

INCIDENT ACTION PLAN

ZOGG INCIDENT

CA-SHU-009978

Saturday

OPERATIONAL PERIOD

10/3/2020 0700
 to
10/4/2020 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Zogg</p>	2. Operational Period:	Date From: 10/3/2020 Time From: 0700	Date To: 10/4/2020 Time To: 0700
---	-------------------------------	---	-------------------------------------

3. Objective(s):

- Management Objectives
- Provide for emergency personnel and public safety.
 - Ensure COVID-19 precautions and best practices are met.
 - Protect property, improvements, and infrastructure.
 - Ensure coordinated, timely and accurate release of public information.
 - Foster and maintain relationships with all cooperators and stakeholders.
 - Protect economic, natural, cultural and heritage resources.
 - Maintain fiscal accountability and keep costs commensurate with values at risk.

- Control Objectives
- Keep the fire North of Highway 36.
 - Keep the fire South of Highway 299.
 - Keep the fire East of Bully Choop Road.
 - Keep the fire West of Gas Point Road, Placer Road, and Swasey Drive.

General Situational Awareness:

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

In the COVID-19 environment, high density populations or large groups are particularly at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.

Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

5. Site Safety Plan Required? Yes No

Approved Site Safety Plan(s) Located at:

Fire Weather Forecast

FORECAST NO: #4
PREDICTION FOR: Saturday
OPERATIONAL PERIOD: 10/3/20 0700-10/4/20 0700
FORECAST ISSUED: 10/2/2020 at 1900

INCIDENT: Zogg
UNIT: Shasta Trinity

Incident Meteorologist: Robert Rickey

Weather Discussion: For today, expect another round of hot and dry conditions, with afternoon temperatures in the mid to upper 90s and minimum humidity in the low-teens. Winds will generally be light and terrain driven during the day, with winds shifting to the west/northwest as gusty downslope winds develop across the area after 2000. Dry conditions with slightly cooler temperatures are forecast for Sunday and Monday.

WEATHER FORECAST

Today: ***Hot and Very Dry***

Weather: Sunny with areas of smoke.

High Temperatures: 94-100

Min RH: 10-16%

20 FOOT WINDS:

RIDGETOPS:

Div P, A, Y, C: Variable/Upslope 4-8 mph. After 2000, NW 8-14 gusting 18-24 mph.

Div M/H, E/F: Variable/Upslope 4-8 mph. After 2000, WNW 8-14 gusting 18-24 mph.

SLOPE/VALLEY:

Upslope/Upvalley 4-8.

Chance of Rain...0% LAL...1

Mixing Height...8,000 ft AGL Transport Wind...Light <5 mph

Tonight:

Weather: Mostly clear with areas of smoke.

Low Temperatures: 58-64

Max RH: 38%-44%

20 FOOT WINDS:

Div P, Y, A, C: NW 6-12 gusting 16-22 mph, decreasing after midnight.

Div M/H, E/F: W 6-12 gusting 16-22 mph, decreasing after midnight.

Chance of Rain...0% LAL...1

Outlook for Sunday: ***Warm and Dry***

Weather: Sunny with areas of smoke.

High Temperatures: 89-95

Min RH: 14-20%

20 FOOT WINDS:

SE 5-10 mph. After 2000, NW 5-10 mph.

Chance of Rain...0% LAL...1

Mixing Height...6,000 ft AGL Transport Wind...SE 10 mph

Extended Outlook for Monday: ***Warm and Very Dry***

Weather: Sunny with areas of smoke.

High Temperatures: 90-96

Min RH: 10-16%

20 FOOT WINDS:

SE 5-10 mph. After 2000, NW 5-10 mph.

Chance of Rain...0% LAL...1

Mixing Height...6,000 ft AGL Transport Wind...Light <5 mph

WEATHER SUMMARY: ***See official forecast***

Sky/ Weather.... ***Hot and Very Dry.*** Sunny with areas of smoke.

Max Temp 94-100F **Min RH** 10-16%

Wind (20 ft)

DAY:

RIDGETOPS:

Div P, A, Y, C: Variable/Upslope 4-8 mph. After 2000, NW 8-14 gusting 18-24 mph.

Div M/H, E/F: Variable/Upslope 4-8 mph. After 2000, WNW 8-14 gusting 18-24 mph.

SLOPE/VALLEY:

Upslope/Upvalley 4-8.

NIGHT: Div P, Y, A, C: NW 6-12 gusting 16-22 mph, decreasing after midnight.

Div M/H, E/F: W 6-12 gusting 16-22 mph, decreasing after midnight.

OUTPUTS

FIRE BEHAVIOR

GENERAL: Varied fuels across the incident are extremely dry due to the near record hot weather the last 2 months and moderate drought conditions. A heavy loading of fine fuels will provide a receptive fuel bed for any spot fires or new ignitions. Live fuel moistures in the area are at a critical level (around 60%) and 1000-hour dead fuel moistures are around 7%. Complex terrain features and intersecting drainages provide the opportunity for slope reversal and terrain driven runs. Re-burn potential exists within green islands, or where fire intensity/understory fuel bed was not adequate to ignite and consume the overstory. Winds may align with slopes and ignite these areas within the interior. Increase in fire activity should be expected when the smoke clears out over the fire area. Fine fuels will be less receptive overnight with the humidity recovery.

Grass – **Rate of Spread** up to 1.5 mi/hr **Flame Lengths** 4-12 ft.

Brush/Timber – **Rate of Spread** up to 1 mi/hr **Flame Lengths** 10-20 ft.

Rates of spread and flame lengths could exceed forecasted values.

Probability of Ignition: up to 90% **Spotting Distance:** Spotting up to .25-.5 mile. (Peak gusts)

SPECIFIC:

Divs A, C, E/F, H/M - Minimal fire behavior is expected. Continued smoldering of stumps and larger diameter fuels. Residual heat in unburned islands and smoldering fuels will continue to pose a threat to control lines by spotting and rollout until thoroughly mopped up.

Div P and Y - The fire will continue to creep and smolder in the understory and down fuels within the perimeter. Potential still exists to spread to the north towards Ducket Peak and west into North Fork Cottonwood Creek drainage should the fire spread outside of containment lines.

AIR OPERATIONS: Sunrise: 0709 Sunset: 1847

Smoky conditions will persist throughout the day which may limit visibility.

SAFETY

Hot temperatures, low humidity, and shifting winds provide the potential for rapid fire growth if a fire gets established outside the containment lines, or for local initial attack.

Fuels outside the line continue to be very receptive. Be prepared to react to rollout or new starts.

Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.

Fuels and Fire Behavior Advisory

Northern California Geographic Area

September 29, 2020

Subject: Dry offshore and northerly winds, followed by high temperatures will rapidly dry out fuels across Northern California. Extreme fire behavior and rapid to dangerous rates of spread has occurred during enhanced breezy periods accompanied with low humidity in areas clear of smoke. Extreme fire behavior will become more common as the fuel drying continues in September.

Discussion: Weeks of record temperatures during August and September, coupled with limited precipitation has expanded extreme to severe drought conditions across much of the Geographic Area. All indications show these drought conditions persisting through early October. Light precipitation that passed over the northern part of the region only lowered fire danger for a very brief period. Fires have recently shown or exhibited moderate to rapid rates of spread or generate extreme fire behavior when influence by winds. There is a high potential for extreme fire behavior to persist under a wider range of conditions as fuel continues to dry and gusty north to northeast foehn winds events become more frequent.

Difference from normal conditions: Winter precipitation was below to well below normal with 55% of normal mountain snowpack. Late spring moisture during the heart of the low-mid elevation growing season led to **above normal fine fuel loading**. Typical dry summer conditions coupled with above normal temperatures has dramatically effected fuel dryness and fire danger indices. ERC's will climb back up to between 90th to 97th percentile the next 2 weeks with some PSA's experiencing seasonal record values in temperatures. This time of year, live brush has typically low moisture levels due to normal seasonal drying but recently sampled live brush are at the at historic lows for many sampling sites.

Fuels – Low Elevation Grass Crop

Sierra Foothills Rangeland Forage Production Data

- 40 years of consistent data
- 2019-20 growing season 4th highest total
- 5 seasons of above normal in a row

Top 5 Growing Seasons	Pounds/Acres
2017-18	5514
1992-93	4696
1982-83	4630
2019-20	4420
2004-05	4410

For more information about the very unseasonable environmental conditions occurring, follow these links:

https://gacc.nifc.gov/oncc/fuelsFireDanger_Bi.php

<https://vegdiri.unl.edu/Home/StateVegDRI.aspx?CA>

https://gacc.nifc.gov/oncc/fuelsFireDanger_Erc.php

https://gacc.nifc.gov/oncc/fuelsFireDanger_Thousand.php

https://gacc.nifc.gov/oncc/fuelsFireDanger_Hundred.php

<https://www.esrl.noaa.gov/psd/eddi/>

Concerns to Firefighters and the Public:

- Cured fine fuel loading below 3,000' elevation is above normal, exhibiting very rapid fire spread.
- Firefighters should be prepared for potential extreme fire behavior and dangerous or otherwise rapid rates of spread at any time of day, especially during foehn wind events.
- The potential for extreme fire activity will likely continue until enough precipitation occurs to significantly increase and maintain higher fuel moisture readings for an extended period.
- Rapid rates of spread could have a significant impact on public safety and make evacuations difficult.

Mitigation Measures:

- All local and visiting firefighters need to remain aware of current and expected weather and burning conditions and consider such information while making strategic and tactical decisions.
- Employ LCES principles (Lookouts, Communications, Escape Routes, Safety Zones).
- Review current fire potential products from Predictive Services at <https://gacc.nifc.gov/oncc/predictive/weather/index.htm> or potential Red Flag conditions from the National Weather Service and weather at <https://www.wrh.noaa.gov/fire2/cafw/>.

Area of Concern: All areas across Northern California could see very active fire behavior. The PSA numbers associated with those areas are NC01, NC02, NC03A-6-03B, NC04, NC05, NC06, NC07 and NC08.

ZOGG SAFETY MESSAGE

Stay Engaged and Make Smart Decisions

INCIDENT: Zogg Fire CA-SHU-009978 **DATE:** October 03, 2020 **TIME:** 0700-0700

Major Hazards and Risks: Fatigue, Fire behavior, Hot dry weather, Wind

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines. Plan for long-range spotting.

Driving: Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Fatigue: Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

Downed powerlines: Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Be ready for any incident-within-an-incident by reviewing your ICS 206.

Lookouts

Communication

Escape routes

Safety zones

Covid-19 Precautions:

- Keep your distance. Wear a mask when less than 6' from other people.
- Wash your hands
- No group gatherings without masks
- Don't show up to work sick
- Do daily health evaluations on your personnel.

MOP UP

- Conduct thorough briefing for all personnel (inside rear cover IRPG).
- Use all required PPE, including eye protection.
- Maintain proper spacing and overhead clearance.
- Be alert for stump holes and root cavities.
- Minimize exposure to smoke.
- Evaluate unburned islands.

ZOGG FIRE INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE BEHAVIOR	Review Wildland Urban Interface Firefighting in the IRPG. Monitor current weather conditions and forecasts. Make sure all personnel receive thorough briefings every shift. Work within your capabilities when limited resources are available. Maintain adequate escape routes and safety zones. Set trigger points when appropriate. Plan for spots outside the line and new fire starts in the area. Maintain Situational Awareness.
ALL	DRIVING	Drive defensively! Narrow winding roads are hazardous. Slow Down. Drive with headlights on and seatbelts on. Be alert for heavy trucks and high-speed opposing traffic crossing into your lane. Use warning devices when operating near traffic.
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation.
ALL	BACKFIRING and BURNOUT OPERATIONS	Before beginning a backfiring or burnout operation, ensure that: Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE.
ALL	FATIGUE / HEAT / DEHYDRATION	During periods of hot/dry weather with limited resources be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible.
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Utilize Risk Management Process (IRPG).
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below a Dozer. Utilize communication with the operator (radio or hand signals) Watch for signs indicating buried high-pressure gas lines, stay out of the dust.
ALL	POWERLINES	Follow <i>Powerline Safety</i> guidelines in the IRPG. Communicate power line hazards to immediate supervisor. Flag area around downed power lines and deny access. Treat all downed power lines as energized.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft.
ALL	HAZARD TREES	Identify snags and hazard trees and isolate the area to provide for safety of others. Flag and make the proper notifications. Evaluate all trees prior to working under or near them. Watch out for snags. Don't fall any tree outside of your qualification.
BR1	MOP UP	Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for stump holes and root cavities. Minimize exposure to smoke. Evaluate unburned islands and the potential for re-burn. Back haul all equipment and trash off the line and return it to base camp. When lifting equipment, lift with your legs and not your back.
ALL	COVID 19	Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Shasta County Public Health Guidelines. Monitor for symptoms, follow reporting procedure.
Incident Name: Zogg Fire ICS 215a		DATE PREPARED: October 02, 2020 1835hrs Prepared by: C Thompson SOF1
		OPERATIONAL PERIOD 10-03-2020 0700-0700

COVID-19

Protect yourself and loved ones

Help prevent the spread of respiratory diseases like COVID-19

+ WASH YOUR HANDS

Wash your hands with soap and warm water regularly.

+ COVER A COUGH OR SNEEZE

Cover your cough or sneeze with your sleeve, or tissue. Dispose of tissue and wash your hands afterward.

+ DON'T TOUCH

Avoid touching eyes, nose or mouth, especially with unwashed hands.

+ KEEP YOUR DISTANCE

Avoid close contact with people who are sick.

+ STAY HOME

If you experience respiratory symptoms like a cough or fever, stay home.

+ GET HELP

If you experience symptoms of COVID-19 (cough, fever, shortness of breath), call your health care provider or local health department before seeking care.

6. Special Medical Emergency Procedures

Line Emergency
 Crew Supervisor will contact Division Supervisor with patient complaint/condition and location.
 - Division Group Supervisor Contacts:
 1. Closest EMS resource
 2. Communications Unit
 - Communications Unit Contacts:
 1. Ground or Air ambulance as requested.
 2. Operations
 3. Safety
 4. Medical Unit
 - Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel.
 1. A pre-assigned tactical frequency (i.e. CALCORD) should be used for IWI and only for duration of the emergency.
 - Communications Unit will clear the Command channel for emergency traffic as needed for duration of the need.

Camp Emergency
 Contact Medical Unit with patient complaint/condition and location. Medical staff will respond to stabilize the patient.
 - Medical Unit contacts
 1. Communications
 2. Safety
 3. Logistics
 4. Operations
 5. Crew Supervisor
 6. Comp/Claims

Injury Reporting Procedures

Nature of Injury: _____
 Location of Patient: _____
 Point of Contact: _____
 Transportation Requested by: Air _____ Ground _____
 Point of Pick-Up: _____
 Lat: _____ Long: _____
 Patient Unit ID: _____
 Is an EMT with Patient: Yes _____ No _____
 Age: _____ Sex: Male _____ Female _____

All Emergencies - Secure the area and identified witnesses for later investigation. Keep accurate log of events.

Check box if aviation assets are utilized for rescue. If assets are used, coordinate with Air Operations.

ZOGG FIRE PUBLIC INFORMATION

Incident Information Line: 211 or 1-855-211-7822

Email pictures to: zogofire2020@gmail.com

MEDIA: California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection. The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property. If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO. Do not speculate or give opinions There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691): Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask.

Do not post:

- Inappropriate information, pictures or videos. Opinions regarding the incident, policy or endorsements of any kind.

PICTURES AND VIDEO OF INCIDENT: We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately, we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND: The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE: The Information staff will assist you in mailing and receiving letters and packages. **Shasta District Fair and Event Center 1890 Briggs St, Anderson CA. 96007**

TRAINING SPECIALIST MESSAGE

**All Zogg Incident Trainees
Beat the Rush!!!**

In order to receive documented credit for your training assignment you must register with the Incident Training Specialist.

The Training Specialist is available immediately following the morning Briefing.

Bring the following documents to register:

- **ICS Qualification Card**
- **Position Task Book**

Trainee Data Forms are available at the Training Office

Remember: No documentation – it didn't happen!

Claudia Soiza - 949 632-7813

ZOGG INCIDENT

Incident Trainee/Trainer Data Form
CA-SHU-009978

Training Specialist: Claudia Soiza 949.632.7813

- > All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.
- > Prior to or as you process through DEMOB, remember to close your training package. To close your training package, bring: 1) A performance rating from your trainer. (ICS 225)
2) Your task book that has as many entries as possible by your Trainer.

Trainee Data

Trainee Name: _____ ICS Trainee Position: _____
