DIXIE EAST ZONE IAP

CA-BTU-009205

PNN5ZB (1522)

10/18/2021

0700 - 1900

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: EAST ZONE	
DIXIE FIRE		Date/Time From: 10/18/2021 0700 MON	Date/Time To: 10/18/2021 1900 MON
3. Objective(s):			
<p>Management Objectives</p> <ol style="list-style-type: none"> 1. Ensure firefighter and public safety by using strategies and tactics that mitigate known and anticipated hazards while providing for highest probability of success. 2. Elevate awareness of current COVID-19 precautions and best Infectious Disease Control measures to ensure the safety of the fire personnel and the public. 3. Provide timely and accurate information to the public, stakeholders, cooperators and the adjacent incident management teams (East and West zones) about fire status, suppression repair efforts, and any potential fire-related safety and health concerns. 4. Protect and or minimize the effects of the suppression repair operations to the cultural, heritage and natural resources in the fire area. 5. Effectively manage cost by implementing strategies and tactics that have a high probability of success. 6. Provide safe and efficient initial attack within the established fire perimeter for the East zone current fire footprint. <p>Control Objectives:</p> <p style="padding-left: 20px;">Keep the fire within the current containment lines.</p>			
4. Operational Period Command Emphasis:			
To ensure operational success, make sure you understand the suppression repair objectives written within the Suppression Repair Plan and follow the repair guidance. Collaborate and coordinate with READs and Tribal Representatives to complete suppression repair efforts.			
General Situational Awareness:			
Be prepared to change operational tempo and work areas when feasible. Increase awareness on driving, road/weather conditions. Ensure infectious disease control precautions are met.			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located			
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):			
<input checked="" type="checkbox"/> ICS 202 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> ICS 220 <input type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	Other Attachments: <input checked="" type="checkbox"/> HUMAN RESOURCES <input checked="" type="checkbox"/> TRAINING / FINANCE <input checked="" type="checkbox"/> TENTATIVE DEMOB LIST <input checked="" type="checkbox"/> RESOURCE ADVISOR MESSAGE

Dixie Fire East Zone Fire Weather Forecast

Forecast No: 88
Prediction For: Monday
Prediction Date: October 18, 2021
Forecast Issued: Friday 10/17/2021 at 1800 PDT

Incident: Dixie Fire East Zone
Unit: Plumas National Forest
Incident Meteorologist: 
 Sean Luchs

WEATHER DISCUSSION: The storm that began Sunday winds down early this morning, with lingering precipitation coming to an end, and clouds scattering out shortly thereafter. Expect winds to be at their strongest in the morning, quickly shifting from westerly through northerly towards more easterly winds by Tuesday morning. Cooler, but fair weather will prevail today and tomorrow, a short break before a string of frequent disturbances are forecast to roll through the area.

TODAY: Precipitation gradually comes to an end after 0500. Becoming sunnier and colder. Winds veer through the day, passing through northwesterly, northerly, northeasterly, and becoming easterly overnight.

High Temperatures: Valley/Drainages: 51-56° Mid-Slope (4500-5500 ft): 43-53° Ridges (> 5500 ft): 38-43°
Minimum Relative Humidity: Valley/Drainages: 51-58% Mid-Slope (4500-5500 ft): 50-60% Ridges (> 5500 ft): 50-60%
General Winds: Valleys and Lower Slopes: WSW winds around 10 mph, veering through north towards easterly by evening 5-10 mph.
 Upper Slopes and Ridges: West winds early quickly veering through north towards northeasterly or easterly by evening. Morning wind speeds 10-20 mph, diminishing to 5-10 mph mid-afternoon.

Stability: After precip ends, mixing heights rise to 3000-4000 ft AGL.
Chance of Precipitation: 75 early, rapidly dropping to 10% LAL: 1 Transport Winds: Light and Variable

TONIGHT: Cold overnight temperatures return as winds become lighter and skies begin to clear. Some patchy fog may develop in drainages and valleys.

Low Temperatures: Valley/Drainages: 23-28° Mid-Slope (4500-5500 ft): 27-32° Ridges (>5500 ft): 25-32°
Humidity Recovery: Valley/Drainages: 75-90% Mid-Slope (4500-5500 ft): 65-75% Ridges (> 5500 ft): 65-75%
Winds: Valleys/Drainages: Winds light and variable
 Slopes and Ridges: Winds becoming SE 5-10 mph, with winds lighter early in the night, increasing towards morning.

Stability: Nighttime inversion setting up after 2000
Chance of Precipitation: 0% LAL: 1 Transport Winds: Light and variable

TUESDAY: Sky becomes partly cloudy to mostly sunny. This will help temperatures rebound 5-10 degrees from Monday.

High Temperatures: Valley/Drainages: 60-65° Mid-Slope (4500-5500 ft): 55-64° Ridges (> 5500 ft): 44-53°
Minimum Relative Humidity: Valley/Drainages: 32-42% Mid-Slope (4500-5500 ft): 30-40% Ridges (> 5500 ft): 28-40%
General Winds: Valleys and Lower Slopes: Light and variable winds early pick up in the mid-morning to southerly, 5-10 mph gusts 15-20.
 Upper Slopes and Ridges: SE winds around 10 mph become more southerly and 10-20 mph

Stability: Nighttime inversion lifting after 0900, mixing heights rise to 3500-4000 ft AGL.
Chance of Precipitation: 15% LAL: 1 Transport Winds: S 5-10 mph

Extended Outlook: The next upper disturbance approaches Tuesday night, setting us up for a messy, breezy Wednesday. A quick succession of further disturbances moves through, keeping the potential for gusty winds and precipitation up through the rest of the week, and into early next week. Some snow mixing with the rain is possible, particularly at higher elevations. These Pacific storms appear modestly warmer than the most recent storm, however, which will limit the potential for snow somewhat.

Please submit weather observations to Sean Luchs (IMET) at 240-499-6654, email to sean.luchs@noaa.gov or use the QR code to the left. Weather observations can be found using the QR code to the right.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 84 (West), 90 (East)

TYPE OF FIRE: Wildfire

FIRE NAME: Dixie

OPERATIONAL PERIOD: Day 0700-1900, 10/18/21

DATE ISSUED: October 17, 2021

TIME ISSUED: 1900

UNIT: CA-BTU-009205, Lassen/Plumas NF, Lassen NP

SIGNED: /s/ Taro Pusina, FBAN

INPUTS

WEATHER SUMMARY

See *IMET Weather Forecast*

- Storm clearing, winds shifting from NW to NE/E by night. Series of frequent disturbances to follow this week.
- Max. Temps: 45-55°
- Min. RH: 50-60%
- Winds: W/SW 10-20 mph early, becoming N then NE/E 5-10 mph by evening

FIRE BEHAVIOR

GENERAL:

Northeast California Energy Release Component is about 63

- **Expect very little fire activity within containment lines.** Some isolated smoldering/creeping may be evident in stumpholes, interior islands, dozer berms and post-burn needlecast.
- **Fuels** are grass, brush and timber - Scott and Burgan fuel models GS2, SH3/4/9, TU1/5 and TL 6/9. *Live and 1000-hour dead fuels are very dry, estimated at 60-75% and less than 10% respectively.*
- **Topography** is widely varied including mountains, hills, drainages, benches, meadows and flats. The elevation range is 4000' to over 8000' in Lassen Park. All aspects are represented and slopes range from 0 to over 80%.

SPECIFIC FIRE BEHAVIOR:

Overall, there is very low fire behavior and potential predicted.

West Zone: Only a few areas of isolated heat with occasional smokes visible, but no threats to containment lines are expected.

East Zone: Very little heat evident. There is limited heat remaining in stumpholes and buried dozerline. Very light (nuisance) smoke may be visible well interior but no threats to containment lines anticipated.

Maximum Fire Behavior (new starts or outside of containment lines). Assumes sustained eye-level winds 15-20 mph.

- Surface Flame Lengths: Grass 3-6', Brush 5-9', Timber 3-6'
- Surface Rates of Spread: Grass 9-27 chs/hr, Brush 13-40 chs/hr, Timber 5-11 chs/hr
- Spotting Distance: 0.1-0.4 miles
- Probability of Ignition: 40-50%

AIR OPERATIONS

- No weather or fire behavior related aviation limitations are anticipated

SAFETY

- Watch for fire and wind weakened hazard trees along control lines.
- Look up, Look down, Look around, and Listen

6. Control Operations/Work Assignments:						
<p><u>TASK</u>: Continue suppression repair in the areas around Antelope Lake, the 28N03 road and the west side of Milford spot. Continue moving hazard trees and decking them in approved sites from the exclusion sensitive area by DP-631, and Last Chance Road 16.</p> <p><u>PURPOSE</u>: Hold fire within established control lines.</p> <p><u>END STATE</u>: Return the area to as natural conditions as possible.</p>						
7. Special Instructions:						
<p>Backhaul all trash and unneeded equipment. Coordinate with Cultural Advisor and Lead READ. Avoid suppression repair activities in areas marked with RED / BLACK flagging.</p> <p>** IA designated resources, assist local unit with new starts as requested. Respond to service calls reported by the public as requested using the IA FREQUENCY CHANNEL.</p> <p>Compensable time spent before and/or after the operational period must be accomplished within the maximum 16-hour duty day. Any shift exceeding 16 hours must be justified, documented, and approved in advanced by Operations and signed by the Incident Commander.</p>

HEALTH AND SAFETY MESSAGE

SAFETY starts with *YOU*

We are ALL accountable for SAFE behaviors

October 18, 2021

INCIDENT: Dixie East

Day Operations 10-18-2021

Major Hazards and Risks:

- **Driving:** *Slow Down!* Watch for ice/snow and animals on roads.
- **Weather:** Be aware of changing weather conditions. Watch out for increasing wind, snow and ice in your work area. Communicate observed changes to conditions in the work environment and adjust tactics as needed.
- **Hazard Trees:** Assess ALL Trees in Work Areas. Assess hazard trees when you take breaks and park vehicles. Check out your IRPG pgs. 22-23.
- **Extended Medical Extraction Times:** Make a solid medical plan with your division in the morning. Make sure all resources understand it.
- **Working in Cold/Wet Weather:** Carry extra clothing to prevent hypothermia following shift. Dry out gear each night for next day. Watch footing on frozen ground. Maintain personal hydration. Monitor wind-chill and establish trigger points for disengagement.

Base all actions on current and expected weather conditions

- Driving conditions will become more hazardous throughout the fire area due to rain and snow.
- Roads at higher elevations may become impassable due to snow and ice.
- Have the road systems in your work areas been scouted prior to sending in equipment and personnel?
- Do you have a plan to accommodate work assignments for rapidly changing conditions on the ground?
- Stay warm!

Thanks from your Safety Team!!

Greg Marfil, Terri Knauth, Cougan Carothers,
Benjamin Covault (T)

Know the medical plan before you need it. Three answers to know.

- ✓ What are you going to do if someone gets hurt?
- ✓ How will you get them out of here?
- ✓ How long will it take to get them to a hospital?

Incident Risk Analysis (ICS 215a)

CA-BTU-009205

BR/DIV	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
All	Hazard Trees	<ul style="list-style-type: none"> Follow "Hazard Tree Safety" guidelines, IRPG pages 22-23. Post lookouts, or use a spotter in mop-up areas with personnel. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during high wind events. Remember that the hazard zone extends a minimum of 2 1/2 tree heights. Post road guards when appropriate.
All	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> Maintain 8-10' spacing when working and walking. Don't work above any personnel. Be on the lookout for rolling rocks, debris, or burning material. Evaluate necessity to send personnel in areas with limited access.
All	Driving & Traffic	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques traveling on all roads and city streets. Use spotters and honk horn when backing. Follow Driving LCES (Lights, Chock blocks, Emergency brake, & Seat belts). Always use headlights and obey posted speed limits. Use chock blocks, turn wheels into hill. Avoid distractions (eating, & cell phones etc.) and use the 3 second rule.
NN/PP, RR, UU & WW/XX	Chipping Operations	<ul style="list-style-type: none"> Ensure all emergency shut-off devices are tested each day prior to use. Ensure workers are trained in the use of all emergency shut-off devices. Ensure workers hands and feet remain outside of hopper deck Wear loose fitting clothing, skid resistant footwear, and keep clothing tucked in. Use signs, or cones to alert traffic of work area, and use flaggers to stop traffic when work area is congested.
All	Severe Weather	<ul style="list-style-type: none"> Review and follow Thunderstorm Safety guidelines in IRPG page 21. Establish "Trigger Points" to withdraw, and ensure all know rally site. Use "Risk Management" process to determine retreat criteria and actions, IRPG Pg.1. Carry rain gear and extra food and water if weather limits retreat to ICP.
All	Heavy Equipment Operations	<ul style="list-style-type: none"> Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 2 1/2 times tree height. Use a spotter when backing. Avoid working below heavy equipment.
All	Extended Medical Extraction Times	<ul style="list-style-type: none"> Identify helispots and communicate Lats/Longs to DIVS. Be familiar with the Medical Plan and communicate 8 line promptly. Evaluate the necessity to send personnel into areas with limited access. Be aware of weather conditions (i.e. smoke inversions, high winds etc.), that could affect the ability of helicopters to reach you. Don't rely on helicopters exclusively.
All	Air Operations	<ul style="list-style-type: none"> Establish and ensure communications are adequate between helibase and incident aircraft. Ensure work/rest policies are being met for flight crew. Involve AOB/D with operational planning, strategy & tactics. Avoid risk/exposure transference. Follow policy on visibility, wind speed and update load calculations accordingly. Establish trigger points to stop operations. Utilize appropriate aircraft for the mission. Ensure performance planning is completed for environmental conditions. Conduct air operations in compliance with NSHO. Ensure only mission critical personnel are on flights.
All	Bears	<ul style="list-style-type: none"> Communicate sightings and locations. Dispose of food waste appropriately. Keep rations secure and don't leave anything out. Avoid contact if possible, STAY AWAY! If confronted back away. Don't run.

5-DAY DEMOB PLANNER

If you are on this list or not on this list in error, or a date is wrong, please stop by Check-In or Demob to correct the date, submit a crew swap form or file an extension. If you travelled by air, see Demob at least 3 days before you demob to get a flight ticketed through Expanded Dispatch.

If you are a federal agency employee or federal contractor you must receive a COVID test during the demob process.

Demob phone number is 213-598-3342

FINANCE MESSAGE

The Finance message board has been updated to show those resources we have questions for. Please help us help you by coming in and taking care of these questions so we can continue posting your times. Keep those CTR's and Shift Tickets coming in at least every other day in the boxes in front of the Finance windows or emailed to the address below.

Help prepare for your demob by checking in with Finance a day or two ahead of time to ensure your documents are complete and current. When you come to Finance during your demob process please bring your CTR and/or Shift Ticket book in case there are any missing days. Be sure to get your final Shift Ticket and/or CTR including anticipated travel start time signed by the incident supervisor prior to coming to Finance to close out. Thanks for your help in making the Finance portion of your demob process smooth!

Finance Phone: 213-598-3680
Finance Email 2021.dixie.ca.finance@firenet.gov

Resource Advisor Message

- Thanks for all your continued good work. Repair is making significant progress. Communication and cooperation have been good.
- Amendment to the suppression repair plan: We are preparing an amendment to the plan to clarify direction on potential operational delineation (POD) lines, hazard trees, seeding, and GIS going forward. We anticipate this will be signed soon and will then share it with you.
- When hazard trees are felled, woody material may be removed to reduce fuel hazard. Options include chipping, piling for later burning, and decking.
- Remember that a line cleared for repair by archaeologists or other resource advisors may still have avoidance areas for archaeology, heritage, or rare species reasons.
- Avoidance areas will be clearly flagged with red/black flagging by the resource advisors.
- Resource advisors do not control or order equipment. We make requests or recommendations through the division supervisors and the chain of command.
- As always, work with the resource advisors if you have questions or concerns. Thanks for your cooperation and teamwork!

Tom DeMeo
Lead Resource Advisor
503 267 3943 cell

HUMAN RESOURCES MESSAGE

October 18, 2021

Trust:

High performing teams build, nurture, and rely on trust. Trust is defined as the firm belief in the reliability, truth, ability, or strength of someone or something. It is the ability to rise above differences, perceptions, and past hurts to place full faith in those around you to guide and do what is right every time. High performing teams are remarkable in putting past instances into context and allowing the new moment to build the trust we need to take each small step. Nothing we do on this assignment is more important than building trust through mutual respect. Today, take a moment to review the things that cause doubt inside of you, perform the reality check if that doubt will serve you today, and then let it go like a balloon floating away from your mind. Next, encourage your crews and those around you to do the same. By building authentic trust in doing the right thing, your situational awareness won't be clouded by the past but rather it will be freed up to size up the present moment.

Take Home Message:

***Evaluate what is really needed, believe by action not by word,
then allow trust to takeover***

The Deputy Incident Commander is here on assignment to help you and your teams manage the operational stress keeping your crews safe, positive, and productive increasing your situational awareness.

The Deputy Incident Commander – Mike Strawhun 805-798-0187 (call/text)

Trivia Question: What song did Dierks Bentley write in honor of our Wildland Firefighting Efforts?

Answers to 10.17.21 Trivia: Duty – Respect - Integrity

Winners: YOU ALL, EACH AND EVERY DAY YOU TAKE HOME THE CHAMPIONSHIP

COVID SERVICES AVAILABLE

COVID TESTING

If you aren't feeling well go get a test!

- Most common symptoms: nagging cough, headache, runny nose, muscle aches
- Testing available every day at the Frontline Trailer at the rear of ICP.
- Required for demobilizing federal resources and contractors, and for incoming resources if stated on resource order
- Available to all resources on the Dixie East Incident

COVID MITIGATIONS

The federal government and Plumas County require masking up!

- Mask up and maintain social distance
- Keep a supply of masks, handsanitizer, sanitizing wipes, and gloves on hand
- Visit Supply to restock or come visit the Covid Advisors on trailer row
- Sanitize and wash hands frequently

COVID VACCINATIONS

Get vaccinated or get your booster right here at ICP!

- Plumas County Public Health provides a vaccination clinic every Thursday evening from 1800 – 2000
- No appointment needed just visit the vaccination yurt located at the front of camp adjacent to the briefing area

Covid -19

THE LOCAL SITUATION

What's New

Beginning on Monday 10/18, all newly issued resource orders will contain language requiring Covid testing upon arrival and at demobilization. This may cause some hiccups, but once implemented it will better protect resources assigned to the incident.

In Camp

Past 10 days: Two individuals tested positive for Covid 19. Both were asymptomatic and discovered during demobilization testing.

Don't become complacent. Covid is a risk in camp. Mitigations like masking and social distancing reduce the risk.

In Town: Quincy and the southern region of Plumas County

Positive cases are trending up sharply in southern Plumas County. In a three day period last week, from 10/12 to 10/14, 46 new cases were identified. As of 10/14 there were a total of 116 active cases cases

Plumas County provides updated numbers on Mondays and Thursdays. The next update is expected to reveal a continued rise in cases.

State-wide and Nationally

Generally, with a few exceptions, California and National Covid infection rates are trending downward.

8. MEDICAL EMERGENCY PROCEDURES

LINE "MEDICAL-EMERGENCY" PLAN:

- Crew Supervisor to contact Division Supervisor/Operations with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. **Priority 1/Red Tag** or **Priority 2/Yellow Tag** trigger Incident within Incident (IWI).
- Division Supervisor/Operations contacts East Zone Communications: If Red Priority Request Emergency Traffic/Clear Channel
 - Division Supervisor or POC* will run "Medical -Emergency" on the Command frequency.
 - Division Supervisor or POC* to use "Medical Incident Report" on back/next page of 206

POC* (Point of Contact) and/or Operations

EMERGENCY DURING OPS. BRIEF 0700-0730:

- If you have an emergency while briefing is going on over the command channel. Wait for a break and transmit your emergency traffic.

LINE "NON-EMERGENCY INCIDENT" PLAN:

- Crew Supervisor to contact Division Supervisor with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. **Priority 3/Green Tag** Patients **only** trigger an Incident within Incident (IWI) if they are being transported to a medical facility.
- Division Supervisor contacts East Zone Communications:
 - Division Supervisor or POC* will run "Non-Emergency Incident" on the Command frequency.
 - Division Supervisor or POC* will use "Medical Incident Report" on back/next page of 206

Medical Incident Report

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE **"MEDICAL EMERGENCY"** TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)
 Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.
 Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.
 Requesting air ambulance to Forest Road 1 at (Lat./Long.)
 "This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2 ^o – 3 ^o burns more than 4 palm sizes, heat stroke, disoriented. <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2 ^o – 3 ^o burns not more than 1-3 palm sizes. <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.
Nature of Injury or Illness & Mechanism of Injury	Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request	Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location	Descriptive Location & Lat. / Long. (WGS84)
Incident Name	Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander	Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Crew Patient Care	Name of Care Provider (Ex: EMT Smith)

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Agency Affiliation: (NO PATIENT NAMES)	Federal	Contractor	Local Government
--	---------	------------	------------------

Patient Assessment: Age: Weight: Chief Complaint:

(If pertinent to Injury) Skin Signs: (color/moisture/temp) Level of Consciousness: BP: HR: Respirations:

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards) Patient's ETA to Location:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method?
 Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert - Keep Calm - Think Clearly - Act Decisively

*** Follow up with MEDL upon return to ICP ***
