OUTPUTS

FIRE BEHAVIOR

GENERAL:

Varied fuels across the incident are extremely dry due to the near record hot weather the last 2 months and moderate drought conditions. A heavy loading of fine fuels will provide a receptive fuel bed for any spot fires or new ignitions. Live fuel moistures in the area are at a critical level (around 60%) and 1000-hour dead fuel moistures are around 7%. Re-burn potential exists within green islands, or where fire intensity/understory fuel bed was not adequate to ignite and consume the overstory. Daily terrain winds may align with slopes and ignite these areas within the interior. Increase in fire activity should be expected when the smoke clears out over the fire area. Fine fuels will be less receptive overnight with the humidity recovery.

Projected fire behavior if the fire escapes the current perimeter or for nearby initial attack-

Grass – **Rate of Spread** up to 1.5 mi/hr **Flame Lengths** 4-12 ft.

Brush/Timber – **Rate of Spread** up to 1 mi/hr **Flame Lengths** 10-20 ft.

Rates of spread and flame lengths could exceed forecasted values.

Probability of Ignition: up to 90% **Spotting Distance:** Spotting up to .25-.5 mile. (Peak gusts)

SPECIFIC:

All Divisions - Minimal fire behavior is expected. The fire will continue to smolder in the understory and down fuels within the perimeter. Residual heat in unburned islands will continue to pose a threat to control lines by spotting and rollout until thoroughly mopped up. Expect moderate rates of spread should the fire become established outside of containment lines.

AIR OPERATIONS: Sunrise: 0709 Sunset: 1847

Expect smoky conditions to persist throughout the day which may limit visibility.

SAFETY

Fuels outside the line continue to be very receptive. Be prepared to react to rollout or new starts.

Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.

Snags and stump holes are likely in timber areas.

ZOGG SAFETY MESSAGE

Stay Engaged and Make Smart Decisions

INCIDENT: Zogg Fire CA-SHU-009978

DATE: October 04, 2020 TIME: 0700-0700

Major Hazards and Risks: Fatigue, Hazard Trees, Hot dry weather

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines. Plan for long-range spotting.

Driving: Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Fatigue: Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

Downed powerlines: Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Be ready for any incident-within-an-incident by reviewing your ICS 206.

Covid-19 Precautions:

- Keep your distance. Wear a mask when less than 6' from other people.
- Wash your hands

- Don't show up to work sick
- Do daily health evaluations on your personnel.

Mop Up

- Conduct thorough briefing for all personnel (inside rear cover IRPG).
- Use all required PPE, including eye protection.
- Maintain proper spacing and overhead clearance.
- Be alert for stump holes and root cavities.
- Minimize exposure to smoke.
- Evaluate unburned islands.

ZOGG FIRE INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE BEHAVIOR	Review Wildland Urban Interface Firefighting in the IRPG. Monitor current weather conditions and forecasts. Make sure all personnel receive thorough briefings every shift. Work within your capabilities when limited resources are available. Maintain adequate escape routes and safety zones. Set trigger points when appropriate. Plan for spots outside the line and new fire starts in the area. Maintain Situational Awareness.
ALL	DRIVING	Drive defensively! Narrow winding roads are hazardous. Slow Down. Drive with headlights on and seatbelts on. Be alert for heavy trucks and high-speed opposing traffic crossing into your lane. Use warning devices when operating near traffic.
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation.
ALL	BACKFIRING and BURNOUT OPERATIONS	Before beginning a backfiring or burnout operation, ensure that: Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE.
ALL	FATIGUE / HEAT / DEHYDRATION	During periods of hot/dry weather with limited resources be alert for signs of fatigue and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible.
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel. Ensure LCES in place prior to engagement. Establish adequate safety zones. Use Downhill Line Checklist. Utilize Risk Management Process (IRPG).
ALL	DOZER SAFETY	Watch for rolling material. Monitor safe working distances. Avoid working below a Dozer. Utilize communication with the operator (radio or hand signals) Watch for signs indicating buried high-pressure gas lines, stay out of the dust.
ALL	POWERLINES	Follow <i>Powerline Safety</i> guidelines in the IRPG. Communicate power line hazards to immediate supervisor. Flag area around downed power lines and deny access. Treat all downed power lines as energized.
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the sky. Use air-to-ground frequency to communicate with aircraft. Use clear, concise statements when directing aircraft.
ALL	HAZARD TREES	Identify snags and hazard trees and isolate the area to provide for safety of others. Flag and make the proper notifications. Evaluate all trees prior to working under or near them. Watch out for snags. Don't fall any tree outside of your qualification.
ALL	MOP UP	Use all required PPE, including eye protection. Maintain proper spacing and overhead clearance. Be alert for stump holes and root cavities. Minimize exposure to smoke. Evaluate unburned islands and the potential for re-burn. Back haul all equipment and trash off the line and return it to base camp. When lifting equipment, lift with your legs and not your back.
ALL	COVID 19	Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Shasta County Public Health Guidelines. Monitor for symptoms, follow reporting procedure.

MEDIA: California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection. The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property. If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO. Do not speculate or give opinions There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691): Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask.

Do not post:

- Inappropriate information, pictures or videos. Opinions regarding the incident, policy or endorsements of any kind.

PICTURES AND VIDEO OF INCIDENT: We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately, we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND: The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE: The Information staff will assist you in mailing and receiving letters and packages. **Shasta District Fair and Event Center 1890 Briggs St, Anderson CA. 96007**
