INCIDENT OBJECTIVES (ICS 202)

	-MI ODOLOTIV	/L3 (103 /	202)		
1. Incident Name:	2. Operational Period:	Date From:	9/29/2020	Date To:	9/30/202
Zogg		Time From:	0700	Time To:	0700
3. Objective(s):					***************************************
Management Objectives					
- Provide for emergency personnel and public safe	•				
- Ensure COVID-19 precautions and best practices					
- Protect property, improvements, and infrastructur	e.				
- Ensure coordinated, timely and accurate release	of public information.				
- Foster and maintain relationships with all coopera	ators and stakeholders.				
- Protect economic, natural, cultural and heritage re	esources.				
- Maintain fiscal accountability and keep costs com	mensurate with values at ri	sk.			
Control Objectives					····
Keep the fire North of Highway 36					
Keep the fire South of County Line Road					
Keep the fire East of Highway 299					
Keep the fire West of Gas Point Road					
General Situational Awareness:					
Steep and rugged terrain, critically dry and recepti	ve fuel heds, active area for	r fire history and d	rought atracae		
, , , , , , , , , , , , , , , , , , , ,	ve lasi bodo, astive alea loi	i me matory and di	ought stressed	trees.	
In the COVID-19 environment, high density popular	ations or large groups are pa	articulary at risk. T	o help protect v	ourself vou	ır family
and to ensure all employees return home safely, n	nake sure to practice social	distancing.	- · · - · · · · · · · · · · · · · · · ·		1 Tarring
Enhanced hygiene (especially handwashing), PPE	& monitoring practices help	p limit the infection	rate of first res	ponders.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 1	TYPE OF FIRE: WILDLAND FIRE
FIRE NAME: Zogg (CASHU 009978)	OPERATIONAL PERIOD: 09/29/20 - 09/30/20 24hr
DATE ISSUED: 09/28/2020	TIME ISSUED: 1900Hrs
UNIT: CA-SHU	SIGNED: Robert Clark
	Typed/printed: R. Clark

INPUTS

WEATHER SUMMARY: ***See official forecast***

High pressure will dominate the forecast this week. This will lead to above normal temperatures, light winds, and low RH values during the day.

Sky/ Weather.... Sunny. Hazy and patchy smoke.

Max Temp 90-98F Min RH 7-15%

Wind (20 ft) Slope/valley......Northwest winds up to 6 mph shifting to the southeast in the afternoon.

Ridgetop.....Light winds.

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fire is burning in grass, oak woodland, chaparral, and mixed timber. Heavy loading of dead standing and down fuels exist in the northern part of the fire within the Carr fire scar. Fuels are extremely dry and will provide a receptive fuel bed for any spot fires through the forecast period. The area has a above normal grass crop due to late season rains. Live fuel moistures in the area are at a critical level (around 60%) and 1000-hour dead fuel moistures are around 7%, Large diameter fuels will continue to consume and be a source for spotting or rollout. The primary driver of any fire movement will be terrain influenced winds and topography. Watchout for the fire when it gets established in a drainage and makes slope driven runs.

Grass – Rate of Spread up to .7-1 mi/hr Flame Lengths 4-15 ft.

Brush/Timber - Rate of Spread up to .8-1 mi/hr Flame Lengths 10-20 ft.

Rates of spread and flame lengths could exceed forecasted values.

Probability of Ignition: up to 91% Spotting Distance: Spotting up to .25 mile. (Peak gusts)

SPECIFIC:

Branch I- Fire spread to the north towards Kanaka Peak and up Clear Creek drainage as well as to the east across Clear Creek towards Mule Mountain is possible. This area is within the Carr fire scar and has an abundance of standing and down dead fuels with grass understory.

Branch II- Fire spread to the east and south in the grass and oak woodland fuels.

Branch V- Fire spread to the west and north is possible where the fire gets established on the slopes or in drainages.

AIR OPERATIONS: Sunrise: 0703 Sunset: 1855

SAFETY

Watch for fire-weakened trees/branches falling after extended burn-out times of heavy fuels.

Intersecting drainages can create a disruption or concentration in wind flow/eddying effects. Identify areas where unfavorable winds may adversely affect fire behavior

Expect dangerous rates of spread with *alignment of slope and wind*. Fuels transition from grass to heavy brush/scattered timber with slope and elevation change.

ZOGG SAFETY MESSAGE

Maintain Situational Awareness

INCIDENT: Zogg Fire CA-SHU-009978

DATE: September 29, 2020

TIME: 0700-0700

Major Hazards and Risks: Limited resources, Fatigue, Fire behavior, Hot dry weather,

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines. Plan for long-range spotting.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Fatigue: Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

Driving: Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Downed powerlines: Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Review your ICS 206 and know what to do in the event of an (IWI).

 ${f L}$ ookouts, ${f C}$ ommunication, ${f E}$ scape routes, ${f S}$ afety zones

Tailgate Safety

- Accountability: everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- Communication: everyone knows the complan
- **Briefing:** everyone knows the plan and the contingency plan
- Safety gear: All safety gear in good working condition
- LCES: they are clear and made known to everyone

Covid-19 Precautions:

- Keep your distance. Wear a mask when less than 6' from other people.
- Wash your hands
- No group gatherings without masks
- Don't show up to work sick
- Do daily health evaluations on your personnel each day.

-6-

ncident Safety Officer: Chad Thompson

Incident Commander: Sean Kavanaugh

ZOGG FIRE INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS	/ REMEDIES						
ALL	FIRE BEHAVIOR	Review Wildland Urban Interface Firefighting in the IRPG. Monitor current weather conditions and forecasts. Make sure all personnel receive thorough briefings every shift. Work within your capabilities when limited resources are available. Maintain adequate escape routes and safety zones. Set trigger points when appropriate. Plan for long-range spotting. Adhere to the 10 Fire Orders, mitigate 18 Situations. Maintain Situational Awareness.							
ALL	STEEP TERRAIN / ROLLING DEBRIS	Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation.							
ALL	HAZARD TREES	Identify snags and hazard trees and isolate the area to perform Flag and make the proper notifications. Evaluate all trees near them. Watch out for snags. Don't fall any tree out.	es prior to working under or side of your qualification.						
ALL	FATIGUE / HEAT / DEHYDRATION	During periods of hot/dry weather with limited resource and take breaks as necessary. Monitor incoming resources for level of fatigue. Drink shifts, up to 1.5 gal. per shift. Be alert for signs of heat use the buddy system. Eat small meals often and when	water before, during and after stress in yourself and others;						
ALL	POWER LINES	Follow Powerline Safety guidelines in the IRPG. Communicate power line hazards to immediate superviflag area around downed power lines and deny access. Treat all downed power lines as energized.							
ALL	BACKFIRING and BURNOUT OPERATIONS	Before beginning a backfiring or burnout operation, ens Lookouts are posted, communications are established verteams, escape routes and safety zones are established a firing operations. Ensure approval and relay to all adjoint Operations Checklist. Wear full PPE.	with both firing and holding and not compromised by the						
ALL	DOZER SA FETY	Watch for rolling material. Monitor safe working distant Dozer. Utilize communication with the operator (radio Watch for signs indicating buried high-pressure gas line	or hand signals)						
ALL	DRIVING	Drive defensively! Narrow winding roads are hazardou Slow Down. Drive with headlights on and seatbelts on. high-speed opposing traffic crossing into your lane. Use operating near traffic.	Be alert for heavy trucks and						
ALL	AIRCRAFT OPERATIONS	Monitor air-to-ground frequency, they are your eyes in the Use air-to-ground frequency to communicate with aircrefuse clear, concise statements when directing aircraft.							
ALL	MINE SHAFTS	Be alert for abandoned mine shafts in fire area. They m If found, flag area, notify all line personnel, DIVS, OPSO out of area. Do not enter.							
ALL	LINE CONSTRUCTION	Conduct thorough briefing for all personnel. Ensure LC engagement. Establish adequate safety zones. Use Do Utilize Risk Management Process (IRPG).							
ALL	COVID 19	Maintain 6' distance whenever possible. Utilize masks, frequent hand washing/sanitizing, disinfect common surfaces, follow Shasta County Public Health Guidelines. Monitor for symptoms, follow reporting procedure.

TRAINING MESSAGE

The Training Specialist is now on the incident.

ALL ASSIGNED TRAINEES

working on position task books will need to register with the Incident Training Specialist in order to receive proper credit for your assignment.

The Training Specialist is available immediately following the morning Operations Briefing.

TRAINING SPECIALIST

Claudia Soiza Cell-(949)632-7813

ZOGG INCIDENT

Incident Trainee/Trainer Data Form CA-SHU-009978

Training Specialist: Claudia Soiza

949.632.7813

- > All Incident trainees, including those on Firefighting Modules at your earliest opportunity complete this form and see the Training Specialist.
- Prior to or as you process through DEMOB, remember to close your training package. To close your training package, bring: 1) A performance rating from your trainer. (ICS 225)
 - 2) Your task book that has as many entries as possible by your Trainer.

ZOGG FIRE PUBLIC INFORMATION

Incident Information Line: 211 or 1-855-211-7822

Email pictures to: zoggfire2020@gmail.com

MEDIA: California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection. The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property. If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO. Do not speculate or give opinions There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691): Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask.

Do not post:

 Inappropriate information, pictures or videos. Opinions regarding the incident, policy or endorsements of any kind.

PICTURES AND VIDEO OF INCIDENT: We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately, we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND: The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

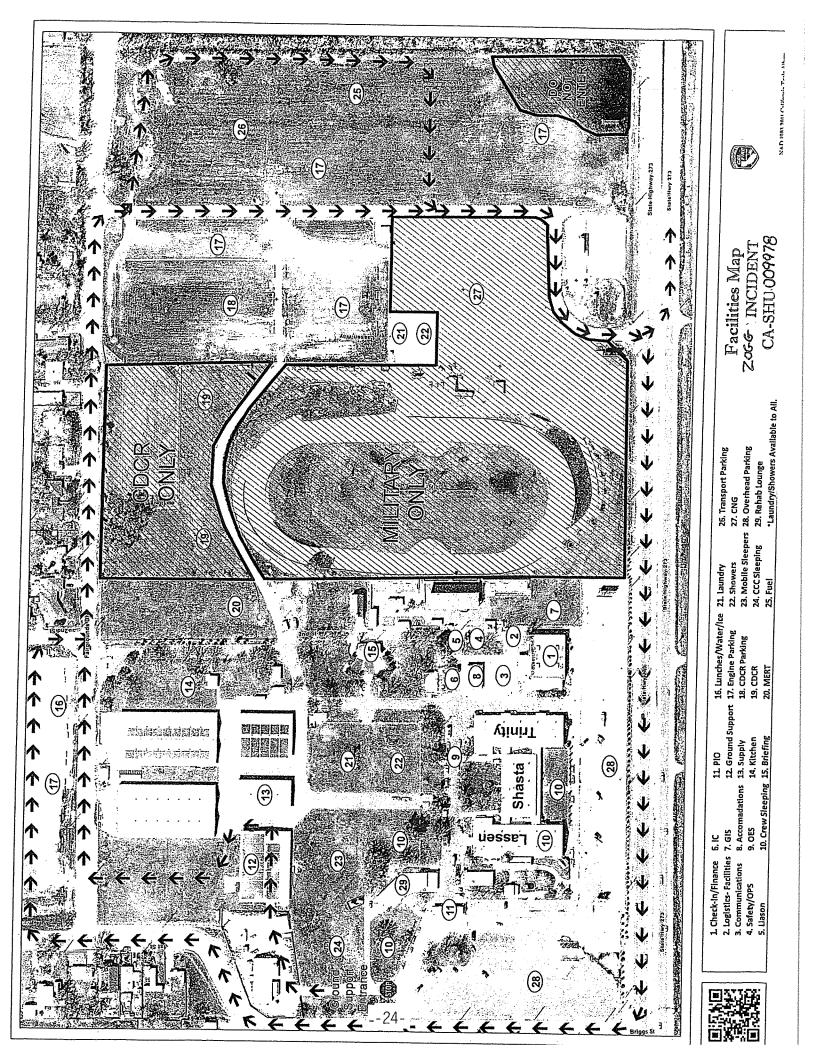

MAIL SERVICE: The Information staff will assis packages. Shasta District Fair and Event Cen 96007	t you in mailing ter 1890 Brigg s	and receiving letters and s St, Anderson CA.
