INCIDENT ACTION PLAN SCU LIGHTNING COMPLEX

CA-SCU-005740

Thursday

OPERATIONAL PERIOD

8/20/2020 0700
to
8/21/2020 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">SCU LIGHTNING COMPLEX</p>	2. Operational Period:	Date From: 8/20/2020 Time From: 0700	Date To: 8/21/2020 Time To: 0700
3. Objective(s):			
<u>Management Objectives</u> <ul style="list-style-type: none"> - Provide for emergency personnel and public safety at all times. - Ensure COVID-19 precautions and best practices are met at all times. - Protect property, improvements, and infrastructure. - Ensure repopulation takes place in a quick, efficient, and effective manner. - Ensure coordinated, timely and accurate release of public information. - Foster and maintain relationships with all cooperators and stakeholders. - Protect economic, natural, cultural and heritage resources. - Maintain fiscal accountability and keep costs commensurate with values at risk. 			
<u>Control Objectives</u>			
Canyon Zone and Calaveras Zone <ul style="list-style-type: none"> - Keep the fire North of Hwy 152 - Keep the fire West of I-5 - Keep the fire South of Corral Hollow Rd. - Keep the fire East of I-680 and Hwy 101 			
Deer Zone <ul style="list-style-type: none"> - Keep individual fires within current perimeters. 			
General Situational Awareness: <p>Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.</p> <p>In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.</p> <p>Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.</p>			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No

Deer Zone Fire Weather Forecast

FORECAST NO: 2

NAME OF FIRE: SCU Lightning Complex

PREDICTION FOR: 0700 Thurs-0700 Fri

UNIT: CalFire Santa Clara

SHIFT DATE: Aug 20th-Aug 21st

SIGNED: *Ryan Walbrun*

TIME AND DATE

Incident Meteorologist-Ryan Walbrun

FORECAST ISSUED: 2000 Aug 19th

WEATHER DISCUSSION: No significant day over day weather changes forecast for today. The hot ridge has weakened slightly allowing for onshore breezes to return. This will give the Deer Zone fires another day of westerly winds testing containment lines. Temperatures will warm into the 90s again with increasing westerly winds in the afternoon. Expect gusts to 30 mph around Morgan Territory during the late afternoon and evening hours. Winds will continue through much of the night before gradually easing towards morning. The persistent onshore winds should bring slightly better humidity recovery. One wild card will be smoke shading from the Napa fires.

WEATHER FORECAST FOR Thursday:

WEATHER: Smoke and haze, through midday then mixing out. Increasing west winds during the afternoon.

TEMPERATURES: Highs 94-99 (little change)

HUMIDITY: 12-22% (Little change)

20 FT WINDS: Westerly 5-10 mph thru midday then increasing 10-15 mph with frequent gusts 20-30 mph during the afternoon along Morgan Territory Rd and Los Vaqueros Reservoir

STABILITY/INVERSION: Morning inversion should lift by midday with good ventilation during the afternoon. Clearing skies and increasing winds should be a watch out. Smoke from the Napa fires may influence the Deer Zone.

WEATHER FORECAST FOR Thursday Night:

WEATHER: Breezy West winds through midnight. Othwerwise mostly clear, breezy with better RH recovery

TEMPERATURES: Lows 66-72

HUMIDITY RECOVERY: 50-60%

20 FT WINDS: Westerly winds 15-25 mph gusts to 30 mph thru midnight then slowly easing overnight.

STABILITY/INVERSION: Stable inversion layer setting up overnight.

SAFETY INFORMATION: The Deer Zone fires are in a wind prone region. Expect westerly winds to test containment lines in the afternoon and through most of the night. Think about your location on the line and don't count on Air Support to be your eyes.

EXTENDED FORECAST: High pressure rebuilds heading into the weekend leading to a modest warming and drying trend. Take advantage of the quiet weather to secure lines before the next ridge builds.

Calaveras Zone Fire Weather Forecast

FORECAST NO: 2

NAME OF FIRE: SCU Lightning Complex

PREDICTION FOR: 0700 Thur-0700 Friday

UNIT: CalFire Santa Clara

SHIFT DATE: Aug 20th-Aug 21st

SIGNED: *Ryan Walbrun*

TIME AND DATE

Incident Meteorologist-Ryan Walbrun

FORECAST ISSUED: 2000 Aug 19th

WEATHER DISCUSSION: The biggest wild card in today's forecast will how much smoke from the Santa Cruz fire shades out the Calaveras Zone. At this time expect smoke through midday before the inversion breaks by early afternoon. Onshore winds coming in from off the coast should inject some cleaner and drier air aloft as West to Northwest afternoon winds come into alignment for fires on the Calaveras Zone. Temperatures will remain warm with continued low humidity readings. Another night of warm temperatures and poor to moderate humidity recovery.

WEATHER FORECAST FOR THURSDAY:

WEATHER: Smoke and haze, through midday then mixing out. Increasing west winds during the afternoon.

TEMPERATURES: Highs 90-95 (little change)

HUMIDITY: 12-22% (little change)

20 FT WINDS: West to Northwest 4-8 mph thru midday then increasing 6-12 mph with gusts 18-22 mph.

STABILITY/INVERSION: Smoke from other fires may influence the Calaveras Zone inversion. However by afternoon northwest winds should allow for clearing skies and an injection of clear air to break the inversion.

WEATHER FORECAST FOR THURSDAY NIGHT:

WEATHER: Breezy winds through sunset. Otherwise mostly clear with smoke.

TEMPERATURES: Lows 65-75, warmest above 1500 feet.

HUMIDITY RECOVERY: 40-50% except 15-25% above 1500 feet in thermal belts.

20 FT WINDS: West to Northwest winds 5-10 mph evening gusts 15 mph easing after dark.

STABILITY/INVERSION: Stable inversion layer setting up overnight.

SAFETY INFORMATION: Be ready for breezy winds this afternoon in the hills above 1500 feet in the Calaveras Zone. Know where you are as the winds will push the fire towards the Canyon Zone, especially if the inversion breaks. Think about your location on the line and don't count on Air Support to be your eyes.

EXTENDED FORECAST: Little change for Friday with a few degrees of cooling and slightly higher humidity. High pressure rebuilds heading into the weekend. Take advantage of the quiet weather pattern to secure lines before the next ridge builds

Canyon Zone Fire Weather Forecast

FORECAST NO: 2

NAME OF FIRE: SCU Lightning Complex

PREDICTION FOR: 0700 Thurs-0700 Fri

UNIT: CalFire Santa Clara

SHIFT DATE: Aug 20th-Aug 21st

SIGNED:

TIME AND DATE

Ryan Walbrun
Incident Meteorologist-Ryan Walbrun

FORECAST ISSUED: 2000 Aug 19th

WEATHER DISCUSSION: Continued hot and dry over the Canyon Zone today. Smoke will be the biggest wildcard but given the smoke production on all the upstream fires, heavy smoke is expected to stay over the Canyon Fire for much of the day. The smoke will keep the fire shaded and the inversion will likely not break. Temperatures will continue to be hot with dry conditions, though there will be enough smoke to take a few degrees off the forecast high temps. Winds will be westerly on the ridges above 2000 feet and diurnal/slope driven on the lower drainages. For tonight be aware of lowering humidity above 1500 feet. This is a **common phenomenon for these hills, where humidity values actually lower after midnight and through sunrise.**

WEATHER FORECAST FOR THURSDAY:

WEATHER: Smoke and haze for most of the day over the fire with sunny skies outside the fires edge.

TEMPERATURES: Highs 94-99 (little change)

HUMIDITY: 12-22% (little change)

20 FT WINDS:

Ridgetop: West to northwest 5-10 mph afternoon gusts 15 mph

Slopes : Upslope/Upcanyon 3-8 mph

STABILITY/INVERSION: Inversion will be moderate to strong with extensive smoke from other fires. Inversion may break late in the day, watch for blue skies as a signal for the inversion about to break.

WEATHER FORECAST FOR THURSDAY NIGHT:

WEATHER: Smoke and haze. Otherwise mostly clear.

TEMPERATURES: Lows 70-80, warmest above 1500 feet.

HUMIDITY RECOVERY: Steady humidity values 15-30% most of the night (may lower after midnight)

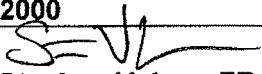

20 FT WINDS: Ridgetop: West to Northwest winds 5-10 mph evening gusts 15 mph easing after dark.
Slopes : Downcanyon 2-5 mph.

STABILITY/INVERSION: Stable inversion layer setting up overnight.

SAFETY INFORMATION: Smoke and haze will impact aircraft ability. If the inversion breaks fire behavior will increase rapidly with westerly ridge winds allowing for spotting. **For tonight, be aware of fire history that shows that humidity values will often drop at night where the Canyon Fire is currently burning.**

EXTENDED FORECAST: Little change for Friday with a few degrees of cooling and slightly higher humidity. High pressure rebuilds heading into the weekend. Take advantage of the quiet weather to build lines before the next ridge builds. Hydrate!

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3	TYPE OF FIRE: Wildfire
FIRE NAME: SCU LIGHTNING COMPLEX CASCU-005740	OPERATIONAL PERIOD: 8/20-8/21/20 0700-0700
DATE ISSUED: 8/19/20	TIME ISSUED: 2000
UNIT: SANTA CLARA	SIGNED:  Typed/printed: Stephen Volmer FBAN

INPUTS

WEATHER SUMMARY:

Continued high temperatures across the unit with warm and dry overnight conditions. Northwest winds will be surface rapidly once the inversion breaks in the morning, and continue through the evening. It will be possible to have gust up to 30mph across the ridgetops beginning in the afternoon. Daytime humidity will be in the teens across the complex. Night time humidity will vary greatly between the zones, and elevations. Expect lower humidity in the upper elevations of the complex throughout the night.

****See the Weather Forecasts for the specific details of each zone****

OUTPUTS

FIRE BEHAVIOR

FUEL MODEL	RATE OF SPREAD FT/MIN	FLAME LENGTH FT	SPOTTING DISTANCE	PROBABILITY OF IGNITION
GRASS	100-145	9	.40 mi	92%
BRUSH	88-124	23	.80 mi	92%
OAK OVERSTORY	20-30	13	.60 mi	92%

GENERAL:

All fuels in the area are completely cured, and have a large amount of dead fuels intermixed within them from the previous years of drought. The region is currently in a severe drought. Expect critical rates of spread when fuels, wind, and topography are all in alignment. Heavy dead down fuels will be consumed 100% leaving deep seated heat in the ash pits. Expect an increase in fire activity after 1200. Lightning hold-overs and new starts will come to life quickly. Poor overnight humidity recovery will lead to active fire behavior thought the evening.

*****Values above are valid for any new starts in the area*****

SPECIFIC:

- Fuels in the area are extremely receptive to ember cast and will produce spot fires easily, as will rollout in the steep drainages of the Canyon zone.
- Fire activity will decrease when it encounters the Oak Overstory areas.

AIR OPERATIONS: Smoke and haze will fill the area producing limit visibility until the inversion lifts. Expect gusty conditions over the ridgetops in the afternoon. Transport winds W 10mph. Air resources might not be available for your tactical plans due to visibility and timing out.

Sunset 19:50 Sunrise 06:27

SAFETY

- Winds increases and/or changes direction.
- Fire activity and winds will increase once the inversion lifts in the afternoon.
- Fire weakened timber and branches will continue to release. Be alert while working in timbered areas.

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: SCU LIGHTNING COMPLEX	2. Operational Period:	Date From: 8/20/20 Time From: 0700	Date To: 8/21/20 Time To: 0700
---------------------------------------------------	-------------------------------	-----------------------------------------------------	-------------------------------------------------

S
A
F
E
T
Y

Wash hands often with warm water and soap for a minimum of twenty seconds. Keep hand sanitizer nearby. Disinfect vehicle and any PPE used appropriately. Minimize hand to face exposure. Wash your hands before eating.

Be prepared for new fires to start. Fuels are dry and receptive to fire. Consider P.A.C.E and know your L.C.E.S. Don't have a false sense of security.

Use Downhill Line Checklist (IRPG). Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish Safety Zones. Utilize Risk Management Process.

Avoid complacency!!!! Experiencing extreme fire behavior due to low live and dead fuel moistures, persistent drought, and elevated fire danger rating values.

Remain mindful of what is going on around you! LCES!

HEADS UP!!! Lookout for SNAGS when working around areas with burned trees. Evaluate all wind damaged trees with large limbs before working under around them.

Steep winding roads are throughout the incident. Slow down when driving on loose gravel and blind curves. Drive defensively with headlights on and use hands free devices.

Stay hydrated!!!! Time to think = Time to drink. Document rest and hydration on 214.

Ensure radios are properly programmed for today's IAP and that crews are trained in communications procedures for the incident.

Maintain proper social distancing and monitor yourself for any possible symptoms and report immediately.

5. Prepared By: J. Buchmeier / J. Novak (T)	Position/Title: SOFR	Signature:
ICS 208	Date/Time: 8/19/2020 / 2030	

INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

1. Incident Name: SCU LIGHTNING COMPLEX	2. Operational Period:	Date From: 8/20/20 Time From: 0700	Date To: 8/21/20 Time To: 0700
Incident Area	Hazard/Risks	Mitigations	
ALL	COMPLACENCY	Don't underestimate the task at hand. Wear full PPE while on the line. Don't get caught off guard. Do you have the right radio clone.	
ALL	COVID 19	Adhere to local, state, federal, and CDC health guidelines. Maintain social distancing when applicable. Wear a mask for yourself and others. Report any symptoms immediately to a supervisor.	
ALL	FIRE BEHAVIOR	Know your LCES and maintain Situational Awareness. Use experienced Look Outs. Adhere to the downhill line construction guidelines. Monitor weather for changes in the wind, temp, and RH during the shift. Have a contingency plan with established decision points and Safety Zones.	
ALL	FATIGUE/HEAT/DEHYDRATION	Be alert for signs of fatigue and take breaks as necessary on hot dry days. Monitor incoming resources for level of fatigue. Drink water before, during, and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible. Find shade when you can. Drink electrolyte drinks at a 2:1 water/sport drink ratio.	
ALL	STEEP TERRAIN/ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.	
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel (inside rear IRPG). Ensure LCES in place prior to engagement. Establish adequate Safety Zones. Use Downhill Line Checklist. Follow "Look Up, Look Down, Look All Around" procedures. Utilize Risk Management Process...reference the IRPG.	
ALL	HAZARD TREES	Identify and isolate the area to provide for the safety of others. Flag and make proper notifications. Do not fall trees out of your certification level.	
ALL	DRIVING HAZARDS	SLOW DOWN! Long travel times to the line, stay alert. Drive defensively! Expect the unexpected around every curve. Drive with headlights and seatbelts on. Narrow roads with limited passing room. Coordinate your movements on one-lane roads, follow traffic plans.	
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft. Only utilize aircraft to insert personnel on the line when necessary.	
ALL	PERFORM TAIL GATE SAFETY	Everyone should be briefed on the conditions and circumstances regarding the fire and their assignments per the IRPG.	
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below dozer. Utilize communication with the operator (radio or hand signals).	
5. Prepared By: Joe Buchmeier		Position/Title: SOF1

CAL FIRE / INCIDENT MANAGEMENT TEAM 6

COVID-19 DAILY HEALTH CHECK SCREENING ALGORITHM

EACH WORKDAY WILL BEGIN WITH THE FOLLOWING:

Temperature recorded
Employee Screening Questionnaire

TEMPERATURE RECORDED

- Fever YES/NO? *Fever is considered $> 100.4^*$

EMPLOYEE SCREENING QUESTIONNAIRE

- Are you feeling ill/feverish?
- Are you having chills?
- Do you have new or worsening SOB?
- Do you have a new or worsening cough?
- Do you have a new or prolonged sore throat?

**No Fever and No answered to all
Employee Screening Questionnaire**

Continue with Daily Operations

**Yes Fever OR Yes answered to any of the Employee
Screening Questionnaire**

- Wash Hands, Don Mask and Isolate from other employees. Maintain a distance of > 6 feet.
- Notify the Company Officer and/or Strike Team Leader.
- Notify Medical Unit Leader
- Refer employee to appropriate healthcare provider for evaluation and treatment.
- Disinfect "High-touch" surface areas.

REMINDERS TO ALL EMPLOYEES

- ◇ Self-Monitor yourself while you are on and off the line. If you experience any flu-like symptoms, COVID-19 symptoms, or any Respiratory illness symptoms contact your Company Officer and or Strike Team Leader.
- ◇ Maintain proper hand hygiene. Wash hands with soap and water for 20 seconds. Utilize hand sanitizer often. Do not shake hands, touch, or hug others.
- ◇ Cover coughs or sneezes (if not masked). Cloth Masks should be exchanged and or washed daily.
- ◇ Masks are required when out in the public on non-emergency business.
- ◇ Disinfect high-touch surfaces daily.
- ◇ Practice social distancing (> 6 feet) at meal times, dormitories, in-person meeting, or while in public.

CAL FIRE / Incident Management Team 6

COVID-19 Response Algorithm

Employee Response Action Plan

COVID-19 Positive Test or COVID-19 Positive Clinical Symptoms Presentation

- COVID 19 Symptoms: Cough, SOB, Fever or afebrile, Chills, Muscle Pain, Sore throat, Loss of taste/smell
- Employee informs Company Officer and Strike Team Leader of presumed/confirmed COVID-19 symptoms.
- Employee advised to seek evaluation by Medical Unit and CAL MAT or base camp medical unit.
- Crew initiates cleaning measures. Mask, safety glasses, gloves worn. (If needed, LOGS will assist)
- Medical Unit to notified IC, Liaison, Safety and Logistics ASAP. Medical Unit will notify COVID-19 Public Health Officer and determine need for testing and locations.

Incident Action Plan

- Company Officer / Strike Team Leader notified of personnel with COVID-19 positive test or symptom.
- Medical Unit evaluates individual(s) and need for care and evaluation.
- IC, Liaison, Safety and Logistics notification made to determine course of incident evaluation and response.
- Line Chief, Agency Administrator, and Region Office updated upon notification

Facilities Response

- Medical and Safety notified
- Incident Notification
- Disinfection plan initiated.
- Resource Status Evaluated

Medical Evaluation & Contact Tracing

- Personnel interviewed by Medical Unit. List of Positive contacts made in the last 5 days acquired. All Exposed are required to wear surgical mask, self monitor for Fever/Resp symptoms for up to 14 days (exposed personnel are subject to COVID-19 testing)
- Home Unit / Department utilized and retrospective tracking of Positive COVID-19 personnel inter-actions are identified within the last 5 days.
- Home Unit / Department updated by Company Officer / Strike Team Leader.
- Public Health Department is contacted and updated by IC or Designated Representative.
- Positive COVID-19 Employees w/symptoms will need to be evaluated by Health Department conducting testing, prior to returning to assignment.
- Positive COVID-19 Employees w/o symptoms may be required to be evaluated and resource status will be reviewed prior to returning to assignment.

6. Special Medical Emergency Procedures							
Line Emergency Crew Supervisor will contact Division Supervisor with patient complaint/condition and location. - Division Group Supervisor Contacts: 1. Closest EMS resource 2. Communications Unit - Communications Unit Contacts: 1. Ground or Air ambulance as requested. 2. Operations 3. Safety 4. Medical Unit - Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel. 1. A pre-assigned tactical frequency (i.e. CALCORD) should be used for IWI and only for duration of the emergency. - Communications Unit will clear the Command channel for emergency traffic as needed for duration of the need.				Injury Reporting Procedures Nature of Injury: _____ Location of Patient: _____ Point of Contact: _____ Transportation Requested by: Air _____ Ground _____ Point of Pick-Up: _____ Lat: _____ Long: _____ Patient Unit ID: _____ Is an EMT with Patient: Yes _____ No _____ Age: _____ Sex: Male _____ Female _____			
Camp Emergency Contact Medical Unit with patient complaint/condition and location. Medical staff will respond to stabilize the patient. - Medical Unit contacts 1. Communications 2. Safety 3. Logistics 4. Operations 5. Crew Supervisor 6. Comp/Claims				All Emergencies - Secure the area and identified witnesses for later investigation. Keep accurate log of events.			
<input type="checkbox"/> Check box if aviation assets are utilized for rescue. If assets are used, coordinate with Air Operations.

TRAINING MESSAGE

TRAINERS:

**PLEASE REMEMBER TO REVIEW THE TASK BOOK WITH
YOUR TRAINEE EACH DAY AND SET GOALS FOR THE
OPERATIONAL PERIOD.**

TRAINEES:

**ALWAYS KEEP YOUR TASK BOOK SECURED. IF LOST, YOU
RUN THE RISK OF LOSING CREDIT FOR THE TASKS
COMPLETED.**

IF IT ISN'T DOCUMENTED
IT DIDN'T HAPPEN

Any questions please contact the Training Specialist:

Shane Vargas (530) 410-4225

Dottie Shaw (619) 971-1701

Ian Crossley (530) 681-5100

eFC-33 INITIAL INPUT FORM

STATUS	
Incident Start Date: August 16, 2020	Incident Start Time: 4:00 AM
Acreage:	Containment:
Cause: Under Investigation	Total Personnel:

Media Law

The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, and does not imply that the news media may interfere with incident operations while they are in the areas of concern. If entering such a location that is hazardous, they should be advised; media access cannot be prevented for safety reasons unless their presence would impede CAL FIRE's mitigation of the incident or the disturbing of evidence. When working around the media, remember:

- **Media is not permitted** on private property without the property owners permission.
- If approached and questioned by the media and or the public, talk about your assignment or task at hand. Remember to wear all the appropriate PPE.
- If needed call for an incident PIO through the chain of command.
- Never speculate, give opinions or speak for others.
- There is no such thing as an "off the record" comment.

CAL FIRE Social Media Policy (Social Media 0691)

Social Media is increasingly being used by public agencies, the media as well as the public. This form of communication continues to grow rapidly in order to supply the instant gratification needs of society. Therefore when on a CAL FIRE incident you will adhere to the CAL FIRE Social Media Policy, 0691. You can get further information about the CAL FIRE Social Media Policy from the incident Public Information Officer. While assigned to the incident, there will be no posting of:

- Inappropriate information or materials
- No opinions
- No endorsements
- Inappropriate pictures or videos

Lost and Found

The Information Section will manage Lost and Found items for the incident. If you have lost an item leave your contact information and what you have lost at the Information Section. If you have found an item on the incident bring the item to the Information Section with your contact information as well.
