisions can assist by flattening berms and constructing waterbars on dozer lines and underslung hand lines. Scattered trash, missed hose, etc. shall be collected and deposited at Drop Points for backhaul. Police your areas.

### Repair Work Inventory:

Assistance is requested in identifying FSR needs. Please provide location, type of repair and a reporting contact. Reporting can be done:

- In-person to the FSR Branch at Building "R" at the ICP
- Through your chain of command
- Scu.lightning.fsr@gmail.com
- Exported Avenza line and point layers are preferable but we can accept most types of GPS and text intel. Include a picture(s) if available

Landowners reporting damage should be relayed to the FSR Branch. The FSR Branch has foresters, archaeologists and other environmental who will evaluate each site, develop a repair plan, and schedule the repair with appropriate resources.

### Infrastructure Damage:

Report the location and type of suppression damage to infrastructure. Common examples include:

- Fences /gates
- Culvert/Bridge/Other watercourse crossings
- Developed water sources
- Utility distribution line; above/below ground.
- Restore barriers on roads previously closed but opened for suppression activities.
- Remove trash and debris, including flagging and signs when no longer needed.
- Misc. damage to infrastructure.

### Natural Resource Damage:

This category represents repairing problems <u>caused by fire suppression activities</u> (direct effect) and to prevent likely future problems such as accelerated erosion caused by winter rains (indirect effect).

- Construct drivable waterbars or rolling dips on unsurfaced roads.
- Construct waterbars on all dozer and hand lines according to the following Specifications: Water bars shall be cut diagonally into firm soil at least 6" deep and have a berm at least 12" in height. Water bar should have a 30-45 degree angle to the fall line. Outlets must be open and directed onto the least erodible material possible.

Slope or Road Gradient (%)	0-10%	11-25%	26-50%	>50%
Waterbreak Spacing	100'	100'	75'	50'

- Flatten berms along roads and firelines to maintain natural drainage patterns. If berms are necessary along a road segment, cut breach outlets periodically.
- Remove soil and debris deposited by fire suppression activities from drainage facilities and culvert inlets.
- Slash and soil deposited into watercourses shall be removed and stabilized as feasible.
- Work within 100 feet of a watercourse, cultural site or other sensitive location shall be performed with guidance from the FSR Group.
- Slash from felled trees adjacent to roads shall be lopped and scattered, chipped or piled for burning.
- Scattered trash, missed hose, etc. shall be collected and deposited at Drop Points. Police your areas.

### **Cultural Sites:**

Immediately report the location of any known or suspected archaeological/historical site through the chain of command to the incident Archaeologist and/or the FSR Branch. Indicate the type of impact, including retardant coverage. Avoid further disturbance if operationally feasible and flag the site perimeter. Otherwise, use the least disturbing suppression methods possible. Removing artifacts or vandalizing a site is a violation of State and Federal law.

### **Comp Claims Issues:**

Damaged resources that are too large or complex for the Fireline Suppression Group to handle shall be turned over to the IMT#6 Comp/Claims Unit. Examples of such issues include damage to pavement, bridges, pipelines, etc.
